

WAC 222-20-090 *Options for filing applications and preapplication consultation for forest practices hydraulic projects. (1) Applicants may schedule an early review of a proposed application with the department prior to official filing, or submit an application with a delayed effective date. Such early review or submission will allow the department to review multiple applications and bring other forest practices concerns to the attention of the applicant so that such concerns can be addressed prior to official filing and processing of an application. When submitting an application with a delayed effective date, the applicant shall indicate the date when approval is desired.

(2) **Preapplication consultation for forest practices hydraulic projects.** Landowners are encouraged to consult with the department and the department of fish and wildlife prior to submitting an application involving a forest practices hydraulic project to help ensure that project plans and specifications meet fish protection standards.
