

WAC 480-93-018 Records. (1) Each gas pipeline company must maintain records sufficient to demonstrate compliance with all requirements of 49 C.F.R. §§ 191, 192 and chapter 480-93 WAC.

(2) Each gas pipeline company must give the commission access to records for review during an inspection and must provide the commission copies of records upon request.

(3) Each gas pipeline company must maintain a list of forms and databases, including examples where applicable, that specify what records the company maintains. Each gas pipeline company must make this list available to the commission upon request.

(4) Each gas pipeline company must record and maintain records of the actual value of any required reads, tests, surveys or inspections performed. The records must include the name of the person who performed the work and the date the work was performed. The records must also contain information sufficient to determine the location and facilities involved. Examples of the values to be recorded include, but are not limited to, pipe to soil potential reads, rectifier reads, pressure test levels, and combustible gas indicator reads. A gas pipeline company may not record a range of values unless the measuring device being used provides only a range of values.

(5) Each gas pipeline company must update its records within six months of when it completes any construction activity and make such records available to appropriate company operations personnel.

(6) If a gas pipeline company believes a record provided to the commission is confidential as that term is defined in WAC 480-07-160(2), the gas pipeline company must follow the procedures in WAC 480-07-160 for designating and treating that record as confidential.
