

WAC 296-307-16180 Refuse (waste) disposal. (1) The operator must comply with local sanitation codes for removing and disposing of refuse from TWH areas;

(2) The operator must protect against rodent harborage, insect breeding, and other health hazards while storing, collecting, transporting, and disposing of refuse;

(3) The operator must store refuse in fly-tight, rodent-tight, impervious, and cleanable or reusable containers or in single-use containers;

(4) The operator must keep refuse containers clean;

(5) The operator must provide at least one reusable container for each dwelling unit that is:

(a) Located within one hundred feet of each dwelling unit;

(b) Placed on a solid, flat, and level stand made of wood, metal, or concrete; and

(c) Secured to prevent falling over or spilling.

(6) The operator must empty refuse containers at least twice each week, and when full.
