

WAC 182-502-0210 Statistical data-provider reports. (1) At the request of the medicaid agency, all providers enrolled with agency programs must submit full reports, as specified by the agency, of goods and services furnished to eligible Washington apple health clients. The agency furnishes the provider with a standardized format to report these data.

(2) The agency analyzes the data collected from the providers' reports to secure statistics on costs of goods and services furnished and makes a report of the analysis available to the agency's advisory committee, the state welfare medical care committee, representative organizations of provider groups enrolled with the agency, and any other interested organizations or individuals.
