

WAC 352-66-115 Mooring buoys. (1) Mooring buoys are white with a blue horizontal band. This distinctive color scheme is recommended to facilitate identification and to avoid confusion with aids to navigation.

(2) A lighted mooring buoy shall normally display a slow flashing white light. When its location in a waterway is such that it constitutes an obstruction to a vessel operated during hours of darkness, it shall display a quick flashing white light.

(3) A mooring buoy shall bear ownership identification provided that the manner and placement of the identification does not detract from the meaning intended to be conveyed by the color scheme or identification letter when assigned.
