Traffic control devices included in a participating project may be installed by the employees and with the equipment and materials of the local governmental units subject to the limits of RCW 35.22.620(3), 35.23.352(1), and 36.77.065(3): Provided, That the basis for payment of board funds is reimbursement of the appropriate portion of actual cost of such work, subject to audit.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-120, filed 11/23/99, effective 12/24/99.]

WAC 479-05-130 Project landscaping. Board funds may be used at the appropriate matching ratio in the cost of landscaping and the use of other plantings and supporting materials within the project right of way to a maximum of three percent of the total authorized project costs: Provided, That requests for increases in the authorized amount of board funds to cover landscaping and related costs shall be considered jointly with other cost increases and approval of all such requests shall be limited to the amount authorized by WAC 479-05-250 to be approved by the director. Erosion control treatment shall not be considered a part of landscaping costs.

The three percent limitation for landscaping and related costs shall not affect the agency's authority to include land-

scaping and the use of other plantings or supporting materials in the project in amounts that exceed the three percent limit provided they are paid for solely with funds other than board supplied funds.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-130, filed 11/23/99, effective 12/24/99.]

WAC 479-05-140 Acquisition of rights of way. Right of way for board funded projects shall be acquired in accordance with chapter 468-100 WAC.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-140, filed 11/23/99, effective 12/24/99.]

WAC 479-05-150 Inclusion of bicycle facilities in transportation improvement board projects. If an eligible agency has a project funded by transportation improvement board funds that includes the construction of bicycle facilities, the agency shall submit its bikeway plan to the board in map form along with the agency's verification that the plan has been reviewed with, and approved by, the agency's legislative body.

The proposed bicycle facility shall be in accordance with definitions, criteria, and design standards shown in Chapter 1020 of the *Washington Department of Transportation Design Manual*.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-150, filed 11/23/99, effective 12/24/99.]

WAC 479-05-160 Reimbursable costs. Project costs eligible for reimbursement from the account shall be those proper and allowable costs incurred on a project after the project is authorized by the board except as provided by the following:

Reimbursement of right of way acquisition costs are eligible within the design phase of the project. In the event the project is not built, those funds expended for right of way shall be refunded to the board.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-160, filed 11/23/99, effective 12/24/99.]

WAC 479-05-170 Reimbursable costs for engineering. Design and construction engineering costs eligible for reimbursement shall be limited to twenty-five percent of the approved contract bid amount including adjustments for change orders and actual quantity amounts during construction and agency force construction. Exceptions to the twenty-five percent engineering limit may be considered by the board. Agency costs for value engineering and other special studies and right of way appraisals and acquisition costs will not be used to determine the amount subject to the limit.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-170, filed 11/23/99, effective 12/24/99.]

WAC 479-05-180 Direct costs. Direct costs eligible for board participation are those costs which are directly attributable to a specific project and shall include:

(1) Direct labor (engineering and/or construction) including related employee benefits:

(a) Salaries and wages (at actual or average rates) covering productive labor hours of city and county employees (excluding the administrative organization of the operating unit involved) for periods of time, actively or incidentally engaged in:

- (i) Predesign engineering;
- (ii) Design engineering;
- (iii) Construction engineering;
- (iv) Acquisition of rights of way; and

(v) Actual construction activities are considered a direct cost of construction projects.

The cost of services rendered by employees generally classified as administrative are considered a direct cost only when such employees are assigned for short periods of time to perform on a full time basis the types of services described above and when similar procedures are followed for non-board projects.

(b) Employee benefits relating to direct labor are considered a direct cost of construction projects. The following items may be included as employee benefits:

- (i) F.I.C.A. (Social Security) - employer's share;
- (ii) Retirement benefits;
- (iii) Hospital, health, dental and other welfare insurance;
- (iv) Life insurance;
- (v) Industrial and medical insurance;
- (vi) Vacation;
- (vii) Holiday;
- (viii) Sick leave;
- (ix) Military leave and jury duty.

Employee benefits shall be calculated as a percentage of direct labor dollars. The computation of predetermined percentage rates to be applied to current labor costs shall be based upon the average of total employee benefits and total labor costs for the prior fiscal year and adjusted by known current year variations.

(2) Contract engineering services.

(3) Right of way acquisition costs including:

(a) Purchase of land and easements acquired for and devoted to the project;

(b) Purchase of improvements;

(c) Adjustment or reestablishment of improvements;

(d) Salaries, expenses or fees of appraisers, negotiators or attorneys;

(e) Removal or demolition of improvement;

(f) Other direct costs in connection with the acquisition.

Amounts received from the sale of excess real property or improvements and from any rentals shall be a reduction of the direct cost.

(4) Contract construction work, and/or capital equipment acquisition approved by the board.

(5) Direct vehicle and equipment charges at the actual rental cost paid for the equipment or, in the case of city or county owned equipment, at the rental rates established by the city's or county's "equipment rental and revolving fund" following the methods prescribed by the division of audit: Provided, That such costs shall be charged on a uniform basis to equipment used for all projects regardless of the source of funding. Cities which may not use this type of fund shall be allowed the same rates as used by the department of transportation.

(6) Direct materials and supplies. The cost of materials used in projects shall be based upon methods prescribed for the "equipment rental and revolving fund" by the division of audit.

(a) An overhead rate or "loading factor" shall not be considered an appropriate additive to the actual cost of materials and supplies used on construction projects unless the factor is readily and properly supportable by the governmental unit's accounting records.

(b) The cost, or reasonable estimate thereof, of materials paid for as contract estimate items, but not used, shall be considered a reduction of direct costs.

(7) Interdepartmental charges for work performed by county or city departments, other than the road or street department, for the benefit of specific construction projects shall be limited to direct costs plus an allocation of indirect costs based upon ten percent of direct labor dollars, excluding employee benefits. Such indirect costs shall be determined by a rate which is readily and properly supportable by the governmental unit's accounting records and shall be the same rate as applied to nonboard projects; however, this rate shall not exceed the indirect cost allocation rate established by the board. If individual units of government do not have such an internal indirect cost allocation rate, the rate predetermined by the board shall be used in determining the amount of indirect costs includable in the total interdepartmental charges.

(8) Other direct costs incurred for materials or services acquired for a specific project shall be eligible for participation by board funds and may include, but shall not be limited to, such items as:

(a) Telephone charges;

(b) Reproduction and photogrammetry costs;

(c) Computer usage;

(d) Printing and advertising.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-180, filed 11/23/99, effective 12/24/99.]

WAC 479-05-190 Indirect costs. Indirect costs incurred by an agency for common or joint objectives which include an authorized board funded project, and which are not included in those direct costs set forth and defined in WAC 479-05-190, shall be eligible for board fund participation on a particular project at a rate not to exceed ten percent of direct labor costs.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-190, filed 11/23/99, effective 12/24/99.]

WAC 479-05-200 Partial or progress payments for project costs. Participation and payment of board funds to agencies shall be governed by the following:

(1) Board participation. Board funds shall not participate in any cost which is not incurred in conformity with all applicable federal and state law and the rules, regulations and procedures as may be prescribed by the board promulgated in conformity with the statutes.

(2) Project acceptance. Projects for which board funds are requested by the eligible agencies and for which the board has allocated funds will be the subject of a project approval process. The agencies' participation in this process demonstrates acceptance of the conditions to payment of funds, as

prescribed by laws and regulations, and the amount of funds to be obligated.

(3) Changes in project work and cost. No material change in the termini, character, or scope of the work on an approved project shall be made without prior concurrence in such changes by the board.

(4) Payments. Eligible agencies are to submit requests for payment of funds claimed to be due on approved projects. Such requests are to be on forms prescribed by the board. Supporting data may be required by the board. Requests for payment may be submitted from time to time as the work progresses and final requests shall be signed and submitted within six months of contract completion. Payment of TIB funds shall at no time exceed the approved amount of the project costs incurred to the date of the payment request.

(5) Compliance with laws and regulations. If an eligible agency has failed to comply with laws and regulations with respect to a project, payment of funds may be withheld on such projects, or approval of additional projects may be withheld until compliance or remedial action has been accomplished by the eligible agency to the satisfaction of the board.

(6) Costs incurred prior to phase approval shall be considered ineligible.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-200, filed 11/23/99, effective 12/24/99.]

WAC 479-05-210 Record requirements. All eligible agencies requesting payment of board funds on authorized projects shall have procedures in effect that will provide adequate assurance that payments requested are proper and accurate:

(1) Quantities of complete construction contract work shall be supported by all related source documents upon which payment to the contractor is based. These source documents shall include, but shall not be limited to, tickets for items measured on a weight or volume basis, cross section notes, inspector's diaries, engineering calculations for items measured in place, material tests, shipping invoices for steel, and all other field records normally developed by field engineers to support final quantities paid to contractors. The quantity field record should be summarized so that final pay estimates would lend themselves to comparison with supporting records.

(2) All appraisal reports, record of negotiations with grantors including a negotiator's diary indicating dates of contracts, offers made, and final acceptance by grantor, title insurance documents, transfer documents such as warranty deeds, quit claim deeds, easements, contract and sale documents, shall be maintained.

(3) Daily labor time records, equipment use records, requisitions for materials used, invoices for goods and services, and other invoices shall be maintained. Records shall also be maintained which support employee benefit percentages which are used in calculating amounts charged to construction projects.

(4) All records shall be retained until notification from the board that a project audit is complete or is not required.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-210, filed 11/23/99, effective 12/24/99.]

[2000 WAC Supp—page 2152]

WAC 479-05-220 Audits of project records. Projects shall be audited in accordance with the policy adopted by the board. Project records for each project developed through the use of board funds may be audited to determine that funds paid can be attributed to the project and supported by project records. The audit will determine if there has been compliance with the rules of the board. Projects may be audited by the board at the time of the project completion or at such additional times as may be directed by the director.

The director may, where the cumulative amount of audit exceptions is less than five hundred dollars in board funds, advise the agency that no recovery of funds is requested.

Audit exceptions which the director considers to be significant in relation to board rules or significant in amount to warrant potential recovery of funds, shall be furnished to the administering agency to allow an opportunity to respond in writing to the audit report.

After reviewing the written response, the director shall advise the agency whether any recovery of funds is indicated.

If recovery of board funds is indicated, as determined by the director, or by the board, the agency shall be provided ninety days from the date of the notice from the board to make repayment.

If repayment of funds by the agency is not made within ninety days from the date of the notice from the board, the subject shall be placed before the board for review and action.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-220, filed 11/23/99, effective 12/24/99.]

WAC 479-05-230 Expenditure schedule of board funds. Each eligible agency having an approved project shall, when requested by the director, submit an updated schedule of its estimated demand for board funds to the board. This schedule shall be on forms provided by the board and shall include the estimated demand for board funds at least biannually until project completion.

Such estimates shall be differentiated between the design engineering, right of way and construction stages of project development.

Additional information pertaining to estimated demands for board funds by eligible agencies may be requested by the director as required to permit adequate funding of the programs.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-230, filed 11/23/99, effective 12/24/99.]

WAC 479-05-240 Procedure to request increase in board funds. The amount of funds approved will be based upon the amount requested at design approval. This amount may be adjusted from the amount shown in the project application with adequate justification. Board fund increases are not approved at pre-design phase.

Local agencies may request an increase in funds over the amount set forth in the design phase, at the construction phase, bid opening or contract completion of a project in accordance with the following procedures:

(1) At the construction phase all requests shall be reviewed by the director. The director shall report the findings to the board for its review, consideration and final

action. The board shall not grant a request for increase at this phase if:

(a) The requested increase is to pay for an expansion of the scope of the work that is beyond the work required to accomplish the intent of the project as approved at the design phase.

(b) The granting of the request will obligate funding beyond the level acceptable to the board or will in any way adversely affect authorized funds previously approved by the board.

(2) Request for increases at bid opening shall not exceed ten percent of the engineer's estimate submitted to the board at the time the construction phase was approved multiplied by the account matching ratio. Requests for increases at this phase will take priority over design and construction phase approvals. Such requests shall be reviewed by the director and will not be approved if:

(a) The requested increase is to pay for an expansion of the authorized scope of the work; or

(b) If the request is not substantiated and the director determines that the increased funds should have been anticipated by the local agency at the construction phase of the project.

(3) Requests for increases in funds submitted to the board at contract completion shall not exceed the account matching ratio multiplied by the sum of ten percent of the original contract amount up to one million dollars and five percent of the amount in excess of one million dollars. Requests for increases at this phase will take priority over design and construction phase approvals. Such requests shall be reviewed by the director and will not be approved if:

(a) The requested increase is to pay for an expansion of the authorized scope of the work; or

(b) If the request is not substantiated and the director determines that the increased funds should have been anticipated by the local agency at the construction approval phase of the project.

(4) If the director or the board, as the case may be, does not approve the request of a local agency for an increase, the administering agency may:

(a) Proceed with the project, paying for any additional costs with local or other funds; or

(b) Withdraw the request for participation; or, if applicable

(c) Within the authorized amount, and subject to approval by the director, reduce the scope of the project while retaining a usable and functional improvement.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-240, filed 11/23/99, effective 12/24/99.]

WAC 479-05-250 Review of delayed projects. The director may contact, in writing, each local agency administering a transportation improvement board-funded project that appears to be delayed when evaluated in relation to the proposed schedule for project development. If the agency does not respond to the inquiry of the director within twenty days explaining why the project is delayed, it shall be placed before the board as a candidate for cancellation as a delayed project.

The written response from the administering agency shall be reviewed to determine if the reason or reasons for the project delay is acceptable. The administrative agency will be advised by certified mail by the director if the delay is for an unacceptable reason. The letter from the director shall advise the local agency that:

(1) The project is delayed for an unacceptable reason;

(2) The local agency has a period of three months from the date of the director's letter to resolve the reason or reasons for delay and to provide evidence to the board that the problems have been resolved. Such evidence shall, if requested by the director, include a time schedule for project development which sets forth project development dates in sufficient detail to permit monthly monitoring of project progress;

(3) If the reason or reasons for delay are not resolved within the specified time period, the project may be placed before the board as a candidate for cancellation.

The administering agency for any project placed before the board as a candidate for cancellation shall be requested to appear before the board to explain the status of the project.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-250, filed 11/23/99, effective 12/24/99.]

WAC 479-05-260 Recovery of board funds on canceled projects. Project development costs incurred by an agency on behalf of an authorized project that is subsequently canceled at the request of the agency, or by the board, shall be eligible for participation by board funds if, in the opinion of the board, the agency has pursued the project's development in good faith with a reasonable expectation of completing the project: Provided, That in all projects where the total project cost exceeds the amount of authorized board funds plus local matching funds, board funds shall be recovered in sufficient amount that the percentage of nonrecovered payments in relation to total project costs to the date of cancellation or withdrawal shall not exceed the percentage determined by dividing the total authorized amount of board funds by the most recently determined total project cost.

All board funds previously paid to an agency on behalf of an authorized project as a result of falsification, negligence, or deliberate misrepresentation on the part of the administering agency, in the opinion of the board, shall be repaid to the appropriate account, or a repayment agreement that is acceptable to the board shall be executed between the local agency and the board, within ninety days following cancellation of the specified project by request of the agency or by the board.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-260, filed 11/23/99, effective 12/24/99.]

WAC 479-05-270 Identification and consideration of surplus funds on authorized board projects. When requested by the director, by certified mail, each project authorized for financial assistance from the local agency shall review their project to identify probable reductions in project cost in relation to the previously authorized amount of funds. The agency shall review the project to:

(1) Close the project by submitting a final request for payment and summary cost documents if all work has been completed; or

(2) Advise the board of total costs to date, remaining costs necessary to complete the project, and the amount of estimated surplus funds, if any, on the project.

Each response shall be reviewed by the director to determine whether the explanations appear reasonable and whether the agency appears to be pursuing the completion of the project at a reasonable rate. Any project where the agency does not appear to be pursuing the project to completion at a reasonable rate, or fails to submit a final request for payment within six months from the date that all work appears to be complete, shall be referred by the director to the board for appropriate action.

Each agency administering a project that is not considered to be developing to completion at a reasonable rate, or fails to submit a final request for payment within six months when all physical work appears to be completed, shall be notified by the director by certified mail that the project is being scheduled for a hearing before the board at a specified time and place. The agency shall be requested to provide suitable representation to such board meeting to explain the status of the authorized project, the reasons why the project has not been completed and finalized out, the amount of board funds estimated to be required to complete the project, and the resulting surplus in relation to previously authorized board funds.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-270, filed 11/23/99, effective 12/24/99.]

WAC 479-05-280 Funding shortfall. If it is determined by the transportation improvement board that the funding in any of the accounts will be insufficient to meet the obligations identified for the selected projects, the transportation improvement board shall have discretion as to the action it will take.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-280, filed 11/23/99, effective 12/24/99.]

WAC 479-05-290 Over-programming of funds. The transportation improvement board shall select projects based on its estimate of revenues and expenditures. The transportation improvement board may utilize the principle of over-programming when selecting projects, the degree of such over-programming to be at the discretion of the transportation improvement board for each account and application period.

[Statutory Authority: Chapters 47.26 and 47.66 RCW. 99-24-038, § 479-05-290, filed 11/23/99, effective 12/24/99.]
