

WAC 434-663-500 Open systems architecture. Ensuring the usability of digital images to serve the functions for which they were designed involves long-term commitment to an open systems architecture and an approach to component upgrading, data transfer, and migration path that guarantees the portability of current data to be used with future technologies.

[Statutory Authority: Chapter 40.14 RCW. WSR 94-04-102, § 434-663-500, filed 2/1/94, effective 3/7/94.]
