

WAC 434-677-040 Retention of security microfilm. Microfilm accepted for security storage will be retained per records retention schedules approved by the state or local records committee established in accord with chapter 40.14 RCW or per agency-approved essential records schedules established in accord with chapter 40.10 RCW. If the film is determined by the division of archives microfilm quality control examiner to be substandard, and the office of record has refused to take corrective or remedial action, the division reserves the right to return the film prior to the expiration of the scheduled retention.
