

WAC 246-928-730 Respiratory care practitioner associations or societies. The president or chief executive officer of any respiratory care practitioner association or society within this state shall report to the department when the association or society determines that a respiratory care practitioner has committed unprofessional conduct or that a respiratory care practitioner may not be able to practice respiratory care with reasonable skill and safety to patients as the result of any mental or physical conditions. The report required by this section shall be made without regard to whether the license holder appeals, accepts, or acts upon the determination made by the association or society. Notification of appeal shall be included.

[Statutory Authority: RCW 18.89.050(1). WSR 01-11-165, § 246-928-730, filed 5/23/01, effective 6/23/01.]
