[2018 c 258 § 1. Prior: 2012 c 166 § 2; 2011 c 216 § 17; prior: 2010 c 126 § 6; 2004 c 199 § 201; 2003 c 334 § 301; 1927 c 255 § 1; RRS § 7797-1; prior: 1911 c 36 § 1; 1907 c 256 § 1; 1897 c 89 §§ 4, 5; 1895 c 178 §§ 1, 2. Formerly RCW 79.01.004, 79.04.010.]

Effective date—2018 c 258: "This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately [March 23, 2018]." [2018 c 258 § 5.]

Findings—Intent—2012 c 166: "(1) The legislature finds:

(a) Compliance with the federal endangered species act on state forestlands within small, timber-dependent counties in southwest Washington is disproportionately burdensome when compared to the total budget in these counties;

(b) When compared to other forested parts of the state, there is a relatively small federal land base in these counties, which has resulted in substantial responsibility for endangered species act-related habitat conservation being borne by state forestlands;

(c) Within these counties, there is limited availability of private working forestland available for use as a replacement for encumbered state forestlands;

(d) Currently, county beneficiaries may not receive revenue derived from state forestlands located in any counties other than their own;

(e) Through the passing of chapter 354, Laws of 2009, the legislature established the need to relieve the impact of long-term endangered species-related encumbrances on state forestlands in small, timber-dependent counties in Washington;

(f) As a result of the implementation of chapter 354, Laws of 2009, replacement lands are to be purchased to maintain the land base and productivity of state forestlands in these counties;

(g) There is a need for timely reinvestment in the land base of state forestlands by replacing those transferred encumbered lands with new, productive, unencumbered forestland;

(h) The maintenance of a productive state forestland base in these counties is vital to maintaining a stable, viable natural resource economy that supports rural communities and creates local natural resource-based jobs; and

(i) These counties have articulated the need to reestablish sustainable long-term revenue from state forestlands through the acquisition of productive timberland beyond what will be funded by the land value of transferred encumbered lands under chapter 354, Laws of 2009.

(2) It is the intent of the legislature to authorize the board of natural resources to establish a state forestland pool for small, timber-dependent southwest Washington counties. This action allows the board of natural resources, if deemed appropriate after a required analysis, to use revenue designated for replacement of encumbered state forestland in one county to be pooled with other counties' land replacement funds to purchase forestland within any of the participating counties. This forestland would be managed as state forestland for the benefit of all counties participating in the pool, proportionate to their contribution of asset value to the land pool, according to a set of policy, administrative, and financial structures developed by the department of natural resources and adopted by the board of natural resources.

(3) It is the further intent of the legislature that the replacement forestlands purchased to be part of the land pool are to be maintained as working forestlands. For purposes of the land pool, the department of natural resources should seek out land threatened by encroaching development and land not likely to become further encumbered in an effort to preserve working forestland to the maximum extent possible." [2012 c 166 § 1.]

Part headings not law—2004 c 199: "Part headings used in this act are not any part of the law." [2004 c 199 § 302.]

Intent—2003 c 334: "This act is intended to make technical amendments to certain codified statutes that deal with the department of natural resources. Any statutory changes made by this act should be interpreted as technical in nature and not be interpreted to have any substantive, policy implications." [2003 c 334 § 616.]

RCW 79.02.020 Witnesses—Compelling attendance. (1) The board or the commissioner has the power to compel through subpoena the attendance of witnesses and production of records for:

(b) Determining the value and character of land, valuable materials, or improvements; and

(c) Determining waste or damage to the land.

(2) A subpoena may be served by any person authorized by law to serve process.

(3) Each witness subpoenaed is allowed the same fees and mileage as paid witnesses in courts of records in this state. The department shall pay these fees and mileage from its general fund appropriation.

(4) Any witness failing to comply with a subpoena, without legal excuse, is considered in contempt.

(a) The board or commissioner shall certify the facts to the court of the county in which the witness resides for contempt of court proceedings as provided in chapter 7.21 RCW.

(b) The certificate of the board or commissioner must be considered by the court as prima facie evidence of the guilt of the witness.

(c) Upon legal proof of the facts, the witness is subject to the same penalties as provided in like cases for contempt of court. [2003 c 334 § 302.]

Intent—2003 c 334: See note following RCW 79.02.010.

RCW 79.02.030 Court review of actions. Any applicant to purchase, or lease, any public lands of the state, or any valuable materials thereon, and any person whose property rights or interests will be affected by such sale or lease, feeling aggrieved by any order or decision of the board, or the commissioner, concerning the same, may appeal therefrom to the superior court of the county in which such lands or materials are situated, by serving upon all parties who have appeared in the proceedings in which the order or decision was made, or their attorneys, a written notice of appeal, and filing such notice, with proof, or admission, of service, with the board, or the commissioner, within thirty days from the date of the order or decision appealed from, and at the time of filing the notice, or within five days thereafter, filing a bond to the state, in the penal sum of two hundred dollars, with sufficient sureties, to be approved by the secretary of the board, or the commissioner, conditioned that the appellant shall pay all costs that may be awarded against the appellant on appeal, or the dismissal thereof. Within thirty days after the filing of notice of appeal, the secretary of the board, or the commissioner, shall certify, under official seal, a transcript of all entries in the records of the board, or the commissioner, together with all processes, pleadings and other papers relating to and on file in the case, except evidence used in such proceedings, and file such transcript and papers, at the expense of the applicant, with the clerk of the court to which the appeal is taken. The hearing and trial of said appeal in the superior court shall be de novo before the court, without a jury, upon the pleadings and papers so certified, but the court may order the pleadings to be amended, or new and further pleadings to be filed. Costs on appeal shall be awarded to the prevailing party as in actions commenced in the superior court, but no costs shall be awarded against the state, the board, or the commissioner. Should judgment be rendered against the appellant, the costs shall be taxed against the appellant and the appellant's sureties on the appeal bond, except when the state is the only adverse party, and shall be included in the judgment, upon which execution may issue as in other cases. Any party feeling aggrieved by the judgment of the superior court may seek appellate review as in other civil cases. Unless appellate review of the judgment of the superior court is sought, the clerk of said court shall, on demand, certify, under the clerk's hand and the seal of the court, a true copy of the judgment, to the board, or the commissioner, which judgment shall thereupon have the same force and effect as if rendered by the board,

or the commissioner. In all cases of appeals from orders or decisions of the commissioner involving the prior right to purchase tidelands of the first class, if the appeal is not prosecuted, heard and determined, within two years from the date of the appeal, the attorney general shall, after thirty days' notice to the appellant of the attorney general's intention so to do, move the court for a dismissal of the appeal, but nothing herein shall be construed to prevent the dismissal of such appeal at any time in the manner provided by law. In the event of fraud, the contract, transferred property, or lease must be surrendered to the department, but the purchaser, transfer recipient, or lessee may not be refunded any money paid on account of the surrendered contract, transfer, or lease.

(2) In the event that a mistake is discovered in the sale or lease, or in the sale of valuable materials, the department may take action to correct the mistake in accordance with RCW 79.02.040 if maintaining the corrected contract, transfer, or lease is in the best interests of the affected trust or trusts. OTHER TRUST/GRANT/FOREST RESERVE LANDS

RCW 79.02.400 Charitable, educational, penal, and reformatory real property—Inventory—Transfer. (1) Every five years the department of social and health services and other state agencies that operate institutions shall conduct an inventory of all real property subject to the charitable, educational, penal, and reformatory institution account and other real property acquired for institutional purposes or for the benefit of the blind, deaf, mentally ill, developmentally disabled, or otherwise disabled. The inventory shall identify which of those real properties are not needed for state-provided residential care, custody, or treatment. By December 1, 1992, and every five years thereafter the department shall report the results of the inventory to the house of representatives committee on capital facilities and financing, the senate committee on ways and means, and the joint legislative audit and review committee.

(2) Real property identified as not needed for state-provided residential care, custody, or treatment shall be transferred to the corpus of the charitable, educational, penal, and reformatory institution account. This subsection shall not apply to leases of real property to a consortium of three or more counties in order for the counties to construct or otherwise acquire correctional facilities for juveniles or adults or to real property subject to binding conditions that conflict with the other provisions of this subsection.

(3) The department of natural resources shall manage all property subject to the charitable, educational, penal, and reformatory institution account and, in consultation with the department of social and health services and other affected agencies, shall adopt a plan for the management of real property subject to the account and other real property acquired for institutional purposes or for the benefit of the blind, deaf, mentally ill, developmentally disabled, or otherwise disabled.

(a) The plan shall be consistent with state trust land policies and shall be compatible with the needs of institutions adjacent to real property subject to the plan.

(b) The plan may be modified as necessary to ensure the quality of future management and to address the acquisition of additional real property. [1996 c 288 § 51; 1996 c 261 § 1; 1991 c 204 § 1. Formerly RCW 79.01.006.]

RCW 79.02.410 Charitable, educational, penal, and reformatory real property—High economic return potential—Income. Where charitable, educational, penal, and reformatory institutions land has the potential for lease for commercial, industrial, or residential uses or other uses with the potential for high economic return and is within urban or suburban areas, the department shall make every effort consistent with trust land management principles and all other provisions of law to lease the lands for such purposes, unless the land is subject to a lease to a state agency operating an existing state institution. The department is authorized, subject to approval by the board and only if a higher return can be realized, to exchange such lands for lands of at least equal value and to sell such lands and use the proceeds to acquire replacement lands. The department shall report to the appropriate legislative committees all charitable, educational, penal, and reformatory institutions land purchased, sold, or exchanged. Income from the leases shall be deposited in the charitable, educational, penal, and reformatory institutions account. The legislature shall give priority consideration to appropriating one-half of the money derived from lease income to providing community housing for persons who are mentally ill, developmentally disabled, or youth who are blind, deaf, or otherwise disabled. [2003 c 334 § 303; 1991 c 204 § 5. Formerly RCW 79.01.007.]

Intent—2003 c 334: See note following RCW 79.02.010.

RCW 79.02.420 Finding—Intent—Community and technical college forest reserve land base—Management—Disposition of revenue. (1) The legislature finds that the state's community and technical colleges need a dedicated source of revenue to augment other sources of capital improvement funding. The intent of this section is to ensure that the forestland purchased under section 310, chapter 16, Laws of 1990 1st ex. sess. and known as the community and technical college forest reserve land base, is managed in perpetuity and in the same manner as state forestlands for sustainable commercial forestry and multiple use of lands consistent with RCW 79.10.120. These lands will also be managed to provide an outdoor education and experience area for organized groups. The lands will provide a source of revenue for the long-term capital improvement needs of the state community and technical college system.

(2) There has been increasing pressure to convert forestlands within areas of the state subject to population growth. Loss of forestland in urbanizing areas reduces the production of forest products and the available supply of open space, watershed protection, habitat, and recreational opportunities. The land known as the community and technical college forest reserve land base is forever reserved from sale. However, the timber and other products on the land may be sold, or the land may be leased in the same manner and for the same purposes as authorized for state granted lands if the department finds the sale or lease to be in the best interest of this forest reserve land base and approves the terms and conditions of the sale or lease.

(3) The land exchange and acquisition powers provided in RCW 79.17.020 may be used by the department to reposition land within the community and technical college forest reserve land base consistent with subsection (1) of this section.

(4) By June 30, 2019, the department must exchange land within the community and technical college forest reserve for land of equal value held for the benefit of charitable, educational, penal, and reformatory institutions that is currently leased to certain community and technical colleges under section 1, chapter 168, Laws of 1985 and section 1, chapter 198, Laws of 2004. The department must transfer the community and technical college forest reserve land that the department acquires in the exchange out of the community and technical college forest reserve, and the department must transfer ownership of that land to the state board for community and technical colleges to be managed for educational purposes.

(5) Up to twenty-five percent of the revenue from these lands, as determined by the board, will be deposited in the forest development account to reimburse the forest development account for expenditures from the account for management of these lands.

(6) The community college forest reserve account, created under section 310, chapter 16, Laws of 1990 1st ex. sess., is renamed the community and technical college forest reserve account. The remainder of the revenue from these lands must be deposited in the community and technical college forest reserve account. Money in the account may be appropriated by the legislature for the capital improvement needs of the state community and technical college system or to acquire additional forest reserve lands.
