

**WAC 296-824-70005 Follow the appropriate postemergency response requirements.**

**Important:**

1. Postemergency response is the stage of the emergency response where the immediate threat from the release has been stabilized or eliminated, and cleanup of the site has started.

2. When cleanup is done by the employees who were part of the initial emergency response, the employees are not covered by this section (however, training, PPE and other requirements in WAC 296-824-20005 through 296-824-60015 apply to these employees).

(1) You must follow Table 10 to determine which requirements apply to your postemergency response activities.

(2) You must maintain clean-up equipment as specified in Table 10.

| <b>Table 10<br/>Rules that Apply to Postemergency Response Activities</b>  |   |
|--|---|
| <b>When response cleanup is performed by employees who were not part of the initial emergency response and:</b>  | <b>The following rules or requirements apply:</b>   |
| It is necessary to remove hazardous substances, health hazards and contaminated materials (example: Soil) from the site  | Chapter 296-843 WAC, Hazardous waste operations.  |
| Cleanup is done on plant property using plant or workplace employees<br><b>AND</b><br>It is not necessary to remove hazardous substances, health hazards and contaminated materials from the site. | For training: <ul style="list-style-type: none"> <li>• WAC 296-24-567(1), Employee emergency action plans</li> <li>• Chapter 296-842 WAC, Respirators</li> <li>• WAC 296-901-140, Hazard communication</li> <li>• Other appropriate training requirements relevant to personal protective equipment (PPE) and decontamination</li> </ul> For equipment: <ul style="list-style-type: none"> <li>• Make sure that all equipment used for clean-up work is serviced and inspected before use.</li> </ul> |
