

RCW 49.105.010 Definitions. The definitions in this section apply throughout RCW 49.105.020 through 49.105.040 unless the context clearly requires otherwise.

(1) "Fire-resistant material" means:

(a) Wet or dry mix materials, cementitious materials, and fibrous materials, applied to achieve an hourly fire-resistant rating for buildings classified as construction types I, II, III, IV, and V, as defined by the international building code; and

(b) Sealants, putty, and caulking used for firestop systems, applied to risk category III and IV buildings, as defined by the international building code.

(2) "Certified fire-resistant material applicator" means an individual certified by the department to apply fire-resistant material. Certified fire-resistant material applicator does not include an individual applying fire-resistant material in or to the individual's own residence.

(3) "Contractor" means an employer performing work that includes the application of fire-resistant material, or any person, partnership, or business entity that does not have employees but that performs work that includes the application of fire-resistant material.

(4) "Department" means the department of labor and industries.
