

WAC 388-828-9265 How does DDD determine your employment acuity scale score for medical support? DDD determines your employment acuity scale score for medical support by multiplying your medical support needs level score (see WAC 388-828-5700) by 0.06750.

If your medical support needs level in WAC 388-828-5700 is:	Then your medical support needs level score is:
None	0
Low	1
Medium	2
High	3

Example: A medical support needs level score of 2 is multiplied by 0.06750 resulting in an employment acuity scale score for medical support of 0.135.
