WAC 182-531-1550 Sterilization physician-related services. (1) For purposes of this section, sterilization is any medical procedure, treatment, or operation for the purpose of rendering a client permanently incapable of reproducing.

Hysterectomy results in sterilization and is not covered by the medicaid agency solely for that purpose. (See WAC 182-531-0150 and 182-531-0200 for more information about hysterectomies.)

## STERTLIZATION

- (2) The agency covers sterilization when all of the following apply:
- (a) The client is at least eighteen years of age at the time an agency-approved consent form is signed;
  - (b) The client is a mentally competent individual;
- (c) The client participates in a medical assistance program (see WAC 182-501-0060);
  - (d) The client has voluntarily given informed consent; and
- (e) The date the client signed a sterilization consent is at least thirty days and not more than one hundred eighty days before the date of the sterilization procedure.
- (3) Any medicaid provider who is licensed to do sterilizations within their scope of practice may provide vasectomies and tubal sterilizations to any medicaid client.
- (4) The agency requires at least a seventy-two hour waiting period rather than the usual thirty-day waiting period for sterilization in either of the following circumstances:
- (a) At the time of a premature delivery when the client gave consent at least thirty days before the expected date of delivery. (The expected date of delivery must be documented on the consent form.)
- (b) For emergency abdominal surgery. (The nature of the emergency must be described on the consent form.)
- (5) The agency does not accept informed consent obtained when the client is:
  - (a) In labor or childbirth;
- (b) In the process of seeking to obtain or obtaining an abortion; or
- (c) Under the influence of alcohol or other substances, including pain medications for labor and delivery, that affects the client's state of awareness.
- (6) The agency has certain consent requirements that the provider must meet before the agency reimburses sterilization of an institutionalized client or a client with mental incompetence. The agency requires both of the following:
- (a) A court order, which includes both a statement that the client is to be sterilized, and the name of the client's legal guardian who will be giving consent for the sterilization; and
- (b) A sterilization consent form signed by the legal guardian, sent to the agency at least thirty days before the procedure.
- (7) The agency reimburses epidural anesthesia in excess of the six-hour limit for deliveries if sterilization procedures are performed in conjunction with or immediately following a delivery.
- (a) For reimbursement, anesthesia time for sterilization is added to the time for the delivery when the two procedures are performed during the same operative session.
- (b) If the sterilization and delivery are performed during different operative sessions, the anesthesia time is calculated separately.

- (8) The agency reimburses all attending providers for the sterilization procedure only when the provider submits an agency-approved and complete consent form with the claim for reimbursement.
- (a) The physician must complete and sign the physician statement on the consent form within thirty days of the sterilization procedure.
- (b) The agency reimburses attending providers after the procedure is completed.
