WAC 352-32-030 Camping. (1) Camping facilities of the state parks within the Washington state parks and recreation commission system are designed and administered specifically to provide recreational opportunities for park visitors. Use of park facilities for purposes which are of a nonrecreational nature, such as long-term residency at park facilities, obstructs opportunities for recreational use, and is inconsistent with the purposes for which those facilities were designed.

No person or camping party may use any state park facility for residence purposes, as defined (WAC 352-32-010).

(2) No person shall camp in any state park area except in areas specifically designated and/or marked for that purpose or as directed by a ranger.

(3) Occupants shall vacate camping facilities by removing their personal property therefrom no later than 1:00 p.m., if the applicable camping fee has not been paid or if the time limit for occupancy of the campsite has expired or the site is reserved by another party. Remaining in a campsite beyond the established checkout time shall subject the occupant to the payment of an additional camping fee.

(4) Use of utility campsites by tent campers shall be subject to payment of the utility campsite fee except when otherwise specified by a ranger.

(5) A campsite is considered occupied when it is being used for purposes of camping by a person or persons who have paid the camping fee within the applicable time limits or when it has been reserved through the appropriate procedures of the reservation system. No person shall take or attempt to take possession of a campsite when it is being occupied by another party, or when informed by a ranger that such site is occupied, or when the site is posted with a "reserved" sign. In the case of a reserved site, a person holding a valid reservation for that specific site may occupy it according to the rules relating to the reservation system for that park. In order to afford the public the greatest possible use of the state park system on a fair and equal basis, campsites in those parks not on the state park reservation system will be available on a first-come, first-serve basis. No person shall hold or attempt to hold campsite(s), for another camping party for present or future camping dates, except as prescribed for multiple campsites. Any site occupied by a camping party must be actively utilized for camping purposes.

(6) One person may register for one or more sites within a multiple campsite by paying the multiple campsite fee and providing the required information regarding the occupants of the other sites. An individual may register and hold a mul-

tiple campsite for occupancy on the same day by other camping parties. Multiple campsites in designated reservation parks may be reserved under the reservation system.

(7) In order to afford the general public the greatest possible use of the state park system, on a fair and equal basis, and to prevent residential use, continuous occupancy of facilities by the same camping party shall be limited. Campers may stay ten consecutive nights in one park, after which the camping party must vacate the park for three consecutive nights, April 1 through September 30, not to exceed thirty days in a forty-day time period; provided that at the discretion of the park ranger the maximum stay may be extended to fourteen consecutive nights if the campground is not fully occupied. Campers may stay twenty consecutive nights in one park, after which the camping party must vacate the park for three consecutive nights, October 1 through March 31, not to exceed forty days in a sixty-day time period. This limitation shall not apply to those individuals who meet the qualifications of WAC 352-32-280 and 352-32-285.

(8) A maximum of eight people shall be permitted at a campsite overnight, unless otherwise authorized by a ranger. The number of vehicles occupying a campsite shall be limited to one car and one recreational vehicle: Provided, That one additional vehicle without built-in sleeping accommodations may occupy a designated campsite when in the judgment of a ranger the constructed facilities so warrant. The number of tents allowed at each campsite shall be limited to the number that will fit on the developed tent pad or designated area as determined by a ranger.

(9) Persons traveling by bicycles, motor bikes or other similar modes of transportation and utilizing campsites shall be limited to eight persons per site, provided no more than four motorcycles may occupy a campsite.

(10) Water trail camping sites are for the exclusive use of persons traveling by human and wind powered beachable vessels as their primary mode of transportation to the areas. Such camping areas are subject to the campsite capacity limitations as otherwise set forth in this section. Exceptions for emergencies may be approved by the ranger on an individual basis. Water trail site fees, as published by state parks, must be paid at the time the site is occupied.

(11) Overnight stays (bivouac) on technical rock climbing routes will be allowed as outlined in the park's site specific climbing management plan. All litter and human waste must be contained and disposed of properly.

(12) Emergency camping areas may be used only when all designated campsites are full and at the park ranger's discretion. Persons using emergency areas must pay the applicable campsite fee and must vacate the site when directed by the park ranger.

(13) Designated overflow camping areas may be used only when all designated campsites in a park are full and the demand for camping in the geographic area around the park appears to exceed available facilities. Persons using overflow camping areas must pay the applicable campsite fee.

(14) Any violation of this section is an infraction under chapter 7.84 RCW.

WAC 352-32-047 Special recreation event permit.

Any person or group, hereinafter referred to as the "applicant," desiring to make use of a portion of a state park for a special recreation event which will require special planning, facilities, staffing, or environmental protection measures, or the closure of the area to, or restriction of, established recreational uses, shall apply for a special recreation event permit. The director or designee may consult with the appropriate

local government in reviewing the application and may issue a permit subject to conditions established by the agency. Such conditions may include but not be limited to the closure of the specified area to other recreational activities, including motor vehicle traffic, which are determined to have the potential to interfere with the event or which could risk the safety of the recreating public or the special event participants. However, no such permit may result in the unreasonable exclusion of recreationists from the remainder of the park. All events authorized under this permit shall be open to public participation and/or observation.

A special recreation event permit shall be issued only for recreational events where there is a reasonable expectation that a minimum of twenty persons will participate. The event must be oriented towards a recreational pursuit. Not more than three permits will be issued to a given applicant for a similar event at the same park during a one-year period.

Persons or organizations that desire to conduct a special recreation event in a state park shall submit a permit application obtainable at any state park and the basic permit application fee as published by state parks to the park where the event is proposed to take place.

If the agency determines it is necessary, the applicant must submit a completed environmental checklist along with the application. Upon request, the agency may assist the applicant in completing the environmental checklist and may request compensation in accordance with agency State Environmental Policy Act (SEPA) rules, chapter 352-11 WAC.

Permit applications must be submitted at least sixty days in advance of the proposed event so that the information supplied in the application may be verified and so that the agency can notify and coordinate action with officials of other jurisdictions and agencies responsible for health, safety and welfare. The sixty-day time limit is also necessary to comply with SEPA review requirements to identify any potential environmental impacts and mitigation. This requirement for an application to be filed sixty days prior to an event may be waived in rare circumstances where arrangements can be made in a shorter time while still complying with all other requirements of this section.

Such application shall be submitted at least sixty days in advance of the proposed date of the event, to allow, where applicable, for necessary internal review and analysis, consultation with local governments, public notice, establishment of permit conditions, and required agency preparations and coordination. The director or designee shall approve or disapprove a permit application and establish the conditions for an approved application. The permittee must pay any fees published by state parks for the use of park lands or facilities. The director or designee shall determine the need for any fees necessary to cover costs incurred by the agency for additional staffing, equipment, facilities, or special services not normally provided by state parks, as well as the need for any bond, damage deposit, or liability insurance arising from any potential hazards associated with the conduct of the event. Any such fees, bond, damage deposit, or liability insurance shall be provided by the applicant prior to the issuance of the permit.

If additional unanticipated costs are incurred by the commission resulting from the event, the applicant shall reimburse the commission for such costs in a timely manner. If the

additional costs are not paid, the director may recover such costs from the bond or damage deposits provided. Any funds remaining from the bond or damage deposit shall be returned to the applicant.

No person shall enter or be present in a state park area after the posted closing time except:

(4) Individuals flying remote controlled aircraft must do so only within flying areas designated by the director or designee and only when following the remote controlled aircraft management plan approved by the director or designee and posted for that designated area.

(a) Prior to any such designation, the director or designee shall advise and conduct a public meeting in the region where the park is located. The director or designee shall consider the potential impacts of remote controlled aircraft flying in the proposed area, including, but not limited to, the following factors: The degree of conflict remote controlled aircraft flying may have with other park uses, public safety issues, and any potential damage to park resources/facilities. Any park area designated for remote controlled aircraft flying shall be conspicuously posted as such by the director or designee.

(b) The director or designee shall establish a committee to advise park staff on park management issues related to remote controlled aircraft flying for each state park area designated as a remote controlled aircraft flying site.

(c) Each state park area with an established advisory committee, which includes remote controlled aircraft flyers will have an approved management plan which will specify remote controlled aircraft flying rules concerning types of aircraft, flying hours, identified approved flying zones, identified runways for take-offs and landings, engine muffler requirements, use of and posting of radio frequency, fuel spills and cleanup. The director or designee shall ensure that any remote controlled aircraft flying rules contained in the remote controlled aircraft flying management plan are conspicuously posted at the entrance of the affected park area.

(d) The director or designee may permanently, or for a specified period or periods of time, close any designated flying area to remote controlled aircraft flying if the director or designee concludes that a remote controlled aircraft flying

closure is necessary for the protection of the health, safety, and welfare of the public, park visitors or staff, or park resources. Prior to closing any designated flying area to remote controlled aircraft flying, the director or designee shall hold a public meeting near the state park area to be closed to remote controlled aircraft flying. Prior notice of the meeting shall be published in a newspaper of general circulation in the area and at the park at least thirty days prior to the meeting. In the event that the director or designee or park manager determines that it is necessary to close a designated flying area immediately to protect against an imminent and substantial threat to the health, safety, and welfare of the public, park visitors or staff, or park resources, the director or designee or park manager may take emergency action to close a state park area to remote controlled aircraft flying without first complying with the publication and meeting requirements of this subsection. Such emergency closure may be effective for only so long as is necessary for the director or designee to comply with the publication and meeting requirements of this subsection. The director or designee shall ensure that any designated flying area closed to remote controlled aircraft flying is conspicuously posted as such at the entrance of the affected park area.

(e) Except as provided in WAC 352-32-310, any violation of this section or failure to abide by a conspicuously posted remote controlled aircraft flying rule is an infraction under chapter 7.84 RCW.

WAC 352-32-165 Public assemblies, meetings. (1)

Public assemblies are permitted in state park areas on grounds which are open to the public generally, provided a permit therefore has been issued as herein provided.

(2) An application for such a permit may be submitted on such forms as may be provided by the commission, or in any written form so long as the permit application sets forth the following:

(a) Name, address and phone number of the applicant;

(b) Date, time, duration, nature and place of the proposed event, including a description or schedule of events and activities;

(c) Estimate of the number of persons expected to attend including the basis for the estimate;

(d) Special equipment, including temporary structures such as speakers' stands, platforms, lecterns, chairs, benches or the like, and any sound amplification equipment to be used in connection with the event;

(e) Special facilities, including emergency first aid, additional sanitation and refuse collection facilities, to be used in connection with the event;

(f) Crowd control to be provided by the event sponsor;

(g) Designation of a responsible contact individual with whom park officials may coordinate event activities, plans and preparations.

(3) The equipment and facilities referenced in subsection (2)(d) and (e), of this section, are to be provided by the event sponsor, unless other mutually satisfactory arrangements are made to use locally available commission owned equipment and facilities.

(4) The applicant must supply satisfactory evidence of arrangements for such equipment, facilities, and crowd control.

(5) If the agency determines it is necessary, the applicant must submit a completed environmental checklist along with the application. Upon request, the agency will assist the applicant in completing the environmental checklist and may request compensation in accordance with agency State Environmental Policy Act (SEPA) rules, chapter 352-11 WAC.

(6) Permit applications must be submitted at least sixty days in advance of the proposed event so that the information supplied in the application may be verified and so that the agency can notify and coordinate action with officials of other jurisdictions and agencies responsible for health, safety

and welfare. The sixty-day time limit is also necessary in order to comply with SEPA review requirements to identify any potential environmental impacts and mitigation. This requirement for an application to be filed sixty days prior to an event may be waived in rare circumstances where arrangements can be made in a shorter time while still complying with all other requirements of this section.

(7) The permit application must be submitted along with a nonrefundable permit fee as published by state parks to the Washington State Parks and Recreation Commission, P.O. Box 42650, Olympia, Washington 98504-2650. The director, or designee, may issue a permit consistent with the application, or otherwise modified in a manner which is acceptable to the applicant. The following criteria will be evaluated in considering a permit application:

(a) The ability of the applicant to finance, plan and manage the activity in accordance with sanitation, safety, medical care, fire control, security, crowd, noise, and traffic control requirements, and consistent with the protection of park resources and image;

(b) The extent to which the proposed activity, in both nature and timing, threatens interference with customary usage of the park by members of the public or interferes with the convenience of park neighbors and the general public;

(c) The experience of the applicant in performing similar activities in the past;

(d) Measures undertaken to mitigate any changes in customary park usage or damage to park resources caused by the activity.

(8) Following an evaluation of the above listed criteria, the director or designee will issue a permit unless:

(a) The application does not adequately address the evaluation criteria; or

(b) A prior application for the same time and place has been made which has been or will be granted; or

(c) The event will present a clear and present danger to the public health or safety; or

(d) The event is of such nature or duration that it cannot reasonably be accommodated in the particular park area requested. In considering this, the director or designee shall take into account the potential for significant environmental impact.

(9) The director or designee will acknowledge receipt of the permit application within ten days. The acknowledgement will estimate the timeline for processing the application based on the complexity of the requested use. The director or designee shall make the final ruling on the permit application as soon as possible but no later than ten days prior to the proposed event. The granting of this permit does not exempt the applicant from complying with other state, county or local permit requirements nor does it excuse compliance with the State Environmental Policy Act, where applicable. A threshold determination will be made by the agency to determine potential environmental impact. Applicants should be aware that timelines may exist under the State Environmental Policy Act and implementing regulations which are independent of this permit requirement.

(10) All permit denials will be in writing, will contain a statement of the specific reasons for the denial, and will advise the applicants of the right to request judicial review of the denial as provided in subsection (12) of this section.

(11) A permit issued may contain such conditions as are reasonably consistent with protection and use of the park area for the purposes for which it is maintained. It may also contain reasonable limitations on the time and area within which the event is permitted.

(a) The commission may require applicants to arrange for general liability insurance to cover participants, and the state of Washington will be named as an additional insured.

(b) The commission may require the filing of a bond with satisfactory surety payable to the state, to cover costs such as restoration, rehabilitation and cleanup of the area used, and other costs resulting from the permittee activity. In lieu of a bond, a permittee may elect to deposit cash equal to the amount of the required bond.

(12) Applicants whose permit application is denied may in writing request that the commission seek judicial review of the denial, in which event the commission shall timely seek a declaratory judgment pursuant to the Uniform Declaratory Judgment Act, chapter 7.24 RCW, and Superior Court Rule 57, in the superior court for Thurston County. Such requests shall be mailed, or otherwise delivered to the Director, Washington State Parks and Recreation Commission, P.O. Box 42650, Olympia, Washington 98504-2650, within ten days from the date the application is denied.
