

Chapter 332-26 WAC
EMERGENCY AND SHORT TERM RULES

Last Update: 6/15/09

Reviser's note: The department of natural resources may adopt rules of a temporary or emergency nature relating to forest closures due to fire conditions, insect infestation control districts, and other special matters concerning the industry. These rules are filed and may be inspected at the Office of the Code Reviser, Pritchard Building, Olympia, but because of their transitory nature they are (on authority of RCW 34.05.210(4)) omitted from this code. Copies may be obtained by searching the Washington State Register and following the instructions published for each specific activity or by contacting the rules coordinator for the department of natural resources, Olympia.
