WAC 246-924-160 Continued supervision of persons receiving certificates of qualification.

(1) The law requires holders of a certificate of qualifications to perform psychological functions "under the periodic direct supervision of a psychologist licensed by the board." The board's interpretation of this statement is that a holder of a certificate of qualification, referred to as a "psychological assistant," is certified *in tandem* with a licensed psychologist and not in his or her own right. The board will evaluate, at the same time, the professional capabilities of the certificate of qualifications applicant, and the qualifications of the licensed psychologist to supervise the psychological assistant in the specific professional functions outlined by the psychological assistant. The board must examine and approve the professional qualifications of the psychological assistant applicant and the licensed psychologist and their supervisor-supervisee agreement. The board does not approve specific work conditions, fees, salaries, and related factors as relevant to the nature and quality of the professional relationship or services offered to the public.

(2) The applicant must indicate on the application form, in detail, his or her areas of intended practice. After initial screening (evaluation of the person's education, experience, and supervision) and passing the written examinations, the applicant shall furnish the board with a plan for continued supervision, which will include detailed information regarding the supervisor, which indicates an agreement to supervise.

(3) Minimum supervision shall include discussion of the psychological assistant's work through regularly scheduled contacts with the supervisor at appropriate intervals. Whenever possible, supervision should consist of occasional direct observation or review of recorded case material. The supervisor shall be responsible for preparing evaluative reports of the psychological assistant's performance, which will be forwarded to the board on a periodic basis.

(4) When a licensed psychologist assumes the responsibility of supervision, he or she shares the professional and ethical responsibility for the nature and quality of all of the

psychological services the psychological assistant may provide. Failure to provide supervision as described in the agreement may result in appropriate action against the license of the supervisor.

(5) Interruption or termination of a supervisory relationship shall be promptly communicated to the board by the supervisor or the psychological assistant.

(6) In every case where psychological testing is done and a report is written based on that testing by a psychological assistant, the supervising licensed psychologist will counter-sign the report indicating his or her approval.

(7) An applicant or holder of a certificate may apply to the board for authority to work without immediate supervision in particular areas of function. In these cases, the board may require further evidence of proficiency. Even though the immediate supervision requirement is waived for the psychological assistant, periodic supervisory consultation as deemed appropriate by the board is required. Evidence of supervisory consultation must be submitted to the department of health with the annual license renewal fee.

(8) The board will conduct appropriate review and make its decision under this section for any application submitted under WAC 246-924-150 for certification of an additional area of function.

WAC 246-924-170 Certificates of qualification—Representations to clients. (1) Each client of the psychological assistant or psychological affiliate must be informed of the nature of the assistant's or affiliate's professional status, the function in which he or she is certified, and the fact that said assistant is under the supervision of a licensed psychologist.

(2) Only psychological affiliates may advertise their services (e.g. representations of themselves in telephone directories and announcements and on business cards). In doing so, the affiliate must list the functions for which he or she is certified and state his or her academic degree.

WAC 246-924-180 Continuing education—Purpose and scope. The ultimate aim of continuing education is to ensure the highest quality of professional work. Continuing education consists of educational activities designed to review existing concepts and techniques and to convey information and knowledge about advances in psychology as applied to the work settings. The objectives are to improve and increase the ability of the psychologist to deliver the highest possible quality of psychological work and to keep the professional psychologist abreast of current developments in a rapidly changing field. All psychologists, licensed pursuant to chapter 18.83 RCW, and holders of certificates of qualification issued pursuant to RCW 18.83.105, will be required to meet the continuing education requirements set forth in these rules as a prerequisite to license renewal.

WAC 246-924-230 Continuing education requirements. (1) The Washington state board of psychology (hereafter referred to as the board) requires a minimum of sixty hours of continuing education (hereafter referred to as CE) every three years.

(2) A minimum of four hours credit in ethics must be included in the sixty hours required. Areas to be covered, depending on the licensee's primary area(s) of function are practice, consultation, research, teaching, and/or supervision.

(3) Faculty providing CE offerings shall meet the training and the full qualifications of their respective professions. All faculty shall have demonstrated an expertise in the areas in which they are instructing.

(4) The board reserves the right to require any licensee to submit evidence, e.g., course or program certificate of training, transcript, course or workshop brochure description, evidence of attendance, etc., in addition to the affidavit form in order to demonstrate compliance with the sixty hours CE requirement.

WAC 246-924-240 Definitions of categories of creditable CE. All CE activities shall be directly relevant to maintaining or increasing professional or scientific competence in psychology. Courses or workshops primarily designed to increase practice income or office efficiency, while valuable to the licensee, are specifically noneligible for CE credit. Program sponsors or institutes should not apply for, nor expect to receive, prior or current board approval for CE status or category. Recognized activities shall include:

(1) Courses, seminars, workshops and post-doctoral institutes offered by educational institutions chartered by a state and recognized (accredited) by a regional association of schools, colleges and universities as providing graduate level course offerings. Such educational activities shall be recorded on an official transcript or certificate of completion.

(2) Courses (including correspondence courses), seminars, workshops and post-doctoral institutes sponsored by the American Psychological Association, regional or state psychological associations or their subchapters, psychology internship training centers, other professionally or scientifically recognized behavioral science organizations, and the board.

(3) Credit toward the CE requirement may be earned through teaching an approved CE program. Credit earned through teaching shall not exceed thirty hours every three years. Credit for teaching an approved CE program may be earned on the following basis:

(a) One credit hour for each sixty minutes actually spent teaching the program for the first event. Credit may be conferred for teaching similar subject matter only if the psychol-

ogist has actually spent an equal or greater amount of preparation time updating the subject matter to be taught on a later occasion.

(b) One credit hour for each sixty minutes actually spent participating in a panel presentation.

WAC 246-924-250 Continuing education—Special considerations. In lieu (total or partial) of sixty hours of CE the board may consider credit hour approval and acceptance of other programs as they are developed and implemented, such as:

(1) Compliance with a CE program developed by the American Psychological Association which provides either a recognition award or certificate, may be evaluated and considered for partial or total fulfillment of the CE credit hour requirements of the board.

(2) Psychologists licensed in the state of Washington but practicing in a different state or country which has a mandatory or voluntary CE program may submit to the board evidence of completion of that other state's or country's CE requirements for evaluation and partial or total credit hour approval.

(3) Psychologists licensed in the state of Washington but practicing in a state, U.S. territory or foreign country without CE requirements, or who are not legally required to meet those CE requirements, may submit evidence of their CE activities pursued outside of Washington state directly to the board for evaluation and approval based on conformity to the board's CE requirements.

(4) The board may also accept evidence of diplomate award by the American Board of Professional Psychology (ABPP) and American Board of Psychological Hypnosis (ABPH) in lieu of sixty hours of CE for that three year period in which the diplomate was awarded.

(5) Credit hours may be earned for other specialty board or diploma certifications if and when such are established.

(6) In accordance with WAC 246-12-040 (2)(c)(ix), psychologists who have allowed their credential to expire for three years or more must document completion of forty hours of CE, of which four hours must be in ethics. This CE must have been obtained within the two most recent years immediately prior to reinstatement.

WAC 246-924-330 Continuing education—Exemptions. In the event a licensee fails to meet requirements, because of illness, retirement (with no further provision of psychological services to consumers), failure to renew, or other extenuating circumstances, each case will be considered by the board on an individual basis. When circumstances justify it, the board may grant a time extension. The board may, in its discretion, limit in part or in whole the provision of psychological services to the consumers until the CE requirements are met. In the case of retirement or illness, the board may grant indefinite waiver of CE as a requirement for relicensure, provided an affidavit is received indicating the psychologist is not providing psychological services to consumers. If such illness or retirement status is changed or consumer psychological services are resumed, it is incumbent upon the licensee to immediately notify the board and to resume meeting CE requirements for relicensure. CE credit hours will be prorated for the portion of that three year period involving resumption of such services.

WAC 246-924-445 Parenting evaluations—Standards. Psychologists may be called upon to evaluate members of a family to assist in determining an appropriate residential arrangement, parental duties, or parental relationship with respect to a minor child. These rules establish minimum standards for conducting parenting evaluations. The psychologist must perform the evaluation focusing on the best interest of the child. In the event that there is more than one child in the family, these rules apply to each child in the family.

(1) The psychologist shall assess relevant ethnic and cultural issues and shall consider the following factors:

(a) The relative strength, nature, and stability of the child's relationship with each parent;

(b) Which parent has taken greater responsibility for performing parenting functions relating to the daily needs of the child;

(c) Each parent's past and potential ability to perform parenting functions; and

(d) The emotional needs and developmental level of the child.

(2) The psychologist may consider the following:

(a) Any voluntary agreements of the parties;

(b) The child's relationship with siblings and with other significant adults, as well as the child's involvement with his or her physical surroundings, school, or other significant activities;

(c) The wishes of the parents and the wishes of a child who is sufficiently mature to express reasoned and independent preferences as to his or her residential schedule; and

(d) Each parent's employment schedule.

(3) In conducting parenting evaluations, the psychologist shall not discriminate based on age, gender, race, ethnicity, national origin, religion, sexual orientation, disability, socioeconomic status, or any basis prohibited by law.

(4) The psychologist may make recommendations regarding the primary residential parent, shared residential time, decision-making authority or other variables involving more than one of the parties. If recommendations are made, the parenting evaluation must include an assessment of each of the relevant parties being considered and their ability to function as a parent.

(5) In reaching a conclusion or making a recommendation, the psychologist shall consider the existence of limiting factors as outlined in RCW 26.09.191. The psychologist shall be familiar with or obtain consultation regarding the psychological aspects of child abuse, domestic violence, substance abuse, and family conflict. Recommendations and conclusions, if any, reached in an evaluation must be based on information from more than one source and must be supported by the data collected. Sources of information may include:

(a) Face-to-face interviews with the parties;

(b) Collateral contact interviews;

(c) An opportunity for each party to express concerns or issues in writing;

(d) A review of pleadings;

(e) Written input from collateral sources;

(f) Written documentation from the parties;

(g) Direct observation of the parties with their children;

(h) Psychological testing of the parties and/or their children;

(i) A review of relevant records (e.g., school or counseling records, child protective services records, substance abuse evaluations);

(j) Prior criminal convictions;

(k) Current involvement of law enforcement; and

(l) Face-to-face interviews with the children.

(6) If the psychologist uses psychological testing as part of the evaluation, the psychologist must interpret the test(s) consistent with current research or standards of practice.

(7) The psychologist shall not have provided therapeutic services to any party involved in the evaluation. Unless there are mitigating circumstances, the psychologist shall decline to perform a parenting evaluation. Providing service in a rural or underserved area with limited professional options is an example of a possible mitigating circumstance.

(8) The psychologist shall avoid multiple relationships when conducting parenting evaluations. If the previous or current relationship is substantially likely to impair objectivity, the psychologist shall decline the appointment or withdraw. The psychologist shall disclose multiple relationships to the parties or their legal representatives and document the disclosure in the client records.

(9) Relevant comments about a person not personally evaluated may be included if the report clearly identifies the source for the comment and states that the person to which the comment relates was not evaluated by the psychologist.

(10) Psychologists shall maintain a written record of the evaluation. At a minimum, the written record shall include the following:

(a) Court order or signed consent from all parties to conduct the evaluation;

(b) Written retainer agreement;

(c) Appropriate court order or signed authorizations for release of information;

(d) Documentation of dates of service, nature of service and fee charged;

(e) A copy of the evaluation report; and

(f) The information and sources used for the evaluation.

(11) The psychologist shall disclose the following specific information to the parties in writing at the outset of the evaluation assignment. All requests for records must be processed in accordance with chapter 70.02 RCW.

(a) The entity or individual that has requested the evaluation if it is done at the request of a third party;

(b) The entity or individual that is responsible for the bill;

(c) Fee structure;

(d) The entity, agency or individual that will receive the results or the report;

(e) Limits on confidentiality; and

(f) General procedures to be followed.

(12) The psychologist shall make available upon request to the clients or their counsel:

(a) The documents the psychologist relied upon during the evaluation process;

(b) The identity of collateral contacts;

(c) Notes taken during all interviews of the parties or collaterals;

(d) If, however, the psychologist believes that release of information provided by the child, may be harmful to the child, the psychologist may withhold those notes unless

directed to do otherwise by the court. The psychologist shall document the reasons for withholding the information in the file;

(e) Dates of evaluation procedures and charges;

(f) All correspondence associated with the case;

(g) The psychologist shall not provide raw test data including test questions, answer sheets, profile scores, computer generated interpretations, or copyrighted materials to nonpsychologists. The psychologist may provide this information to another psychologist or another individual who is qualified to interpret it, with proper authorization from the client or the client's attorney. Protected test materials and raw data may be provided as directed by the court.
