(1) The director is authorized to enter into grazing leases when the director determines that a grazing lease will benefit wildlife management programs and will be in the public interest. Except for temporary permits, each grazing lease shall first be submitted to the commission, which may review the lease to determine whether it will benefit wildlife or improve public hunting, fishing or recreation without adverse impact on wildlife. If, within 30 days, the commission has not disapproved the lease, the director shall be deemed authorized to enter into that lease.

(2) The director shall advertise and sell a license to use department lands for grazing at public auction to the highest bidder. (3) The term of each grazing lease shall be no greater than five years. (5) The director may approve a grazing lease where a grazing management plan which includes objectives and site characteristics, pasture rotation schedule, on-off dates, number of AUM's, and a monitoring plan has been developed by the agency. The director shall inspect the site of a grazing lease no less than two times each

year. The director shall retain the right to alter provisions of the plan to reduce acreage available or the number of animals using the area when such change is, in the judgment of the director, required to benefit fish or wildlife management, public hunting and fishing, or other recreational uses. The director may not enter into any grazing lease not accompanied by a grazing management plan unless the commission has approved it.

(6) The director may cancel a lease (1) for noncompliance with the terms and conditions of the lease, or (2) if the area described in the lease is included in a land use plan determined by the agency to be a higher and better use, or (3) if the property is sold or conveyed, or (4) if damage to wildlife or wildlife habitat occurs.

(7) All lands covered by any agreement shall at all times be open to public hunting, fishing and other wildlife recreational uses unless such lands have been closed by action of the commission or emergency order of the director.

COOPERATIVE WILDLIFE PROJECTS

WAC

232-32-040 Review and selection process.

WAC 232-32-040 Review and selection process.
The following steps are included in the process of reviewing and selecting cooperative wildlife projects:

(1) Applications will be made available to anyone interested in conducting a cooperative project. Application forms will be available at any time at the Olympia headquarters and all regional offices of the department of wildlife.

(2) Applications for projects may be submitted at any time.

(3) The department will send each applicant, within 45 days of receipt of each application, a written acknowledgement of the receipt of the application and give the applicant a date when notification of acceptance or rejection of the proposal can be expected. The written acknowledgement will also provide the department's selection criteria and a general description of the review and selection process. Final decisions and notification of acceptance or rejection of proposals where funding is requested will be made only after the biennial budget is passed by the legislature and signed by the governor.

(4) The department will determine when a proposed project might affect the management programs of federal, other state, and local agencies and of treaty Indian tribes and will make contact with these entities, when the department determines it is appropriate to do so, during the review and selection process. If the department determines that ongoing coordination between a volunteer group and another agency or tribe would be appropriate, it may be required as a condition of the permit, when issued.

(5) Each approved agreement will include the following, when determined by the department to be necessary or appropriate: (a) Permit for release of fish or wildlife; (b) procedures for applying for a hydraulic project approval (HPA), and (c) description of methods that will be used to provide the volunteer group with fish, bird, or animal food or other available supplies.
