If you have any questions, please feel free to contact the _____ County Auditor's Office at _____.

(3) If the voter provides one of the acceptable forms of identification no later than the day before certification of the election, the flag on the voter registration record must be removed and the ballot must be counted.

WAC 434-250-070 Forwarding ballots. (1) If the county auditor chooses to forward ballots, the county auditor must utilize postal service endorsements that allow the ballots to be forwarded, allow the county auditor to receive the updated address information, and allow the return of ballots not capable of being forwarded. A voter may only vote a ballot specific to the address where he or she is registered to vote, rather than a ballot specific to a new address.

(2) If the county auditor does not forward ballots, the envelope must clearly indicate the ballot is not to be forwarded and is to be returned to the county auditor with any available address updates. If the county auditor receives updated address information from the post office, the county auditor may send the voter a ballot specific to the address where the voter is registered to vote.

(3) If a ballot is returned or forwarded, the county auditor must, following certification of the election, either:

(a) Transfer the voter registration and send the voter an acknowledgment notice, if the updated address is within the county; or

(b) Place the voter on inactive status and send the voter a confirmation notice to all known addresses, if no updated address information was received or the updated address is outside the county.

WAC 434-250-080 Replacement ballots. The county auditor may issue a replacement ballot, as authorized by RCW 29A.40.070, if the request is received prior to 8:00 p.m. on election day. Requests may be made in person, in writing, by telephone, or electronically, by the voter, a family member, or a registered domestic partner.

Replacement ballots or the original ballot, whichever is received first, shall be credited to the voter's registration file and tabulated if the ballot meets all requirements for tabulation. If the auditor receives additional ballots from a voter, as indicated by the fact that the voter is already credited with voting, the additional ballots shall not be counted and shall be forwarded to the county canvassing board for rejection.

WAC 434-250-095 Direct recording electronic voting devices. (1) If a voter requests to vote on a direct recording electronic voting device, the county auditor must first confirm that the voter has not already returned a voted ballot. Confirmation that the voter has not already returned a voted ballot may be achieved by accessing the county voter registration system by electronic, telephonic, or other means. If the county auditor is unable to confirm that the voter has not already returned a voted ballot, the voter may not vote on a direct recording electronic voting device.

In order to prevent multiple voting, the voter must be immediately credited or otherwise flagged as having voted. If a voted mail ballot is subsequently returned after a ballot is

cast on the direct recording electronic voting device, the mail ballot must not be counted.

(2) Before a direct recording electronic voting device may be used by a voter, an election officer must verify:

(a) The paper printer or paper canister is secured so that the paper record may not be removed from the device by anyone other than an election officer;

(b) Only a blank portion of the paper record is visible to the voter as he or she approaches the device; and

(c) The paper printer or paper canister is sealed with a numbered seal to ensure the paper tape cannot be removed by the voter.

(3)(a) If a ballot on a direct recording electronic device has not been cast but has been printed by the voter, the election officer may cast the ballot.

(b) If a ballot on a direct recording electronic device has not been printed nor cast by the voter, the election officer must cancel the ballot and make a corresponding notation in the accountability form.

(4) If any seal or lock on a direct recording electronic device, including seals for the paper printer or paper canister, has been broken or tampered with, the direct recording electronic device and paper printer must be removed from service for the remainder of the election. A written report regarding the circumstances of the removal from service must be sent to the county canvassing board.

(5) If the paper printer for a direct recording electronic device malfunctions or runs out of paper, the following must occur:

(a) If the election officer has confirmed that no ballots have been cast after the printer ran out of paper or malfunctioned, he or she must remove the direct recording electronic device and paper printer from service, and document the problem. The direct recording electronic device and paper printer may be returned to service only if the problem has been corrected.

(b) If the election officer is unable to confirm that no ballots were cast after the printer ran out of paper or malfunctioned, or if the problem cannot be corrected, the direct recording electronic device and paper printer must be removed from service for the remainder of the election. The auditor must present a written report regarding the circumstances of the removal from service to the county canvassing board.

(6) If an electronic ballot has been cast without a readable corresponding paper record, the county auditor may print the ballot image stored on the device for use as a paper record for that device, in the case of an audit or manual recount. This may require printing all ballot images from that machine.

(7) A provisional ballot may only be voted on a direct recording electronic voting device if the voting system has been certified by the secretary of state for provisional voting and the county auditor has submitted approved procedures to the secretary of state.

(8)(a) If a direct recording electronic voting device must be transferred from a voting center that is not in the same location as the counting center, the paper records must be either:

(i) Placed in transfer containers; or

(ii) Transferred in the paper printer or paper canister if the paper printer or paper canister is sealed so the paper record cannot be removed without breaking the seal.

(b) Paper records must be accompanied by a transmittal sheet which must include at a minimum:

(i) The voting center where the direct recording electronic device was utilized;

(ii) The seal number from the paper printer; and

(iii) The serial number or other identifier of the direct recording electronic device if distinctly unique from the seal number on the paper record printer or paper canister.

(c) If paper records are placed in a transfer container, the election officer must sign the transmittal sheet and place it in the transfer container. The number of paper record tapes included in the container must be recorded on the transmittal sheet. A unique prenumbered seal must be applied to the container.

(d) The data pack or cartridge of the direct recording device must be transported to the counting center in a sealed container.

WAC 434-250-100 Ballot deposit sites. (1) If a location only receives ballots and does not issue any ballots, it is considered a ballot deposit site. Ballot deposit sites may be staffed or unstaffed.

(a) If a ballot deposit site is staffed, it must be staffed by at least two people. Deposit site staff may be employees of the county auditor's office or persons appointed by the auditor. If a deposit site is staffed by two or more persons appointed by the county auditor, the appointees shall be representatives of different major political parties whenever possible. Deposit site staff shall subscribe to an oath regarding the discharge of their duties. Staffed deposit sites open on election day must be open until 8:00 p.m. Staffed deposit sites may be open according to dates and times established by the county auditor. Staffed deposit sites must have a secure ballot box that is constructed in a manner to allow return envelopes, once deposited, to only be removed by the county auditor or by the deposit site staff. If a ballot envelope is returned after 8:00 p.m. on election day, deposit site staff must note the time and place and refer the ballot to the canvassing board.

(b) Unstaffed ballot deposit sites consist of secured ballot boxes that allow return envelopes, once deposited, to only be removed by authorized staff. Ballot boxes located outdoors must be constructed of durable material able to withstand inclement weather, and be sufficiently secured to the ground or another structure to prevent their removal. From eighteen days prior to election day until 8:00 p.m. on election day, two people who are either employees of or appointed by the county auditor must empty each ballot box with sufficient frequency to prevent damage and unauthorized access to the ballots.

(2) Ballot boxes must be secured at all times, with seal logs that document each time the box is opened and by whom. Ballots must be placed into secured transport carriers and returned to the county auditor's office or another design-

ated location. At exactly 8:00 p.m. on election day, all ballot boxes must be emptied or secured to prevent the deposit of additional ballots.

WAC 434-250-105 Voting centers. (1) If a location offers replacement ballots, provisional ballots, or voting on a direct recording electronic device, it is considered a voting center. The requirements for staffed ballot deposit sites apply to voting centers. Each voting center must:

(a) Be an accessible location. "Accessible" means the combination of factors which create an environment free of barriers to the mobility or functioning of voters. The environment consists of the routes of travel to and through the buildings or facilities used for voting. The Americans with Disabilities Act Checklist for Polling Places shall be used when determining the accessibility of a voting center. A voting center is fully accessible if all responses in each category are "Yes";

(b) Be marked with signage outside the building indicating the location as a place for voting;

(c) Issue ballots that include a declaration in the ballot materials;

(d) Offer disability access voting in a location or manner that provides for voter privacy. For each voting center, the county auditor must have a contingency plan to accommodate accessible voting in the event that an accessible voting unit malfunctions or must be removed from service;

(e) Offer provisional ballots, which may be sample ballots that meet provisional ballot requirements;

(f) For voters voting on a direct recording electronic voting device, require the voter to provide photo identification, consistent with chapter 10, Laws of 2011, section 43(7), and to sign and date the declaration in WAC 434-230-015. The county auditor is not required to compare the signature on the declaration to the signature in the voter registration record if the voter provided identification. To prevent double voting, the voting center must have electronic or telephonic access to the voter registration system, consistent with WAC 434-250-095;

(g) Provide either a voters' pamphlet or sample ballots;

(h) Provide voter registration forms;

(i) Display a HAVA voter information poster;

(j) Display the date of that election;

(k) During a primary that includes a partisan office, display the notice provided in WAC 434-230-015 (3)(j), and during a general election that includes a partisan office, display the notice provided in WAC 434-230-015 (3)(k). The party preference notices may also be posted on-screen in direct recording electronic voting devices;

(l) Provide instructions on how to properly mark the ballot; and

(m) Provide election materials in alternative languages if required by the Voting Rights Act.

(2) Where it appears that a particular voter is having difficulty casting his/her vote, and as a result, is impeding other voters from voting, the staff may provide assistance to that voter in the same manner as provided by law for those voters who request assistance. Where it appears that a voter is impeding other voters from voting to simply cause delay, the staff shall ask the voter to expedite the voting process. In the event the voter refuses to cooperate, the staff shall, whenever practical, contact the county auditor, who may request assistance from the appropriate law enforcement agencies if he or she deems such action necessary.

(3) At exactly 8:00 p.m. on election day, all ballot boxes must be emptied or secured to prevent the deposit of additional ballots. Voted ballots, including provisional, mail-in, and direct recording electronic and paper records, must be placed into secured transport carriers for return to the county auditor's office or another designated location.

WAC 434-250-110 Processing ballots. (1) "Initial processing" means all steps taken to prepare ballots for tabulation. Initial processing includes, but is not limited to: Verification of the signature and postmark on the ballot declaration; removal of the security envelope from the return envelope; removal of the ballot from the security envelope; manual inspection for damage, write-in votes, and incorrect or incomplete marks; duplication of damaged and write-in ballots; scanning and resolution of ballots on a digital scan voting system; and other preparation of ballots for final processing.

(2) "Final processing" means the reading of ballots by an electronic vote tallying system for the purpose of producing returns of votes cast, but does not include tabulation.

(3) "Tabulation" means the production of returns of votes cast for candidates or ballot measures in a form that can be read by a person, whether as precinct totals, partial cumulative totals, or final cumulative totals.

(4) Prior to initial processing of ballots, the county auditor shall notify the county chair of each major political party of the time and date on which processing shall begin, and shall request that each major political party appoint official observers to observe the processing and tabulation of ballots. If any major political party has appointed observers, such observers may be present for initial processing, final processing, or tabulation, if they so choose, but failure to appoint or attend shall not preclude the processing or tabulation of ballots.

(5) Initial processing of voted ballots, which may include scanning and resolving ballots on a digital scan voting system, may begin as soon as voted ballots are received. All ballots must be kept in secure storage until final processing. Secure storage must employ the use of numbered seals and logs, or other security measures which will detect any inappropriate or unauthorized access to the secured ballot materials when they are not being prepared or processed by authorized personnel. The county auditor must ensure that all security envelopes and return envelopes are empty, either by a visual inspection of the punched hole to confirm that no bal-

lots or other materials are still in the envelopes, or by storing the envelopes with a tie, string, or other object through the holes.

(6) Final processing of voted ballots, which may include scanning ballots on an optical scan voting system, may begin after 7:00 a.m. on the day of the election. Final processing may begin after 7:00 a.m. the day before the election if the county auditor has submitted an approved security plan to the secretary of state that prevents tabulation until after 8:00 p.m. on the day of the election.

(7) Tabulation may begin after 8:00 p.m. on the day of the election.

(8) In counties tabulating ballots on an optical scan vote tallying system, the vote tallying system must reject all overvotes and blank ballots.

(a) All rejected ballots shall be outstacked for additional manual inspection.

(b) The outstacked ballots shall be inspected in a manner similar to the original inspection with special attention given to stray marks, erasures, and other conditions that may have caused the vote-tallying device to misread and reject the ballot.

(c) If inspection reveals that a ballot must be duplicated in order to be read correctly by the vote tallying system, the ballot must be duplicated.

WAC 434-250-120 Verification of the signature and return date. (1) A ballot shall be counted only if:

(a) The ballot declaration is signed with a valid signature;

(b) The signature has been verified pursuant to WAC 434-379-020, or if the voter is unable to sign his or her name, two other persons have witnessed the voter's mark; and

(c)(i) The envelope is postmarked not later than the day of the election and received not later than the day before certification of the election;

(ii) The ballot is deposited in a ballot drop box no later than 8:00 p.m. on election day; or

(iii) The ballot of a service or overseas voter received by fax or e-mail is received no later than 8:00 p.m. on election day.

(2) Postage that includes a date, such as meter postage or a dated stamp, does not qualify as a postmark. If an envelope lacks a postmark or if the postmark is unreadable, the date to which the voter has attested on the ballot declaration determines the validity of the ballot, per RCW 29A.40.110. If a ballot is from a service or overseas voter, the date to which the voter has attested on the ballot declaration determines the validity of the ballot, per RCW 29A.40.100.

(3) The signature on the ballot declaration must be compared with the signature in the voter's voter registration file using the standards established in WAC 434-379-020. The signature on a ballot declaration may not be rejected merely because the name in the signature is a variation of the name on the voter registration record. The canvassing board may designate in writing representatives to perform this function. All personnel assigned to the duty of signature verification

shall subscribe to an oath administered by the county auditor regarding the discharge of his or her duties. Personnel shall be instructed in the signature verification process prior to actually canvassing any signatures. Local law enforcement officials may instruct those employees in techniques used to identify forgeries.

(4) The signature verification process shall be open to the public, subject to reasonable procedures adopted and promulgated by the canvassing board to ensure that order is maintained and to safeguard the integrity of the process.

WAC 434-250-130 Maintenance of an audit trail.

(1) A record of the date the ballot was mailed or issued, and the date the ballot was received;

(2) The number of ballots issued and returned, by legislative and congressional district, for each primary and general election;

(3) A record of the disposition of each request for a ballot that was not honored;

(4) A record of the disposition of each returned ballot that was not counted;

(5) A record of the time and place each time the county canvassing board met; and

(6) Documentation of the security procedures undertaken to protect the integrity of all ballots after receipt, including the seal numbers used to secure the ballots during all facets of the process.

All other deposit sites must be at geographical locations that are different from the county auditor's office.
