

WAC 365-180-040 Program funding. The legislature determines the amount of funding available during a specific biennium for low-income weatherization. Each county receives a "planning estimate" based on the number of low-income households and the climatic conditions of the county. This "planning estimate" is available for low-income weatherization in each county if matching requirements are met. Contingent on the availability of funds, the department may award funds in an amount that exceeds the county's "planning estimate."
