

WAC 388-829R-145 How must overnight planned respite services providers regulate the water temperature at their residence? (1) Overnight planned respite services providers must regulate the water temperature at their residence as follows:

(a) Maintain the water temperature in the household between one hundred five degrees and one hundred twenty degrees Fahrenheit; and

(b) Check the water temperature at least every six months. The water temperature is best measured two hours after substantial hot water usage.

(2) The overnight planned respite services provider must document compliance with these requirements.
