

RCW 90.56.220 Facility operation standards. (1) The department by rule shall adopt standards for onshore and offshore facilities regarding the equipment and operation of the facilities with respect to the transfer, storage, and handling of oil to ensure that the best achievable protection of the public health and the environment is employed at all times. The department shall implement a program to provide for the inspection of all onshore and offshore facilities on a regular schedule to ensure that each facility is in compliance with the standards.

(2) The department shall adopt rules for certification of supervisory and other key personnel in charge of the transfer, storage, and handling of oil at onshore and offshore facilities. The rules shall include, but are not limited to:

- (a) Minimum training requirements for all facility workers involved in the transfer, storage, and handling of oil at a facility;
- (b) Provisions for periodic renewal of certificates for supervisory and other key personnel involved in the transfer, storage, and handling of oil at the facility; and
- (c) Continuing education requirements.

(3) The rules adopted by the department shall not conflict with or modify standards imposed pursuant to federal or state laws regulating worker safety. [1991 c 200 § 203.]
