

RCW 90.94.060 Watershed restoration and enhancement account.

(1) The watershed restoration and enhancement account is created in the custody of the state treasurer. All receipts from fees paid pursuant to RCW 90.94.020 and 90.94.030 must be deposited into the account. The account may also receive those moneys as may be appropriated by the legislature for the purpose of funding restoration and enhancement projects as identified in RCW 90.94.020 and 90.94.030. Expenditures from the account may be used only for the costs of administering chapter 1, Laws of 2018, including implementing watershed planning projects under RCW 90.94.020 and watershed restoration and enhancement projects under RCW 90.94.030, and collecting data and completing studies necessary to develop, implement, and evaluate watershed restoration and enhancement projects under chapter 1, Laws of 2018. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.

(2) Fee revenues collected under RCW 90.94.020 and 90.94.030 must be used exclusively within the water resource inventory area in which the fee originated. The restriction in this subsection does not apply to moneys in the watershed restoration and enhancement account that do not originate from fees collected under RCW 90.94.020 and 90.94.030. [2018 c 1 § 206.]

Intent—2018 c 1: See note following RCW 90.94.010.
