WAC 446-65-020 Physical qualifications for drivers.

This section provides a process whereby drivers of commercial motor vehicles, which operate solely intrastate and require a commercial driver's license, may receive a clearance to obtain a medical certificate for certain physical conditions.

(1) A person shall not drive a commercial motor vehicle unless they are physically qualified to do so and, except as provided in CFR 49, Part 391.67, and WAC 446-65-010(1), has on their person the original, or a photographic copy, of a medical examiner's certificate that they are physically qualified to drive a motor vehicle.

(2) A person is physically qualified to drive a motor vehicle if that person:

(a) Has no loss of a foot, a leg, a hand, or an arm, or has obtained from the department of licensing the proper driver's license, endorsement, and restrictions (if any) for the operation of the class of motor vehicle the person is driving;

(b) Has no impairment of:

(i) A hand or finger which interferes with prehension of power grasping; or

(ii) An arm, foot, or leg which interferes with the ability to perform normal tasks associated with operating a motor vehicle; or any other significant limb defect or limitation which interferes with the ability to perform normal tasks associated with operating a motor vehicle; or has obtained from the department of licensing the proper license, endorsement, and restrictions (if any) for the class of motor vehicle the person is driving;

(c) Has no established medical history of clinical diagnosis of diabetes mellitus currently requiring insulin for control, or if diagnosed as having diabetes mellitus requiring insulin for control, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(d) Has no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure, or if diagnosed as having any of these medical complications, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(e) Has no established medical history or clinical diagnosis of a respiratory dysfunction likely to interfere with his/her ability to control and drive a motor vehicle safely, or if diagnosed as having a respiratory dysfunction which could interfere with his/her ability to control and drive a motor vehicle safely, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(f) Has no current clinical diagnosis of high blood pressure likely to interfere with his/her ability to operate a motor vehicle safely, or if diagnosed as having high blood pressure likely to interfere with his/her ability to operate a

motor vehicle safely, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(g) Has no established medical history of clinical diagnosis of rheumatic, arthritic, orthopedic, muscular, neuromuscular, or vascular disease which interferes with his/her ability to control and operate a motor vehicle safely, or if diagnosed as having any of these medical complications which might interfere with his/her ability to control and operate a motor vehicle safely, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(h) Has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a motor vehicle, or if diagnosed as having epilepsy or any other condition likely to cause loss of consciousness or any loss of ability to control a motor vehicle, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(i) Has no mental, nervous, organic, or functional disease or psychiatric disorder likely to interfere with his/her ability to drive a motor vehicle safely, or if diagnosed as having any of these complications likely to interfere with his/her ability to drive a motor vehicle safely, has been cleared by the department of licensing for the operation of the class motor vehicle the person is driving;

(j) Has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of at least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° horizontal Meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing standard red, green, and amber, or if not meeting these standards, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving.

(k) First perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid, or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951, or if not meeting these standards, has been cleared by the department of licensing for the operation of the class of motor vehicle the person is driving;

(l) Does not use any unprescribed amphetamine, narcotic, or habit-forming drug and if using a prescribed amphetamine, narcotic, or habit-forming drug, it must be used according to the directions regarding dosage and the operation of motor vehicles or heavy equipment; and

(m) Has no current clinical diagnosis of untreated alcoholism.

(3) If the medical examiner finds that the person he/she examined is physically qualified to drive a motor vehicle in accordance with subsection (2) of this section and the items listed in Chapter 49, CFR 391.43, he/she shall complete a certificate in the form prescribed in Chapter 49 CFR 391.43 and shall furnish one copy to the person who was examined and one copy to the motor carrier that employs him/her.

(4) If the medical examiner finds any physical condition listed in subsection (2)(a) through (m) of this section that is likely to interfere with the driver's ability to operate or control a motor vehicle safely, it shall be the responsibility of the driver to immediately forward a copy of the driver's medical examination to the Department of Licensing, Responsibility Division, Medical Section, PO Box 9030, Olympia WA 98507-9030. Upon receipt of the medical examination, the department of licensing will review and evaluate the driver's physical qualifications to operate the class of motor vehicle the person intends to drive.

The department of licensing shall send a notice of determination to the driver. A department of licensing clearance notification shall be sufficient cause for the medical examiner to issue a medical examiner's certificate.

A failure by the driver to furnish a copy of the medical examination to the department of licensing as required above shall result in no clearance action being taken by the department of licensing.

WAC 448-13-020 Approval of breath test instruments. Pursuant to RCW 46.61.506, the DataMaster is the only breath test instrument approved by the state toxicologist as a device for the measurement of alcohol in a person's

breath. A simulator filled with a certified simulator solution will be attached to each instrument to provide a known external standard as defined in WAC 448-13-030(13). The simulator used must be on the National Highway Traffic Safety Administration (NHTSA) conforming products list. Any agency, group, or individual seeking approval or certification from the state toxicologist for the use of other breath test instruments for evidential breath testing programs in the state of Washington should contact the state toxicologist at the address given in WAC 448-13-210.

WAC 448-13-030 Definitions. (1) "Accuracy" means the proximity of a measured value to a reference value.

(2) "Alcohol" means the unique chemical compound ethyl alcohol.

(3) "Blank test" means the testing of a DataMaster instrument to ensure that no alcohol from a previous test can interfere with a person's breath test.

(4) "Breath alcohol analysis" means analysis of a sample of a person's expired breath, using a breath testing instrument designed for this purpose, which instrument is approved by the state toxicologist, in order to determine the alcohol concentration in that breath sample.

(5) "Breath test document" means the form which is printed by the DataMaster on the completion of a breath alcohol test.

(6) "Calibration" means the process of standardizing the DataMaster using a certified simulator solution to allow by proportion, the measurement of the alcohol concentration of a person's breath. Calibration will be performed periodically as required and at least once a year during quality assurance.

(7) "Certified" when used in conjunction with breath test personnel means an operator, instructor, solution changer or technician possessing a valid permit.

(8) "Certified simulator solution" means an alcohol/water solution prepared and tested by an approved protocol, and meeting the criteria specified therein.

(9) "Certified test" means a test conducted in accordance with WAC 448-13-040 and 448-13-050. A test which meets these requirements as determined from the breath test document is a certified test.

(10) "Concentration" means the weight amount of alcohol, expressed in grams, contained in two hundred ten liters of breath or alcohol/water vapor.

(11) "DataMaster" means BAC Verifier DataMaster, instruments including those carrying the designation BAC Verifier DataMaster II, and the BAC DataMaster. These are the only approved breath test instruments in the state of Washington.

(12) "Data base" means information collected primarily for the purposes of statistical analysis of patterns of drinking and driving in the state of Washington.

(13) "Data entry" means the process of providing information through a keyboard to the DataMaster for the purposes of (a) identifying a breath test document to an individual, and (b) statistical analysis.
