

**RCW 28A.710.220 Student enrollment reporting—Funding—
Distribution and reconciling of funding in school's first year of
operation.** (1) Charter schools must report student enrollment in the
same manner, and based on the same definitions of enrolled students
and annual average full-time equivalent enrollment, as other public
schools. Charter schools must comply with applicable reporting
requirements to receive state or federal funding that is distributed
based on student characteristics.

(2) In accordance with appropriations made under RCW 28A.710.270
and 28A.710.280, the superintendent of public instruction shall
distribute state funding to charter schools according to the schedule
established in RCW 28A.510.250.

(3) Amounts distributed to a charter school under RCW 28A.710.280
in the school's first year of operation must be based on the
projections of first-year student enrollment established in the
charter contract. The office of the superintendent of public
instruction must reconcile the amounts distributed in the first year
of operation to the amounts that would have been distributed based on
actual student enrollment and make adjustments to the charter school's
distributions over the course of the second year of operation.

(4) Any moneys received by a charter school from any source and
remaining in the school's accounts at the end of a budget year must
remain in the school's accounts for use by the school during
subsequent budget years. [2016 c 241 § 122. Prior: 2013 c 2 § 222
