WAC 246-272B-05000 Installer qualifications and responsibilities. The installer shall:

- (1) Be currently approved by the local health jurisdiction in the county where the LOSS is to be constructed.
 - (2) Have the following experience:
 - (a) Three or more years experience installing OSS; or
- (b) A record of successful completion of at least one similar installation, including a pressure distribution drainfield.
- (3) Maintain a copy of approved plans and specifications on-site during construction;
- (4) Follow the approved plans and specifications or obtain approval from the design engineer prior to making field changes;
- (5) Install sewage tanks approved by the department according to the provisions of chapter 246-272C WAC, On-site sewage system tanks;
- (6) Be on the site at all times during the excavation and construction of the LOSS;
- (7) Backfill and grade the site after construction to prevent surface water from accumulating over any LOSS component; and
- (8) Leave the drainfield lines uncovered until the drainfield passes the department's final inspection. Driplines may be covered prior to inspection.
