**RCW 18.71.002 Purpose.** It is the purpose of the commission to regulate the competency and quality of professional health care providers under its jurisdiction by establishing, monitoring, and enforcing qualifications for licensing, consistent standards of practice, continuing competency mechanisms, and discipline. Rules, policies, and procedures developed by the commission must promote the delivery of quality health care to the residents of the state of Washington. [2019 c 55 § 2; 1994 sp.s. c 9 § 301.]

**Severability—Headings and captions not law—Effective date—1994 sp.s. c 9:** See RCW 18.79.900 through 18.79.902.

**RCW 18.71.003 Declaration of purpose.** This chapter is passed:

(1) In the exercise of the police power of the state to protect public health, to promote the welfare of the state, and to provide an adequate public agency to act as a disciplinary body for the members of the medical profession licensed to practice medicine and surgery in this state;

(2) Because the health and well-being of the people of this state are of paramount importance;

(3) Because the conduct of members of the medical profession licensed to practice medicine and surgery in this state plays a vital role in preserving the health and well-being of the people of the state; and

(4) Because the agency which now exists to handle disciplinary proceedings for members of the medical profession licensed to practice medicine and surgery in this state is ineffective and very infrequently employed, and consequently there is no effective means of handling such disciplinary proceedings when they are necessary for the protection of the public health. [1955 c 202 § 1. Formerly RCW 18.72.010.]

[2011 c 336 § 496; 1975 1st ex.s. c 171 § 15.]

**RCW 18.71.015 Commission established—Membership—Qualifications—Duties and powers—Compensation—Order of removal—Vacancies.** The Washington medical commission is established, consisting of thirteen individuals licensed to practice medicine in the state of Washington under this chapter, two individuals who are licensed in the state of Washington as physician assistants under chapter 18.71A RCW, and six individuals who are members of the public. At least two of the public members shall not be from the health care industry. Each congressional district now existing or hereafter created in the state must be represented by at least one physician member of the commission. The terms of office of members of the commission are not affected by changes in congressional district boundaries. Public members of the commission may not be a member of any other health care licensing board or commission, or have a fiduciary obligation to a facility rendering health services regulated by the commission, or have a material or financial interest in the rendering of health services regulated by the commission.

The members of the commission shall be appointed by the governor, and all terms of appointment shall be for four years. The governor shall consider such physician and physician assistant members who are recommended for appointment by the appropriate professional associations in the state. No member may serve more than two consecutive full terms. Each member shall hold office until a successor is appointed.

Each member of the commission must be an actual resident of this state, and, if a physician or physician assistant, must have been licensed to practice medicine in this state for at least five years.

The commission shall meet as soon as practicable after appointment and elect officers each year. Meetings shall be held at least four times a year and at such place as the commission determines and at such other times and places as the commission deems necessary. A majority of the commission members appointed and serving constitutes a quorum for the transaction of commission business.

The affirmative vote of a majority of a quorum of the commission is required to carry any motion or resolution, to adopt any rule, or to pass any measure. The commission may appoint panels consisting of at least three members. A quorum for the transaction of any business by a panel is a minimum of three members. A majority vote of a quorum of the panel is required to transact business delegated to it by the commission.

Each member of the commission shall be compensated in accordance with RCW 43.03.265 and in addition thereto shall be reimbursed for travel expenses incurred in carrying out the duties of the commission in accordance with RCW 43.03.050 and 43.03.060. Any such expenses shall be paid from funds appropriated to the department of health.

Whenever the governor is satisfied that a member of a commission has been guilty of neglect of duty, misconduct, or malfeasance or misfeasance in office, the governor shall file with the secretary of state a statement of the causes for and the order of removal from office, and the secretary shall forthwith send a certified copy of the statement of causes and order of removal to the last known post office address of the member.

Vacancies in the membership of the commission shall be filled for the unexpired term by appointment by the governor.

The members of the commission are immune from suit in an action, civil or criminal, based on its disciplinary proceedings or other official acts performed in good faith as members of the commission.

Whenever the workload of the commission requires, the commission may request that the secretary appoint pro tempore members of the commission. When serving, pro tempore members of the commission have all of the powers, duties, and immunities, and are entitled to all of the emoluments, including travel expenses, of regularly appointed members of the commission. The commission may establish rules governing mandatory continuing education requirements which shall be met by physicians applying for renewal of licenses. The

**Intent—2015 c 252:** See note following RCW 70.112.010.

**Finding—Intent—2009 c 403:** "The legislature finds that increasing the number of retired physicians who provide volunteer health care services is a cost-effective way to improve access to health care for many citizens of this state. Physicians holding a retired active license must currently meet many of the same requirements as physicians in active practice, including at least fifty hours of continuing education a year, despite the fact that retired active physicians may only practice a maximum of ninety days a year, are limited to providing primary care services, and are limited to providing such services only in community clinics that are operated by public or private tax-exempt corporations. This presents both financial and practical barriers for retired physicians who wish to provide health care services on a volunteer basis, barriers that are not as stringent in other states that provide similar licenses for retired physicians. It is therefore the intent of the legislature to ease some of these barriers in a manner that does not adversely affect public safety." [2009 c 403 § 1.]

requirement as a condition of licensure or license renewal. The commission may allow a physician to fulfill license renewal requirements through satisfactory participation in a recognized maintenance of certification program.

(2) This section does not apply to board certification requirements or maintenance of certification requirements included in any of the following:

- (a) A stipulation to informal disposition under RCW 18.130.172;
- (b) An order issued to resolve a statement of charges under RCW 18.130.090;

Such license shall permit the holder thereof to practice medicine only in connection with his or her duties in employment with the city or county health department.

(3) Upon receipt of a completed application showing that the applicant meets all of the requirements for licensure set forth in RCW 18.71.050 except for completion of two years of postgraduate medical training, and that the applicant has been appointed as a resident physician in a program of postgraduate clinical training in this state approved by the commission, the commission may issue a limited license to a resident physician. Such license shall permit the holder only to practice medicine within the confines of the fellowship program to which he or she has been appointed and, upon the request of the applicant and the sponsoring institution, the license may be renewed by the commission.

All persons licensed under this section shall be subject to the jurisdiction of the commission to the same extent as other members of the medical profession, in accordance with this chapter and chapter 18.130 RCW.
