

**RCW 80.52.060 Form of ballot propositions.** The proposition for each major public energy project listed upon a ballot pursuant to this chapter shall be in the form provided in this section.

(1) If the funds are intended to finance the planning or construction of all or a portion of the project, the proposition shall read substantially as follows:

"Shall           (name of applicant)           be authorized to spend           (dollar amount of financing authority requested)           to construct the           (name of the project)                     (type of project)           located at           (location)          , the anticipated total construction cost of which is           (anticipated cost of construction)          ?"

(2) If the financing authority is intended to finance the acquisition of all or a portion of the project from another party, the proposition shall read substantially as follows:

"Shall           (name of applicant)           be authorized to spend           (dollar amount of financing authority requested)           to acquire the           (name of project)                     (type of project)           located at           (location)          , the anticipated total acquisition cost of which is           (anticipated cost of acquisition)          ?"

[1981 2nd ex.s. c 6 § 6 (Initiative Measure No. 394, approved November 3, 1981).]
