

WAC 246-976-310 Ground ambulance and aid service—Communications equipment. (1) Licensed services must provide each licensed ambulance and aid vehicle with communication equipment which:

- (a) Is consistent with state and regional plans;
- (b) Is in good working order;
- (c) Allows direct two-way communication between the vehicle and its dispatch control point; and
- (d) Allows communication with medical control.

(2) If cellular telephones are used, there must also be another method of radio contact with dispatch and medical control for use when cellular service is unavailable.

(3) Licensed ambulance services must provide each licensed ambulance with communication equipment which:

- (a) Allows direct two-way communication with medical control and all hospitals in the service area of the vehicle, from both the driver's and patient's compartment; and
- (b) Incorporates appropriate encoding and selective signaling devices.
