STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

The Register is arranged in the following nine sections:

- (a) **PREPROPOSAL**-includes the Preproposal Statement of Intent that will be used to solicit public comments on a general area of proposed rule making before the agency files a formal notice.
- (b) **EXPEDITED REPEAL**-includes the Preproposal Statement of Inquiry that lists rules being repealed using the expedited repeal process. Expedited repeals are not consistently filed and may not appear in every issue of the register.
- (c) **PROPOSED**-includes the full text of formal proposals, continuances, supplemental notices, and withdrawals.
- (d) **EXPEDITED ADOPTION**-includes the full text of rules being changed using the expedited adoption process. Expedited adoptions are not consistently filed and may not appear in every issue of the Register.
- (e) **PERMANENT**-includes the full text of permanently adopted rules.
- (f) **EMERGENCY**-includes the full text of emergency rules and rescissions.
- (g) **MISCELLANEOUS**-includes notice of public meetings of state agencies, rules coordinator notifications, summaries of attorney general opinions, executive orders and emergency declarations of the governor, rules of the state Supreme Court, and other miscellaneous documents filed with the code reviser's office under RCW 34.08.020 and 42.30.075.
- (h) **TABLE**-includes a cumulative table of the WAC sections that are affected in the current year.
- (i) **INDEX**-includes a cumulative index of Register Issues 01 through 24.

Documents are arranged within each section of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. Each filing is listed under the agency name and then describes the subject matter, type of filing and the WSR number. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence with a section's material.

2. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined material is new material;
 - (ii) ~~deleted material is ((lined out between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

3. MISCELLANEOUS MATERIAL NOT FILED UNDER THE ADMINISTRATIVE PROCEDURE ACT

Material contained in the Register other than rule-making actions taken under the APA (chapter 34.05 RCW) does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

4. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty-one days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office unless a later date is provided by the agency. They remain effective for a maximum of one hundred twenty days from the date of filing.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

5. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in [brackets].

REGULATORY FAIRNESS ACT

The Regulatory Fairness Act, chapter 19.85 RCW, was enacted in 1982 to minimize the impact of state regulations on small business. Amended in 1994, the act requires a small business economic impact analysis of proposed rules that impose more than a minor cost on twenty percent of the businesses in all industries, or ten percent of the businesses in any one industry. The Regulatory Fairness Act defines industry as businesses within a four digit SIC classification, and for the purpose of this act, small business is defined by RCW 19.85.020 as "any business entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of making a profit, and that has fifty or fewer employees."

Small Business Economic Impact Statements (SBEIS)

A small business economic impact statement (SBEIS) must be prepared by state agencies when a proposed rule meets the above criteria. Chapter 19.85 RCW requires the Washington State Business Assistance Center (BAC) to develop guidelines for agencies to use in determining whether the impact of a rule is more than minor and to provide technical assistance to agencies in developing a SBEIS. All permanent rules adopted under the Administrative Procedure Act, chapter 34.05 RCW, must be reviewed to determine if the requirements of the Regulatory Fairness Act apply; if an SBEIS is required it must be completed before permanent rules are filed with the Office of the Code Reviser.

Mitigation

In addition to completing the economic impact analysis for proposed rules, state agencies must take reasonable, legal, and feasible steps to reduce or mitigate the impact of rules on small businesses when there is a disproportionate impact on small versus large business. State agencies are encouraged to reduce the economic impact of rules on small businesses when possible and when such steps are in keeping with the stated intent of the statute(s) being implemented by proposed rules. Since 1994, small business economic impact statements must contain a list of the mitigation steps taken, or reasonable justification for not taking steps to reduce the impact of rules on small businesses.

When is an SBEIS Required?

When:

The proposed rule has more than a minor (as defined by the BAC) economic impact on businesses in more than twenty percent of all industries or more than ten percent of any one industry.

When is an SBEIS Not Required?

When:

The rule is proposed only to comply or conform with a federal law or regulation, and the state has no discretion in how the rule is implemented;

There is less than minor economic impact on business;

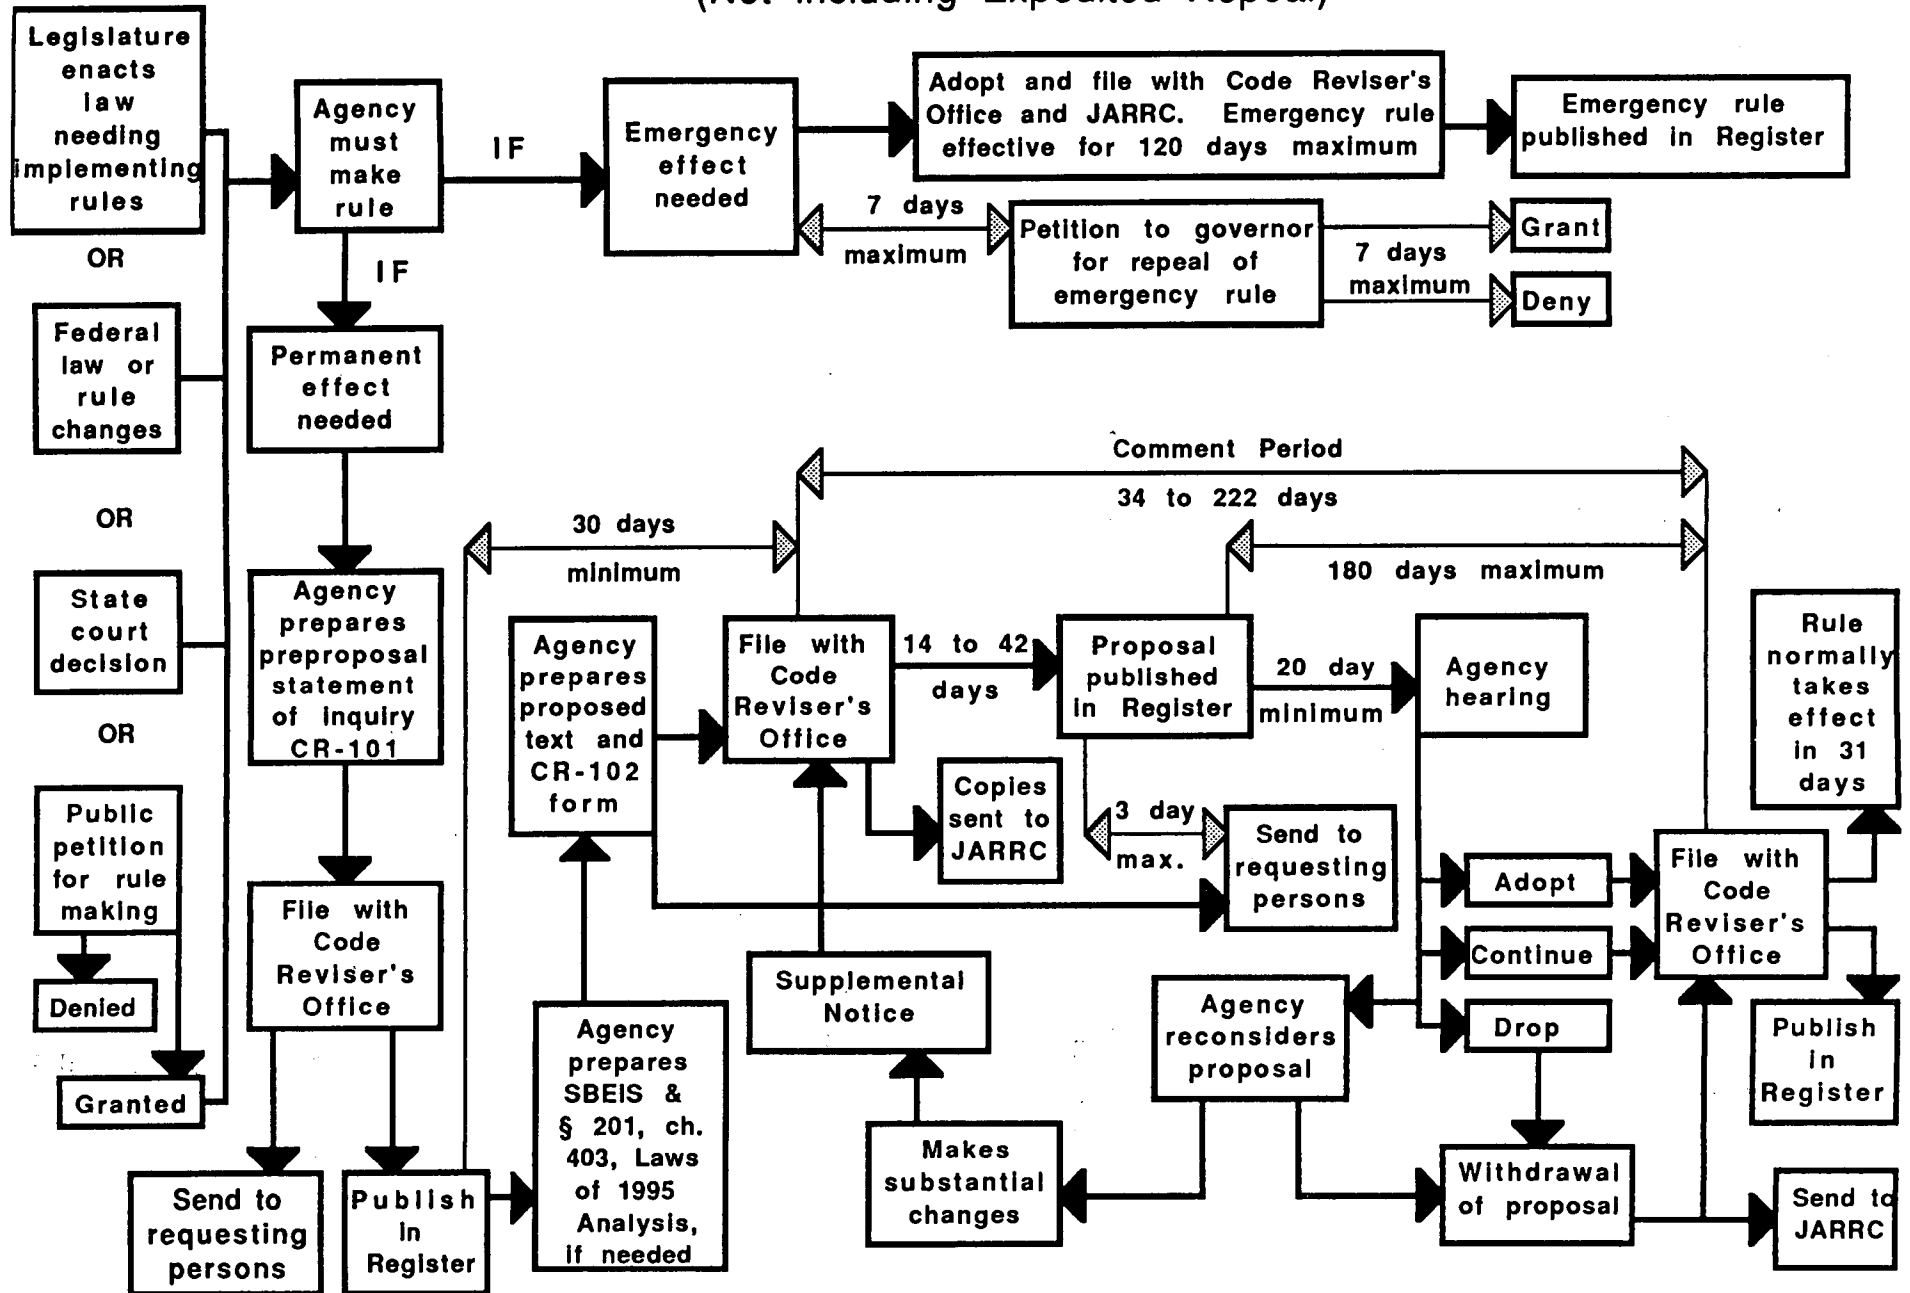

The rule REDUCES costs to business (although an SBEIS may be a useful tool for demonstrating this reduced impact);

The rule is adopted as an emergency rule, although an SBEIS may be required when an emergency rule is proposed for adoption as a permanent rule; or

The rule is pure restatement of state statute.

RULE-MAKING PROCESS

(Not including Expedited Repeal)

WSR 00-21-005**PREPROPOSAL STATEMENT OF INQUIRY
PUBLIC WORKS BOARD**

[Filed October 5, 2000, 9:34 a.m.]

Subject of Possible Rule Making: 1. Updating phone number and web site information, WAC 399-10-010. 2. Making eligible the costs of a public communications plan, WAC 399-30-030. 3. Providing that past management practices or actions of a loan applicant; i.e., late loan payments, defaults, negative audit findings, inability to complete projects within the time allowed by contract, etc., can be considered as factors when deciding on loan applications, WAC 399-30-040.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 43.155.040(4).

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: 1. The board has recently changed its phone number and will be changing its Internet web site address in the near future. 2. Public works projects increasingly need a public communications plan to ensure that the public is adequately informed as to what will happen, when it will happen, and how to avoid construction-caused traffic delays or public health issues. 3. As the board's loan portfolio grows, it appears reasonable to be able to consider past management practices or actions of an applicant when determining whether or not to offer the applicant a financial assistance package.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Publish CR-101, accept any input and develop draft WAC for public input. Hold formal hearing; take final action as per direction of the Public Works Board.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Pete Butkus, Executive Director, Public Works Board, P.O. Box 48319, Olympia, WA 98504-8319, phone (360) 725-5003, fax (360) 664-3029.

[Order 00-06—Filed October 9, 2000, 4:04 p.m.]

Subject of Possible Rule Making: Clarification and simplification of existing language. Amended language to include dental hygienists. Elimination of outdated funding formula language for the community health clinics funding under the community health services program.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 41.05.220.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: This was/is a joint effort between the community clinics and the Health Care Authority/Community Health Services to clarify and simplify chapter 182-20 WAC for ease of use and understanding. Outdated language to be removed to reduce the length of the WAC and diminish the possibility of confusion.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Public hearings and stakeholder meetings.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Bob Blacksmith, P.O. Box 42710, Olympia, WA 98504-2710, phone (360) 923-2755, fax (360) 923-2614.

[Filed October 10, 2000, 8:10 a.m.]

Subject of Possible Rule Making: Rules relating to apple maggot quarantine in chapter 16-470 WAC.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 17.24.041.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Updating the current rule would clarify restrictions on movement of fruit and other quarantine provisions, modify the list of counties under quarantine in response to survey data generated since the last revision, achieve consistency with other states' rules, bring the state into compliance with internationally accepted North American Plant Pest Organization terminology, and acknowledge changes in industry practices, environmental conditions, and legislative mandates such as regulatory reform and clear and readable text.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: USDA APHIS has federal plant pest quarantine authority. However, that agency regards apply maggot as a state regulatory matter and has not chosen to exercise authority in this area.

Process for Developing New Rule: Washington State Department of Agriculture representatives discuss proposed rule changes with affected stakeholders and then publish the rule proposal.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Mary A. Martin Toohey, Assistant Director, Laboratory Services Division, Washington State Department of Agriculture, P.O. behind a bakery or deli counter or even served in restaurants. We believe it would be clearly impractical and be of minimal value to the consumer to require such labeling in other than prepackaged and/or self-service situations. This rule intends to address those issues by outlining exemptions from ingredient labeling under certain conditions.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: The Food and Drug Administration, the United States Department of Agriculture, the Washington State Department of Health, and various local county health departments all regulate food product labeling to one degree or another. Because the proposal makes an exception to the ingredient labeling required under a section of Washington state law that the Washington State Department of Agriculture has the responsibility for enforcing, the agency is obligated to be the agency that initiates rule making on this issue. WSDA is acting as the lead agency in cooperation with the Washington State Department of Health. WSDA met with and has an informal agreement with the Washington State Department of Health on the rule proposal and how it shall be implemented and enforced.

Process for Developing New Rule: [No information supplied by agency.]

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Claudia Coles, Food Safety Program Manager, Food Safety and Animal Health Division, P.O. Subject of Possible Rule Making: Chapter 16-XXX WAC, Food labeling.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 69.04.310.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: This is a rule that establishes exemptions to RCW 69.04.310(2), which describes misbranding by the failure to declare ingredients on the label of a product. The director is authorized to establish such rules when he determines that compliance with the requirements of RCW 69.04.310(2) is impracticable, or results in deception or unfair competition. Currently there are no exemptions from declaring ingredients on food products as required by RCW 69.04.310. **PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF ECOLOGY**

[Order 00-26—Filed October 13, 2000, 10:42 a.m.]

Subject of Possible Rule Making: ESHB 1963 (1998 legislature) authorized the Department of Ecology to amend chapter 173-158 WAC governing floodplain management.

The existing rule does not allow substantial repair, reconstruction or improvement to a residential structure in a designated floodway. This rule change will allow a variance to be authorized to allow such reconstruction of farmhouses and of other residential structures under specific, limited conditions.

Statutes Authorizing the Agency to Adopt Rules on this Subject: Chapter 86.16 RCW, Floodplain management.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Ecology has been advised that under the existing chapter 86.16 RCW and chapter 173-158 WAC substantial improvements to residential structures in a designated floodway is prohibited. This has resulted in situations where homes have existed for many years, and not being allowed to reconstruct. In some instances, there is no alternative site on the property to reconstruct that is not in a designated floodway, and the floodway designation may not be appropriate.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Federal Emergency Management Agency (FEMA) will be involved in our advisory committee as they administer federal regulations under C.F.R. 44, Chapter 1, Section 60.3 that apply to state floodplain management activities; cities and counties in Washington will also be involved in the committee as their floodplain management activities are governed by chapter 86.16 RCW and chapter 173-158 WAC.

Process for Developing New Rule: Negotiated rule making.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Ted Olson, Department of Ecology, Eastern Regional Office, North 4601 Monroe, Suite 202, Spokane, WA 99205-1295, phone (509) 456-2862, fax (509) 456-6175, e-mail tols461@ecy.wa.gov.

PREPROPOSAL STATEMENT OF INQUIRY DEPARTMENT OF FISH AND WILDLIFE

[Filed October 17, 2000, 1:36 p.m.]

Subject of Possible Rule Making: Commercial bottom fish fishing in Puget Sound.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 77.12.047.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The department has proposed to eliminate the directed octopus fishery using shellfish pot gear. Current rules provide that octopus can be taken incidental to any lawful bottom fish fishery. Although there is bottom fish pot fishery available in Puget Sound, no landings have been made in the last three years. This potential fishery could, however, be used as an excuse to continue a

directed octopus fishery. Repeal of this fishery eliminates this loophole.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Agency study.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Lew Atkins, Fish Program Assistant Director, 600 Capitol Way, Olympia, WA 98501-1091, phone (360) 902-2651. [Filed October 17, 2000, 2:23 p.m.]

Subject of Possible Rule Making: WAC 458-20-22802
Electronic funds transfer.

Statutes Authorizing the Agency to Adopt Rules on this
Subject: RCW 82.32.300.

Reasons Why Rules on this Subject may be Needed and
What They Might Accomplish: This rule explains the statu-
tory requirement that certain taxpayers remit payment of the
tax liability reported on their excise tax return via an elec-
tronic funds transfer (EFT). The rule currently explains that
an electronic funds transfer payment is due on or before 3:00
p.m., Pacific time, on the banking day following the tax
return due date. The department is considering whether to
change this 3:00 p.m. deadline to 5:00 p.m.

Other Federal and State Agencies that Regulate this Sub-
ject and the Process Coordinating the Rule with These Agen-
cies: None.

Process for Developing New Rule: Modified negotiated
rule making.

Interested parties can participate in the decision to adopt
the new rule and formulation of the proposed rule before pub-
lication. Written comments may be submitted by mail, fax,
or at the public meeting. Oral comments will be accepted at
the public meeting. A preliminary draft of the proposed
changes is available upon request. Written comments on
and/or requests for copies of the rule may be directed to Pat
Moses, Legislation and Policy, P.O. Box 47467, Olympia,
WA 98504-7467, phone (360) 902-7111, fax (360) 664-
0693, e-mail patm@dor.wa.gov.

Location and Date of Public Meeting: Capitol Plaza

Subject of Possible Rule Making: WAC 458-20-169
Religious, charitable, benevolent, nonprofit service organiza-
tions, and sheltered workshops.

Statutes Authorizing the Agency to Adopt Rules on this
Subject: RCW 82.32.300.

Reasons Why Rules on this Subject may be Needed and
What They Might Accomplish: The rule is needed to help
explain Washington taxes to nonprofit organizations that are

often exempt from tax under other federal or state tax sys-
tems. The rule needs to be amended for statutory changes
made for nonprofit organizations (in particular changes in
fundraising exemptions and the donation provisions). This
interpretive rule provides a source of information for non-
profit organizations in determining what state tax provisions,
exemptions and deductions apply to them.

Other Federal and State Agencies that Regulate this Sub-
ject and the Process Coordinating the Rule with These Agen-
cies: No other federal or state agencies have the authority to
implement the retail, use or state B&O excise taxes.

rule making.

Interested parties can participate in the decision to adopt

changes is available upon request. Written comments on
and/or requests for copies of the rule may be directed to Ed

**PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF LICENSING**

[Filed October 17, 2000, 4:10 p.m.]

Subject of Possible Rule Making: Amendment of WAC 308-13-150 Landscape architect fees.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 18.96.080 Fees, RCW 43.24.086 Fee policy for professions, occupations and businesses; requires fees to be at a sufficient level to defray the costs of administering the program.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The examination vendor for

national examinations is the Council of Landscape Architect Registration Board (CLARB). CLARB will increase their examination fees yearly starting December 2000. This rule is needed to increase the charge that candidates pay for the examination and the department collects on the vendor's behalf. This is a national driven fee increase and not the request of the department.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Notification by the examination vendor that fees increased in December 2000. Fees are collected from candidates by the Department of Licensing, held in a pass-through account, and then reimbursed to the exam vendor after the exam has been conducted.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Margaret Epting, Department of Licensing, Business and Professions Division, Landscape Architect Registration Board, P.O. Box 9045, Olympia, WA 98507-9045, fax (360) 664-2551.

AMENDATORY SECTION (Amending WSR 97-08-021, filed 3/25/97, effective 4/25/97)

WAC 204-91A-140 Fees. (1) All towing fees shall be based on a flat, hourly rate only and shall apply without regard for the hour of day, day of the week or whether the service was performed on a Saturday, Sunday, or holiday. The hourly rate for each class of truck shall be the only charge for services performed for initial tows and secondary tows performed during business hours. Charges for secondary tows performed during nonbusiness hours, on weekends or holidays, if different from the hourly rate, shall be negotiated and agreed upon with the vehicle owner/agent before the tow is made.

(2) The chief of the state patrol shall, prior to October 15 of each year, establish maximum hourly towing rates for each class of tow truck and maximum daily storage rates that tow operators may charge for services performed as a result of state patrol calls. The maximum rates shall be determined after consulting with members of the towing industry, review of current private towing rates, and such other economic factors as the chief may deem appropriate.

When signed by the chief (or his/her designee) and the tow operator, a contractual agreement to charge no more than the maximum rates shall become part of the operator's letter of appointment. The tow operator may, however, adopt a rate schedule charging less than the maximum rates established by the chief.

The hourly rate shall:

(a) Be the only basis used to compute total charges for towing services.

(b) Apply when the call is made by the state patrol, for whatever reason, including but not limited to accidents, incidents, disableds, and impound requests.

(c) Include all ancillary activities such as, but not limited to, removal of glass and debris from the roadway and any other area referred to as the "scene or incident," necessary winching, dolly service, drive line removal, installing chains on the tow truck, installation of portable lights, vehicle hookup for towing or transporting, tire replacement (on vehicle to be towed) and standby time. Keys are made at the registered tow truck operator's expense, and shall not be charged on the lien.

(d) Be considered to include one person (the driver) per truck. Any charges for additional labor and/or ancillary vehicles (trailers, pickups, etc.), for removing debris, cargo, etc., must have prior authorization from the legal or registered owner/agent, or a member of the patrol at the scene.

(e) Be computed from the actual time the truck departs in response to a call until it returns to the starting location or it begins responding to another call minus any down time.* The hourly rate shall be applied to the resulting net time and, after the first hour, shall be rounded to the nearest fifteen

minutes. The operator may charge the hourly rate for the first hour or any portion thereof. After the first hour, no more than one-quarter of the hourly rate may be charged for each fifteen minutes of tow or service work performed.

*Down time includes coffee or meal breaks, personal errands by the operator, and/or any mechanical failure on the truck or equipment.

(3) The basic storage fee:

(a) Shall be calculated on a twenty-four-hour (~~basis and shall be charged to the nearest half day from the time the vehicle arrived at the secure storage area~~) clock. Vehicles stored over twelve hours on any given day within the twenty-four-hour clock shall constitute a full day's storage. Vehicles stored for less than twelve hours on any given day, shall be charged for twelve hours of storage; and

(b) Shall be the same for all three and four-wheel vehicles less than twenty feet in length; and

(c) For vehicles or combinations exceeding twenty feet shall be computed by multiplying each twenty feet of vehicle length, or any portion thereof, by the basic storage fee;

(d) For two-wheel motorcycles shall be one-half the basic storage fee for three and four-wheel vehicles.

(4) After hours release fee. If an operator or employee is already present, for other reasons, at the storage facility after business hours when a customer arrives, the vehicle and/or property shall be released as if it were during business hours. No "after hours fee" may be assessed. If the operator or employee is called to the place of business specifically for the purpose of releasing the vehicle and/or property, an "after hours fee," equivalent to one-half of the maximum Class "A" hourly rate, may be assessed.

(5) Any tow operator who charges the general public (i.e., private citizens) rates lower than those identified in the contractual agreement for services listed below shall charge the same lower rate for similar services performed as a result of state patrol originated calls.

(a) Roadside mechanical service, including fuel transfer, tire and belt changes, etc.;

(b) Disabled vehicle tow/transportation;

(c) Storage;

(d) After hours release fees.

Any such price requirement shall not be imposed for unoccupied vehicle situations in which the owner/operator has had no prior contact with either the state patrol or the tow operator.

AMENDATORY SECTION (Amending WSR 94-18-083, filed 9/2/94, effective 10/3/94)

WAC 204-91A-170 Minimum tow truck equipment standards. All tow/recovery trucks used by a registered tow operator for public or private impounds or in response to patrol requests shall meet the minimum standards as listed in this section.

Note: Equipment standards will be effective one year from the date of adoption.

(1) **Minimum standards:**

(a) All equipment used in conjunction with the tow truck winching system shall have a working load limit at least

twenty-five percent more than the working load limit of the wire rope being used. All equipment shall comply with the Washington safety and health administration (WSHA) regulation if applicable.

Note: Industry standards set the working load limit of wire rope at 1/5 of its nominal or breaking strength.

(b) Each wire rope shall be capable of being fully extended from and fully wound onto its drum.

Note: OSHA (1410.179(h)(2)(iii)) requires no less than two wraps of rope remain on drum when rope is "fully extended." This is to ensure the full load never bears on the rope to drum connection.

(c) All wire rope shall be 6 X 19 or 6 X 37 classification graded "extra improved plow steel" (XIP).

Notes: Documentation from the supplier must be kept on file showing the type of wire rope installed and the date of installation for each truck.

6 X 19 wire rope classification includes wire ropes with six strands having wire combinations from fifteen through twenty-six wires per strand but not more than twelve outer wires in each strand.

6 X 37 wire rope classification includes wire ropes with six strands having wire combinations from twenty-seven through forty-nine wires per strand but not more than eighteen outer wires in each strand.

(d) All wire rope shall be in good working order. The following industry standards for **out-of-service** criteria shall apply:

(i) No more than six randomly distributed broken wires in one rope lay, or more than three broken wires in one strand in one rope lay.

(ii) Excessive abrasion causing the loss of more than one-third the original diameter of an outside individual wire.

(iii) Evidence of rope deterioration from corrosion.

(iv) Kinking, crushing, or other damage that results in detrimental distortion of the rope structure.

(v) Any evidence of heat damage.

(vi) Any marked reduction in diameter either along the entire main length or in one section.

(vii) Unlaying or opening up of a tucked splice.

(viii) Core protrusion along the entire length.

(ix) End attachments that are cracked, deformed, worn, or loosened.

Note: Hooks must be replaced if the throat opening has increased beyond manufacturer recommendations, the load bearing point has been worn by ten percent, or the hook is twisted by more than ten degrees.

(x) Any indication of strand or wire slippage in end attachments.

(xi) More than one broken wire in the vicinity of fittings.

(e) Wire rope end connections shall be swaged or, if clamped, shall have a minimum of three forged clamps spaced a minimum of six rope diameters apart and attached with the base or saddle of the clamp against the longer or "live" end of the cable. The "U" bolt will be placed over the short or "dead" end of the rope and will be of the proper size for the cable being clamped.

Note: Wire rope clamps must be installed and torqued per manufacturer specifications.

(f) All wire rope related equipment, sheaves, etc., must conform to the diameter of the wire rope being used or to the original tow truck equipment manufacturer specifications.

(g) All winching equipment, snatch blocks, etc., shall have permanently affixed durable factory identification, stating working load limit (WLL). If this identification has been removed or is no longer readable, it is criteria for placing the item out-of-service. Equipment may be reinspected by a recognized recertification company. If the equipment is acceptable, it may be reidentified with a working load limit (WLL) and a recertification company identifier.

(h) All block and tackle equipment used in the winching system which shows signs of permanent deformation, significant wear or damage is criteria for placing the item out-of-service.

(i) All "J" hook chain assemblies must only be used with a sling lift system and be grade "7" chain or better.

To have a truck designated as class "S" the tow operator must submit a request for approval through the district commander to the section. The written request shall indicate why the truck is needed, what it will be used for, its size, purchased tonnage (if appropriate), capability, and the equipment carried or used with the truck. Gross vehicle weight rating of the class "S" truck will determine the appropriate equipment required.

If the district commander approves the request, the request will be forwarded with recommendations for equipment and/or operation instructions or limitations to the patrol for review and final approval. If approval is granted, the equipment shall be inspected as outlined in WAC 204-91A-040 with reports forwarded in the normal manner.

Note: If the provisions of this section require a change in classification for a previously approved tow truck, such change may be made upon the next annual reinspection. In any case, all tow trucks shall be correctly classified within one year of adoption of these rules.

AMENDATORY SECTION (Amending WSR 94-18-083, filed 9/2/94, effective 10/3/94)

WAC 204-91A-180 Vehicle towing/operator qualifications, restrictions, and requirements. In addition to the requirements contained in WAC 204-91A-170, tow truck operators appointed pursuant to this chapter shall conform to all laws and administrative rules pertaining to the tow industry and shall observe the following practices and procedures:

(1) When called by the patrol, the tow truck operator will dispatch a tow truck, from within the assigned zone, within

five minutes during normal business hours. Tow trucks must be registered to and belong to the particular tow business that is called and assigned to that tow zone only.

(2) Tow trucks dispatched at the request of the patrol after normal business hours will be on the move within the assigned zone within fifteen minutes after receiving the call.

(3) The tow truck that is dispatched will arrive at the stated location within a reasonable time considering distance, traffic, and weather conditions.

(4) If for any reason a tow operator is unable to dispatch a tow truck within the stated time or if the dispatched truck will be delayed for any reason, the operator shall so advise the patrol stating the reason and estimated time of arrival. In the event the tow truck fails to arrive at the scene within a reasonable time, the patrol will contact another tow operator to respond to the scene and will cancel the original tow.

(5) A tow operator on rotation who is unable to dispatch or arrive within the times stated in subsections (1), (2), (3), and (4) of this section will forfeit his turn and be placed at the bottom of the rotation list as if he had responded.

(6) Consistent refusal or failure of the appointee to respond to calls from the patrol for towing services and/or to provide the requested services may result in the suspension or revocation of the tow operator's letter of appointment.

(7) The tow operator shall advise the appropriate patrol office when the tow company is temporarily unavailable to respond to rotational calls with a class "A," "B," or "C" tow truck. Unavailability may occur due to conditions such as, but not limited to, other tow truck commitments, tow truck disabled and/or under repair, unforeseen driver shortage due to illness, etc. The period of unavailability may last less than an hour or much longer. The tow operator will give the reason for unavailability and approximately when the company will be available to respond to calls.

The tow company will be removed from the rotational list and will not be called until the operator advises the patrol that the company is once again able to respond to calls with an "A," "B," or "C" class truck. In all such cases, the tow company will resume its normal position on the rotational list without regard to any missed calls or its position prior to being unavailable.

(8) The tow operator will advise the patrol whenever a private call is received for a tow with circumstances that indicate that the tow is for a vehicle which has been involved in an accident, incident, or equipment breakdown on the public roadway. The tow operator also will advise the patrol of all private calls to motor vehicle accidents on private property resulting in bodily injury or death.

(9) The tow operator will notify the patrol before moving any vehicle involved in an accident on a public highway under the jurisdiction of the patrol as defined in the motor vehicle code, Title 46 RCW, or where it appears that the driver of the vehicle to be moved is under the influence of intoxicants or drugs, or is otherwise incapacitated.

A tow operator shall not solicit tow services by patroling the public roadways searching for disabled vehicles or vehicles involved in a traffic accident.

(10) When the patrol is in charge of an accident scene or other such incident, a tow operator shall not respond to such

PROPOSED

scene unless his services have been specifically requested by the patrol, the driver/owner, or his agent.

(11) The tow operator shall be available, or will ensure that specific employees are available, twenty-four hours a day for the purpose of receiving calls or arranging for the release of vehicles. Business hours will be posted conspicuously at the operator's place of business so they can be seen during business hours and nonbusiness hours. A copy will also be sent to the section and patrol district commander of the district in which the tow operator does business. Changes of business hours will be sent to the department, the section, and the patrol district commander ten days before their effective date.

(12) The tow operator will notify the appropriate patrol office of the release of stored vehicles within five working days after the release of such vehicle. Notification to the patrol will be made in such a manner as prescribed by the section commander.

(13) The operator shall post a current copy of tow and storage rates, on a form approved by the department and the patrol, in the following locations:

(a) At the entrance to the place of business, in a conspicuous location, plainly visible and readable by members of the public, whether the business is open or closed. If, in order to meet this requirement, the rate sheets must be placed in a location, exposed to the elements, they shall be protected so as to remain legible.

(b) Inside the business location, where business is commonly transacted. The rate sheets shall be posted in such manner as to be clearly and plainly visible and readable at all times by customers of the business.

(c) A copy of the current rates will be sent to the department, the section, and the patrol district commander of the district in which the tow operator has applied for a letter of appointment. Notice of any change(s) in service rates will be forwarded to the department, the section, and the district commander of the area ten days before the effective date of the changes. Charges made for towing services arising from calls initiated by the patrol shall be consistent with current posted towing rates and shall be based only upon services listed on the prescribed form.

(d) In the event that an operator has only a class "B" truck and utilizes it for class "A" and "B" type tows, the operator shall file a rate sheet that specifies the rates charged for the different types of tows.

Whenever any operator utilizes a larger truck than the towed vehicle warrants, the operator shall charge fees based on the size of the towed vehicle not the size of the truck used.

Example: A class "C" truck is used, at the operator's discretion, to tow a class "B" size vehicle. The fees charged shall be those for a class "B" truck NOT a class "C."

(14) Charges made for towing services arising from calls initiated by the patrol shall not exceed the maximum rates established by the chief.

(15) Unless other arrangements are made with commissioned patrol personnel at the scene, all impounded vehicles shall be taken to the tow operators nearest approved storage location.

(16) The tow operator will maintain, for three years, records on towed and released vehicles which were towed at the request of the patrol. This record will include, but not be limited to:

(a) An itemized receipt of all charges for the services provided.

(b) An inventory sheet or copy thereof made out by the trooper at the scene of the tow and signed by the operator.

(c) All other records required by the department.

Such records will be available for inspection by the patrol during normal business hours at the operator's place of business.

(17) The tow operator will sign an inventory sheet made out by the patrol officer at the scene.

(18) Tow operators will obtain and maintain current registration as a licensed tow truck operator pursuant to RCW 46.55.020.

(19) Tow operators shall perform towing tasks competently. The standard of competence shall be that quality of work which is accepted as efficient and effective within the towing industry.

(20) No tow operator, employee, or agent shall misappropriate, wrongfully convert to his/her own use, or abuse property belonging to another and entrusted to his/her care or storage.

(21) Tow truck operators will use emergency lights to warn other motorists only when at the scene of accidents, disabled vehicles, and/or recoveries. Such lighting shall not be used when traveling to or from the scene.

Tow truck operators shall wear work vests of highly visible materials, or equivalent distinguishing apparel as outlined in department of labor and industries WAC 296-24-07501 and 296-155-200(5).

(22) Tow truck operators shall be responsible for cleaning accident/incident scenes of all vehicle glass and debris.

(23) Specific operating restrictions and/or requirements, by truck class, are as follows:

(a) The standard air brake release tools (caging stud assemblies) required to be carried in the class "B" and "C" trucks shall be used, whenever necessary, to preserve potential evidence involving brake equipment or adjustment settings. When an operator is attempting to move a vehicle equipped with locked spring parking brakes that cannot be released by external air supply, the caging assemblies shall be used to release the brake tension. Under no circumstances shall the towed vehicle's brake assemblies or adjustments be moved or disturbed in any way that will prevent later determination of the preaccident or incident settings.

(b) Class "B" trucks in excess of twenty-three thousand pounds gross vehicle weight rating need not carry dollies when towing or recovering heavy vehicles.

(c) Class "D," "E," and "S" trucks shall not be used to respond to initial calls unless specifically authorized by patrol personnel at the scene or by local written policy approved by the district commander.

(d) Class "E" trucks shall:

(i) Have, when used for multiple vehicle towing/recovery (one on bed, one in tow) from the same location, all invoice charges evenly divided between the vehicles so transported;

(ii) Not be operated in excess of either gross vehicle weight rating or purchased tonnage weight limits;

(iii) Be required to carry its portable lights only when used in a towing mode.

(24) Whenever a "special event or overflow" storage lot is approved by the department, the patrol and appropriate city/county jurisdictions, the operator shall maintain personnel at the lot twenty-four hours per day for security and vehicle and/or personal property release. If necessary, reimbursement for such labor shall be part of the contract for the "special event" if appropriate or by amended storage rates with a waiver of the ten-day rate change notice requirement approved by the department and the patrol.

At the conclusion of a "special event or overflow" situation, all vehicles not reclaimed by the owner shall be towed to the operator's regular storage facility and processed in the normal fashion. No additional fee shall be charged for towing the vehicle from the overflow lot to the regular facility.

(25) All work performed by the operator and/or employee shall be in the most professional and expeditious manner. All invoices and other required forms shall be completed accurately and promptly.

(26) Tow operators shall, when required by the patrol or the department, cause to be displayed on each approved truck, decals indicating truck class, patrol district, and/or assigned tow zone.

PROPOSED RULES

DEPARTMENT OF AGRICULTURE

[Filed October 16, 2000, 9:36 a.m.]

Continuance of WSR 00-19-102.

Preproposal statement of inquiry was filed as WSR 99-17-104.

Title of Rule: Rules relating to noxious weed seed and plant quarantine, chapter 16-752 WAC.

Purpose: Amendment of existing rule to add species to the list of invasive, nonnative weed seed and plant species that are prohibited from distribution into or within the state. Also, clarification and update of rule language and taxonomy.

Statutory Authority for Adoption: Chapter 17.24 RCW, RCW 17.10.074 (1)(c).

Statute Being Implemented: Chapters 17.24, 17.10 RCW.

Summary: This schedules an additional hearing. The originally scheduled hearing on November 8 will also be held. This document also extends the date for written comment and the intended adoption date.

Name of Agency Personnel Responsible for Drafting: Mary Toohey, 1111 Washington Street, Olympia, WA 98504-2560, (360) 902-1907; Implementation and Enforcement: Tom Wessels, 1111 Washington Street, Olympia, WA 98504-2560, (360) 902-1984.

Name of Proponent: Washington State Noxious Weed Control Board and Washington State Weed Coordinators Association, public and governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The existing rule forbids distribution, sale, transportation, and other movement in channels of trade of thirty-two highly invasive, nonnative plants classified as noxious weeds. This is necessary to prevent or minimize introduction of these plants through the nursery or seed trade, as the cost of control or eradication would be significant, both to landowners and to local/state agencies. The amendments are intended to add another twenty-four species of equal or greater undesirability to the list. The anticipated result is exclusion and prevention of establishment of these noxious weed species.

Proposal Changes the Following Existing Rules: Proposal adds twenty-four new plant species to the list of species that are prohibited from distribution as whole plants, plant parts or seed. These additional species are all classified as noxious weeds in chapter 16-750 WAC, meaning that they cannot be grown in this state and that, if found, they are subject to levels of mandatory control measures as authorized by chapter 17.10 RCW. Twenty of these weeds are classified as Class A noxious weeds. Three of the others are Class B noxious weeds of such limited distribution that eradication from the state is still a possibility. The remaining one is not only a Class B noxious weed, but also a hybrid of two species already listed in WAC 16-752-610. In addition, clarifications and updates of format and taxonomic terminology are proposed.

No small business economic impact statement has been prepared under chapter 19.85 RCW. The rule change is a net financial benefit to the state and offers negligible (if any) net loss to the affected industries. This rule change is intended to exclude or minimize introduction of twenty-four invasive, nonnative plant species which are potentially extremely costly to the environmental quality and agricultural industry of the state. This rule proposal is a companion to the existing noxious weed statute and rules. Its effect would be the prohibition of sale and distribution of species that already cannot legally be grown in this state. If any of these plant species are found growing in this state, they are subject to control and eradication efforts that are costly to both landowners and county/state agencies. The rule provisions present negligible cost to the seed, nursery and allied industries, as they have no legitimate market for species which their customers are forbidden to grow. If these weeds are allowed to become established or to increase in this state, the immediate cost of dealing with the infestations would far outweigh the cost of implementing this rule proposal.

Section 201, chapter 403, Laws of 1995, does not apply to this rule adoption. The Washington State Department of Agriculture is not a listed agency in section 201.

Hearing Location: Washington State Department of Agriculture, Natural Resources Building, 1111 Washington Street, 1st Floor, Room 175A, Olympia, WA 98504-2560, on November 21, 2000, at 9:00 a.m.

Assistance for Persons with Disabilities: Contact Lou Jones by November 14, 2000, TDD (360) 902-1996, or (360) 902-1806.

PROPOSED RULES

HEALTH CARE AUTHORITY

[Order 00-02—Filed October 17, 2000, 9:29 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 00-12-045.

Title of Rule: Chapter 182-12 WAC, Eligible and noneligible employees.

Purpose: Amend WAC 182-12-119, defining eligible dependents to include same-sex domestic partners, and to simplify extended dependent eligibility; and amend WAC 182-12-132 to modify administration of the retiree program all in accordance with the May 23, 2000, vote of the Public Employees Benefits Board.

Statutory Authority for Adoption: Chapter 41.05 RCW.

Statute Being Implemented: RCW 41.05.160.

Summary: Modify eligibility requirements for calendar year contracts, allowing coverage for same-sex domestic partners, simplifying requirements for extended dependents, and modifying retiree options to allow waiver of coverage.

Reasons Supporting Proposal: These amendments are being made in accordance with the vote of the Public Employees Benefits Board on May 23, 2000.

Name of Agency Personnel Responsible for Drafting and Implementation: Michl Needham, Health Care Authority, 923-2735; and Enforcement: MaryAnne Lindeblad, Health Care Authority, 923-2640.

Name of Proponent: Health Care Authority, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: Language was added to add same-sex domestic partners to the definition of eligible dependents for coverage under the employee's benefit package to ensure equitable benefits for all employees. Extended dependent eligibility was simplified to ensure legally recognized dependents can be covered on the insurance despite their potential eligibility for Medicaid.

Retiree enrollment requirements were modified to allow greater flexibility for retirees and their dependents enrolled in other employer sponsored medical coverage. This rule change will bring retiree enrollment options in-line with the other enrollment requirements and allow for easier administration of the retiree program.

These amendments are being made to implement a vote of the Public Employees Benefits Board on May 23, 2000.

Proposal Changes the Following Existing Rules: The rule change will expand dependent eligibility to include same-sex domestic partners, streamline requirements for members making application for extended dependent enrollment, and remove the requirement for retiree's and their dependents enrolled in another employer sponsored medical plan to duplicate coverage by enrolling in a PEBB sponsored medical plan as a means to secure future access to the program.

These amendments implement a vote of the Public Employees Benefits Board on May 23, 2000.

No small business economic impact statement has been prepared under chapter 19.85 RCW. Not required. The Joint Administrative Rules Review Committee has not requested the filing of a small business economic impact statement, and there will be no costs to small businesses.

AMENDATORY SECTION (Amending Order 99-04, filed 9/8/99, effective 10/9/99)

WAC 182-12-119 Eligible dependents. "Eligible dependents." The following are eligible as dependents under the PEBB eligibility rules:

(1) Lawful spouse or "qualified domestic partner" (same sex domestic partner qualified through the declaration certificate issued by the health care authority).

(2) Dependent children through age nineteen. The term "children" includes the subscriber's natural children, stepchildren, legally adopted children, children for whom the subscriber has assumed a legal obligation for total or partial support of a child in anticipation of adoption of the child, children of the subscriber's qualified domestic partner, or children specified in a court order or divorce decree. Married children who qualify as dependents of the subscriber under the Internal Revenue Code, and extended dependents approved by the HCA are included. To qualify for HCA approval, the subscriber must demonstrate legal custody for the child with a court order, and:

(a) Be living with the subscriber in a parent-child relationship;

(b) Be dependent upon the subscriber for financial support; and

(c) ~~((Not be eligible for coverage under Medicare, Medicaid, or similar government entitlement programs; and~~

~~(d)))~~ Not be a foster child for whom support payments are made to the subscriber through the state department of social and health services (DSHS) foster care program.

(3) Dependent children age twenty through age twenty-three who are dependent upon the employee/retiree for maintenance and support, and who are registered students in full-time attendance at an accredited secondary school, college, university, vocational school, or school of nursing. Dependent student eligibility continues year-round for those who attend three of the four school quarters or two semesters and for the quarter following graduation provided the employee/retiree is covered at the same time; the dependent limiting age has not been exceeded; and the dependent meets all other eligibility requirements.

(4) Dependent children of any age who are incapable of self-support due to developmental or physical disability, pro-

vided such condition occurs prior to age twenty or during the time the dependent was covered under a PEBB plan as a full-time student. Proof of such disability and dependency must be furnished prior to the dependent's attainment of age twenty or loss of eligibility for student coverage, and as periodically requested thereafter.

(5) Dependent parents. Dependent parents covered under a PEBB medical plan before July 1, 1990, may continue enrollment on a self-pay basis as long as:

(a) The parent maintains continuous coverage in a PEBB-sponsored medical plan;

(b) The parent continues to qualify under the Internal Revenue Code as a dependent of an eligible subscriber;

(c) The subscriber who claimed the parent as a dependent continues enrollment in a PEBB program; and

(d) The parent is not covered by any other group medical insurance. Dependent parents may be enrolled in a different PEBB plan than that selected by the eligible subscriber; however, dependent parents may not add additional family members to their coverage.

(6) Surviving dependents.

(a) The following surviving dependents may continue their medical and dental coverages on a self-pay basis:

(i) If a dependent loses eligibility under a PEBB plan due to the death of the employee, the dependent(s) may continue coverage under a retiree plan provided the dependent(s) will immediately begin receiving a monthly benefit from any state of Washington-sponsored retirement system (the Federal Civil Service Retirement System shall be considered a Washington sponsored retirement system for Washington State University cooperative extension service employees who held a federal civil service appointment and who were covered under the PEBB program at the time of death).

(ii) If a surviving dependent of a PEBB employee is not eligible for a monthly retirement income benefit, or lump-sum payment because the monthly pension payment would be less than \$50, the dependent may be eligible for continued coverage under COBRA.

(iii) Dependents of retirees (~~covered under a PEBB plan~~) enrolled in the retiree's PEBB plan or waiving coverage under a PEBB plan while eligible for an employer sponsored medical plan at the time of the retiree's death are eligible to continue PEBB retiree coverage.

(iv) Surviving spouses and/or eligible dependent children of a deceased school district or educational service district employee who were not enrolled in a PEBB plan at the time of death may continue coverage provided the employee died on or after October 1, 1993 and the dependent(s) immediately began receiving a retirement benefit allowance under chapter 41.32 or 41.40 RCW.

(b) Application for surviving dependent(s) coverage must be made in writing on the enrollment form approved by the health care authority within sixty days from the date of death of the employee or retiree. Coverage is retroactive to the date the employee or retiree coverage terminated subject to the payment of the premium. In order to avoid duplication of group medical coverage, surviving dependents may defer or waive their enrollment in the PEBB coverage each full calendar month in which they maintain coverage under an employer sponsored medical plan. Notice of intent to waive

PROPOSED

PEBB coverage must be sent in writing to the Washington state health care authority. When an employer sponsored medical plan ends, surviving dependent(s) must submit an application to enroll in a PEBB plan within sixty days of the last day of coverage under the employer sponsored medical plan. Satisfactory evidence of continuous enrollment in an employer sponsored medical plan will be required by the Washington state health care authority prior to enrollment in a PEBB plan. The employee's or retiree's spouse or qualified domestic partner may continue coverage indefinitely; other dependents may continue coverage until they lose eligibility under PEBB rules.

AMENDATORY SECTION (Amending WSR 97-21-127, filed 10/21/97, effective 11/21/97)

WAC 182-12-132 ((Retirees returning to state employment.)) ~~Waiving or deferring coverage.~~ ((If a retiree returns to work and is again eligible for employer contributions towards their PEBB or Washington state school district sponsored benefits the retiree may cancel their retirement deduction for health coverage as soon as eligibility is established and the retiree is enrolled as an active employee. The retiree must maintain)) Retirees may waive PEBB medical and dental coverage for themselves and all dependents if they are covered under another comprehensive employer sponsored medical plan. (Other coverage may be attained through the retiree's reemployment or the spouse's employment.) In order to continue retiree term life coverage ((during active employment in order to retain it at retirement)), coverage must be selected upon retirement and premiums must continue to be paid during reemployment status. When the retiree again ceases active employment, the retiree ((must reenroll)) may enroll in ((a)) PEBB ((retiree plan)) medical and dental coverage with evidence of continuous coverage within ((60)) sixty days of the loss of coverage. Coverage will become effective the first of the month following the date other coverage ended.

PROPOSED RULES

DEPARTMENT OF AGRICULTURE

[Filed October 18, 2000, 9:49 a.m.]

Supplemental Notice to WSR 00-17-138.

Preproposal statement of inquiry was filed as WSR 99-11-058.

Title of Rule: Rules relating to the pesticide penalty matrix, WAC 16-228-1100 through 16-228-1160.

PROPOSED

Purpose: The rule ensures a fair and uniform method when assessing penalties for violations of the pesticide laws and rules. The proposed changes simplify and provide additional clarification to the existing rule. Changes will also provide an increased level of deterrence.

Statutory Authority for Adoption: Chapters 15.58 and 17.21 RCW.

Statute Being Implemented: Chapters 15.58 and 17.21 RCW.

Summary: Three previous hearings have been held related to the penalty matrix. As a result of testimony from these hearings this proposal differs from the previous proposal in several areas. Specifically this proposal reduces the amount of civil penalty and license suspensions when violations do not result in an adverse effect as compared to the previous proposal. This proposal also creates a new section entitled "Issuance of a civil penalty without first issuing a notice of correction." This section was added to clarify when the department may impose a civil penalty. This section also spells out the requirements of chapter 43.05 RCW. This proposal also makes minor changes for purposes of clarity in WAC 16-228-1120(7) and 16-228-1150. The primary purpose of these rules is to clarify and simplify the existing matrix. This is accomplished in part by consolidating the existing two matrices into one and eliminating the knowledge element as a factor. The amendments repeal the first level of violation, leaving only four levels on the matrix. The amendments also clearly separate days of license suspension from monetary fines by adding the words and/or in the first level of violation providing flexibility for WSDA.

Reasons Supporting Proposal: To provide clarification, to update and adjust penalties, and to increase deterrence effectiveness.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Cliff Weed, 1111 Washington Street, Olympia, WA 98504, (360) 902-2036.

Name of Proponent: Department of Agriculture, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The penalty matrix rule was originally established to provide an effective deterrent in relationship to the nature and magnitude of the violation. Specifically, the proposed changes to the rule clarify the manner in which a penalty is assessed. The changes also provide for slightly higher civil penalties and license suspensions. The proposal allows for the revocation of a license sooner than allowed by the existing matrix. The proposed changes will provide a greater level of deterrence and allow the department a better method to deal with repeat violators in a more effective manner.

Proposal Changes the Following Existing Rules: Definitions of "knowingly" and "unknowingly" are repealed, definitions of "civil penalty," "technical assistance" and "notice of correction" are added. A provision (aggravating factor) is added for "actions against licenses only" without also seeking a civil penalty. Two penalty assignment schedules are combined into one schedule, the first level of violations is repealed, and penalty determination is clarified. A new section is added to clarify notices of correction. Other proposed

changes include adding specific language concerning the length of license revocation, new language to address violations committed during a license suspension/revocation, and a new section concerning licensing actions only.

No small business economic impact statement has been prepared under chapter 19.85 RCW. The imposition of civil penalties and/or license suspensions on violators of the state pesticide laws and rules does not disproportionately impact small businesses. There is nothing mandatory in these rules that would require any business to expend additional funds to comply with these rules. Rather, the only way businesses will be effected by these rules would be if they violated the pesticide laws and rules. Therefore, no economic impact consideration is necessary.

Section 201, chapter 403, Laws of 1995, does not apply to this rule adoption. The Washington State Department of Agriculture is not a listed agency in section 201.

Hearing Location: Four DIS Interactive Technologies sites simultaneously via teleconference 1107 S.W. Grady Way, Suite 112, Renton, WA 98055; 710 Sleater-Kinney Road S.E., Suite Q, Lacey, WA 98503; North 1101 Argonne, Suite 109, Spokane, WA 99201; and 15 West Yakima Avenue, Suite 220, Yakima, WA 98902; on November 21, 2000, at 6:00 p.m.

Assistance for Persons with Disabilities: Contact Laurie Mauerma by November 13, 2000, TDD (360) 902-1996.

AMENDATORY SECTION (Amending WSR 99-22-002, filed 10/20/99, effective 11/20/99)

WAC 16-228-1110 Definitions—Penalty assignment.

In addition to the definitions set forth in RCW 17.21.020, 15.58.030, and WAC 16-228-1010, the following shall apply to WAC 16-228-1100 through 16-228-1150:

(1) "Adverse effect(s)" means ((~~the~~)) that the alleged activity actually causes, or creates the possibility of ((pesticide exposure that could cause)) damage ((or)), injury or public health threat, to humans, animals, plants, property or the environment. In those situations involving a wood destroying organism inspection, adverse effects exist when the inspection has been performed in a faulty, careless or negligent manner.

(2) (~~"Knowingly" means that the alleged violator knew or should have known that conditions existed that would result in adverse effect(s) or knew that a violation would occur.~~

(3) "Level of violation" means that the alleged violation is a first, second, third, fourth, ~~((fifth,))~~ or more violation(s).

(a) First violation. This means the alleged violator has committed no prior incident(s) which resulted in a violation

or violations within three years of committing the current alleged violation.

(b) Second violation. This means the alleged violator committed one prior incident which resulted in a violation or violations within three years of committing the current alleged violation.

(c) Third violation. This means the alleged violator committed two prior incidents which resulted in a violation or violations within three years of committing the current alleged violation.

(d) Fourth violation. This means the alleged violator committed three prior incidents which resulted in a violation or violations within three years of committing the current alleged violation.

(e) ~~(Fifth or more violation. This means the alleged violator committed at least four prior incidents which resulted in a violation or violations within three years of committing the current alleged violation.)~~

(4)) For purposes of calculating the level of violation, prior incidents will be measured from the date that a final order or stipulated order resolved the prior violation(s), and not from the date that the incident(s) occurred.

(3) "Not probable" means that the alleged violator's conduct more likely than not would not have an adverse effect.

~~((5))~~ (4) "Probable" means that the alleged violator's conduct more likely than not would have an adverse effect.

~~((6) "Unknowingly" means that the alleged violator did not act knowingly.)~~

~~((7))~~ (5) "Violation" means commission of an act or acts prohibited by chapter 17.21 RCW, chapter 15.58 RCW, and/or rules adopted thereunder.

(6) "Civil penalty" means a monetary penalty administratively issued by a regulatory agency for noncompliance with state or federal law, or rules. The term does not include any criminal penalty, damage assessment, wages, premiums, or taxes owed, or interest or late fees on any existing obligation.

(7) "Notice of Correction" means a document issued by the department that describes a condition or conduct that is not in compliance with chapter 15.58 or 17.21 RCW, or the rules adopted under the authority of chapter 15.58 or 17.21 RCW and is not subject to civil penalties as provided for in RCW 43.05.110. A notice of correction is not a formal enforcement action, is not subject to appeal and is a public record.

(8) "Notice of intent" means a document issued by the department that alleges specific violations of chapter 15.58 or 17.21 RCW, or any rules adopted under the authority of those chapters. A notice of intent is a formal enforcement document issued with the intent to assess civil penalties to the alleged violator and/or to suspend, deny or revoke the alleged violator's pesticide license.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear in the Register pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 16-228-1115 Application of RCW 43.05.100 and RCW 43.05.110—Issuance of a civil penalty without

first issuing a notice of correction (1) Pursuant to RCW 43.05.100 a notice of correction may be issued by the department when they become aware of conditions and/or conduct that are not in compliance with the applicable laws and rules enforced by the department. The issuance of a notice of correction by the department shall not constitute a previous violation for purposes of WAC 16-228-1110(2), but may, at the discretion of the department, be considered as an aggravating factor for the purposes of WAC 16-228-1120(2).

(2) Prior to issuing a civil penalty for a violation of chapter 15.58 or 17.21 RCW, and the rules adopted under the authority of chapter 15.58 or 17.21 RCW the department shall comply with the requirements of RCW 43.05.110. RCW 43.05.110 provides that the department of agriculture may issue a civil penalty provided for by law without first issuing a notice of correction if: (1) The person has previously been subject to an enforcement action for the same or similar type of violation of the same statute or rule or has been given previous notice of the same or similar type of violation of the same statute or rule; or (2) compliance is not achieved by the date established by the department in a previously issued notice of correction, if the department has responded to any request for review of such date by reaffirming the original date or establishing a new date; (3) the violation has a probability of placing a person in danger of death or bodily harm, has a probability of causing more than minor environmental harm, or has a probability of causing physical damage to the property of another in an amount exceeding one thousand dollars; or (4) the violation was committed by a business that employed fifty or more employees on at least one day in each of the preceding twelve months.

AMENDATORY SECTION (Amending WSR 99-22-002, filed 10/20/99, effective 11/20/99)

WAC 16-228-1120 Calculation of penalty. (1) Median penalty selection. In the disposition of administrative cases, the department shall ~~((determine the penalty by first determining))~~ use the penalty assignment schedule ~~((table))~~ listed in ~~((either))~~ WAC 16-228-1130 ~~((or 16-228-1140 that is applied based on the type of violation alleged))~~ to determine appropriate penalties. The department shall ~~((then determine the))~~ calculate the appropriate penalty ~~((range))~~ based on the level of violation~~((;))~~ and the adverse effect~~(s)~~ or potential adverse effects at the time of the incident~~(s)~~ giving rise to the violation~~((; and the knowledge of the alleged violator))~~. The median penalty ~~((is then selected as the penalty))~~ shall be assessed unless a proportionate adjustment is ~~((required))~~ warranted and/or there are aggravating or mitigating factors ~~((as provided herein))~~ present. The median penalty ~~((under Table A))~~ as listed in WAC 16-228-1130 may be proportionately adjusted and/or aggravated to a level more than the maximum penalty listed for the violation in the penalty assignment schedule table. The median penalty under ~~((Table B listed in WAC 16-228-1140 may be proportionately adjusted and/or aggravated to a level more than the maximum penalty listed for the violation. The median penalty under Table A and B))~~ The median penalty under the penalty assignment schedule may not be proportionately adjusted

and/or mitigated to a level less than the minimum penalty listed for the violation.

(2) Proportionate adjustment of median penalty.

(a) The department reserves the right to proportionately increase the civil penalty and proportionately decrease the licensing action ((when)) under certain circumstances ((in the particular case demonstrate the ineffectiveness of the licensing action as a deterrent including but not limited to violations by persons who are not licensed and violations by certified private applicator(s), or proportionately decrease the civil penalty and proportionately increase the licensing action when circumstances in the particular case demonstrate the ineffectiveness of a civil penalty action as a deterrent)). Such circumstances include situations where licensing action(s) as a deterrent are ineffective and include, but are not limited to:

(i) Violations by persons who are not licensed; and

(ii) situations where the civil penalty assessed is not substantially equivalent to the violator's economic benefit derived from the violation.

(b) The department also reserves the right to proportionately decrease the civil penalty and increase the licensing action in circumstances that demonstrate the ineffectiveness of a civil penalty as a deterrent. Nothing shall prevent the department from proportionally adjusting a licensing action to a level greater than the maximum licensing action listed in the penalty assignment schedule.

(3) Aggravating factors. The department may consider circumstances enhancing the penalty based on the seriousness of the violation((, including,)). Aggravating factors include, but are not limited to, the following:

(a) ((Each separate additional incident of violation(s) alleged within a single notice of intent to have been committed by the alleged violator within the same calendar year.)) The number of separate alleged violations contained within a single notice of intent.

(b) The high magnitude of the harm, or potential harm, including quantity and/or degree, to humans, animals, plants, property or the environment caused by the violation(s).

(c) The similarity of the current alleged violation to previous violations ((that occurred)) committed within the last three years ((of the current alleged violation)).

(d) The extent to which the alleged violation is part of a pattern of the same or substantially similar conduct ((by others which necessitates a greater deterrent factor)).

(4) When the department determines that one or more aggravating factors are present, the department may assess the maximum penalty as listed within the level of violation or may, in its discretion, increase the penalty to a level greater than the maximum penalty, including but not limited to revocation of the license.

(5) Mitigating factors. The department may consider circumstances reducing the penalty based upon the seriousness of the violation ((including, but)). Mitigating factors include but are not limited to, the following:

(a) ((A)) Voluntary disclosure of a violation ((by the alleged violator)).

(b) The low magnitude of the harm, or potential harm, including quantity and/or degree, caused by the violation.

(c) Voluntary taking of remedial measures that will result in increased public protection, or that will result in a decreased likelihood that the violation will be repeated.

(6) When the department determines that one or more mitigating factors are present, the department may assess the minimum penalty for the violation from the penalty schedule.

(7) The department considers each violation to be a separate and distinct event. When a person has committed multiple violations, the violations are cumulative for purposes of calculating the appropriate penalty. Penalties are added together.

(8) Violation(s) committed during the period when an individual's license is suspended or revoked shall be subject to the maximum civil penalty of seven thousand five hundred dollars and/or revocation of the license for a period of up to five years. Violation(s) committed by unlicensed individuals are subject to the provisions of this chapter, including the penalty provision.

Reviser's note: RCW 34.05.395 requires the use of underlining and deletion marks to indicate amendments to existing rules. The rule published above varies from its predecessor in certain respects not indicated by the use of these markings.

Reviser's note: The typographical error in the above section occurred in the copy filed by the agency and appears in the Register pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 16-228-1125 Revocation and denial of licenses—Actions against licenses only. (1) The department retains the sole discretion to determine when an individual license should be revoked rather than suspended. Revocation of a license shall be an option for the department in those circumstances where:

(a) The penalty schedule allows for revocation;

(b) One or more aggravating factors are present; and/or

(c) The duration of the licensure action exceeds six months.

In circumstances where the department determines revocation to be appropriate, the period of revocation shall be determined at the discretion of the department, but in no instance shall the revocation exceed five years.

(2) The department may deny an applicant a license when the applicant has committed a violation(s) of chapters 15.58 and 17.21 RCW and/or the rules adopted under those chapters. The duration of denial shall be determined based upon the penalty provisions of this chapter. In circumstances where the department determines denial to be appropriate, the period of denial shall not exceed five years.

(3) Nothing shall prevent the department from denying an applicant a license when the applicant has an outstanding civil penalty owed to the department from a previous violation(s).

(4) The department may, at its discretion, suspend a license without also seeking a civil penalty. Such circumstances include, but are not limited to, those incidents where a civil penalty is not available as an appropriate penalty pursuant to RCW 43.05.110. The appropriate period of suspension shall be determined from the penalty schedule.

(1) The 1999 edition of the National Electrical Code (NFPA 70 - 1999) including Appendixes A, B, and C, the 1996 edition of Centrifugal Fire Pumps (NFPA 20 - 1996), the 1996 edition of Emergency and Standby Power Systems (NFPA 110 - 1996), Commercial Building Telecommunications Cabling Standard (ANSI/TIA/EIA 568-A-latest edition), Commercial Building Standard for Telecommunications Pathway and Spaces (ANSI/TIA/EIA 569-A-latest edition), Commercial Building Grounding and Bonding Requirements for Telecommunications (ANSI/TIA/EIA 607-latest edition), Residential and Light Commercial Telecommunications Wiring Standard (ANSI/TIA/EIA 570-latest edition), and the National Electrical Safety Code (NESC C2-1997 excluding Appendixes A and B) are hereby adopted by reference as part of this chapter. Other codes, manuals, and reference works referred to in this chapter are available for inspection and review in the Olympia office of the electrical section of the department during business hours. The requirements of this chapter will be observed where there is any conflict between this chapter and the National Electrical Code (NFPA 70), Centrifugal Fire Pumps (NFPA 20), the Emergency and Standby Power Systems (NFPA 110), ANSI/TIA/EIA 568-A, ANSI/TIA/EIA 569-A, ANSI/TIA/EIA 607, ANSI/TIA/EIA 570, or the National Electrical Safety Code. The National Electrical Code will be followed where there is any conflict between Centrifugal Fire Pumps (NFPA 20), Emergency and Standby Power Systems (NFPA 110), ANSI/TIA/EIA 568-A, ANSI/TIA/EIA 569-A, ANSI/TIA/EIA 607, ANSI/TIA/EIA

570, or the National Electrical Safety Code and the National Electrical Code (NFPA 70).

(2) Electrical inspectors will give information as to the meaning or application of the standards in subsection (1) of this section and this chapter, but will not lay out work or act as consultants for contractors, owners, or users.

(3) The department may enforce city electrical ordinances where those governmental agencies do not make electrical inspections under an established program.

NEW SECTION

WAC 296-46A-092 General definitions. (1) **All definitions listed in the National Electrical Code and chapter 19.28 RCW are recognized in this chapter unless specific definitions are given in this chapter.**

(2) **"Electrical equipment"** includes electrical conductors, conduit, raceway, apparatus, materials, components, and other electrical equipment.

(3) **"Fished Wiring"** is when cable or conduit is installed within the finished surfaces of an existing building or building structure (e.g., wall, floor or ceiling cavity).

tion excludes equipment and components integral with non-HVAC/refrigeration control systems and line voltage branch circuits, feeders, services, panelboards, and disconnect switches supplying the HVAC/refrigeration system.

(5) **"Field evaluated"** means equipment has been evaluated and identified by a laboratory approved by the state of Washington for the appropriate equipment standard per chapter 296-402A WAC.

(6) **"Final judgment"** means any money that is owed to the department under this chapter or any money that is owed the department as a result of an individual's or a contractor's unsuccessful appeal of an infraction. Final judgment also includes any penalties owed the department as a result of an infraction not appealed or any outstanding fees due under this chapter.

(7) An **"installation"** includes the act of installing, connecting, repairing, modifying, or otherwise performing work on an electrical system, component, equipment, or wire except as allowed by WAC 296-46A-940.

(8) An **"identification plate"** is a phenolic or metallic plate or other similar material engraved in block letters at least 1/4" (6mm) high unless specifically required to be larger by this chapter, suitable for the environment and application. The letters and the background must be in contrasting colors. Screws, rivets, or methods specifically described in chapter 296-46A WAC must be used to affix an identification plate to the equipment or enclosure.

(16) **"Under the control of a utility"** for the purposes of RCW 19.28.091 is when electrical equipment is owned by the utility or when electrical equipment is not owned by a utility and:

(a) Is located in a vault, room, closet, or similar enclosure that is secured by a lock or seal so that access is restricted to the utility's personnel; or

(b) The utility is obligated by contract to maintain the equipment and the contract provides that access to the equipment is restricted to the utility's personnel or other qualified personnel.

(17) **"Utility"** means an electrical utility.

(18) **"Utility system"** means electrical equipment owned by or under the control of a serving utility that is used for the transmission or distribution of electricity from the source of supply to the point of contact.

Interlocal agreements for traffic management systems must be filed with the department prior to work being performed for this provision to apply.

(5) Jurisdictions, with an established electrical inspection authority, and WSDOT may perform electrical inspection on their rights-of-way for each other by interlocal agreement. They may not perform electrical inspection on other rights-of-way except as allowed in chapter 19.28 or 39.34 RCW.

(6) Underground installations.

(a) In other than open trenching, raceways will be considered "fished" according to the NEC and do not require visual inspection.

(b) Inspections in open trenching will be conducted by the department within its jurisdiction. The electrical work permit purchaser must coordinate the electrical inspection. A

written request (e.g., letter, e-mail, fax, etc.) for inspection, made to the department office having the responsibility to perform the inspection, must be made a minimum of two working days prior to the inspection need (e.g., two working days - 10:00 a.m. Tuesday request for a 10:00 a.m. Thursday inspection, excluding holidays and weekends).

If, after proper written request, the department fails to make an electrical inspection at the time requested, underground conduit may be covered after inspection by the local government jurisdiction's project inspector/designee. Written documentation of a local government jurisdiction inspection must be provided to the department when requested. Written documentation will include:

(8) Conductors of different circuits in same cable, enclosure, or raceway.

All traffic management system circuits will be permitted to occupy the same cable, enclosure, or raceway without regard to voltage characteristics, provided all conductors are insulated for the maximum voltage of any conductor in the cable, enclosure, or raceway.

NEW SECTION

WAC 296-46A-110 Identification methods. (1) Each cable operating at over 600v and installed on customer owned systems must be legibly marked in a permanent manner at each termination point and at each point the cable is accessible. The required marking must use phase designation, operating voltage, and circuit number if applicable.

(2) Where electrical equipment is installed to obtain a series combination rating, the identification as required by Article 110-22 NEC, must be in the form of an identification plate that is substantially yellow in color. WAC 296-46A-140 Plan review for educational, institutional or health care facilities and other buildings.

(1) Plan review is a part of the electrical inspection process; its primary purpose is to determine that loads are calculated per the proper NEC or WAC article or section and that conductors and equipment are adequately sized and rated to the calculated load.

(2) All electrical plans for new or altered electrical installations in educational, institutional, and health or personal care occupancies classified or defined in this chapter must be reviewed and approved before the electrical installation or alteration is begun.

(3) All electrical plans for educational, hospital and nursing home occupancies must be prepared by, or under the direction of, a consulting electrical engineer registered under chapter 18.43 RCW, and chapters 246A-320, 180-29, and 388-97 WAC and stamped with the engineer's mark and signature.

(4) Plans for these electrical installations within cities that perform electrical inspections within their jurisdiction, and provide an electrical plan review program that equals or exceeds the department's program in plans examiner minimum qualifications per chapter 19.28 RCW, must be submitted to that city for review rather than to the department, unless the agency licensing or regulating the installation specifically requires review by the department.

(5) Refer plans for department review to the Electrical Inspection Section, Department of Labor and Industries, P.O. Box 44460, Olympia, Washington 98504-4460.

(6) Approved plans must be available on the job site for use during the electrical installation or alteration and for use by the electrical inspector.

(7) Plans to be reviewed by the department must be legible, identify the name and classification of the facility, clearly indicate the scope and nature of the installation and the person or firm responsible for the electrical plans. The plans must clearly show the electrical installation or alteration in floor plan view, include switchboard and/or panelboard schedules and when a service or feeder is to be installed or altered, must include a riser diagram, load calculation, fault current calculation and interrupting rating of equipment. Where existing electrical systems are to supply additional loads, the plans must include documentation that proves adequate capacity and ratings. The plans must be submitted with a plan review submittal form available from the department. All required fees will be paid after the review is completed. Approved plans will be returned when all fees are paid.

(8) Plan review for new or altered electrical installations of other types of construction may be voluntarily requested by the owner or electrical contractor.

(9) For existing structures where additions or alterations to feeders and services are proposed, Article 220-35(1) NEC may be used. If Article 220-35(1) NEC is used, the following is required:

(a) The date of the measurements.

(b) A statement attesting to the validity of the demand data, signed by a professional electrical engineer or the electrical administrator of the electrical contractor performing the work.

(c) A diagram of the electrical system identifying the point(s) of measurement.

(d) Building demand measured continuously on the highest-loaded phase of the feeder or service over a thirty-day period, with demand peak clearly identified. (Demand peak is defined as the maximum average demand over a fifteen-minute interval.)

(10) Due to their minimal load requirements, plan review of the following limited energy systems will not be required: Fire alarm, nurse call, intrusion or security alarm, intercom, public address, music, energy management, programmed clock, or telecommunications.

(11) When the service or feeder load calculation is affected five percent or less by the addition or alteration of five or less branch circuits, plan review for the branch circuits may be requested from the department's local inspection office. Permission for such small project plan review may be granted at the discretion of the electrical inspection field supervisor, the plans examiner supervisor, or the chief electrical inspector.

WAC 296-46A-517 Health care facilities. In health care facilities, the following methods must be used to determine adequate capacity and ratings of equipment providing electrical power for the essential electrical systems defined in Article 517 NEC:

(1) Systems in new facilities:

(a) Emergency system: The emergency branch must consist of two branches known as:

(i) Life safety system: The feeder conductors and equipment used to supply electrical power to the life safety branch must be determined by summation of the connected loads as determined by Article 220 NEC and may not be subjected to any reduction due to the diversity of the loads. Feeder and equipment will be subject to a 125% multiplier for continuous loads in accordance with Article 220 NEC.

(ii) Critical branch system: The feeder conductors and equipment must be calculated in accordance with Article 220 NEC, including a level of diversity as determined by Article 220 NEC.

(b) Equipment branch: The feeder conductors and equipment used to supply electrical power to the equipment branch of the essential electrical system must be calculated in accordance with Article 220 NEC, including a level of diversity as determined by Article 220 NEC.

(c) Generator sizing: The rating of the generator(s) supplying electrical power to the essential system of a health care facility must be the summation of the loads determined in (a) and (b) of this subsection with no additional demand factors applied. Momentary X-ray loads may be ignored if the generator is rated at least 300% of the largest momentary X-ray load connected.

(2) Existing essential systems in facilities to which additional load is to be added:

(a) Existing loads: The existing loads of the separate branches of the essential electrical system may be determined by WAC 296-46A-140.

(b) Added loads: Added loads to the separate branches of the essential electrical system must be determined by subsection (1) of this section.

(c) Generators: Generators supplying electrical power to the essential electrical system must be determined by the summation of the loads determined by (a) and (b) of this subsection with no additional demand factors applied.

NEW SECTION**WAC 296-46A-550 Mobile/manufactured homes. (1)**

An electrical service installed on the mobile/manufactured home:

(a) Must be installed only by the manufacturer, at the manufacturing plant. The manufacturer must complete the service except for service connections, meter, and grounding electrode conductor.

(b) The completion of the service, at the site, must be made by the owner or electrical contractor.

(2) All alterations to the mobile/manufactured home electrical system must be permitted and inspected by the factory assembled structures section of the department. If the field installed conductors extend from the mobile/manufactured home, an electrical work permit and electrical inspection is also required.

NEW SECTION**WAC 296-46A-553 Boat moorages, floating buildings, and similar installations. (1)**

Docks, wharves, boat moorages, floating buildings, and similar facilities in addition to complying with the appropriate sections of Article 553 or 555 NEC must have a readily accessible service rated disconnect located on the shoreline within sight of the dock, wharf, boat moorage, floating building, or similar facility.

NEW SECTION

WAC 296-46A-702 Optional standby systems. Optional standby systems derived from portable generators must meet all of the requirements of Article 702 NEC.

NEW SECTION

WAC 296-46A-900 Electrical work permits and fees.

(1) When an electrical work permit is required by chapter 19.28 RCW or this chapter, inspections may not be made, equipment must not be energized, or services connected unless:

(a) A valid electrical work permit is completely and legibly filled out and readily available;

(b) The classification or type of facility to be inspected and the exact scope and location of the electrical work to be performed are clearly shown on the electrical work permit;

(c) The address where the inspection is to be made is clearly identifiable from the street, road or highway that serves the premises; and

(d) Driving directions and/or a legible map must be provided for the inspectors' use.

(2) Final inspection approval will not be made until all inspection fees are paid in full.

(3) An electrical work permit is valid for only one specific site address.

(4) A valid electrical work permit must be posted on the job site at a readily accessible and conspicuous location prior to beginning electrical work and at all times until the electrical inspection process is completed.

(5) Except for emergency repairs to existing electrical systems, electrical work permits must be obtained and posted at the job site prior to beginning the installation or alteration. An electrical work permit for emergency repairs to existing electrical systems must be obtained and posted at the job site no later than the next business day after the work is begun.

(6) Electrical work permits will expire one year after the date of purchase unless electrical work is actively and consistently in progress and inspections requested. Refunds are not available for expired electrical work permits or for electrical work permits where the electrical installation has begun, or an electrical inspection or electrical inspection request has been made.

(7) Fees must be paid in accordance with the inspection fee schedule, WAC 296-46A-910.

(8) Each person, firm, partnership, corporation, or other entity must furnish a valid electrical work permit for the installation, alteration, or other electrical work performed or to be performed by that entity. Each electrical work permit application must be signed by the electrical contractor's administrator (or designee) or the person, or authorized representative of the firm, partnership, corporation, or other entity that is performing the electrical installation or alteration. Permits purchased electronically do not require a handwritten signature. An entity designated to sign electrical permits must provide written authorization of the purchaser's designation when requested by the department.

(9) When allowed by the chief electrical inspector, annual permits for the inspection of telecommunications installations may be purchased by a building owner or licensed electrical/telecommunications contractor. Telecommunications work may be done under this annual permit by the building owner, the owner's regular employees, or a licensed electrical/telecommunications contractor. The permit holder is responsible for correcting all installation deficiencies. The permit holder must make available to the electrical inspector records of all the telecommunications work performed and the valid electrical or telecommunications contractor license numbers for all contractors working under the permit.

(10) Permits to be obtained by customers. Whenever a serving electrical utility performs work for a customer under one of the exemptions in WAC 296-46A-935 and the work is subject to inspection, the customer is responsible for obtaining all required permits.

(11) As required by chapter 19.28 RCW or this chapter, an electrical work permit is required for the installation, alteration, or maintenance of electrical systems except for: Plug-in appliances, travel trailers, or like-in-kind replacement of a: Circuit breaker, fuse, lamp, snap switch, receptacle outlet,

heating element, lighting fixture ballast with an exact same ballast, contactor, relay, timer, starter, similar control component, or motor.

(12) An electrical work permit is required for all installations of telecommunications systems on the customer side of the network demarcation point for projects greater than ten telecommunications outlets. All backbone installations regardless of size and all telecommunications cable or equipment installations involving penetrations of fire barriers or passing through hazardous locations require permits and inspections. For the purposes of determining the inspection threshold for telecommunications projects greater than ten outlets, the following will apply:

(a) An outlet is the combination of jacks and mounting hardware for those jacks, along with the associated cable and telecommunications closet terminations, that serves one workstation. In counting outlets to determine the inspection threshold, one outlet must not be associated with more than six standard four-pair cables or more than one twenty-five-pair cable. Therefore, installations of greater than sixty four-pair cables or ten twenty-five-pair cables require permits and inspections. (It is not the intent of the statute to allow large masses of cables to be run to workstations or spaces serving telecommunications equipment without inspection. Proper cable support and proper loading of building structural elements are safety concerns. When considering total associated cables, the telecommunications availability at one workstation may count as more than one outlet.)

(b) The installation of greater than ten outlets and the associated cables along any horizontal pathway from a telecommunications closet to work areas during any continuous ninety-day period requires a permit and inspection.

(c) All telecommunications installations within the residential dwelling units of single-family, duplex, and multifamily dwellings do not require permits or inspections. In residential multifamily dwellings, permits and inspections are required for all backbone installations, all fire barrier penetrations, and installations of greater than ten outlets in common areas.

(d) No permits or inspections are required for installation or replacement of cord and plug connected telecommunications equipment or for patch cord and jumper cross-connected equipment.

(e) Definitions of telecommunications technical terms will come from chapter 19.28 RCW or the currently adopted rules, EIA/TIA standards, and NEC.

(13) Requests for inspections must be made no later than three business days after completion of the electrical/telecommunications installation or one business day after any part of the installation has been energized, whichever occurs first. Inspections for annual electrical maintenance permits and annual telecommunications permits may be done on a regular schedule arranged by the permit holder with the department.

(2) If the application is not approved, the notice will include an explanation of the reasons for rejection. If the applicant disagrees with the subcommittee's decision, a reconsideration hearing by the electrical board may be requested. The request must be received by the board forty-five days before a regularly scheduled board meeting (see RCW 19.28.311). All additional information to be considered must be submitted not less than thirty days before the board hearing.

(3) Continuing education course hours presented and/or completed before approval by the subcommittee cannot be used to meet the electrician certificate renewal requirements.

NEW SECTION

(1) The department of labor and industries ensures that employers and employees comply with the requirements of chapter 19.28 RCW, Electricians and electrical installations, and chapter 296-401B WAC, Certification of competency for journeyman electricians, by inspecting electrical job sites. To do this, inspections are made by the department's compliance officers or electrical inspectors.

(2) Compliance officers or electrical inspectors determine whether:

- (a) Each person doing electrical work on the job site has a proper journeyman, specialty, or training certificate or permit;
- (b) The ratio of certified journeyman/specialty electricians to the certified trainees on the job site is correct; and
- (c) Each certified trainee is directly supervised by an individual with a journeyman or appropriate specialty certificate of competency or permit for the type of electrical work being performed.

(1) If the compliance officer or electrical inspector determines that an individual, employer, or employee has violated chapter 19.28 RCW, Electricians and electrical installations, or chapter 296-401B WAC, Certification of competency for journeyman electricians, the department will issue a citation that describes the reason for the violation. A cease and desist order may be issued by the compliance officer or electrical inspector if the individual, employer, or employee continues to violate the law.

(2) Individuals, employers, and employees may appeal the citation or cease and desist order by requesting a hearing pursuant to RCW 19.28.131, 19.28.271, 19.28.341, 19.28.381, and/or 19.28.490.

(4) If the individual, employer, or employee disobeys the cease and desist order, the department will apply to superior court for a court order enforcing the cease and desist order. If the individual, employer, or employee disobeys the court order, the department may request the attorney general to apply to the superior court for an order holding the individual, employer, or employee in contempt of court.

The collector rings shall be factory produced with an equipment grounding segment having a voltage and current rating that equals or exceeds the rating of the current carrying segments. Collector rings shall have an ampacity not less than one hundred twenty-five percent of the full-load current of the largest device served plus the full-load current of all other devices served. Collector rings for control and signal purposes shall have an ampacity not less than one hundred twenty-five percent of the full-load current of the largest device served plus the full-load current of all other devices served.

(6) Equipment grounding. All noncurrent carrying metal parts of amusement rides and structures shall be grounded by an equipment grounding conductor routed with the feeder or circuit conductors in accordance with the National Electrical Code and these rules. The metallic structure shall not be used as a current carrying conductor.

EXCEPTION: The metallic structure shall be permitted to be used as the return path for low voltage systems that do not exceed thirty volts, provided that the ungrounded conductors are protected by an overcurrent device in accordance with the National Electrical Code and the system is factory built for such use.

(7) Existing amusement rides, concessions or games electrical systems shall comply with the National Electrical Code and shall be maintained in full compliance. Where new

amusement rides, concessions or games are purchased, manufactured or constructed, or where existing rides, concessions or games have major modification, the electrical system shall comply with this chapter and the edition of the National Electrical Code in effect at that time. Statutory Authority for Adoption: RCW 49.17.010, [49.17].040, and [49.17].050; chapter 239, Laws of 2000 (ESHB 2647) and chapter 34.05 RCW.

Statute Being Implemented: Chapter 49.17 RCW.

Summary: See Purpose above.

Reasons Supporting Proposal: See Purpose above.

Name of Agency Personnel Responsible for Drafting: Tracy Spencer, Tumwater, (360) 902-5530; Implementation and Enforcement: Michael A. Silverstein, Tumwater, (360) 902-5495.

Name of Proponent: Department of Labor and Industries, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: See Purpose above.

Proposal Changes the Following Existing Rules: See Purpose above.

No small business economic impact statement has been prepared under chapter 19.85 RCW. From "Discussion of Economic Impact" dated September 20, 2000, and prepared by Greg Nothstein, Legislative Economist, Legislative and Government Affairs Office, Department of Labor and Industries: New rules and rule amendments must meet the requirements of the Regulatory Fairness Act (RFA), chapter 19.85 RCW and the Administrative Procedure Act (APA), chapter 34.05 RCW. One of the requirements of the RFA is that the economic impact of proposed regulations on small businesses be examined relative to their impact on large businesses. The agency must prepare a small business economic impact statement (SBEIS) when a proposed rule, or rule amendments, have the potential of placing a more than minor economic impact on business. A related requirement in the APA demands an evaluation of the probable costs and benefits of a proposed regulation and that it be shown that these probable benefits exceed the probable costs: Process referred to as a cost-benefit analysis (CBA). A number of criteria and exemptions were established for both the SBEIS analysis and the CBA analysis. One key criteria (RCW 34.05.328 (5)(b)(v)) are that "explicitly and specifically dictated by statute" are not subject to the SBEIS and CBA requirements. Because the proposed rule adopts into rule requirements specified in ESHB 2647 it is my conclusion that neither a SBEIS nor a CBA are required.

A copy of the statement may be obtained by writing to Greg Nothstein, Economic Analyst, Department of Labor and Industries, P.O. Box 44001, Olympia, WA 98504-4001, phone (360) 902-6805, fax (360) 902-4202.

RCW 34.05.328 does not apply to this rule adoption. Although the proposed amendments are considered "significant legislative rules" under RCW 34.05.328, the requirements of that section do not apply because the content of the proposed amendments is "explicitly and specifically dictated by statute," see RCW 34.05.328 (5)(b)(v).

Hearing Location: Department of Labor and Industries Building, Auditorium, 7273 Linderson Way S.W., Tumwater, WA, on November 27, 2000, at 1:30 p.m.; and at Cavanaugh's Inn at the Park, Skyline Room, 303 West North River Drive, Spokane, WA, on November 29, 2000, at 1:30 p.m.

(4)(a) Employees working on asphalt paving crews (~~when they are~~) exposed to extreme temperatures from hot mix and (~~when they are~~) not exposed to falling objects (~~need~~) do not have to wear protective hard hats. (~~Flaggers working in conjunction with asphalt paving operations shall wear protective hard hats.~~)

(b) Flaggers working with asphalt paving operations must comply with the requirements of WAC 296-155-305.

(5) Caps with metal buttons or metal visors shall not be worn around electrical hazards.

(6) Employees working near moving machinery or in locations which present a hair-catching or fire hazard shall wear caps, nets or other head and face protection that will completely contain the hair.

AMENDATORY SECTION (Amending Order 93-04, filed 9/22/93, effective 11/1/93)

WAC 296-155-305 Signaling and flaggers. (~~Flaggers-~~

~~(1) When operations are such that signs, signals, and barricades do not provide the necessary protection on or adjacent to a highway or street, flaggers or other appropriate traffic controls shall be provided.~~

~~(2) Signaling directions by flaggers shall conform to American National Standards Institute D6.1-1988, Manual on Uniform Traffic Control Devices for Streets and Highways, as amended by the Washington state department of transportation. (M24-01 (HT).)~~

~~(3) Hand signaling by flaggers shall be by use of sign paddles at least 18 inches in diameter with series "C" letters at least 6 inches high or lights approved by the transportation commission. When hand signaling is done in periods of darkness, the sign paddles must be reflectorized or illuminated as required by ANSI D6.1-1988, Manual on Uniform Traffic Control Devices. The "STOP" side of the paddle shall have a red background with white lettering. When a paddle has a "SLOW" side, the background shall be orange and the lettering black. Colors shall conform to ANSI D6.1 current edition.~~

~~(4) Flaggers shall wear an orange warning garment and a yellow protective helmet while flagging. Warning garments worn at night shall be of reflectorized material. Yellow is specified as the color of helmets; the issue is clearly one of high visibility. Other colors providing equal visibility than the specified yellow will be acceptable. The iridescent or reflectorized hard hats, available in several colors, which provide "high visibility" in both day and night applications, will meet standard specifications.~~

~~(5) Each flagger shall be trained every three years in accordance with the American National Standards Institute (ANSI) D6.1-1988 Manual on Uniform Traffic Control Devices as amended by the Washington state department of transportation (M-24-01 (HT)).~~

Note: Personnel that have not completed a flagging course may be assigned duties as flaggers only during emergencies when a sudden, generally unexpected, set of circumstances demands immediate attention.

~~(6) Each flagger shall have in their possession a valid certificate which verifies completion of the training prescribed in subsection (5) of this section. Each certificate shall contain the date the card expires.)~~ (1) Except as otherwise required in these rules, traffic control devices, signs and barricades must be set up by a qualified person (a qualified person is someone trained in and familiar with the provisions of Part VI of the MUTCD) and used according to the guidelines and recommendations in the Federal Highway Administration's:

Manual on Uniform Traffic Control Devices (MUTCD), 1988 Edition-Revision 3, Part VI, Standards and Guides for Traffic Controls for Street and Highway Construction, Maintenance, Utility, and Incident Management Operations.

• You may read a copy of the MUTCD at any department of labor and industries (L&I) service location.

(2)(a) Flaggers or other appropriate traffic controls must be used when signs, signals, and barricades do not provide necessary protection from traffic at operations on or adjacent to a highway or street.

(b) Flaggers are to be used only when other reasonable traffic control methods will not adequately control traffic in the work zone.

(3) Flagger signaling directions must conform to the guidelines and recommendations of MUTCD, 1988 Edition-Revision 3, Part VI, as amended by the Washington state department of transportation (WSDOT) pamphlet, "Washington State Modifications to the MUTCD." (M 24-01)

(4)(a) Flagger hand signaling must be either sign paddles or lights approved by WSDOT.

(b) When sign paddles are used, they must comply with the requirements of MUTCD, 1988 Edition-Revision 3, Part VI. Specifically, sign paddles:

- Must be at least 18 inches in diameter;
- Printed with letters at least 6 inches high;
- The "STOP" side of the paddle must have a red background with white lettering; and
- The "SLOW" side of the paddle must have an orange background with black lettering.

(c) When hand signaling is used during periods of darkness, sign paddles must be retroreflectorized or illuminated in the same manner as signs.

(5)(a) While flagging during daylight hours, a flagger must, at a minimum, wear:

- A high visibility safety garment designed according to Class 2 specifications in ANSI/ISEA 107-1999, American National Standard for High-Visibility Safety Apparel. Specifically, a garment containing at least 775 square inches of background material and 201 square inches of retroreflective material. The acceptable high visibility colors are fluorescent yellow-orange, fluorescent orange-red or fluorescent red; and
- A high visibility hard hat. The acceptable high visibility colors are white, yellow, yellow-green, orange or red.

(b) While flagging during hours of darkness, a flagger must at least wear:

- A high visibility safety garment designed according to Class 2 specifications in ANSI/ISEA 107-1999 over white coveralls, or other coveralls or trousers designed according to ANSI/ISEA 107-1999 standards; and
- A high visibility hard hat that is marked with at least 12 square inches of retroreflective material providing 360 degrees of visibility.

(c) During inclement weather, white rain gear or rain gear designed according to ANSI/ISEA 107-1999 may be substituted for white coveralls.

• You may read a copy of ANSI/ISEA 107-1999 at any Washington state library.

(6)(a) Each flagger must be trained every three years.

(b) Flagger training must be based upon the Manual on Uniform Traffic Control Devices-1988 as amended by the Washington state department of transportation pamphlet, "Washington State Modifications to the MUTCD." (M 24-01)

(c) Personnel that have not completed a flagger-training course may be assigned duties as flaggers only during emergencies when a sudden, generally unexpected, set of circumstances demands immediate attention. Such emergency assignments are temporary and last only until a qualified person can be put into the position.

(7)(a) Each flagger must have in their possession either a valid Washington traffic control flagger card or a valid flagger card from a state, such as Oregon, Idaho or Montana, having flagger training reciprocity with Washington.

(b) The flagger card must show:

- Verification that the flagger training prescribed in subsection (6) of this section is completed; and
- The card's expiration date.

(8) The employer, responsible contractor and/or project owner must develop and use a method to ensure that whenever there is any potential hazard associated with construction equipment, flaggers have adequate warning of such equipment approaching from behind the flagger.

Note: The following are some nonmandatory examples of methods that may be used to adequately warn flaggers:

- Mount a mirror on the flagger's hard hat.
- Use a motion detector with an audible warning.
- Use a spotter.

Regardless of the method chosen, employees must be trained. However, training alone is not a sufficient method for complying with this rule. Also, standard backup alarms are already required on construction equipment and, therefore, are not a sufficient method for complying with this rule.

(9)(a) The employer, responsible contractor and/or project owner must conduct an orientation that familiarizes the flagger with the job site each time the flagger is assigned to a new project or when job site conditions change significantly. The orientation must include, but is not limited to:

- The flagger's role and location on the job site;
- Motor vehicle and equipment in operation at the site;
- Job site traffic patterns;
- Communications and signals to be used between flaggers and equipment operators;
- On-foot escape route; and
- Other hazards specific to the job site.

(b) When flaggers are used on a job site on a roadway allowing speeds of 45 mph or more and the job will last more than one day, the employer, responsible contractor and/or project owner must keep on-site, a current site specific traffic control plan. The purpose of this plan is to help move traffic through or around the construction zone in a way that protects the safety of the traveling public, pedestrians and workers. The plan must include, but is not limited to, such items as:

- Sign use and placement;
- Application and removal of pavement markings;
- Construction;
- Scheduling;
- Methods and devices for delineation and channeliza-

tion;

- Placement and maintenance of devices;
- Placement of flaggers;
- Roadway lighting;
- Traffic regulations; and
- Surveillance and inspection.

(10) For flagging operations a three (3) sign advance warning sequence is required, and a four (4) sign advance warning sequence is required on roadways with a 45 mph speed limit or higher.

(11) To protect flaggers, employers, responsible contractors and/or project owners must ensure that:

(a) Flagger workstations are illuminated during hours of darkness by floodlights. It is important to adequately illuminate the workstation without creating glare in the eyes of approaching drivers. The adequacy and proper placement of floodlights can best be determined by driving through and observing the workstation from each direction on the roadway.

(b) Warning signs reflect the actual condition of the work zone. When not in use, warning signs should either be taken down or covered.

(c) Flaggers are not assigned other duties while engaged in flagging activities.

(d) Flaggers do not use devices (e.g., cell phones, pagers, radio headphone, etc.) that may distract the vision, hearing, or attention of the flagger. Devices such as two-way radios used for communications between flaggers to direct traffic or ensure flagger safety are acceptable.

(e) Flaggers receive appropriate breaks from flagging so they can remain attentive and alert.

AMENDATORY SECTION (Amending Order 94-07, filed 7/20/94, effective 9/20/94)

WAC 296-155-625 Site clearing. (1) General.

(a) The word "clearing" means the removal of trees, stumps, logs, brush, debris and rubbish from the surface of the ground in preparation of a site for construction work of any kind. The removal of trees and logs shall be in accordance with the requirements of chapter 296-54 WAC.

(b) All equipment and tools such as axes, sledges, wedges, saws, springboards, etc., shall be maintained in a safe condition and guarded with standard safeguards.

(c) Fallers shall give warning to brushing crews, buckers and other persons in the vicinity where a tree is being felled; taking notice that such persons are not only out of the reach of tree, but also out of danger of possible sidewinders, snags or other trees which may be knocked over by the tree being felled.

(d) ~~((No))~~ Trees ((shall)) must not be felled toward and within range of a traveled road or operational railroad ((in use;)) unless a flagger is ((placed on such road or railroad)) used to ((warn)) stop all approaching persons ((or to stop)), vehicles, or railroad equipment. Flaggers and flagging activ-

ities at the site must comply with the requirements of WAC 296-155-305.

(e) Clearing crews shall not be placed immediately below other crews working on hillsides where there is a possible danger of skidding or rolling trees, moving earth or rock.

(f) Pioneer roads on clearing operations shall be constructed to safely accommodate all equipment moved over road.

(g) Hazardous standing and down timber, rocks, etc., shall be moved from upper sides of cuts on side hill operations.

(h) Care shall be exercised in the use of oil for burning brush or timber.

(i) Employees engaged in site clearing shall be protected from hazards of irritant and toxic plants and suitably instructed in the first-aid treatment available.

(j) All equipment used in site clearing operations shall be equipped with rollover guards meeting the requirements of this chapter. In addition, rider-operated equipment shall be equipped with an overhead and rear canopy guard meeting the following requirements:

(i) The overhead covering on this canopy structure shall be of not less than 1/8-inch steel plate or 1/4-inch woven wire mesh with openings no greater than 1 inch, or equivalent.

(ii) The opening in the rear of the canopy structure shall be covered with not less than 1/4-inch woven wire mesh with openings no greater than 1 inch.

(iii) Use of 1/2 inch thick plastic sheets or other thicknesses of plastic panels derived from polycarbonate, acrylic, cellulose acetate butyrate which provides equivalent or better protection against particular hazards involved is acceptable in lieu of 1 or 1 3/4 inch open mesh material.

(A) All panels shall be installed in a manner which can withstand the initial impact, and maintain the protective barrier integrity; and

(B) All panels must be labeled or marked to distinguish between acceptable and inferior materials.

(k) In addition to observance of the general safety and health standards;

(i) The employer shall assume the responsibility of work assignment so that no worker shall be required to work in a position or location so isolated as to not be within ordinary calling distance of another person who can render assistance in case of emergency. In any operation where cutting, felling trees, loading, or a combination of these duties is carried on, there shall be a minimum crew of two persons who shall work as a team and shall be in visual or voice contact with one another. If one worker at these operations is required to be left alone for a period of time, the worker shall be contacted by another person at reasonable intervals not to exceed fifteen minutes unless such practice can be established to be impractical.

(ii) This does not apply to operators of motor vehicles, watchpersons or certain other jobs which, by their nature, are singular worker assignments. However, a definite procedure for checking the welfare of all workers during working hours shall be instituted and all workers so advised.

PROPOSED

WSR 00-21-104
PROPOSED RULES
DEPARTMENT OF HEALTH

[Filed October 18, 2000, 10:31 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 00-10-112.

Title of Rule: Water works operator certification regulation, chapter 246-292 WAC.

Purpose: The purpose of this rule is to adopt the 1996 amendments to the federal Safety Drinking Water Act (SDWA) regarding operator certification requirements as specified in the United States Environmental Protection Agency (EPA) guidance.

Statutory Authority for Adoption: Chapter 70.119 RCW.

Statute Being Implemented: Chapter 70.119 RCW.

Summary: The regulations will require new certified operators for some Group A community water systems. This change affects primarily groundwater systems serving less than 100 connections and nontransient noncommunity (NTNC) systems. All operators will be required to demonstrate basic levels of competence through evaluation of education and experience prior to becoming certified, by either qualifying under the grandparenting option or by passing a standardized test. Some professional growth requirements (CEUs) have been modified. The rule has also been revised to allow suspension of certification, in addition to the existing revocation requirement.

Reasons Supporting Proposal: These rule changes are required to maintain primacy with EPA and to sustain federal funding.

Name of Agency Personnel Responsible for Drafting: Lisa Raysby, P.E., Department of Health, Drinking Water, (360) 236-3147; Implementation: Cheryl Bergener, Program Manager, Department of Health, Drinking Water, (360) 236-3137; and Enforcement: John Aden, Compliance Lead Worker, Department of Health, Drinking Water, (360) 236-3157.

Name of Proponent: Washington State Department of Health, governmental.

Rule is necessary because of federal law, 64 F.R. 5916 - 5921.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule will require all Group A public community and nontransient noncommunity (TNTC) public water systems, and transient noncommunity (TNC) water systems that are designated as significant noncompliers (SNCS) to have a certified operator; and will modify professional growth requirements for certified operators. The legislative intent of chapter 70.119 RCW states that: "In order to protect the public health and conserve and protect the water resources of the state, it is necessary to provide for the classifying of all public water systems; to require the examination and certification of the persons responsible for the technical operation of such systems; and to provide for the promulgation of rules and regulations to carry out this chapter." The purpose of this rule is to implement the specific requirements of chapter 70.119 RCW and the SDWA while attempting to meet their goals

and objectives. The anticipated effect of this rule is to improve public health by requiring certified personnel to manage and operate drinking water systems.

Proposal Changes the Following Existing Rules: The proposed revisions require a certified operator for all Group A community and nontransient noncommunity public water systems, and implements the statutory requirement (chapter 70.119 RCW) to have a certified operator for transient noncommunity public water systems that are significant noncompliers. The revisions also update the purification plant criteria, change classification of very small water systems (<100 connections), require very small water systems to meet operator certification requirements, modify the existing classification structure for operators and change some education, training, and professional growth requirements. The revisions change examination administration, add a new section on grandparenting existing operators which includes an expiration date for the section, add suspension as an enforcement option, clarify existing rule requirements, and add definitions.

A small business economic impact statement has been prepared under chapter 19.85 RCW.

Small Business Economic Impact Statement

Background: The water works operator certification regulation, chapter 246-292 WAC, sets requirements for certified operators for all Group A community water systems serving one hundred or more connections and all surface water systems. In 1997, the legislature amended RCW 70.119.060 and expanded the authority to require certified operators, by rule or otherwise, for significant noncompliers (SNCs), and all Group A water systems providing treatment other than simple disinfection. This requirement has not been incorporated into chapter 246-292 WAC.

The legislature also authorized the department to require certified operators for all Group A systems as necessary to conform to federal law or implementing rules or guidelines. The new federal guidelines promulgated by the Environmental Protection Agency (EPA) under the 1996 amendments to the Safe Drinking Water Act (SDWA), Public Law 104-182, require states to have certified operators for all Group A community and Nontransient Noncommunity (NTNC) water systems.

The SDWA amendments of 1996 give states two years from the time EPA publishes final guidelines to adopt state regulations. Since EPA promulgated its final guidance in February 1999 (Federal Register, Vol. 64, No. 24, February 5, 1999, Notices, Part III), Washington and other states have until February 2001 to adopt necessary regulations and begin implementing an operator certification program that meets the requirements of the federal guidelines.

The greatest impact is the requirement for each very small community and NTNC water system to have a certified operator. The department estimates that about 2,000 new certified operators will come under this requirement (assuming only one new certified operator per system). However, this estimate could be as high as 4,000 new certified operators depending on whether EPA requires a back-up designated operator and water systems voluntarily choose to have

PROPOSED

more than one certified operator. These new operator certification program requirements result in almost a four-fold increase in water systems regulated and at least a two-fold increase in certified operators.

A 1998 Association of State Drinking Water Agencies (ASDWA) study supports operator certification, training and education. The two best management practices with the strongest correlation to fewer coliform detections were correction of deficiencies identified by sanitary surveys and operator certification. The three best management practices associated with significant reduction of total coliform-positive samples were (1) maintaining a disinfectant residual; (2) operator training; and (3) correcting deficiencies identified by the state as part of a sanitary survey. This study also evaluated the effectiveness of best management practices with regard to system size. For systems serving less than five hundred people, regular training and education of operators, along with correction of deficiencies identified by the state, were the most significant in reducing microbial contamination.

1. Is an SBEIS necessary? The Regulatory Fairness Act (chapter 19.85 RCW) states that a small business economic impact statement (SBEIS) is required whenever a regulation imposes "more than minor" costs on a regulated business. The "more than minor" threshold varies by industry from \$50 to \$300.

For this rule proposal, the cost per system will be \$83.00 for systems with fewer than six hundred one services. The cost per operator for certification includes the application, examination, and renewal fees and charges. These expenses will range from \$55.00 to \$85.00 for the first year and from \$102.00 to \$178.00 for each subsequent year. These expenses include the operator meeting the professional growth requirements of the rule.

Many of the businesses affected by this rule currently employ staff to operate their drinking water systems in addition to other job activities. Operating the water system is a small portion of the staff's total responsibilities. Because staff are already employed and the proportion of the job responsibilities for operating the water system is relatively small, staff salaries should not be affected. The costs associated with certification will most likely be borne by the business and are identified above. The total cost of this rule per system then ranges from \$185 to \$261 per year.

As indicated on the table below, there are a large variety of business types affected by this rule ranging from nursing homes and schools to farms and aluminum manufacturers. The department believes it reasonable to assume that among these business types, some may face "more than minor" costs as a result of this proposed rule. For this reason an SBEIS has been completed.

2. Does the proposed rule affect both large and small businesses? With certain restrictions, the act requires government agencies to provide regulatory relief whenever a rule imposes a disproportionate cost burden on small businesses. The Regulatory Fairness Act further defines a business as any entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of

making a profit." The act defines a small business as one that employs less than fifty individuals.

The greatest impact of the proposed rule is the requirement for each very small community and NTNC water system to have a certified operator. For the purposes of this rule, a very small community water system is one which serves ninety-nine connections or less. These systems typically employ one or two individuals who are in charge of the day-to-day operations of the water system. For these businesses, there are none with more than fifty employees¹.

Examples of NTNC water systems include a school, day care center, business, factory, motel, or restaurant. A review of the department's drinking water database indicates that there are one hundred nine for-profit NTNC water systems. Below is a complete list of for-profit NTNC water systems grouped by business type. Of the business types listed, the department believes it reasonable to assume that the proposed rule will affect both large and small businesses.

3. Does the proposed rule impose disproportionate cost on small businesses? The department recognizes that for the majority of the systems affected by this rule, their only business is serving water. For the much smaller group affected, the water system is not their primary business. Competition among these NTNCs is highly unlikely due to the special nature of their circumstance[,] businesses of the same type using their own water system. However, because it is possible there could be competition among business type of both small and large businesses, the department is proposing mitigative measures as described in item four below.

4. Measures to mitigate the proposed rule's disproportionate cost impact on small businesses: Measures that the department chose to reduce the impacts to the water systems and operators include: (1) Allowing for grandparenting of operators under certain circumstances for only a specified time period; (2) use of EPA state revolving funds to subsidize costs for newly impacted and existing systems serving up to 3,300 people for at least the first three years of implementation for operators to become certified and take training to meet their professional growth requirement; and (3) a proposal to offset (waive) the system fee for the first year for all water systems that are impacted for the first time by this regulation. The proposed rule will not cause any business to lose business.

5. How did the department involve the public in the development of the proposed rule? In developing the proposed language for the revised regulation on operator certification, the department has worked extensively with stakeholder groups over the past two years. Over thirty workshops, conferences, or meetings have occurred since 1998 with numerous organizations, including: Water Works Operator Certification Advisory Committee; Water Supply Advisory Committee; Small Water System Advisory Committee; Investor Owned Utility Association; Pacific Northwest Section of the American Water Works Association; Washington Association of Water and Sewer Districts; Washington Public Utility District Association; and Evergreen Rural Water of Washington. The department will also be holding two public hearings in December.

¹The industry standard is to have one full-time employee for a community water system with 250 connections or less.

A copy of the statement may be obtained by writing to Lisa Raysby, Washington State Department of Health, P.O. Box 47822, Olympia, WA 98504-7822, phone (360) 236-3147, fax (360) 236-2252.

RCW 34.05.328 applies to this rule adoption. RCW 34.05.328 provides certain exemptions from the requirement to prepare a significant analysis. Parts of the rule are exempt from this requirement because they "correct typographical errors, make address or name changes, or clarify language of a rule without changing its effect," or adopt "by reference without material change ... national consensus codes that generally establish industry standards." Congress directed the EPA to establish guidelines instead of rules and further provided that the state must adopt and implement the requirements of the guidelines in order to maintain federal funding of the state DWSRF grant. The operator certification guidelines developed through the EPA qualify as a national consensus code. However, where the state exercises flexibility in relation to elements not detailed in the guidelines, those aspects of the proposed rule have been carefully reviewed and cost-benefit and other analyses have been prepared.

PROPOSED RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Medical Assistance Administration)
[Filed October 18, 2000, 10:36 a.m.]

Supplemental Notice to WSR 00-14-064.
Preproposal statement of inquiry was filed as WSR 99-06-043.

Title of Rule: WAC 388-533-0500 Planned home births—Pilot project.

Purpose: WAC 388-533-0500 was previously proposed with other maternity-related rules in chapter 388-533 WAC under WSR 00-14-064. Since the rules were proposed, MAA decided to cover planned home births only as part of a pilot project. This draft includes the approval process and minimum requirements for providers and clients to participate in the pilot project.

Statutory Authority for Adoption: RCW 74.08.090.

Statute Being Implemented: RCW 74.09.760 through 74.09.800.

Summary: This rule provides another option for birthing locations for clients and their providers participating in the planned home births pilot project.

Reasons Supporting Proposal: MAA expanded the birthing options offered to eligible clients, and decided that a pilot project was the best way to monitor the program, its effectiveness, and the results.

Name of Agency Personnel Responsible for Drafting: Leslie Saeger, MAA/RIP, P.O. Box 45533, Olympia, WA 98504, (360) 725-1347; Implementation and Enforcement: Bev Atteridge, MAA/DHSQS, P.O. Box 45506, Olympia, WA 98504, (360) 725-1575.

Name of Proponent: Department of Social and Health Services, Medical Assistance Administration, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed rule establishes a pilot project to cover planned home births. The rule establishes minimum requirements for providers who want to participate in the project, establishes risk screening criteria for clients who want to participate in the project, and requires providers to send an outcome report to an MAA-designated quality assurance/quality improvement organization for each client for whom a home birth is planned.

Proposal does not change existing rules.

No small business economic impact statement has been prepared under chapter 19.85 RCW. MAA reviewed the proposed rules and concluded that the impact of the proposed rules will not place "a more than minor impact on businesses." MAA program managers surveyed the service providers who will bear most of the impact of the addition of the home birth option and they have agreed with MAA's assessment.

RCW 34.05.328 applies to this rule adoption. MAA has determined that the proposed rules qualify as "significant legislative rules." Therefore, MAA has analyzed the probable costs and the probable benefits of the proposed rules, taking into account both the qualitative and quantitative benefits and costs. MAA's analysis revealed that no new costs will be imposed, existing costs will not be increased, and benefits to businesses will not be decreased.

WSR 00-21-109**PROPOSED RULES****DEPARTMENT OF****SOCIAL AND HEALTH SERVICES**

(Medical Assistance Administration)

[Filed October 18, 2000, 10:38 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 00-11-034.

Title of Rule: WAC 388-556-0600 Mental health services.

Purpose: The department originally intended to renumber WAC 388-548-0500 (adopted as an emergency under WSR 00-11-036) as WAC 388-548-0100 Mental health-related services, and update the policy contained in the rule. However, during the process of developing the rule, discussions with the Mental Health Division (MHD) revealed that MAA's rule was no longer current, and that a cross-reference to MHD's rules would be the best way to avoid duplication and to direct users to the correct rule.

Statutory Authority for Adoption: RCW 74.08.090, 74.09.530, 71.24.035.

Statute Being Implemented: RCW 71.24.035, 74.09.530.

Summary: The department, in cooperation with the Mental Health Division (MHD), has determined that the best way to avoid duplication is to use a cross-reference to direct users to MHD chapter 388-862 WAC for current policy on mental-health related services for eligible clients.

Reasons Supporting Proposal: To meet the mandates in the Governor's Executive Order 97-02 and to avoid duplication of rules.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Ann Myers/DPS/RIP, P.O. Box 45533, Olympia, WA 98504-5533, (360) 725-1345.

Name of Proponent: Department of Social and Health Services, Medical Assistance Administration, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed rule cross-references the Mental Health Division rules that apply to eligible clients. The purpose is to avoid duplicating the rules of another division. The anticipated effect is to refer the user to the correct rule.

Proposal does not change existing rules.

No small business economic impact statement has been prepared under chapter 19.85 RCW. The department has analyzed the proposed rule and concludes that no new costs will be imposed on the businesses affected by it.

RCW 34.05.328 does not apply to this rule adoption. The department has analyzed the proposed rule and concludes that it does not meet the definition of a "significant legislative rule."

Summary: The Division of Child Support has reviewed all the rules in chapters 388-11, 388-13, and 388-14 WAC under the Governor's Executive Order 97-02. As part of the review, DCS intends to repeal those rules which are no longer needed, revise those which need to be revised for clarity and usability, and establish a new chapter 388-14A WAC, which will put all of the rules relating to the Division of Child Support into one chapter. This will entail repealing the entirety of chapters 388-11, 388-13, and 388-14 WAC. Certain of DCS's rules have been adopted under Executive Order 97-02 and will be renumbered but not otherwise revised. Shown above is a list of rules indicating which rules are being repealed, and a list of the new rules in chapter 388-14A WAC.

PROPOSED RULES

DEPARTMENT OF ECOLOGY

[Order 99-05—Filed October 18, 2000, 10:46 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 99-15-093.

Title of Rule: Instream resources protection program—Lower and Upper Skagit Water Resources Inventory Area (WRIA 3 and 4). The proposed rule sets instream flows that will condition future water rights.

Purpose: Establishment of instream lows for the Lower and Upper Skagit mainstem and Cultus Mountain tributaries. All pending and subsequent water right applications will be conditioned to the instream flows, if applicable.

Other Identifying Information: Ecology and others believe rules to protect the salmon runs must be adopted, where appropriate, as soon as practicable.

Statutory Authority for Adoption: Chapters 43.21A, 43.27A, 90.03, 90.44, 90.54 RCW.

Statute Being Implemented: RCW 90.54.020 (3)(a).

Summary: The proposed rule protects fish habitat in both the Lower Mainstem Skagit River and estuary areas. Water rights issued in the Lower and Upper Skagit watershed (WRIA 3 and 4) after the effective date of the rule must be consistent with the proposed instream flow rule, and could limit future diversions during low-flow periods of the year.

Reasons Supporting Proposal: The instream flows were developed through a collaborative effort among ecology, other state agencies, a workgroup formed under an MOA (which also worked with experts to identify appropriate instream flows), and affected tribes. The rule adoption pro-

PROPOSED

cess has been coordinated by ecology's Skagit watershed lead.

Name of Agency Personnel Responsible for Drafting: Rod Sakrison, NWRO/SEA, (425) 649-4447; Implementation and Enforcement: Dan Swenson, NWRO/WR, (425) 649-7270.

Name of Proponent: Washington State Department of Ecology, governmental.

Agency Comments or Recommendations, if any, as to Statutory Language, Implementation, Enforcement, and Fiscal Matters: To implement the Skagit Instream Flow Committee's recommendation to limit all out-of-stream diversions to a biologically-safe amount, ecology made a determination of water availability, taking into account existing water rights.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed rule would establish instream flows for the Lower Skagit Mainstem and Cultus Mt. Tributaries that will affect future water use in the entire Lower and Upper Skagit Watershed (WRIA 3 and 4). All pending and subsequent water right applications if approved would be subject to the proposed rule, if applicable. A determination of water availability is proposed to be established, based on a recommendation to limit total out-of-stream diversions to a biologically-safe amount. Existing water rights would not be affected, but would form the base of current water use that is subtracted from the amount of total allowable withdrawals to derive the amount of water available for new water rights. The determination of water availability ensures the protection of fisheries habitat and ecological processes, and provides for a certain amount of future water appropriations. The proposed rule would affect all future water use, if not exempted. It would not affect existing, legally-authorized water use.

Certain secondary effects of urbanization may be caused by issuance of new water rights (e.g., destruction of wetlands from urban stormwater flows). Local and state efforts will continue to attempt to eliminate, minimize or mitigate these potential secondary adverse environmental effects. There are currently ninety-three water right applications for ground water and surface water pending in the Lower and Upper Skagit River Watershed (WRIAs 3 and 4). Water rights processing can resume once the proposed instream flow and water availability determination rule has been adopted. With the adoption of the proposed rule, new water rights could be issued from the waters determined to be available.

Proposal does not change existing rules.

No small business economic impact statement has been prepared under chapter 19.85 RCW. The proposed rule establishes instream flows for rivers and streams in the Skagit Basin, identifies a maximum rate of withdrawal (during September) consistent with protection of the ecology of the Skagit River delta and tentatively identifies the amount of water still available for future consumptive withdrawal taking into account best available information about existing water rights and claims. Nothing in this rule has an inherent disproportionate impact on small versus large businesses. Under Washington law, pending applications for new water rights are dealt with in the order of their filing dates. Thus,

one's place at the permit window is the determining factor - not the size or type of activity or businesses engaged in by the applicant.

Costs are, of course, imposed on water right applicants by delay in dealing with their applications. These consist of foregone or delayed returns from proposed activities and, in some cases, of carrying costs on investment capital. These will occur with or without the proposed rule. Again, the magnitude of the costs borne in each individual case depends upon the temporal priority of the applicant in the process - not the size or type of business involved.

Some applicants for new consumptive withdrawals from the Skagit system may bear a cost in the form of risks that their application may be denied (in whole or in part) due to unavailability of water. Again, this same risk exists with or without the proposed rule. However, the 200 cubic feet per second of water estimated to remain available for consumptive withdrawal exceeds the volume of water associated with currently pending water right applications in the Basin. Thus, unless the water availability finding changes in the near future, such risks are not likely to be incurred for some time.

Section 201, chapter 403, Laws of 1995, applies to this rule adoption. These rules are significant under RCW 34.05.328 because they establish standards for the issuance of water right permits.

Hearing Location: Skagit Valley Community College, Room F 101, Ford Hall, 2405 East College Way, Mt. Vernon, on Wednesday, November 29, 2000, at 7:00.

Date of Intended Adoption: February 7, 2001.

Chapter 173-503 WAC
INSTREAM RESOURCES PROTECTION PROGRAM—LOWER AND UPPER SKAGIT WATER RESOURCES INVENTORY AREA (WRIA 3 AND 4)

NEW SECTION

WAC 173-503-010 General provision. These rules apply to waters within the Lower and Upper Skagit water resources inventory area (WRIA 3 and 4), as defined in WAC 173-500-040, excluding the Samish River subbasin, Fidalgo, Guemes, Cypress, Hope and Goat islands. This chapter is promulgated pursuant to chapter 90.54 (Water Resources Act of 1971), chapter 90.22 RCW (Minimum water flows and levels), and chapter 173-500 WAC (Water resources management program).

NEW SECTION

WAC 173-503-020 Purpose. The purpose of this chapter is to retain perennial rivers, streams, and lakes in the Lower and Upper Skagit water resources inventory area and Cultus Mt. Tributaries with instream flows and levels necessary to provide for the protection and preservation of wildlife, fish, scenic, aesthetic, and other environmental values, and navigational values, as well as recreation and water quality.

Chapter 90.54 RCW (Water Resources Act of 1971) requires that utilization and management of waters of the state be guided by a number of fundamentals, including:

Uses of water for domestic, stock watering, industrial, commercial, agricultural, irrigation, hydroelectric power production, mining, fish and wildlife maintenance and enhancement, recreational, and thermal power production purposes, and preservation of environmental and aesthetic values, and all other uses compatible with the enjoyment of the public waters of the state, are declared to be beneficial. (RCW 90.54.020(1))

The quality of the natural environment shall be protected and, where possible, enhanced, as follows:

Perennial rivers and streams of the state shall be retained with base flows necessary to provide for the protection and preservation of wildlife, fish, scenic, aesthetic and other environmental values, and navigational values. Lakes and ponds shall be retained substantially in their natural condition. Withdrawals of water which would conflict therewith shall be authorized only in those situations where it is clear that overriding considerations of the public interest will be served. (RCW 90.54.020 (3)(a))

Waters of the state shall be of high quality. Regardless of the quality of the waters of the state, all wastes and other materials and substances proposed for entry into said waters shall be provided with all known, available, and reasonable methods of treatment prior to entry. Notwithstanding that standards of quality established for the waters of the state would not be violated, wastes and other materials and substances shall not be allowed to enter such waters which will reduce the existing quality thereof, except in those situations where it is clear that overriding considerations of the public interest will be served. (RCW 90.54.020 (3)(b))

In administering and enforcing this regulation, the department's actions shall be consistent with the provisions of chapter 90.54 RCW.

NEW SECTION

WAC 173-503-030 Findings. Ecology finds that (1) The magnitude or variability of flows are important in maintaining the aquatic ecosystem that sustains both fish and other valuable resources. Criteria to limit total withdrawals of water from the Lower Skagit River were developed to protect the aquatic ecosystem in the region covered by this rule.

(2) To protect the estuary area below River Mile 8.1 the duration of flow inundation of at least one foot of depth, in selected estuary habitat, can be reduced no more than 10% from existing conditions from the date of enactment of this regulation. This criterion applies to the period of February through August to withdrawals from the Skagit River. Total withdrawals greater than 836 cubic feet per second during that period will result in a greater than 10% deviation from existing conditions and therefore would result in harm to the fisheries resources and aquatic ecosystem in the region covered by this rule.

(3) Protection of the aquatic ecosystem of the estuary in the months of September through January requires that the total withdrawals of water from the Skagit River not exceed 1/10 of the 50% exceedence flow for each month, based on the period of record (1/1/41 - 12/31/95) for the US Geological Survey (USGS) stream gage on the Skagit River near Mt. Vernon, WA (Sta. #12-2005-00) in order to maintain channel morphology and other estuarine and riverine functions. This equates to a low point of 830 cubic feet per second during the month of September. Total withdrawals greater than 830 cubic feet per second during the month of September will not protect and preserve fish, wildlife and other environmental values and therefore would be harmful to fisheries resources and the aquatic ecosystem in the region covered by this rule in violation of chapter 90.54 RCW.

(4) The rules setting minimum flows in the Lower and Upper Skagit River (WRIA 3 and 4) (WAC 173-503-040) and finding certain waters available (WAC 173-503-050) are necessary to protect and preserve wildlife, fish, scenic, aesthetic and other environmental values.

PROPOSED

(4) The instream flow hydrographs, as represented in Figures 1 through 3 in WAC 173-503-040(3) shall be used for identification of instream flows.

(5) Future consumptive water right permits issued hereafter for diversion of surface water in the Lower and Upper Skagit (WRIA 3 and 4) and perennial tributaries, and withdrawal of ground water in hydraulic continuity with surface water in the Skagit River and perennial tributaries, shall be expressly subject to instream flows established in WAC 173-503-040 (1) through (3) as measured at the appropriate gage, and also subject to WAC 173-503-060.

(6) Future consumptive water rights issued to applications pending at the effective date of the regulation are superior in priority date but shall be conditioned on the instream flows established in WAC 173-503-040 (1) through (3). (RCW 90.03.247)

(2) The department advises that water rights issued to appropriate these waters determined to be available by this rule will be interruptible rights.

(3) After these instantaneous diversion or withdrawal of the 200 cfs quantities identified in paragraph (1) of this section have been allocated by Ecology, the Lower and Upper Skagit Watershed WRIA 3 and 4) shall be withdrawn from further consumptive appropriations. This rule may be reopened to further consumptive appropriation only if further information demonstrates that such appropriations can be made consistent with the finding section (WAC 173-503-030) and the instream flow section (WAC 173-503-040). If further information demonstrates that the amount in the availability determination set forth in paragraph (1) of this section should have been less than 200 cubic feet per second, Ecology will not be bound by the 200 cubic feet per second number when processing individual water right applications.

Reviser's note: The typographical error in the above section occurred in the copy filed by the agency and appears in the Register pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 173-503-050 Water availability determination

(1) The department has made a determination that 200 cubic feet per second is available to be appropriated through ground water withdrawal or surface water diversion for further instantaneous consumptive appropriation in the Lower and Upper Skagit watershed (WRIA 3 and 4). These waters are available for appropriation, subject to existing rights, exemptions in WAC 173-503-070, and instream flows in WAC 173-503-040(2). This determination was based upon review of existing water right records and existing water use, and is consistent with the findings section (WAC 173-503-030) of this regulation.

NEW SECTION

WAC 173-503-060 Ground water. If the department determines that there is hydraulic continuity between surface water and the proposed ground water source, a water right permit or certificate shall not be issued unless the department determines that withdrawal of ground water from the source aquifer would not interfere with stream flows during the period of stream closure or with maintenance of minimum instream flows. If such findings are made, then applications to appropriate public ground waters may be approved subject to the flows established in WAC 173-503-040(2).

NEW SECTION

WAC 173-503-070 Exemptions. (1) Nothing in this chapter shall affect existing water rights, including perfected riparian rights, federal Indian and non-Indian reserved rights, or other appropriative rights existing on the effective date of this chapter.

(2) Nonconsumptive uses which are compatible with the intent of this chapter may be approved.

NEW SECTION

WAC 173-503-080 Policy statement for future permitting actions. (1) No rights to divert or store public surface waters of WRIA 3 and 4 which would conflict with the provisions of this chapter shall hereafter be granted, except as provided in RCW 90.54.020 (3)(a).

(2) Consistent with the provisions of chapter 90.54 RCW, it is the policy of the department to preserve an appropriate minimum instream flow in all perennial streams and rivers as well as the water levels in all lakes in the Lower and Upper Skagit watershed (WRIA 3 and 4) by encouraging the use of alternative sources of water which include (a) reuse; (b) artificial recharge and recovery; (c) conservation; and (d) acquisition of existing water rights.

NEW SECTION

WAC 173-503-090 Enforcement. In enforcement of this chapter, the department of ecology may impose such sanctions as appropriate under authorities vested in it, including but not limited to the issuance of regulatory orders under RCW 43.27A.190 and civil penalties under RCW 43.83B.335, RCW 90.03.400, RCW 90.03.410, RCW 90.03.600, RCW 90.44.120 and RCW 90.44.130.

NEW SECTION

WAC 173-503-100 Regulation review. Review of the rules in this chapter may be initiated by the department of ecology whenever new information is available, a change in conditions occurs, or statutory modifications are enacted that are determined by the department of ecology to require review.

Original Notice.

Preproposal statement of inquiry was filed as WSR 99-17-105.

Title of Rule: Rules relating to wetland and aquatic weeds quarantine, chapter 16-752 WAC.

Purpose: Amendment of existing rule to add species to the list of invasive, nonnative wetland and aquatic weed species that are prohibited from distribution into or within the

state. Also, clarification and update of rule language and taxonomy.

Statutory Authority for Adoption: Chapters 17.24, 15.13 RCW, RCW 17.10.074 (1)(c).

Statute Being Implemented: Chapters 17.24, 15.13, 17.10 RCW.

Summary: The amendments would add fifteen invasive, nonnative wetland or aquatic weed species to the list of species that are prohibited from distribution, transportation, sale, purchase, or offer for sale in this state. Many of these species are already subjects of mandatory control under chapter 17.10 RCW, and all have potential to cause grave environmental and economic harm.

Reasons Supporting Proposal: Once established, aquatic weeds are extraordinarily difficult to eliminate, and the control measures available may have environmental consequences that are, in themselves, highly undesirable. Unlike terrestrial weeds, aquatic weed removal and eradication becomes a public project almost immediately, as ownership and responsibility for waterbodies is usually shared and ill-defined.

Name of Agency Personnel Responsible for Drafting: Mary Toohey, 1111 Washington Street, Olympia, WA 98504-2560, (360) 902-1907; Implementation and Enforcement: Tom Wessels, 1111 Washington Street, Olympia, WA 98504-2560, (360) 902-1984.

Name of Proponent: Washington State Noxious Weed Control Board, Washington Department of Agriculture, public and governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The existing rule forbids the sale or distribution of seven species of nonnative, invasive wetland or aquatic weeds. Its intention is the exclusion of plant species that are highly undesirable from environmental quality and also economic standpoints. Once established in a waterbody, these species degrade habitat for native plants, fish and animals, frequently crowding out native species and eliminating food sources. They can also form dense stands or mats that obstruct water use and boat traffic, block irrigation systems, and decrease functioning of wetlands. Because these species are extremely aggressive in establishing themselves, any introduction into new habitat is likely to result in infestation. There are few effective tools for eliminating infestations in aquatic or wetlands environments, and, due to public ownership or stewardship of many bodies of water, projects to control or eradicate these weeds usually become a public agency responsibility. The difficulty of carrying out successful eradication makes exclusion doubly important. Without the rule, the rate of introduction and spread of these weeds would be greatly increased.

The proposed amendments would add fifteen additional species to the list of nonnative, invasive wetland or aquatic weeds that cannot be sold or distributed in this state, for the same reasons as the current seven species.

Proposal Changes the Following Existing Rules: Proposal adds fifteen species of wetland and aquatic weeds to the existing list. It gives a fuller explanation of the undesirable characteristics of the quarantined species, adds chapter 15.13

PROPOSED

RCW to the list of authorizing statutes, and converts the text to clearer and more readable format.

No small business economic impact statement has been prepared under chapter 19.85 RCW. Analysis indicates a very small portion of the businesses in the relevant classifications would be affected, with no businesses likely to suffer more than minor costs.

Small Business Economic Impact Analysis

Rule Summary: A proposed revision to WAC 16-752-500, the wetland and aquatic weed quarantine, prohibits the sale of fifteen species of aquatic plants in addition to the seven species currently listed. After carefully considering the biology and potential invasiveness of these species the department has determined there is a sufficiently high risk that these species would affect the abundance and diversity of native species if established in Washington waters.

The additional species are *Butomus umbelatus* (flowering rush), *Cabomba carolinia [caroliniana]* (fanwort), *Epilobium hirsutum* (hairy willow herb), *Glossostigma spp.* (mud mat), *Hydrocharis morsus-ranae* (European frogbit), *Lagarosiphon major* (African elodea), *Ludwigia hexapetala* (water primrose), *Lysimachia vulgaris* (garden loosestrife), *Murdannia keisak* (marsh dew flower or Asian spiderwort), *Najas minor* (slender-leaf naiad or brittle naiad), *Nymphoides peltata* (yellow floating heart), *Sagittaria graminea* (grass-leaved arrowhead), *Spartina densiflora* (dense-flowered cordgrass), *Trapa natans* (water chestnut or bull nut) and *Utricularia inflata* (swollen bladderwort).

These species are nonnative plants and are known to be highly invasive in areas with a latitude and climate similar to that of Washington. The proposed species are or have potential to be sold in the nursery and aquarium trade, often over the Internet. The plants proposed for quarantine have the potential ability to survive in Washington and, if established, could severely affect the ecology of marshes, lakes, rivers and wetlands of Washington.

Affected Groups: The proposed quarantine species are used primarily in aquariums and water gardens. Chapter 15.13 RCW, Horticultural Plants and Facilities Act, requires all businesses with sales of horticultural plants in excess of one hundred dollars annually to obtain a nursery dealer's license; therefore, all affected business would be licensed nurseries. The Directory of Licensed Nursery Dealers 2000 lists all wholesale and retail nurseries. The nurseries affected by this proposal include wholesale nurseries (SIC code 0181) which grow and sell aquatic plants and retail nurseries (SIC code 5261) and/or pet stores (SIC code 5999) that sell aquatic plants.

There are eight hundred and fifty-three wholesale nurseries operating in Washington. Wholesale nurseries dealing in any of the species proposed for quarantine are very unusual; however, after persistent inquiries we were able to identify two of them.

Most of the affected businesses dealing in aquatic plant species are retail nurseries and pet stores. Based on data obtained in WSDA's customer survey completed in February 2000, the number of retail nurseries selling aquatic plants is

estimated to be approximately nine hundred and fifty or thirteen percent of the total number of retail plants dealers. Of these, only a handful of retail nurseries are known to be selling any of the proposed quarantine species.

From the above information this proposal will affect less than ten percent of the businesses of any one industry.

Economic Impact on Affected Groups: All of the proposed quarantine species have some commercial potential, either as an aquarium plant, a water garden plant or as a food crop, but with the exception of *Cabomba carolinia [caroliniana]*, they are not widely sold in the state.

The economic loss to any affected business would be through the loss of sales. This revision does not contain additional record keeping or reporting requirements and affected businesses will not have to hire additional professional help to implement the rules. The proposed quarantined species can be readily identified by standard labeling practices of the nursery trade. There is no reason to believe there would be any disproportionate negative impact on small businesses.

Of the fifteen species added in the proposed quarantine revision, only *Cabomba carolinia [caroliniana]* is sold in significant amounts by aquatic plant dealers in Washington. Although most pet stores dealing with aquarium plants sell this species, the impact on those businesses would likely be minimal since other less invasive species could easily be substituted and selling aquatic plants is a minor part of any such businesses. *Hydrocharis morsus-ranae* is offered as a water garden plant in some Washington nurseries; however, it does not constitute a significant portion of the aquatic plant trade. If this rules revision is adopted, the most probable loss to any affected business will be disposal of currently existing inventories of regulated species when revised rule becomes effective. However, even in a large pet store losses due to inventories of *C. carolinia [caroliniana]* would be minor.

Industry Outreach: The agency has discussed the proposal with the Nursery Advisory Committee established in RCW 15.13.335. This committee represents all major aspects of the nursery industry in Washington. An article in a newsletter distributed by the Washington State Noxious Weed Board generated several contacts between WSDA and several businesses that sell aquatic plants. Several retail and wholesale businesses selling both aquarium plants and water garden plants were also contacted directly. Although specific figures were not obtained, none of the contacted businesses felt that the proposed prohibition of the fifteen species would be a significant economic cost to them.

However, most of the contacted businesses are opposed to the revision. Many references were made to the 1992 quarantine of *Elodea densa*, which one dealer stated costs individual businesses up to \$1800 in lost sales annually. Many also stated that these aquatic plants are used in contained environments and have a low risk of moving to natural waters. They felt a greater effort should be made to educate gardeners and aquarium enthusiasts in the proper disposal of discarded aquatic plants, instead of prohibiting the sale of more plant species.

Alternatives to revising WAC 16-752-505: There are currently seven aquatic species listed in the wetlands and aquatic weed quarantine, most of which have infested Wash-

PROPOSED

ington waters. Adding fifteen additional species to the quarantine will not necessarily entirely prevent their introduction into state waters, but it would lessen the risk. A greater effort could be made to educate the public on the responsible handling and disposal of exotic plants. Alternatively, a comparatively higher risk of infestation of the state's waters could be accepted, and greater efforts to detect and eradicate new infestations of aquatic weeds could be funded and carried out.

Summary: The proposed revision of chapter 16-752 WAC, Wetlands and aquatic weed quarantine, adds fifteen additional species of aquatic plants to the seven species currently under quarantine. If the proposal is adopted the sale of these plants will be prohibited.

All affected groups are licensed nursery dealers and include wholesale nurseries, retail nurseries and pet stores.

A very small portion of the businesses in the relevant classifications will be affected with no businesses likely to suffer more than minor cost, although most of the affected businesses contacted oppose the revision.

Because the proposed revision will not impose more than minor costs on businesses in the industries a small business economic impact statement is not required.

AMENDATORY SECTION (Amending WSR 92-07-024, filed 3/10/92, effective 4/10/92)

WAC 16-752-500 Establishing wetland and aquatic weed quarantine. Washington waters and wetlands are threatened by nonnative, aggressive (~~(perennial)~~) weeds that destroy the commercial, aesthetic, fish and/or wildlife habitat and recreational value of these areas. (~~(Parrot's Feather (or parrotfeather or waterfeather);))~~) African elodea, Brazilian elodea (or egeria), ((€)) Eurasian watermilfoil, fanwort, slender-leaved naiad, and hydrilla((;)) and water chestnut (a different species from the food "water chestnut" commonly sold in grocery stores) are submersed, rooted species that can invade shallow to deep water. Parrotfeather, water primrose and yellow floating heart are rooted plants that invade shallow water and aquatic margins. European frogbit and swollen bladderwort are freely floating species. These species,

when established, form dense mats that will clog irrigation systems and waterways, displace native species, alter fish and wildlife habitat, and seriously impact recreational use of the waterways.

Garden loosestrife, hairy willow herb, grass-leaved arrowhead, mud mat, marsh dew flower and flowering rush are rooted plants which invade wetlands, shallow water and aquatic margins. When established, their dense stands displace native vegetation and harm wildlife habitat.

Salt meadow cordgrass, common cordgrass, and smooth cordgrass are noxious weeds that have invaded ((~~a small part of the~~)) salt water estuarine areas on the Washington coast displacing native species, threatening bird and mammal habitats and the shellfish industry. Dense-flowered cordgrass, a closely related species, has potential to duplicate this invasion.

The director of agriculture, pursuant to the powers provided in chapters 17.10, 15.13 and 17.24 RCW, finds that the regulation and exclusion of these plants and plant parts are necessary to preserve Washington waters and wetlands, both fresh water and estuarine, from new or additional infestation. These requirements and restrictions, contained in WAC 16-752-500 through 16-752-525, are in addition to the requirements contained in WAC 232-12-271, "Criteria for planting aquatic plants and releasing wildlife," administered by the Washington state department of fish and wildlife.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear in the Register pursuant to the requirements of RCW 34.08.040.

WAC 314-12-020 Applicants—Qualifications—Fingerprinting—Criminal history record information checks—Continuing conditions—Agreements—Reconsideration of denied applications. (1) Where a married person is an applicant for, or holder of a license, the spouse of such applicant, if the parties are maintaining a marital community, shall be required to have the same qualifications as the applicant.

(2) The board may require, as a condition precedent to the original issuance of any annual license, fingerprinting and criminal history record information checks on any person not previously licensed by the board. In addition to the applicant, fingerprinting and criminal history record information checks may be required of the applicant's spouse. In the case of a corporation, fingerprinting and criminal history record information checks may be required of its present and any subsequent officers, manager, and stockholders who hold more than ten percent of the total issued and outstanding stock of the applicant corporation if such persons have not previously had their fingerprints recorded with the board. In the case of a partnership, fingerprinting and criminal history record information checks may be required of all general partners and their spouses. Such fingerprints as are required by the board shall be submitted on forms provided by the board to the Washington state identification section of the Washington state patrol and to the identification division of the Federal Bureau of Investigation in order that these agencies may search their records for prior arrests and convictions of the individuals fingerprinted. The applicant shall give full cooperation to the board and shall assist the board in all aspects of the fingerprinting and criminal history record information check. The applicant may be required to pay a minimal fee to the agency which performs the fingerprinting and criminal history process.

(3) The restrictions on license issuance specified in RCW 66.24.010(2) shall be construed to be continuing conditions for retaining an existing license and any licensed person

who ceases to be eligible for issuance of a license under RCW 66.44.010(2) shall also cease to be eligible to hold any license already issued.

(4) An applicant for any license or permit issued by the liquor control board, who employs an attorney or agent in connection with an application for such license or permit, shall, upon request, submit in writing the entire agreement between such applicant for license or permit, and the attorney or agent. No part of any compensation agreed upon, paid or received shall in any manner be contingent upon the outcome of the matter before said board. In the event the compensation agreed upon, paid or received, is determined to be excessive, the board reserves the right to refuse to consider the application for such license or permit.

(5) The board, in considering an application for a license, may require, in addition to all other information requested concerning the proposed licensed premises (see WAC 314-12-035), that the applicant justify the issuance of the license sought based on an analysis of population trends compared to licenses in the area, any uniqueness of the proposed operation, any unusual circumstances present, plus any other information the applicant(s) may feel will justify the issuance of the license sought.

~~((6) The board may, at its discretion and for good cause shown, reconsider a denied application upon receipt of new information within sixty days of the original denial date. Such reconsiderations are not considered part of the normal license application procedure and must be justified on an individual basis. Should the board determine to reconsider a denied application, notice of such reconsideration shall be given to those persons and/or entities entitled to receive notice of an original license application pursuant to RCW 66.24.010(8). Such notice shall be given at least twenty days prior to final determination on the reconsideration. Additionally, at the same time the notice is given, a press release will be issued informing the public of the impending reconsideration.))~~

NEW SECTION

WAC 314-09-005 What is the purpose of chapter 314-09 WAC? The purpose of chapter 314-09 WAC is to outline:

(1) the process for persons, entities, and governmental jurisdictions to object to the issuance or renewal of a liquor license or permit; and

<ul style="list-style-type: none"> Applications for any annual or special occasion liquor license or permit that allows the sale and/or service of alcohol beverage; and Changes of ownership at existing licensed premises. 	<ul style="list-style-type: none"> Governmental jurisdictions only.

(2) What will happen if a person or entity objects to a liquor license application? When deciding whether to issue or deny an annual liquor license application, the board will give due consideration to input from governmental jurisdictions in which the premises is located; private schools, churches, and public institutions within 500 feet of the premises (as measured according to RCW 66.24.010(9)); and other persons or groups.

(a) Per RCW 66.24.010(9), the board will not issue a new retail liquor license if a tax-supported public elementary or secondary school within 500 feet of the premises to be licensed objects to the application (500 feet as measured according to RCW 66.24.010(9)).

(b) At its discretion, the board may hold a public meeting to gather input from interested parties before making a decision on a liquor license application. If the board decides to hold a public meeting, it will notify all persons or entities who have legal standing to be notified of a liquor license application under RCW 66.24.010, and all persons who gave comment on the application. The record of the public meeting will be part of any record should the matter result in an adjudicative hearing under the provisions of the Administrative Procedure Act (chapter 34.05 RCW).

(c) If the board contemplates issuing a license over the objection of a governmental jurisdiction in which the premises is located, the government subdivision may request an adjudicative hearing under the provisions of the Administrative Procedure Act (chapter 34.05 RCW). If the board, in its discretion, grants the governmental jurisdiction(s) an adjudicative hearing, the licensee will be notified and given the opportunity to present evidence at the hearing.

(d) If the board denies a liquor license application based on the objection from a governmental jurisdiction; a private school, church, or public institution within 500 feet of the premises (as measured according to RCW 66.24.010(9)); and/or other persons or groups, the applicant(s) may either:

(i) reapply for the license or permit no sooner than one year from the original denial date; or

Purpose: To correct the filing of WSR 00-19-080 and bring radiation protection regulations into conformance with the United States Nuclear Regulatory Commission rules on enforcement action for deliberate misconduct and make other corrections and housekeeping changes.

Statutory Authority for Adoption: RCW 70.98.050.
 Statute Being Implemented: RCW 70.98.050.

Summary: The proposed rule clarifies that enforcement action may be taken where deliberate misconduct is involved (WAC 246-220-060) and corrects cross-referencing (WAC 246-235-105).

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Terry C. Frazee, Mailstop 47827, 7171 Cleanwater Lane, Tumwater, (360) 236-3221.

Name of Proponent: Division of Radiation Protection, Department of Health, governmental.

Rule is necessary because of federal law, 62 F.R. 63634, 63 F.R. 1890, and 63 F.R. 13773.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule clarifies the categories of persons that are subject to department enforcement action based on deliberate misconduct. These changes are required for compatibility with the United States Nuclear Regulatory Commission. The anticipated effect of these changes is to bring our radioactive materials licensees into conformance with national standards.

Proposal Changes the Following Existing Rules: WAC 246-220-060 is amended to define categories of persons that may be subject to department enforcement action if engaged in deliberate misconduct that caused or would have caused, if not detected, a radioactive materials licensee, applicant, contractor or subcontractor to be in violation of any rule, regulation, license condition or department order; and WAC 246-235-105 is amended to correct cross references.

No small business economic impact statement has been prepared under chapter 19.85 RCW. This rule change is exempt from the small business impact statement requirement under RCW 19.85.025(3) because it adopts federal regulations without material change. This rule includes several federal rule changes for which "Regulatory Flexibility Certifications" were prepared stating that the "rule will not have a significant economic impact upon a substantial number of small entities."

Section 201, chapter 403, Laws of 1995, does not apply to this rule adoption. Under RCW 34.05.328 (5)(b)(iii) and (iv), RCW 34.05.328 does not apply to this rule adoption because this rule adopts federal regulations without material change or clarifies the language of a rule or otherwise makes housekeeping changes. This rule is for conformance with the United States Nuclear Regulatory Commission regulations and is mandatory under our agreement state status with the federal government.

Hearing Location: 7171 Cleanwater Lane, Building 5, Olympia, WA 98504, on November 21, 2000, at 10:00 a.m.

PROPOSED

Reasons Supporting Proposal: The changes will ease administration. Updating the chapter will provide a fairer reflection of the market for valuation purposes.

Name of Agency Personnel Responsible for Drafting: Robert Smith, 2735 Harrison N.W., Building 4, Olympia, WA, (360) 753-1385; Implementation and Enforcement: Gary O'Neil, 2735 Harrison N.W., Building 4, Olympia, WA, (360) 753-2871.

Name of Proponent: Department of Revenue, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The proposed changes will update, reorganize, and consolidate the information currently provided in this chapter, and eliminates rules that are no longer needed. In addition, the stumpage value area and hauling distance zone map contained in WAC 458-40-640 is being updated to reflect changes in the market. This map is used to determine the proper stumpage value table and haul zone to be used in calculating the taxable stumpage value of timber harvested from private land.

The result will be that the remaining rules will provide clearer and more comprehensive information. It will also provide a fairer picture of the market for valuation purposes.

Proposal Changes the Following Existing Rules: The department is proposing a revision or repeal of existing rules, as noted above. The proposed changes are described above.

No small business economic impact statement has been prepared under chapter 19.85 RCW. A small business economic impact statement is not required because the rule and the proposed amendments do not impose any requirements or burdens upon small businesses that are not already specifically required by statute.

RCW 34.05.328 does not apply to this rule adoption. The proposed rules are interpretive rules as defined in RCW 34.05.328.

Hearing Location: Department of Revenue, Conference Room, Target Place Building, No. 4, 2735 Harrison Avenue N.W., Olympia, WA, on November 30, 2000, at 1:30 p.m.

AMENDATORY SECTION (Amending Order 86-4, filed 12/31/86)

WAC 458-40-530 Property tax, forest land—Land grades—Operability classes. ~~((The following shall constitute the conversion of species and site indices to forest land grades:))~~ (1) **Introduction.** RCW 84.33.120 requires that

the department of revenue annually adjust and certify forest land values to be used by county assessors in preparing assessment rolls. These values are based upon land grades and operability classes. The assessors use maps that provide the land grades and operability classes for forest land in Washington.

This rule explains how the land grades and operability classes provided in the maps used by the assessors were established. The forest land values are annually updated in WAC 458-40-540. For the purposes of this rule and WAC 458-40-540, the term "forest land" is synonymous with timberland and means all land in any contiguous ownership of twenty or more acres which is primarily devoted to and used for growing and harvesting timber and means land only.

(2) Land grades. The land grades are established based upon timber species and site index. "Site index (plural site indices)" is the productive quality of forest land, determined by the total height reached by the dominant and codominant trees on a particular site at a given age.

WASHINGTON STATE PRIVATE FOREST LAND GRADES

*1 These are the site indices for one hundred percent stocked stands. Stands with lower stocking levels would require higher site indices to occur in the same land grade.

*2 ((MFP)) Marginal forest productivity ((will be)) is land grade 7 operability class 3, in the following townships. All ((MFP)) marginal forest productivity in other townships ((will be)) is land grade 8.

PROPOSED

WESTERN WASHINGTON

Whatcom County - all townships east of Range 6 East, inclusive.

Skagit County - all townships east of Range 7 East, inclusive.

Snohomish County - all townships east of Range 8 East, inclusive.

King County - all townships east of Range 9 East, inclusive.

Pierce County - T15N, R7E; T16N, R7E; T17N, R7E; T18N, R7E; T19N, R9E; T19N, R10E; T19N, R11E.

EASTERN WASHINGTON

Chelan County - all townships west of Range 17 East, inclusive.

Kittitas County - all townships west of Range 15 East, inclusive.

Yakima County - all townships west of Range 14 East, inclusive.

~~(*) (NC) Noncommercial~~ **(3) Operability classes.** Operability classes are established according to intrinsic characteristics of soils and geomorphic features. The criteria for each class apply state-wide.

(a) Class 1-Favorable. Stable soils that slope less than thirty percent. Forest operations do not significantly impact soil productivity and soil erosion. Forest operations, such as roading and logging, are carried out with minimal limitations.

(b) Class 2-Average. Stable soils that slope less than thirty percent, but on which significant soil erosion, compaction, and displacement may occur as a result of forest operations.

(c) Class 3-Difficult. Soils with one or both of the following characteristics:

(i) Stable soils that slope between thirty and sixty-five percent; and

(ii) Soils that slope between zero and sixty-five percent, but display evidence that rapid mass movement may occur as a direct result of forest operations.

(d) Class 4-Extreme. All soils that slope more than sixty-five percent.

(e) Variations. Unique conditions found in any one geographic area may impact forest operations to a greater degree than the above classes permit. With documented evidence, the department of revenue may place the soil in a more severe class.

AMENDATORY SECTION (Amending WSR 96-02-054, filed 12/29/95, effective 1/1/96)

WAC 458-40-610 Timber excise tax—Definitions. (1) Introduction. The purpose of WAC 458-40-610 through 458-40-690 is to prescribe the policies and procedures for the taxation of timber harvested from public and private forest lands as required by RCW 84.33.010 through 84.33.096.

Unless the context clearly requires otherwise, the definitions in this ~~(section)~~ rule apply to WAC ~~(458-40-600)~~ 458-40-610 through 458-40-690. In addition to the definitions found in this rule, definitions of technical forestry terms

may be found in *The Dictionary of Forestry*, 1998, edited by John A. Helms, and published by the Society of American Foresters.

~~((4))~~ **(2) Codominant trees.** Trees whose crowns form the general level of the ~~(crown cover)~~ main canopy and receive full light from above, but comparatively little light from the sides.

~~((2))~~ **(3) Competitive sales.** The offering for sale of timber which is advertised to the general public for sale at public auction under terms wherein all qualified potential buyers have an equal opportunity to bid on the sale, and the sale is awarded to the highest qualified bidder. The term "competitive sales" includes making available to the general public permits for the removal of forest products.

~~((3) Department. The department of revenue of the state of Washington.)~~

(4) Cord measurement. A measure of wood with dimensions of 4 feet by 4 feet by 8 feet (128 cubic feet).

(5) Damaged timber. Timber where the stumpage values have been materially reduced from the values shown in the applicable stumpage value tables due to damage resulting from fire, blow down, ice storm, flood, or other sudden unforeseen causes.

(6) Dominant trees. Trees whose crowns are higher than the general level of the main canopy and which receive full light from the sides as well as from above.

~~((5))~~ **(7) Harvest unit.** An area of timber harvest, defined and mapped by the harvester before harvest, having the same ~~(forest excise tax permit number)~~ stumpage value area, hauling distance zone, harvest adjustments, ~~(and)~~ harvester, and harvest identification. The harvest identification may be a department of natural resources forest practice application number, public agency harvesting permit number, public sale contract number, or other unique identifier assigned to the timber harvest area prior to harvest operations. ~~((#))~~ A harvest unit may include more than one section ~~(- Provided, A))~~, but harvest unit may not overlap a county boundary.

~~((6))~~ **(8) Harvester.** Every person who from the person's own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use. The term "harvester" does not include persons performing under contract the necessary labor or mechanical services for a harvester. In cases where the identity of the harvester is in doubt, the department of revenue will consider the owner of the land from which the timber was harvested to be the harvester and the one liable for paying the tax.

The definition above applies except when the United States or any instrumentality thereof, the state, including its departments and institutions and political subdivisions, or any municipal corporation therein so fells, cuts, or takes timber for sale or for commercial or industrial use. When a governmental entity described above fells, cuts, or takes timber, the harvester is the first person, other than another governmental entity as described above, acquiring title to or a possessory interest in such timber.

PROPOSED

(9) Harvesting and marketing costs. Only those costs directly and exclusively associated with harvesting the timber from the land and delivering it to the buyer. The term includes the costs of slash disposal required to abate extreme fire hazard. Harvesting and marketing costs do not include the costs of reforestation, permanent road construction, or any other costs not directly and exclusively associated with the harvesting and marketing of the timber. The actual harvesting and marketing costs must be used in all instances where documented records are available. When the taxpayer is unable to provide documented proof of such costs, the deduction for harvesting and marketing costs is thirty-five percent of the gross receipts from the sale of the logs.

(10) Hauling distance zone. An area with specified boundaries as shown on the state-wide stumpage value area and hauling distance zone maps contained in WAC 458-40-640, having similar accessibility to timber markets.

(11) Legal Description. A description of an area of land using government lots and standard general land office subdivision procedures. If the boundary of the area is irregular, the physical boundary must be described by metes and bounds or by other means that will clearly identify the property.

(12) Log grade. Those grades listed in the "Official Log Scaling and Grading Rules" (~~handbook~~) developed and authored by the Northwest Log Rules Advisory Group (Advisory Group). "Utility grade" means logs that do not meet the minimum requirements of peeler or sawmill grades as defined in the (~~handbook~~) "Official Log Scaling and Grading Rules" published by the Advisory Group but are suitable for the production of firm useable chips to an amount of not less than fifty percent of the gross scale; and meeting the following minimum requirements:

- (a) Minimum gross diameter—two inches.
- (b) Minimum gross length—twelve feet.
- (c) Minimum volume—ten board feet net scale.
- (d) Minimum recovery requirements—one hundred percent of adjusted gross scale in firm useable chips.

(13) Lump sum sale. Also known as a cash sale or an installment sale, it is a sale of timber (~~wherein the total sale price is dependent upon an estimate of the total volume of timber in the sale rather than the actual volume harvested~~) where all the volume offered is sold to the highest bidder.

(14) MBF. One thousand board feet measured in Scribner Decimal C Log Scale Rule.

(15) Noncompetitive sales. Sales of timber in which the purchaser has a preferential right to purchase the timber or a right of first refusal.

(16) Other consideration. Value given in lieu of cash as payment for stumpage, such as improvements to the land that are of a permanent nature. (~~It may include, but is not limited to, the construction of permanent roads and the installation of permanent bridges.~~) Some examples of permanent improvements are as follows: Construction of permanent roads; installation of permanent bridges; stockpiling of rock intended to be used for construction or reconstruction of permanent roads; installation of gates, cattle guards, or fencing; and clearing and reforestation of property.

(17) Permanent road. A road built as part of the harvesting operation which is (~~intended~~) to have a useful life subsequent to the completion of the harvest.

(18) Private timber. All timber harvested from privately owned lands (~~including timber on reclassified reforestation land under chapters 84.28 and 84.33 RCW~~).

(19) Public timber. Timber harvested from federal, state, county, municipal, or other government owned lands.

(20) Remote island. An area of land which is totally surrounded by water at normal high tide and which has no bridge or causeway connecting it to the mainland.

~~The amount paid for timber in cash or other consideration.~~

(21) Scale sale. A sale of timber in which the (~~sale price~~) amount paid for timber in cash and/or other consideration is the arithmetic product of the actual volume harvested and the unit price at the time of harvest.

(22) Small harvester. A harvester who harvests timber from privately or publicly owned forest land in an amount not exceeding two million board feet in a calendar year.

(23) Species. A grouping of timber based on biological or physical characteristics. In addition to the designations of species or subclassifications defined in Agriculture Handbook No. 451 Checklist of United States Trees (native and naturalized) found in the state of Washington, the following (~~shall be~~) are considered separate species for the purpose of harvest classification used in the stumpage value tables:

(a) **Other conifer.** All conifers not separately designated in the stumpage value tables. See WAC 458-40-660.

(b) **Other hardwood.** All hardwoods not separately designated in the stumpage value tables. See WAC 458-40-660.

(c) **Special forest products.** The following are considered to be separate species of special forest products: Christmas trees (various species), posts (various species), western redcedar flatsawn and shingle blocks, western redcedar shake blocks and boards.

(d) **Chipwood.** All timber processed to produce chips or chip products delivered to (~~a designated~~) an approved chipwood destination that has been approved in accordance with the provisions of WAC 458-40-670 or otherwise reportable in accordance with the provisions of WAC 458-40-670 (~~(4) or (5)~~).

(e) **Small logs.** All conifer logs harvested in stumpage value areas 6 or 7 generally measuring seven inches or less in scaling diameter, (~~delivered to and~~) purchased by weight measure at designated small log destinations that have been approved in accordance with the provisions of WAC 458-40-670 (~~(6)~~). Log diameter and length is (~~determined by merchantizer scanner~~) measured in accordance with USFS scaling rules with length not to exceed twenty feet.

(f) **Sawlog.** For purposes of timber harvest in stumpage value areas 6 and 7, a sawlog is a log having a net scale of not less than 33 1/3% of gross scale, nor less than ten board feet and meeting the following minimum characteristics: Gross scaling diameter of five inches and a gross scaling length of eight feet.

(g) **Piles.** All logs sold for use or processing as piles that meet the specifications described in the most recently published edition of the *Standard Specification for Round Timber Piles (Designation: D 25)* of the American Society for Testing and Materials.

(h) **Poles.** All logs sold for use or processing as poles that meet the specifications described in the most recently published edition of the *National Standard for Wood Poles—Specifications and Dimensions (ANSI 05.1)* of the American National Standards Institute.

~~((19)) (24) Stumpage. ((Standing or fallen trees, live or dead, having commercial value which have not been severed from the stump:~~

~~(20)) Timber, having commercial value, as it exists before logging.~~

~~(25) Stumpage value. The true and fair market value of stumpage for purposes of immediate harvest.~~

~~(26) Stumpage value area (SVA). An area with specified boundaries which contains timber having similar growing, harvesting and marketing conditions.~~

~~((21)) (27) Taxable stumpage value. The value of timber as defined in RCW 84.33.035(7), and this chapter. Except as provided below for small harvesters and public timber, the taxable stumpage value is the appropriate value for the species of timber harvested as set forth in the stumpage value tables adopted under this chapter.~~

~~(a) Small harvester option. Small harvesters may elect to calculate the excise tax in the manner provided by RCW 84.33.073 and 84.33.074. The taxable stumpage value must be determined by one of the following methods as appropriate:~~

~~(i) Sale of logs. Timber which has been severed from the stump, bucked into various lengths and sold in the form of logs has a taxable stumpage value equal to the actual gross receipts for the logs, less any costs associated with harvesting and marketing the timber.~~

~~(ii) Sale of stumpage. When standing timber is sold and harvested within twenty-four months of the date of sale, its taxable stumpage value is the actual purchase price in cash and/or other consideration for the stumpage for the most recent sale prior to harvest. If a person purchases stumpage, harvests the timber more than twenty-four months after purchase of the stumpage, and chooses to report under the small harvester option, the taxable stumpage value is the actual gross receipts for the logs, less any costs associated with harvesting and marketing the timber. See WAC 458-40-626 for timing of tax liability.~~

~~(b) Public timber. The taxable stumpage value for public timber sales is determined as follows:~~

~~(i) Competitive sales. The taxable stumpage value is the actual purchase price in cash and/or other consideration. The value of other consideration is the fair market value of the other consideration; provided that if the other consideration is permanent roads, the value is the appraised value as appraised by the seller. If the seller does not provide an appraised value for roads, the value is the actual costs incurred by the purchaser for constructing or improving the roads.~~

~~(ii) Noncompetitive sales. The taxable stumpage value is determined using the department of revenue's stumpage value tables as set forth in this chapter. Qualified harvesters may use the small harvester option.~~

~~(iii) Sale of logs. The taxable stumpage value for public timber sold in the form of logs is the actual purchase price for the logs in cash and/or other consideration less appropriate deductions for harvesting and marketing costs. Refer above for a definition of "harvesting and marketing costs."~~

~~(iv) Defaulted sales and uncompleted contracts. In the event of default on a public timber sale contract, wherein the taxpayer has made partial payment for the timber but has not removed any timber, no tax is due. If part of the sale is logged and the purchaser fails to complete the harvesting, taxes are due on the amount the purchaser has been billed by the seller for the volume removed to date. See WAC 458-40-628 for timing of tax liability.~~

~~(28) Thinning. Timber removed from a harvest unit ((meeting all the following conditions:~~

~~((a)) located in stumpage value area((s)) 1, 2, 3, 4, 5, ((and)) or 10((:));~~

~~((b)) (a) When the total volume removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest; and~~

~~((e) Leave)) (b) The harvester leaves a minimum of one hundred undamaged, evenly spaced, dominant or codominant trees per acre of a commercial species or combination thereof.~~

~~((22) Timber. Forest trees, standing or down, on privately or publicly owned land, and except as provided in RCW 84.33.170, includes Christmas trees.))~~

AMENDATORY SECTION (Amending Order 86-4, filed 12/31/86)

WAC 458-40-626 Timber excise tax—Tax liability—Private timber, tax due when timber harvested. (1) Introduction. For purposes of determining the proper calendar quarter in which the harvester is to pay tax on timber harvested from private land((—including reclassified reforestation lands—))the tax ((shall be)) is due and payable on the last day of the month following the end of the calendar quarter in which the timber was harvested.

(2) Personal use of harvested timber by landowner. A landowner harvesting timber for commercial or industrial use is subject to the timber excise tax upon the value of harvested timber. See RCW 84.33.041, 84.33.035 and 84.33.073. A landowner cutting timber for that landowner's own personal use is not subject to the timber excise tax.

A landowner selling, bartering, or trading timber is making commercial use of that timber. A landowner providing that individual's own business with timber is making commercial or industrial use of that timber. For example, a logging contractor using timber by-products for hog fuel has made industrial use of that timber. An individual engaged in the construction industry using lumber from that landowner's timber to build a structure meant for sale by that individual or that individual's business has also made industrial use of the timber. On the other hand, a landowner makes personal use

of timber when that individual uses the timber, a portion of the cut timber, or a by-product from the timber as:

- (a) Firewood in that individual's stove or fireplace;
- (b) Lumber for that individual's personal residence, garage or storage structure;
- (c) Lumber for a fence around that individual's personal residence or private property not used for commercial purposes; or
- (d) Sawdust or shavings for that individual's garden or yard.

AMENDATORY SECTION (Amending WSR 90-02-049, filed 12/29/89, effective 1/29/90)

WAC 458-40-628 Timber excise tax—Tax liability—Public timber, lump sum ~~((vs.))~~ and scale sales. For purposes of determining the proper quarter in which the harvester is to pay taxes on timber harvested from public land, the taxes due under RCW 84.33.041 ~~((shall be))~~ are due and payable as follows:

(1) ~~((LUMP-SUM-SALE:))~~ **Lump-sum sale.** The tax ~~((shall be))~~ is due and payable on the last day of the month following the quarter in which the purchaser is billed by the seller for the timber: Provided, That if payments are made to the seller before any harvest, road construction or other work has begun on the timber sale contract, payment of taxes may be ~~((deferred))~~ postponed until the quarter in which harvest or other contract work begins. In the quarter that harvest commences, taxes ~~((shall become))~~ are due and payable on all billings accrued by the buyer in all prior quarters as well as the current quarter.

(2) ~~((SCALE-SALE:))~~ **Scale sale.** The tax ~~((shall be))~~ is due and payable on the last day of the month following the ~~((end of the))~~ calendar quarter in which the ~~((timber was harvested. For tax purposes the timber is to be considered harvested in the quarter for which the volumes and values appear on the monthly billing statements))~~ purchaser is billed by the seller for the timber: Provided, That if payments are made to the seller before any harvest, road construction or other work has begun on the timber sale contract, payment of taxes may be postponed until the quarter in which harvest or other contract work begins. In the quarter that harvest commences, taxes are due and payable on all billings accrued by the buyer in all prior quarters as well as the current quarter. Indexing or escalation amounts ~~((shall))~~ must be included in the quarter in which they apply.

(3) ~~((OTHER-CONSIDERATIONS:))~~ **Other considerations.** Tax due on considerations other than cash ~~((shall be))~~ is due and payable the first quarter of harvest, or the first quarter the costs are incurred, but not later than the last quarter of harvest: Provided, That if effective road credits (United States Forest Service Sales) are used as payment for stumpage, the tax is due in the quarter in which the road credits are applied as payment.

AMENDATORY SECTION (Amending WSR 95-18-027, filed 8/25/95, effective 9/25/95)

WAC 458-40-670 Timber excise tax—~~((Stumpage value adjustments—))~~ Chipwood and small log destinations. (1) **Introduction.** This ~~((section explains the harvest value adjustments to the stumpage value tables (WAC 458-40-660) for various logging and harvesting conditions. It also))~~ rule describes the procedure by which businesses that process chipwood, chipwood products, and/or small logs can become ~~((designated))~~ approved chipwood or small log destinations.

(2) ~~((Harvest value adjustments. Harvest value adjustments relating to the various logging and harvest conditions shall be allowed against the stumpage values as set forth in WAC 458-40-660 for the designated stumpage value areas with the following limitations:~~

(a) ~~No harvest adjustment shall be allowed against special forest products, chipwood, or small logs as those terms are defined in WAC 458-40-610.~~

(b) ~~Stumpage value rates for conifer and hardwoods shall be adjusted to a value no lower than one dollar per MBF.~~

(c) ~~Timber harvesters planning to remove timber from areas having damaged timber may apply to the department for adjustment in stumpage values. The application shall contain a map with the legal descriptions of the area, a description of the damage sustained by the timber with an evaluation of the extent to which the stumpage values have been materially reduced from the values shown in the applicable tables, and a list of estimated additional costs to be incurred resulting from the removal of the damaged timber. The application must be received by the department before the harvest commences. Upon receipt of an application, the department will determine the amount of adjustment allowed and notify the harvester. In the event the extent of the damage or additional costs is not known at the time the application is filed, the harvester may provide relevant information to the department for a period not exceeding ninety days following completion of the harvest unit.~~

(d) ~~The harvest adjustment tables are set forth in WAC 458-40-660(3).~~

(3) **Chipwood destinations.** Businesses that process logs to produce chips or chip products may be designated as approved "chipwood destinations." Logs delivered to the log yards ~~((designated))~~ approved as "chipwood destinations" for the purpose of being chipped may be reported as chipwood and have the volume measured by weight.

(a) The department of revenue will maintain a current list of approved chipwood destinations. This list will be updated as necessary and will be formally reviewed by the department of revenue at least twice a year. A list of approved chipwood destinations is available from the ~~((special programs division;))~~ forest tax section of the department of revenue.

(b) A log processor in the business of processing logs to produce chips or chip products that has not been designated as an approved destination may file an application to be listed as an approved chipwood destination. The application should be submitted to the Department of Revenue, Forest Tax Section, P.O. Box 47472, Olympia, Washington 98504-7472 (~~to be included in this listing~~). To qualify as an approved des-

tinuation, not less than ninety percent of the weight volume of logs delivered to and purchased by the log processor for chipping at a specified log yard or location must be processed to produce chips or chip products.

(c) Any applicant seeking administrative review of the department ~~((s))~~ of revenue's decision made under (b) of this subsection may appeal the decision in accordance with WAC 458-20-100 (Appeals, small claims and settlements).

~~((4))~~ **(3) Logs chipped in the woods.** Logs chipped in the woods may also be reported as chipwood. Volume ~~((shall))~~ must be measured in net weight of green chips.

~~((5))~~ **(4) Other chipwood processing locations.** Logs processed at locations other than those listed on the approved list of chipwood destinations maintained by the department of revenue and other than as provided in subsection ~~((4))~~ (3) of this ~~((section))~~ rule may be reported as chipwood volume when scaled as utility grade logs, based on log scaling or upon approved sample log scaling methods.

If a harvester reports chipwood volume that was delivered to a location that is not listed as an approved chipwood destination and there has been no log scaling or approved sample log scaling, the chipwood volume so reported will be converted by the department of revenue to the appropriate sawlog volume in accordance with WAC ~~((458-40-684 and 458-40-686))~~ 458-40-680 for purposes of timber excise taxation.

~~((6))~~ **(5) Small log destinations.** Businesses that process small logs as defined in WAC 458-40-610 may be designated as approved "small log destinations."

(a) The department of revenue will maintain a current list of approved small log destinations. This list will be updated as necessary and will be formally reviewed by the department of revenue at least twice a year. A list of approved small log destinations is available from the ~~((special programs division))~~ forest tax section of the department of revenue.

(b) A log processor in the business of processing small logs that has not been designated as an approved destination may file an application to be listed as an approved small log destination. The application should be submitted to the Department of Revenue, Forest Tax Section, P.O. Box 47472, Olympia, Washington 98504-7472 ~~((, to be included in this listing))~~.

(c) Any applicant seeking administrative review of the department ~~((s))~~ of revenue's decision made under (b) of this subsection may appeal the decision in accordance with WAC 458-20-100 (Appeals, small claims and settlements).

AMENDATORY SECTION (Amending WSR 96-02-056, filed 12/29/95, effective 1/29/96)

WAC 458-40-680. Timber excise tax—Volume harvested—Approved scaling and grading methods—Sample scaling—Conversions. (1) ~~((Acceptable log scaling and grading rules—Stumpage value areas 1, 2, 3, 4, 5, and 10:))~~ **Introduction.** The acceptable log scaling and grading ~~((rule shall be))~~ standard for stumpage value areas 1, 2, 3, 4, 5, and 10 is the Scribner Decimal C log rule as described in the most current edition of the "Official Log Scaling and Grading Rules" (~~((handbook))~~) developed and authored by the North-

west Log Rules Advisory Group. ~~((These are the official rules for the following log scaling and grading bureaus: Columbia River, Grays Harbor, Northern California, Puget Sound, Southern Oregon, and Yamhill.~~

~~((2))~~ **(2) Acceptable log scaling rule—Stumpage value areas 6 and 7:)** The acceptable log scaling ~~((rule shall be))~~ standard for stumpage value areas 6 and 7 is the Scribner Decimal C log rule described in the most current edition of the "National Forest Log Scaling Handbook" (FSH 2409.11) as published by the United States Forest Service. ~~((Provided, the maximum scaling length is twenty feet and maximum trim allowance shall be six inches for logs eight to twenty feet in length; and provided, further, that))~~ Lodgepole pine harvested in stumpage value areas 6, 7, or 10 ~~((shall))~~ must be scaled using a one inch taper allowance per log segment.

~~((3))~~ **(2) Special services scaling((:)),** Special services scaling as described in the "Official Log Scaling and Grading Rules" developed and authored by the Northwest Log Rules Advisory Group ~~((handbook shall))~~ may not be used for tax reporting purposes without prior written approval of the department ~~((; and all measurements and grades must be converted to standard Scribner Decimal C log rules as they are described in the handbook))~~ of revenue.

(3) Sample scaling. Sample scaling may not be used for tax reporting purposes without prior written approval of the department of revenue. To be approved, sample scaling must be in accordance with the following guidelines:

(a) Sample selection, scaling, and grading must be conducted on a continuous basis as the unit is harvested.

(b) The sample must be taken in such a manner to assure random, unbiased sample selection in accordance with accepted statistical tests of sampling.

(c) The sample used to determine total volume, species, and quality of timber harvested for a given reporting period must have been taken during that period.

(d) Sample frequency must be large enough to meet board foot variation accuracy limits of plus or minus two and five-tenths percent standard error at the ninety-five percent confidence level.

(e) Harvesters must maintain sufficient supporting documentation to allow the department of revenue to verify source data, and test statistical reliability of sample scale systems.

(f) Exceptions: Sampling designs and accuracy standards other than those described herein may only be used with the prior written approval of the department of revenue.

(4) Conversions to Scribner Decimal C Scale. The following definitions, tables, and conversion factors must be used in determining taxable volume for timber harvested that was not originally scaled by the Scribner Decimal C Log Rule. Conversion methods other than those listed are not to be used for tax reporting purposes without prior written approval of the department of revenue. Harvesters who wish to use a method of conversion other than those listed below must obtain written approval from the department of revenue before harvesting.

(a) Weight measurement. If the original unit of measure was by weight, and the harvester has not applied for approval of sample scaling, the following tables must be used for converting to Scribner Decimal C. Harvesters must keep

records to substantiate the species and quality codes reported. For tax reporting purposes, a ton equals 2,000 pounds.

(b) **Cord measurement.** For the purposes of converting cords into Scribner volume:

(i) In stumpage value areas 1, 2, 3, 4, 5, and 10 logs with an average scaling diameter of 8 inches and larger must be converted to Scribner volume using 400 board feet per cord. Logs having an average scaling diameter of less than 8 inches must be converted to Scribner volume using 330 board feet per cord.

(ii) In stumpage value areas 6 and 7 logs with an average scaling diameter of 8 inches and larger must be converted to Scribner volume using 470 board feet per cord. Logs having an average scaling diameter of less than 8 inches must be converted to Scribner volume using 390 board feet per cord.

(iii) A cord of Western Redcedar shake or shingle blocks must be converted to Scribner volume using 600 board feet per cord.

(c) **Cants or lumber from portable mills.** To convert from lumber tally to Scribner volume:

(i) In stumpage value areas 1, 2, 3, 4, 5, and 10 multiply the lumber tally for the individual species by 75%, and round to the nearest one thousand board feet (MBF); or

(ii) In stumpage value areas 6 and 7 multiply the lumber tally for the individual species by 88%, and round to the nearest one thousand board feet (MBF).

(d) **Log scale conversion.** Timber harvested in stumpage value areas 1, 2, 3, 4, 5, and 10 and which has been scaled by methods and procedures published in the "National Forest Log Scaling Handbook" (FSH 2409.11) must have the volumes reported reduced by eighteen percent. Timber harvested in stumpage value areas 6 and 7 and which has been scaled by methods and procedures published in the "Official Log Scaling and Grading Rules" developed and authored by the Northwest log rules advisory group, must have the volumes reported increased by eighteen percent.

(e) **Timber pole and piling volume tables.** Harvesters of poles must use the following tables to determine the Scribner board foot volume for each pole length and class:

AMENDATORY SECTION (Amending WSR 98-16-044, filed 7/31/98, effective 9/1/98)

WAC 388-501-0135 Patient requiring regulation. (1) Patient requiring regulation (PRR) is a health and safety program for clients needing help in the appropriate use of medical services. A client in PRR is restricted to one primary care provider (PCP) and one pharmacy. Enrollment in the PRR program is for twenty-four months.

(2) Any client of the department's medical programs is reviewed for assignment to PRR if:

(a) The client has:

(i) Made repeated and documented efforts to seek medically unnecessary health services; and

(ii) Been counseled at least once by a health care provider or managed care plan representative about the appropriate use of health care services; or

(b) Any three of the following conditions have been met or exceeded in a ninety-day period. The client:

((a)) (i) Received services from four different physicians; or

((b)) (ii) Had prescriptions filled by four different pharmacies; or

((c)) (iii) Received ten prescriptions; or

((d)) (iv) Had prescriptions filled by four different prescribers; or

((e)) (v) Used two emergency room (ER) visits.

(3) If subsections (2)(a) or (b) of this section apply, then the client's use of medical services is reviewed by the department. The review considers the client's diagnoses, history of services provided, or other medical information supplied by the health care provider or managed care plan. The review is done by a nurse consultant, physician, or other qualified medical staff according to established medical review guidelines.

(4) If the medical review finds that the client uses inappropriate or medically unnecessary services the client receives written notice which:

(a) Asks the client to select a primary care provider and one pharmacy; and

(b) Notifies the client of their right to request a fair hearing within ninety days (see subsection (6) of this section); and

(c) Requires the client to respond within twenty days by:

(i) Selecting a primary care provider and pharmacy; or

(ii) Submitting additional medical information, which justifies the client's use of medical services; or

(iii) Writing or calling the PRR representative, who is identified in the PRR notice, requesting assistance; or

(iv) Requesting a fair hearing (see subsection (6) of this section).

(5) A client who does not respond to the notice within twenty days is assigned to the PRR program. The department assigns the client to a PCP and pharmacy. The client may change the assigned PCP and pharmacy once within the initial sixty days. The assigned providers will be:

- (a) Located in the client's local geographic area; and
- (b) Reasonably accessible to the client.

(6) A client has ninety days to request a fair hearing. A client who requests a fair hearing within twenty days from the date they receive notice under subsection (4) of this section will not be assigned to the PRR program until a fair hearing decision is made. A client who requests a fair hearing after twenty days may have been assigned a PCP and pharmacist. An assigned client will remain in PRR until a fair hearing decision is made.

(7) When a PRR client chooses or the department assigns a PCP and pharmacy, the PCP and pharmacy requirements are:

(a) A PCP supervises and coordinates medical care for the client. The PCP makes referrals for specialist care and provides continuity of care. A PCP must be:

- (i) A physician who meets the criteria under WAC ((388-87-007)) 388-502-0020 and 388-502-0030; or
- (ii) An advanced registered nurse practitioner (ARNP) who meets criteria under WAC ((388-87-007)) 388-502-0020 and 388-502-0030; or
- (iii) A licensed physician assistant, practicing with a sponsoring supervising physician.

(b) A single pharmacy fills all prescriptions for the client. For fee for service clients the pharmacy must be contracted with MAA.

(c) For clients enrolled in a managed care plan, the pharmacy and PCP must be contracted with the client's managed care plan.

(8) The PRR client's medical assistance identification card (MAID) will be marked in the "restricted" column.

(9) A client in PRR cannot change their PCP or pharmacy for twelve months unless the:

- (a) Client changes to a residence outside the provider's geographic area; or
- (b) PCP or pharmacy moves out of the client's geographical area; or
- (c) PCP or pharmacy refuses to continue as the client's provider; or
- (d) Client was assigned providers. The client may change the assigned providers once within sixty days of the initial assignment.

(10) A PRR client enrolled in a managed care plan must select a PCP and pharmacy from those identified as available within their plan. In addition to the reasons given in subsection (9) of this section, the client may change a provider if the:

- (a) Chosen or assigned PCP or pharmacy no longer participates with their plan. The client may:
 - (i) Select a new PCP from the list of available PCPs provided by the plan; or
 - (ii) Transfer enrollment of all family members to the new department-contracted plan which the established PCP has joined.

(b) Client chooses a new plan during the managed care program's open enrollment period, which occurs during the twenty-four-month PRR enrollment period as defined in subsection (1) of this section.

(11) After twenty-four months, a PRR client's use of services is reviewed. A client is removed from PRR if:

- (a) The billing records show the care received was reasonable and appropriate; or
- (b) The PCP reports the services requested and received were reasonable and appropriate.

(12) If the client is not removed from PRR under subsection (11) of this section, the client continues to be in PRR for an additional twelve months. After that twelve-period, the client is reviewed again according to subsection (11)(a) and (b) of this section.

(13) Under the PRR program, MAA or the client's managed care plan will pay for only:

- (a) Those services authorized by the PCP, the PCP-referred specialist, or the pharmacist; or
- (b) Emergencies services; or
- (c) Family planning services; or
- (d) Women's health care services. A client enrolled with a managed care plan must self-refer to providers within the plan's network.

The client may be responsible for payment of services not covered by the PRR program.

(3) The person who signs the application makes the assignment of rights to the state. Assignment is made on their own behalf and on behalf of any eligible person for whom they can legally make such assignment.

(4) A person must cooperate with the department in the identification, use or collection of third-party benefits. Failure to cooperate results in a termination of eligibility for the responsible person. Other obligations for cooperation are located in chapters ((388-14)) 388-14A and 388-422 WAC. The following clients are exempt from termination of eligibility for medical coverage as a result of noncooperation:

- (a) A pregnant woman, and
- (b) Minor children, and
- (c) A person who has been determined to have "good cause" for noncooperation (see WAC 388-422-0015).

(5) A person will not lose eligibility for medical assistance programs due solely to the noncooperation of any third party.

(6) A person will be responsible for the costs of otherwise covered medical services if:

- (a) The person received and kept the third-party payment for those services; or
- (b) The person refused to provide to the provider of care their legal signature on insurance forms.

AMENDATORY SECTION (Amending Order 3732, filed 5/3/94, effective 6/3/94)

WAC 388-512-1230 Refusal to accept medical treatment. (1) A disabled client who refuses without good cause to accept available medical treatment which can reasonably be expected to render the client able to work or do homemaking shall become ineligible.

(2) "**Available medical treatment**" shall mean medical, surgical or psychiatric therapy, or any combination of these treatments.

(3) "**Reasonably be expected to render the client able to work or do homemaking**" shall mean that, in the opinion of the state review team, the recommended medical, surgical, or psychiatric therapy is of such a nature and prognosis that, in the specific instance of the person involved, medical experience indicates that the recommended treatment will restore or substantially improve the person's ability to work for pay in a regular and predictable manner or to engage in homemaking.

(4) A client has good cause to refuse recommended medical treatment when, according to the best objective judgment of the state office review team, such refusal is based upon one or more of the following conditions:

(a) The person is genuinely fearful of undergoing recommended treatment. Such fear may appear to be unrealistic, or entirely emotional in origin, or irrational; however, fear exists in such a degree that treatment would be adversely affected and the doctor may therefore be dubious about undertaking to treat the person;

(b) The person could lose a faculty, or the remaining use of faculty the client now has, and refuses to accept the risk; or

(c) The person will not accept recommended medical treatment because of definitely stated religious scruples.

(5) The controlling principle in determining whether refusal was for or without good cause rests with the state office review team which will be guided by whether a reasonable, prudent person under similar circumstances would accept the recommended treatment. The determination will be made only after considering all social and medical evidence, including that furnished by the person, who will be provided with an opportunity to set forth in writing objective reasons for declining recommended treatment. A determination that a refusal to accept treatment without good cause is a decision which the client may appeal according to chapter ((388-08)) 388-02 WAC.

AMENDATORY SECTION (Amending WSR 00-01-051, filed 12/8/99, effective 1/8/00)

WAC 388-513-1350 Defining the resource standard and determining available resources for long-term care (LTC) services. This section describes how the department defines the resource standard and available resources when

determining a client's eligibility for LTC services. The department uses the term "resource standard" to describe the maximum amount of resources a client can have and be resource eligible for program benefits.

(1) The resource standard used to determine eligibility for LTC services equals:

- (a) Two thousand dollars for a single client; or
- (b) Three thousand dollars for a legally married couple, unless subsection (2) applies.

(2) If the department has already established eligibility for one spouse, then it applies the standard described in subsection (1)(a) to each spouse, unless doing so would make one of the spouses ineligible.

(3) The department must apply the following rules when determining available resources for LTC services:

- (a) WAC 388-470-0005, Resource eligibility and limits;
- (b) WAC 388-470-0010, How to determine who owns a resource;
- (c) WAC 388-470-0015, Availability of resources;
- (d) WAC 388-470-0060(6), Resources of an alien's sponsor; and
- (e) WAC 388-506-0620, SSI-related medical clients.

(4) The department determines a client's nonexcluded resources used to establish eligibility for LTC services in the following way:

(a) For an SSI-related client, the department reduces available resources by excluding resources described in WAC 388-513-1360;

(b) For an SSI-related client who has a community spouse, the department:

(i) Excludes resources described in WAC 388-513-1360; and

(ii) Adds together the available resources of both spouses according to subsection (5)(a) or (b) as appropriate;

(c) For a client not described in subsection (4)(a) or (b), the department applies the resource rules of the program used to relate the client to medical eligibility.

(5) A change in federal law that took effect on October 1, 1989 affects the way the department determines available resources of a legally married client. If the client's current period of institutional status began:

(a) On or after that date, the department adds together the total amount of nonexcluded resources held in the name of:

- (i) Either spouse; or
- (ii) Both spouses.

(b) Before that date, the department adds together one-half the total amount of nonexcluded resources held in the name of:

- (i) The institutionalized spouse; or
- (ii) Both spouses;

(6) If subsection (5)(a) applies, the department allocates the maximum amount of resources ordinarily allowed by law to the community spouse before determining nonexcluded resources used to establish eligibility for the institutionalized spouse. The maximum allocation amount is eighty-four thousand, one hundred and twenty dollars effective January 1, 2000.

(7) The amount of allocated resources described in subsection (6) can be increased, only if:

(a) A court transfers additional resources to the community spouse; or

(b) An administrative law judge establishes in a ((fair)) hearing described in chapter ((388-08)) 388-02 WAC that the amount is inadequate to provide a minimum monthly maintenance needs amount for the community spouse.

(8) The department considers resources of the community spouse unavailable to the institutionalized spouse the month after eligibility for LTC services is established, unless subsections (9)(a), (b), or (c) apply.

(9) A redetermination of the couples' resources as described in subsections (4)(b) or (c) is required, if:

(a) The institutionalized spouse has a break of at least thirty consecutive days in a period of institutional status;

(b) The institutionalized spouse's nonexcluded resources exceed the standard described in subsection (1)(a), if subsection (5)(a) applies; or

(c) The institutionalized spouse does not transfer the amount described in subsections (6) or (7) to the community spouse or to another person for the sole benefit of the community spouse as described in WAC 388-513-1365(4) by either:

- (i) The first regularly scheduled eligibility review; or
- (ii) The reasonable amount of additional time necessary to obtain a court order for the support of the community spouse.

AMENDATORY SECTION (Amending WSR 00-01-051, filed 12/8/99, effective 1/8/00)

WAC 388-513-1365 Evaluating the transfer of an asset made on or after March 1, 1997 for long-term care (LTC) services. This section describes how the department evaluates the transfer of an asset made on or after March 1, 1997, by a client who is applying or approved for LTC services. The department must consider whether a transfer made within a specified time before the month of application requires a penalty period in which the client is not eligible for these services. Refer to WAC 388-513-1366 for rules used to evaluate the transfer of an asset made before March 1, 1997.

(1) The department disregards the following transfers by the client, if they meet the conditions described:

(a) Gifts or donations totaling one thousand dollars or less in any month;

(b) The transfer of an excluded resource described in WAC 388-513-1360 with the exception of the client's home, unless the transfer meets the conditions described in subsection (1)(d);

(c) The transfer of an asset for less than fair market value (FMV), if the client can provide evidence to the department that satisfies one of the following:

(i) An intent to transfer the asset at FMV or other adequate compensation;

(ii) The transfer is not made to qualify for LTC services;

(iii) The client is given back ownership of the asset;

(iv) The denial of eligibility would result in an undue hardship.

(d) The transfer of ownership of the client's home, if it is transferred to the client's:

(i) Spouse; or
(ii) Child, who:
(A) Meets the disability criteria described in WAC 388-511-1105 (1)(b) or (c); or
(B) Is less than twenty-one years old; or
(iii) A son or daughter, who:
(A) Lived in the home for at least two years immediately before the client's current period of institutional status; and
(B) Provided care that enabled the client to remain in the home; or
(iv) A brother or sister, who has:
(A) Equity in the home, and
(B) Lived in the home for at least one year immediately before the client's current period of institutional status.
(e) The transfer of an asset other than the home, if the transfer meets the conditions described in subsection (4), and the asset is transferred:
(i) To the client's spouse or to another person for the sole benefit of the spouse;
(ii) From the client's spouse to another person for the sole benefit of the spouse;
(iii) To the client's child who meets the disability criteria described in WAC 388-511-1105 (1)(b) or (c) or to a trust established for the sole benefit of this child; or
(iv) To a trust established for the sole benefit of a person who is sixty-four years old or younger and meets the disability criteria described in WAC 388-511-1105 (1)(b) or (c).
(f) The transfer of an asset to a member of the client's family in exchange for care the family member provided the client before the current period of institutional status, if a written agreement that describes the terms of the exchange:
(i) Was established at the time the care began;
(ii) Defines a reasonable FMV for the care provided that reflects a time frame based on the actuarial life expectancy of the client who transfers the asset; and
(iii) States that the transferred asset is considered payment for the care provided.
(2) When the fair market value of the care described in subsection (1)(f) is less than the value of the transferred asset, the department considers the difference the transfer of an asset without adequate consideration.
(3) The department considers the transfer of an asset in exchange for care given by a family member without a written agreement as described under subsection (1)(f) as the transfer of an asset without adequate consideration.
(4) The transfer of an asset or the establishment of a trust is considered to be for the sole benefit of a person described in subsection (1)(e), if the transfer or trust:
(a) Is established by a legal document that makes the transfer irrevocable; and
(b) Provides for spending all funds involved for the benefit of the person for whom the transfer is made within a time frame based on the actuarial life expectancy of that person.
(5) When evaluating the effect of the transfer of an asset on a client's eligibility for LTC services received on or after October 1, 1993, the department counts the number of months before the month of application to establish what is referred to as the "look-back" period. The following number of months apply as described:

(a) Thirty-six months, if all or part of the assets were transferred on or after August 11, 1993; and

(b) Sixty months, if all or part of the assets were transferred into a trust as described in WAC 388-505-0595.

(6) If a client or the client's spouse transfers an asset within the look-back period without receiving adequate compensation, the result is a penalty period in which the client is not eligible for LTC services. If a client or the client's spouse transfers an asset on or after March 1, 1997, the department must establish a penalty period as follows:

(a) If a single or multiple transfers are made within a single month, then the penalty period:

(i) Begins on the first day of the month in which the transfer is made; and

(ii) Ends on the last day of the number of whole months found by dividing the total uncompensated value of the assets by the statewide average monthly private cost for nursing facilities at the time of application.

(b) If multiple transfers are made during multiple months, then the transfers are treated as separate events and multiple penalty periods are established that:

(i) Begin on the latter of:

(A) The first day of the month in which the transfer is made; or

(B) The first day after any previous penalty period has ended; and

(ii) End on the last day of the whole number of months as described in subsection (6)(a)(ii).

(7) If an asset is sold, transferred, or exchanged, the portion of the proceeds:

(a) That is used within the same month to acquire an excluded resource described in WAC 388-513-1360 does not affect the client's eligibility;

(b) That remains after an acquisition described in subsection (7)(a) becomes an available resource as of the first day of the following month.

(8) If the transfer of an asset to the client's spouse includes the right to receive a stream of income not generated by a transferred resource, the department must apply rules described in WAC 388-513-1330 (6) through (8).

(9) If the transfer of an asset for which adequate compensation is not received is made to a person other than the client's spouse and includes the right to receive a stream not generated by a transferred resource, the length of the penalty period is determined and applied in the following way:

(a) The total amount of income that reflects a time frame based on the actuarial life expectancy of the client who transfers the income is added together;

(b) The amount described in (9)(a) is divided by the statewide average monthly private cost for nursing facilities at the time of application; and

(c) A penalty period equal to the number of whole months found by following subsections (9)(a) and (b) is applied that begins on the latter of:

(i) The first day of the month in which the client transfers the income; or

(ii) The first day of the month after any previous penalty period has ended.

(10) A penalty period for the transfer of an asset that is applied to one spouse is not applied to the other spouse, unless:

- (a) Both spouses are receiving LTC services; and
- (b) A division of the penalty period between the spouses is requested.

(11) If a client or the client's spouse disagrees with the determination or application of a penalty period, that person may request a ~~((fair))~~ hearing as described in chapter ~~((388-08))~~ 388-02 WAC.

AMENDATORY SECTION (Amending WSR 99-11-076, filed 5/18/99, effective 6/18/99)

WAC 388-527-2750 Waiver of recovery if undue hardship. Recovery is waived under this section when recovery would cause an undue hardship, except as provided in subsection (3) of this section. This waiver is limited to the period during which undue hardship exists.

(1) Undue hardship exists when:

- (a) The estate subject to adjustment or recovery is the sole income-producing asset of one or more of the heirs and income is limited; or
- (b) Recovery would result in the impoverishment of one or more of the heirs; or
- (c) Recovery would deprive an heir of shelter and the heir lacks the financial means to obtain and maintain alternative shelter.

(2) Undue hardship does not exist when:

- (a) The adjustment or recovery of the client's cost of assistance would merely cause the client's family members inconvenience or restrict the family's lifestyle.
- (b) The heir divests assets to qualify under the undue hardship provision.

(3) When a deceased client's assets were disregarded in connection with a long-term care insurance policy or contract under chapter 48.85 RCW, recovery is not waived.

(4) When a waiver is not granted, the department will provide notice to the person who requested the waiver. The denial of a waiver must state:

- (a) The requirements of an application for an adjudicative proceeding to contest the department's decision to deny the waiver; and
- (b) Where assistance may be obtained to make such application.

(5) A person may contest the department's decision in an adjudicative proceeding when that person requested the department waive recovery, and suffered a loss because that request was not granted.

(6) An application for an adjudicative proceeding under this section must:

- (a) Be in writing;
- (b) State the basis for contesting the department's denial of the request to waive recovery;
- (c) Include a copy of the department's denial of the request to waive recovery;
- (d) Be signed by the applicant and include the applicant's address and telephone number;
- (e) Be served within twenty-eight days of the date the applicant received the department's decision denying the

request for a waiver. If the applicant shows good cause, the application may be filed up to thirty days late; and

(f) Be served on the office of financial recovery (OFR) as described in WAC 388-527-2795.

(7) An adjudicative proceeding held under this section shall be governed by chapters 34.05 RCW and ~~((388-08))~~ 388-02 WAC and this section. If a provision in this section conflicts with a provision in chapter ~~((388-08))~~ 388-02 WAC, the provision in this section governs.

AMENDATORY SECTION (Amending WSR 98-16-044, filed 7/31/98, effective 9/1/98)

WAC 388-529-0100 Scope of covered medical services by program. (1) The scope of medical care which clients can receive is based on the medical program for which they are eligible. Clients eligible for the following medical programs have coverage for the medically necessary services indicated in the specific columns in the chart provided in WAC 388-529-0200:

(a) Categorically needy (CN) medical coverage is provided as described in the "CN" column. Coverage is modified by the provisions in this section and those found in ~~((chapter 388-86))~~ other medical-assistance-related WAC;

(b) Medically needy (MN) medical coverage is provided as described in the "MN" column and as modified in this section and in ~~((chapter 388-86))~~ other medical-assistance-related WAC;

(c) General assistance - unemployable (GAU) or alcohol and drug abuse treatment and support act (ADATSA) medical coverage is provided as described in the "MCS" column. Coverage is modified by the provisions in WAC ~~((388-86-420))~~ 388-556-0500;

(d) The state-funded children's health program has medical coverage as described in the "CN" column and in subsection (1)(a) of this section;

(e) State-funded medically indigent (MI) program has medical coverage as described in the "MI" column to the extent that services are related to the qualifying emergency condition. Coverage begins after the client has met the

annual emergency medical expense requirement (EMER) as described in WAC 388-438-0100.

(f) Pregnant undocumented aliens have medical coverage as described in the "CN" column and in subsection (1)(a) of this section.

(2) "Medically necessary" is a standard for coverage of services under the CN and MN programs. The term is defined in WAC 388-500-0005.

(3) Entries in WAC 388-529-0200 have the following meanings and conditions:

(a) "Yes":

(i) The service must be medically necessary as defined by the program; and

(ii) The service may have conditions placed on coverage in order to ensure that medical necessity exists. Examples are:

(A) The prior authorization requirement,

(B) The primary care provider referral requirement,

(C) The limit on eyeglasses to be covered for adults only once in a twenty-four-month period without documentation of special circumstances, etc.

(b) "HK" - the services are provided to children under the healthy kids program as described in WAC ~~((388-86-027))~~ 388-534-0100. This is consistent with the broader scope of coverage under the healthy kids program.

(c) "No" - This entry is used to describe coverage limitations of state-funded programs and indicates that the services are not covered. However, medically necessary services may be available under an "exception to rule" as described in chapter 388-440 WAC.

(d) "L" - the services are provided under limited circumstances described further under WAC 388-529-0200.

(e) "R" - the services are provided only as they are directly connected to emergency medical conditions. These program restrictions are described in WAC 388-438-0100.

(4) Coverage described in this chapter may be further limited by the notations defined in WAC 388-529-0200 and ~~((the provisions in chapters 388-86 and 388-87))~~ other medical-assistance-related WAC. Services may require prior authorization to ensure that medical necessity exists.

(5) Medical service categories not listed in WAC 388-529-0200 may not be covered under typical circumstances. Seeking specific coverage decisions in advance of service delivery is advised. Medical service providers may request authorization for any service which they see as medically necessary under WAC 388-501-0165.

AMENDATORY SECTION (Amending WSR 98-16-044 [00-11-183], filed 5/24/00, effective 5/24/00)

WAC 388-534-0100 Healthy kids/EPSTD. (1) Persons who are eligible for Medicaid are eligible for healthy kids (HK) coverage up through the day before their twenty-first birthday. This coverage is called early and periodic screening, diagnosis and treatment (EPSTD) in federal rule.

(2) Access and services for healthy kids are governed by federal rules at 42 CFR, Part 441, Subpart B which were in effect as of January 1, 1998.

(a) The standard for coverage for healthy kids is that the services, treatment or other measures are:

- (i) Medically necessary;
- (ii) Safe and effective; and
- (iii) Not experimental.

(b) Healthy kids services are exempt from specific coverage or service limitations which are imposed on the rest of the CN and MN program. Examples of service limits which do not apply to the healthy kids program are the specific numerical limits in WAC ((~~388-86-073(4)~~, ~~388-86-090(2)~~, ~~388-86-098(3)~~) 388-545-300, 388-545-500, and 388-545-700, etc.

(c) Services not otherwise covered under the Medicaid program are available to children under healthy kids. The services, treatments and other measures which are available include but are not limited to:

- (i) Nutritional counseling;
- (ii) Chiropractic care;
- (iii) Orthodontics; and
- (iv) Occupational therapy (not otherwise covered under the MN program).

(d) Prior authorization and referral requirements are imposed on medical service providers under healthy kids. Such requirements are designed as tools for determining that a service, treatment or other measure meets the standards in subsection (2)(a) of this section.

(3) Transportation requirements of 42 CFR 441, Subpart B are met through a contract with transportation brokers throughout the state.

WAC 388-538-095 Scope of care for managed care enrollees. (1) A **managed care enrollee** is eligible for the **categorically needy** scope of medical care as described in WAC 388-529-0100.

(a) A **client** is entitled to timely access to **medically necessary services** as defined in WAC 388-500-0005.

(b) The **plan** covers the **services** included in the **HO contract** for **plan enrollees**. In addition, **plans** may, at their discretion, cover **services** not required under the **HO contract**.

(c) MAA covers the **categorically needy services** not included in the **HO contract** for **plan enrollees**.

(d) **Plan enrollees** may obtain certain **services** from either a **plan provider** or from a medical assistance **provider** with a DSHS core **provider** agreement without needing to obtain a referral from the **PCP** or **plan**. These **services** are described in the **HO contract**, and are communicated to **enrollees** by MAA and **plans** as described in (e) of this subsection.

(e) MAA sends each **client** written information about covered **services** when the **client** is required to enroll in **managed care**, and any time there is a change in covered **services**. This information describes covered **services**, which **services** are covered by MAA, and which **services** are covered by **plans**. In addition, MAA requires **plans** to provide new **enrollees** with written information about covered **services**.

(f) MAA covers **services** on a fee-for-service basis for **clients** enrolled with a **PCCM provider**. Except for emergencies, a **client's PCCM provider** must refer the client for most services not provided by the **PCCM provider**. The services that require **PCCM provider** referral are described in the **PCCM contract**. MAA requires **PCCM providers** to inform **enrollees** about covered **services** and how to obtain them.

(2) For **services** covered by MAA for **managed care enrollees**:

(a) MAA covers **services** rendered by **providers** with a current DSHS core **provider** agreement to provide the requested **service**;

(b) MAA may require the **provider** to obtain authorization from MAA for coverage of nonemergency **services**;

(c) MAA determines which **services** are **medically necessary**; and

(d) An **enrollee** may request a fair hearing for review of MAA coverage decisions.

(3) For **services** covered by **plans**:

(a) MAA requires **plans** to contract with a sufficient number of **providers** as determined by MAA, to deliver the

scope of **services** contracted with the **plan** in a timely fashion, according to the requirements of the HO contract. Except for emergency **services**, **plans** provide covered **services** to **enrollees** through their **participating providers**;

(b) **MAA** requires **plans** to provide new **enrollees** with written information about how **enrollees** may obtain covered **services**;

(c) For nonemergency **services**, **plans** may require the **enrollee** to obtain a referral from the **PCP**, or the **provider** to obtain authorization from the **plan**, according to the requirements of the **HO** contract;

(d) **Plans** and their **providers** determine which **services** are medically necessary given the **enrollee's** condition, according to the requirements included in the **HO** contract;

(e) An **enrollee** may **appeal plan** coverage decisions using the **plan's** **appeal** process, as described in WAC 388-538-0110. An **enrollee** may also request a ((fair)) hearing for review of a **plan** coverage decision as described in chapter ((388-08)) 388-02 WAC;

(f) A managed care enrollee does not need a PCP referral to receive women's health care services, as described in RCW 48.42.100 from any women's health care provider participating with the plan. Any covered services ordered and/or prescribed by the women's health care provider must meet the plan's service authorization requirements for the specific service.

(4) Unless the **plan** chooses to cover these **services**, or an **appeal** or a fair hearing decision reverses a denial, the following **services** are not covered:

(a) For all **managed care enrollees**:

(i) **Services** that are not medically necessary;

(ii) **Services** not included in the **categorically needy** scope of **services**; and

(iii) **Services**, other than a screening exam as described in WAC 388-538-100(3), received in a **hospital** emergency department for nonemergency medical conditions.

(b) For **plan enrollees**:

(i) **Services** received from a participating specialist that require prior authorization from the **plan**, but were not authorized by the **plan**; and

(ii) **Services** received from a nonparticipating **provider** that require prior authorization from the **plan** that were not authorized by the **plan**. All nonemergency **services** covered under the HO contract and received from nonparticipating **providers** require prior authorization from the **plan**.

(c) For **PCCM enrollees**, **services** that require a referral from the **PCCM provider** as described in the **PCCM** contract, but were not referred by the **PCCM provider**.

(5) A provider may bill an enrollee for noncovered **services** as described in subsection (4) of this section, if the **enrollee** and provider sign an agreement. The provider must give the original agreement to the enrollee and file a copy in the enrollee's record.

(a) The agreement must state all of the following:

(i) The specific **service** to be provided;

(ii) That the **service** is not covered by either **MAA** or the **plan**;

(iii) An explanation of why the **service** is not covered by the **plan** or **MAA**, such as:

(A) The **service** is not medically necessary; or

(B) The **service** is covered only when provided by a participating provider.

(iv) The **enrollee** chooses to receive and pay for the **service**; and

(v) Why the **enrollee** is choosing to pay for the **service**, such as:

(A) The **enrollee** understands that the **service** is available at no cost from a **provider** participating with the **plan**, but the **enrollee** chooses to pay for the **service** from a **provider** not participating with the **plan**;

(B) The **plan** has not authorized emergency department **services** for nonemergency medical conditions and the **enrollee** chooses to pay for the emergency department's **services** rather than wait to receive **services** at no cost in a **participating provider's** office; or

(C) The **plan** has determined that the **service** is not medically necessary and the **enrollee** chooses to pay for the **service**.

(b) For limited English proficient **enrollees**, the agreement must be translated or interpreted into the **enrollee's** primary language to be valid and enforceable.

(c) The agreement is void and unenforceable, and the **enrollee** is under no obligation to pay the **provider**, if the **service** is covered by **MAA** or the **plan** as described in subsection (1) of this section, even if the **provider** is not paid for the covered service because the **provider** did not satisfy the payor's billing requirements.

(5) The agency will send semiannual notices of the due dates and amounts of deposits required under subsection (4) of this section. The fee for late filings under WAC 490-105-070(2) of this chapter applies to late payments of deposits into the fund for a period cumulating to thirty calendar days. Failure to make a deposit within thirty calendar days is a violation of RCW 28C.10.050 (1)(f).

(6) Each semiannual notice will include:

- (a) The school's aggregated prior deposits into the fund;
- (b) The school's balance of remaining payments, based on the most recent deposit received and adjusted to the current contribution level;

(c) The cumulated balance existing in the fund at the most recent half-year accounting; and

(d) A summary showing any disbursements made from the fund to satisfy claims in the period since the last summary was disseminated.

(7) If disbursements made to settle claims reduce the operating balance below one million dollars and recovery of such funds has not been ensured under the provisions of RCW 28C.10.084 (10)(d), the agency will assess each school a pro rata share of the amount required to restore the deficiency. The assessment will be made within thirty calendar days of the date deficiency is created. Each school's share of the assessment will be calculated using the percentages established under subsection (2) of this section. If the school's assessment equals or is less than the semiannual amount of deposit established for the school under subsection (4) of this section, the assessment must be paid within thirty calendar days of notice. If the assessment exceeds the amount of the school's semiannual deposit, it may apply to the agency for a schedule of deferred payments. The agency will grant deferrals on application, but in no case will the extension exceed one year beyond the date of the assessment.

(8) Funds disbursed to settle claims against a currently licensed school will be recovered by the agency under a schedule to be negotiated with the affected school on a

case-by-case basis. To secure deferral of payment more than thirty calendar days after demand for recovery is made, the burden to prove manifest hardship rests on the school but in no case will the time extended exceed one year beyond the date of the initial demand notice.

(9) Claimant, as referenced under RCW 28C.10.084 (10)(a), is further defined to mean an enrolled student in regular attendance or on an authorized leave of absence at the time of closure.

AMENDATORY SECTION (Amending Order 72-1, filed 2/1/73, effective 3/9/73)

WAC 132E-124-010 Everett ((and Edmonds Community College))—State of educational freedom. The board of trustees of Washington Community College District V, acting in accordance with the responsibilities imposed upon us by the law of the state, herein takes notice that the college has prudently and effectively maintained a policy guaranteeing educational freedom to the faculty and to those it serves. The board of trustees sets forth the following statement as policy:

(1) We, the board of trustees of Washington Community College District No. 5, are responsible for general supervision of the affairs of Everett Community College ((and Edmonds Community College)). As such, we believe we have a special obligation to vigorously promote the freedoms provided by the democratic processes of our free society. We conceive that central to its very existence is full and free discussion of the controversial issues of our time conducted in a responsible manner.

(2) We believe that freedom of speech and assembly requires a forum wherein students may develop their thoughts and their convictions.

(3) We seek to enlist and maintain a competent faculty whose members subscribe to high standards of professional conduct. We encourage the faculty to assist students in their search for truth in any way consistent with those standards which include an obligation on the part of the instructor to place major emphasis on information and analysis in his field of competence.

(4) We hold that an instructor's unique role in the community is to be specially involved in the objective search for truth. His chief contribution, however, is in the classroom where in order to foster the spirit of responsible, objective inquiry he has freedom to discuss his subject and to lead discussion in any controversial aspects of its content. We hold that an instructor's unique position imposes upon him special obligations.

(a) In his writing and speaking he should seek accuracy.

(b) He should exercise appropriate restraint.

(c) He should show respect for the opinions of others and for freedom of expression among others.

(d) While writing or speaking as a private citizen he should clearly indicate that he is not a college spokesman.

We further believe that when an instructor speaks or writes as a private citizen he is entitled to all the rights of his

EXPEDITED ADOPTION

citizenship and he must assume the responsibility for his own actions.

(5) We encourage inviting to the college speakers who represent diverse points of view. Such speakers are expected to regard this privilege as entailing the same responsibilities and obligations as those faced by instructors. We, moreover, will always assure ourselves that the event is in no way an abuse of that privilege. In the discussion of sensitive issues the board of trustees reserves the right, either by its own act or by delegation, to impose conditions upon these speakers which will insure the opportunity to challenge these views. The trustees further insist that there shall be left no implication by the college of approval or disapproval of either the speakers of their views.

(6) We encourage student organizations which are officially recognized by the college to invite speakers to the campus providing suitable space is available and there is no interference with the regularly scheduled program of the college.

(7) In order to provide an atmosphere of open exchange and to insure that the educational objectives of the college are not obscured, the president may prescribe conditions for the conduct of the meeting in any case which may be attended by extreme emotional feeling. Such action may include designating a member of the faculty to be chairman, and/or requiring permission for comments and questions from the floor. Likewise the president may require the appearance of one or more additional speakers at the meeting in question, or at a subsequent meeting, so that other points of view may be expressed. He shall also prescribe the regulations for the advanced planning of all meetings to be addressed by outside speakers and may designate representatives to recommend conditions for the conduct of particular meetings.

(8) The board of trustees will neither authorize nor tolerate actions by any speaker during a meeting which:

(a) Incite the audience to riot or violate state or federal laws.

(b) Advocate the overthrow, destruction, or alteration of the constitutional form of government of the United States, or of the state of Washington, or any political subdivision of either of them by revolution, force or violence.

(9) The president or his duly delegated representative shall be charged with the responsibility of carrying out and implementing the policy enumerated herein.

AMENDATORY SECTION (Amending WSR 98-22-033, filed 10/29/98, effective 11/29/98)

WAC 490-105-040 What does it take to obtain a private vocational school license? (See RCW 28C.10.050 and 28C.10.060.) An entity that wishes to operate a private vocational school must apply for a license on forms provided by the agency. If the agency determines an application is deficient, the applicant will be so notified. The applicant must correct the deficiencies within thirty days of notification. If that fails to occur, the application will be returned to the applicant. The license application fee will not be refunded. The agency's executive director or designee may deny a license application for just cause.

The application must include the following information attested to by the school's chief administrative officer:

(1) An identification of owners, shareholders, and directors.

(a) The complete legal name, current telephone number, and current mailing address of the owner;

(b) The form of ownership; e.g., sole proprietorship, partnership, limited partnership, or corporation;

(c) Names, addresses, phone numbers, birth dates, and prior school affiliations if any, of all individuals with ten percent or more ownership interest;

(d) A school that is a corporation or a subsidiary of another corporation must submit:

(i) Current evidence that the corporation is registered with the Washington secretary of state's office; and

(ii) The name, address and telephone number of the corporation's registered agent;

(e) "Ownership" of a school means:

(i) In the case of a school owned by an individual, that individual;

(ii) In the case of a school owned by a partnership, all full, silent and limited partners having a ten percent or more ownership interest;

(iii) In the case of a school owned by a corporation, the corporation, each corporate director, officer, and each shareholder owning shares of issued and outstanding stock aggregating at least ten percent of the total of the issued and outstanding shares;

(f) Schools under common ownership may designate a single location as the principal facility for recordkeeping via written notice to the agency.

(2) Financial statement.

(a) The school must submit information reflecting its financial condition at the close of its most recent fiscal year to demonstrate that it has sufficient financial resources to fulfill its commitments to students. The financial statement must be completed in a format supplied by the agency.

(b) If inadequate time exists to produce a financial statement in the interval between the ending date of the school's fiscal year and the due date of an application, the agency will adjust the school's license period to provide a reasonable interval.

(c) New schools must submit a proposed operating budget for the initial twelve months of operation rather than the financial statement described in (a) of this subsection. The proposed operating budget must be completed in a format supplied by the agency.

(d) New schools that have operated another business for at least one year, must submit, in addition to the proposed operating budget described in (c) of this subsection, a financial statement for that business. The financial statement must cover the existing business' most recently completed fiscal year and be prepared by a certified public accountant or be certified by the business' chief administrative officer.

(e) Owners of multiple schools may file financial information that consists of a single, consolidated financial statement and balance sheet for the corporation. The consolidated financial statement must be accompanied by data that documents total tuition earnings for each separate school under the corporation's ownership at the close of its most recent fiscal year. If historical data is not available, the data must project total tuition earnings for the school in its first or next completed twelve months of operation.

(3) Financial references.

(a) The school must furnish the names of at least one bank or other financial institution and two other entities that the agency may consult as financial references.

(b) A statement must be included authorizing the agency to obtain financial information from the references.

The catalog must be current, comprehensive, and accurate. The school must disclose the following in some combination of a catalog, brochure or other written material and furnish a copy of each to every prospective student prior to completing an enrollment agreement:

(a) Date of publication;

(b) Names of owners having a ten percent or more equity ownership and officers, including any governing boards, and the name and address of its parent corporation, if a subsidiary;

(c) Names, addresses, and telephone numbers of the school's administrative offices and all auxiliary facilities;

(d) Names and qualifications of faculty. The list must be accurate as of the date of catalog publication. Any changes of faculty must be noted on a catalog errata sheet;

(e) The school calendar, including hours of operation, holidays, enrollment periods, and the beginning and ending dates of terms, courses, or programs as may be appropriate;

(i) Successfully complete the programs of study in which they are interested; and

(ii) Qualify for the fields of employment for which their education is designed;

(g) A description of the placement assistance offered, if any. If no assistance is offered, the school must make that fact known;

(h) The school's policy regarding student conduct, including causes for dismissal and conditions for readmission;

(i) The school's policy regarding leave, absences, class cuts, makeup work, tardiness, and interruptions for unsatisfactory attendance;

(j) The school's policy regarding standards of progress required of the student. representative of the school and by the student or the student's parent or guardian if he/she is a minor;

(e) A "NOTICE TO THE BUYER" section which includes the following statements in a position above the space reserved for the student's signature:

(i) "DO NOT SIGN THIS AGREEMENT BEFORE YOU READ IT OR IF IT CONTAINS ANY BLANK SPACES. THIS IS A LEGAL INSTRUMENT.

(ii) ALL PAGES OF THE CONTRACT ARE BINDING.

(iii) READ BOTH SIDES OF ALL PAGES BEFORE SIGNING.

(ii) Possess current evidence of being qualified to teach that has been issued by a regulatory agency of this or another state.

(h) In making such determinations the agency will request a letter of recommendation from the employing school and may consider any other related materials submitted by the school and/or affected individual prior to making a finding under this section.

License Required: A valid big game hunting license which includes cougar as a species option is required to hunt cougar.

It is unlawful to kill or possess spotted cougar kittens or adult cougars accompanied by spotted kittens. Individuals selected for a public safety cougar removal permit may take one (1) cougar and must take the first legal cougar available.

Any person who takes a cougar must present the cougar skull, in such a manner that teeth and biological samples can be extracted, to an authorized department employee at the time of sealing.

Public safety cougar removals:

The commission authorizes the director to issue public safety cougar removal permits consistent with this rule. Prior to issuing public safety cougar removal permits, the department shall use other practical alternatives to address a public safety need, including livestock or pet depredations. Other practical alternatives may include, but are not limited to, general cougar hunting seasons, general public information, educational programs, information to recreational hunters, cou-

gar depredation/kill permits, and department capture and relocation/euthanasia of specific cougars.

Public safety cougar removals: Criteria.

(1) The commission determines that when the above practical alternatives have been utilized within a game management unit, four or more confirmed human-cougar safety incidents or livestock/pet depredations per year and seven or more confirmed cougar sightings or nuisance activities per year therein demonstrate that the practical alternatives have been inadequate to address the public safety need. The director then is authorized by the commission to remove one or more cougar, with the aid of dogs, in a selected area of that game management unit or nearby geographic area suitable for the use of dogs. The commission authorizes the director to remove one cougar per one hundred twenty square kilometers of complaint area in preferred cougar habitat, and one cougar per four hundred thirty square kilometers of complaint area in marginal cougar habitat.

(2) Public safety cougar removal(s) will be conducted between December 16, 2000, and March 15, 2001, in selected areas of game management units designated by the director to address a public safety need presented by one or more cougar, not to exceed removal of more than seventy-four cougar during the 2000-2001 removal period unless otherwise authorized by the commission.

Public safety cougar removals: Permit issuance procedure.

(1) To participate in a public safety cougar removal, individuals must request that his/her name be placed on a list of available participants (participant list) by mailing their request to Washington Department of Fish and Wildlife, Enforcement Program - Public Safety Cougar Removal, 600 Capitol Way North, Olympia, WA 98501-1091. The request must include the individual's name, address, phone number, and region applying for (see page 4 of 2000 Big Game Hunting Seasons and Rules Pamphlet for region map). Individuals may apply for multiple regions. An individual's request to be placed on a participant list for the 2000-2001 removal must be postmarked no later than November 15, 2000, or received at Washington department of fish and wildlife's (department) Olympia office no later than 5:00 p.m. on November 15, 2000.

(2) To be eligible for a public safety cougar removal permit (permit), participants must have at their disposal dogs capable of detecting and tracking cougar. The permit holder must use dogs while participating in a public safety cougar removal.

(3) Individuals eligible for participation in a public safety cougar removal will be randomly selected from the participant list. The department will issue a permit to the person whose name is selected from the participant list. Individuals selected will be notified by telephone or mail. Individuals selected must contact the department's enforcement program in Olympia and accept the public safety cougar removal permit within 15 days of being notified. Failure to contact the department will result in forfeit of the permit and the individual will be placed on the participant list for later selections. Permits may not be sold or reassigned.

(4) No more than four (4) total individuals may participate per public safety cougar removal, including the permit holder(s). Only the permit holder, whose name appears on the permit, may take a cougar.

NEW SECTION

WAC 388-466-0130 Refugee medical assistance (RMA). (1) Who can apply for refugee medical assistance?

Any individual can apply for refugee medical assistance (RMA) and have eligibility determined by the department of social and health services (DSHS).

(2) **Who is eligible for refugee medical assistance?**

(a) You are eligible for RMA if you meet all of the following conditions:

(i) Immigration status requirements of WAC 388-466-0005;

(ii) Income and resource requirements of WAC 388-466-0010;

(iii) Monthly income standards up to two hundred percent of the federal poverty level (FPL). Spenddown is available for applicants whose income exceeds two hundred percent of FPL (see WAC 388-519-0110); and

(iv) Provide the name of the voluntary agency (VOLAG) which helped bring you to this country, so that DSHS can promptly notify the agency (or sponsor) about your application for RMA.

(b) You are eligible for RMA if you meet one of the following conditions:

(i) Receive refugee cash assistance (RCA) and are not eligible for Medicaid or children's health insurance program (CHIP); or

(ii) Choose not to apply for or receive RCA and are not eligible for Medicaid or CHIP, but still meet RMA eligibility requirements.

(3) Who is not eligible for refugee medical assistance?

You are not eligible to receive RMA if you are:

(a) Already eligible for Medicaid or CHIP;

(b) A full-time student in an institution of higher education unless the educational activity is part of a department-approved individual responsibility plan (IRP);

(c) A nonrefugee spouse of a refugee.

(4) If I have already received a cash assistance grant from voluntary agency (VOLAG), will it affect my eligibility for RMA?

No. A cash assistance payment provided to you by your VOLAG is not counted in determining eligibility for RMA.

(5) If I get a job after I have applied but before I have been approved for RMA, will my new income be counted in determining my eligibility?

No. Your RMA eligibility is determined on the basis of your income and resources on the date of the application.

(6) Will my sponsor's income and resources be considered in determining my eligibility for RMA?

Your sponsor's income and resources are not considered in determining your eligibility for RMA unless your sponsor is a member of your assistance unit.

(7) How do I find out if I am eligible for RMA?

DSHS will send you a letter in both English and your primary language informing you about your eligibility. DSHS will also let you know in writing every time there are any changes or actions taken on your case.

(8) Will RMA cover my medical expenses that occurred after I arrived in the U.S. but before I applied for RMA?

You may be eligible for RMA coverage of your medical expenses for three months prior to the first day of the month of your application. Eligibility determination will be made according to Medicaid rules.

(9) If I am an asylee, what date will be used as an entry date?

If you are an asylee, your entry date will be the date that your asylum status is granted. For example, if you entered the United States on December 1, 1999 as a tourist, then applied for asylum on April 1, 2000, interviewed with the asylum office on July 1, 2000 and granted asylum on September 1, 2000, your date of entry is September 1, 2000. On Sep-

tember 1, 2000 you may be eligible for refugee medical assistance.

(10) When does my RMA end?

Your refugee medical assistance will end on the last day of the eighth month from the month of your entry into the United States. Start counting the eight months from the first day of the month of your entry into the U.S. For example, if you entered the U.S. on May 28, 2000, your last month is December 2000.

(11) What happens if my earned income goes above the income standards?

(a) If you are getting RMA, your medical eligibility will not be effected by the amount of your earnings;

(b) If you were getting Medicaid and it was terminated because of your earnings, we will transfer you to RMA for the rest of your RMA eligibility period. You will not need to apply.

(12) Will my spouse also be eligible for RMA, if he/she arrives into the U.S. after me?

When your spouse arrives in the U.S., we will determine his/her eligibility for Medicaid and other medical programs. Your spouse may be eligible for RMA; if so, he/she would have a maximum of eight months of RMA starting on the first day of the month of his/her arrival.

(13) What do I do if I disagree with a decision or action that has been taken by DSHS on my case?

If you disagree with the decision or action taken on your case by department you have the right to request a review of your case or request a fair hearing (see WAC 388-02-0090). Your request must be made within ninety days of the decision or action.

(14) What happens to my medical coverage after my eligibility period is over?

We will determine your eligibility for other medical programs. You may have to complete an application for another program.

PERMANENT RULES

GAMBLING COMMISSION

[Order 389—Filed October 18, 2000, 9:09 a.m., effective January 1, 2001]

Date of Adoption: October 13, 2000.

Purpose: For the past twenty-five years, "surprise" merchandise prizes have been allowed for punch board/pull-tab games by policy. However, there are no rules in place regarding these games. A "surprise" merchandise prize is a merchandise prize that is wrapped up in some way so the customer cannot see the prize being offered, making it a surprise. These surprise merchandise games have been popular and fun for customers. The games have run smoothly over the years with few, if any, regulatory complaints or concerns. This amendment will clarify what procedures must be followed when offering this type of prize.

AMENDATORY SECTION (Amending Order 359, filed
7/15/98, effective 1/1/99)

**WAC 230-30-070 Control of prizes—Restrictions—
Bonus prizes—Displaying—Procedures for awarding.**
Punch board and pull-tab prizes shall be closely controlled to
ensure players are not defrauded.

(1) All prizes from the operation of punch boards and
pull-tabs shall be awarded in cash or in merchandise.

No licensee shall offer to pay cash in lieu of merchandise
prizes which may be won.

(2) Additional chances on a punch board or pull-tab
game may not be awarded as a prize. Provided, That prizes
may involve the opportunity to advance and win a larger
prize on the same punch board or pull-tab game as set forth in
subsection (4) of this section.

(3) A bonus prize is a prize offered in a bonus pull-tab
game, defined in WAC 230-30-040(1). A step-up prize is a
prize offered on a punch board. The awarding of these prizes
involves an immediate, additional opportunity to advance to
a section of the game to determine the prize.

(4) On games where players advance, the bonus or step-
up prizes may not be less than the highest prize available,
which might otherwise have been won by the punch or pull-
tab for which the opportunity was awarded. Each punch
board or pull-tab game offering bonus or step-up prizes must
clearly indicate on its flare the terms and conditions under
which the bonus or step-up prize may be won, including the
amount of the bonus or step-up prize.

(5) The licensee shall display prizes so that a customer
can easily determine which prizes are available from any par-
ticular punch board or pull-tab series or device operated or

located upon the premises. In addition, the following require-
ments apply.

(a) Merchandise prizes shall be displayed as follows:

(i) In the immediate vicinity of the punch board or pull-
tab series and in plain view: Provided, That games that offer
merchandise prizes that are "surprises" may be wrapped in
some way so players are unable to identify what the prize is
until opened;

(ii) If size or space constraints do not allow the prize to
be displayed as provided in (a)(i) of this subsection, the mer-
chandise prize may be displayed elsewhere on the premises
provided that a specific reference to that actual prize is noted
on the flare; or

(iii) If the merchandise prize cannot be displayed on the
premises, an accurate description and/or photograph of the
prize must be displayed in plain view on or immediately adja-
cent to the flare.

(b) Cash prizes shall be clearly represented on the prize
flare;

(c) Combination cash and merchandise prizes must meet
the requirements of both (a) and (b) of this subsection;

(6) The following procedures apply to the removal of
prizes from the game flare and the presentation of prizes to
winning players:

(a) Upon determination of a winner of a merchandise
prize, the licensee shall immediately remove that prize from
the flare and present the prize to the winner upon demand;

(b) Upon determination of a winner of any cash prize
over twenty dollars, or of any merchandise prize with a retail
value over twenty dollars, the licensee shall permanently and
conspicuously delete all references to that prize from any
flare, punch board, or pull-tab dispensing device upon which
such reference may appear, and from any other list, sign, or
notice which may be posted, in such a manner that all future
customers will know the prize is no longer available. On step-
up punch boards and bonus pull-tab games, once all opportu-
nities in a section of the flare have been won, all references to
prizes no longer available to be won must be deleted on the
flare. Operators may correct an inadvertently deleted prize by
noting on the flare that such prize is still available. Such re-
ference shall be permanently and conspicuously deleted when
the prize is actually awarded. Failure to permanently and con-
spicuously delete a prize from the flare may result in the
director initiating actions to revoke a license for violation of
RCW 9.46.190 (defrauding a participant). The prize shall be
paid or delivered to the winner only after all reference to such
prize has been deleted from the flare.

(7) Payment of prizes. The licensee must pay or award to
the customer or player playing the punch board or pull-tab
series all such prizes that are required to be, but have not
been, deleted from the flare when the punch board or pull-tab
series is completely played out.

(8) Record of winners. When any person wins a cash
prize of over twenty dollars or wins a merchandise prize with
a retail value of more than twenty dollars from the play of any
punch board or pull-tab series, the licensee or licensee's rep-
resentative shall make a record of the win. The record of the
win shall be made in the following manner:

(a) The winners shall be required to print their name and date of birth, in ink, upon the side of the winning punch or tab opposite the winning symbol(s);

(b) The licensee or their representative shall then verify the winner's identity and record the date and initial the winning punch or tab; and

(c) If the pull-tab or punch is constructed or printed in such a manner as to preclude recording the information required in (a) and (b) of this subsection in a legible manner, the licensee may record the required information on a sheet of paper not less than three inches by five inches and staple the winning tab or punch thereto.

(9) Defacing winning punches or tabs. The licensee shall, within twenty-four hours after a winning pull-tab or punch worth more than twenty dollars has been presented for payment, mark or perforate the winning symbols in such a manner that the pull-tab or punch cannot be presented again for payment.

(10) Spindle, banded, or "jar" type pull-tabs played in a manner which awards merchandise prizes only. Pull-tab series which award only merchandise prizes valued at no more than twenty dollars, are hereby permitted to employ schemes whereby certain predesignated pull-tabs are free or the player is otherwise reimbursed the actual cost of said pull-tabs. Flares for spindle-type pull-tabs operated in this manner shall designate the total number of pull-tabs in the series and the total number of pull-tabs designated as free or reimbursable. Free or reimbursable pull-tabs in these types of pull-tab series shall not constitute a prize or prizes nor shall moneys collected and later reimbursed constitute revenue for the purposes of determining gross gambling receipts.

PERMANENT RULES
DEPARTMENT OF
LABOR AND INDUSTRIES

[Filed October 18, 2000, 10:24 a.m., effective January 1, 2001]

Date of Adoption: October 18, 2000.

Title of Rule: Chapter 296-62 WAC, General occupational health standards.

Purpose: Chapter 296-62 WAC, Part E, Respiratory protection, rules describe an employer's responsibilities for protecting employees from occupational diseases caused by breathing air contaminated with harmful dusts, fogs, fumes, mists, gases, smokes, sprays, vapors, or aerosols. On September 1, 1999, the newly revised standard became effective. Six months later, WISHA conducted a stakeholder usability survey to determine if the standard was written clearly. From responses to the survey and an internal review, several places were identified where the rule was not written clearly and could possibly lead to noncompliance. Therefore, in response to the comments received, WISHA made some minor wording changes to clarify the language of the rule and submitted the language for adoption. As WISHA did not make any changes in requirements, the "expedited" rule adoption was used. An information packet identifying the clarifying changes was sent to current stakeholders to review.

No comments were received from the public and the rule filed for adoption is exactly the same as the proposed rule.

Aerosol means a suspension of liquid or solid particles in air.

Air-purifying respirator means a respirator with an air-purifying filter, cartridge, or canister that removes specific air contaminants by passing ambient air through the air-purifying element.

Assigned protection factor (APF) is the expected level of workplace respiratory protection provided by a properly functioning respirator worn by properly fitted and trained individuals. It describes the ratio of the ambient concentration of an airborne substance to the concentration of the substance inside the respirator.

Atmosphere-supplying respirator means a respirator that supplies the respirator user with breathing air from an

uncontaminated source, and includes supplied-air respirators (SARs) and self-contained breathing apparatus (SCBA) units.

Canister (oxygen-generating) means a container filled with a chemical that generates oxygen by chemical reaction.

Demand respirator means an atmosphere-supplying respirator that admits breathing air to the facepiece only when suction is created inside the facepiece by inhalation.

Dust means a solid, mechanically-produced particle with sizes varying from submicroscopic to visible. See WAC 296-62-07001(1).

Dust mask means a type of filtering facepiece respirator. See the definition for "filtering facepiece."

Emergency situation means any occurrence that may or does result in an uncontrolled significant release of an airborne contaminant. Causes of emergency situations include, but are not limited to, equipment failure, rupture of containers, or failure of control equipment.

Employee exposure means exposure to a concentration of an airborne contaminant that would occur if the employee were not using respiratory protection.

End-of-service-life indicator (ESLI) means a system that warns the respirator user of the approach of the end of adequate respiratory protection: For example, that the sorbent is approaching saturation or is no longer effective.

Escape-only respirator means a respirator intended to be used only for emergency exit.

Filter or air-purifying element means a component used in respirators to remove solid or liquid aerosols from the air when it is breathed.

Filtering facepiece (dust mask) means a tight-fitting, half-face, negative pressure, particulate respirator (with a filter as an integral part of the) having a facepiece (or with the entire facepiece) entirely or completely composed of (the filtering medium) filter material without attached cartridges or canisters.

Fit factor means a quantitative estimate of the fit of a particular respirator to a specific individual, and typically estimates the ratio between the measured concentration of a substance in ambient air to its concentration inside the respirator when worn.

Fit test means the use of an accepted protocol to qualitatively or quantitatively evaluate the fit of a respirator on an individual (see also Qualitative fit test QLFT and Quantitative fit test QNFT).

Fog means a mist of sufficient concentration to perceptibly obscure vision.

Full facepiece means a respirator that covers the wearer's nose, mouth, and eyes.

Fume means a solid condensation particle of extremely small particle size, generally less than one micrometer in diameter. See WAC 296-62-07001(2).

Half facepiece means a respirator that covers the wearer's nose and mouth.

Helmet means the rigid portion of a respirator that also provides protection against impact or penetration.

High-efficiency particulate air filter (HEPA) means a filter that removes from air 99.97% or more of monodisperse dioctyl phthalate (DOP) particles having a mean particle diameter of 0.3 micrometer.

Hood means the portion of a respirator that completely covers the head and neck; may also cover portions of the shoulders and torso.

Immediately dangerous to life or health (IDLH) means an atmosphere that poses an immediate threat to life, would cause irreversible adverse health effects, or would impair an individual's ability to escape from a dangerous atmosphere.

Loose-fitting facepiece means a respiratory inlet covering that is designed to form a partial seal with the face.

Mist means a liquid condensation particle with sizes ranging from submicroscopic to visible. See WAC 296-62-07001(4).

Negative pressure respirator means a tight-fitting respirator in which the air pressure inside the facepiece is lower than the ambient air pressure outside the respirator during inhalation.

Nonroutine respirator use means wearing a respirator when carrying out a special task that occurs infrequently.

Odor threshold limit means the lowest concentration of a contaminant in air that can be detected by smell.

Oxygen deficient atmosphere means an atmosphere with an oxygen content below 19.5% by volume.

Positive-pressure respirator means a respirator in which the air pressure inside the respiratory-inlet covering exceeds the ambient air pressure outside the respirator.

Powered air-purifying respirator (PAPR) means an air-purifying respirator that uses a blower to force the ambient air through air-purifying elements to the inlet covering.

Pressure demand respirator means a positive pressure atmosphere-supplying respirator that admits breathing air to the facepiece when the positive pressure is reduced inside the facepiece by inhalation or leakage.

Self-contained breathing apparatus (SCBA) means an atmosphere-supplying respirator for which the breathing air source is designed to be carried by the user.

You means the employer or the employer's designee except in WAC 296-62-07117(2) "Important Information About Voluntary Use of Respirators" when you refers to the employee.

Your refers to the employer or the employer's designee except in WAC 296-62-07117(2) "Important Information About Voluntary Use of Respirators" when your refers to the employee.

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07117 What must you do when employees choose to wear respirators when respirators are not required? (1) You may provide respirators at the request of

employees or permit employees to use their own respirators, if you determine that such respirator use will not in itself create a hazard.

(2) If you determine that any voluntary respirator use is permissible, you must provide the respirator users with the following information:

Figure 1 Important Information About Voluntary Use of Respirators

Note: "You" and "your" mean the employee in the following information.

Respirators protect against airborne contaminants when properly selected and worn. Respirator use is encouraged, even when exposure to contaminants are below the exposure limit(s), to provide an additional level of comfort and protection for workers. However, if a respirator is used improperly or not kept clean, the respirator itself can become a hazard to you. Sometimes, workers may wear respirators to avoid exposures to hazards, even if the amount of hazardous contaminants (chemical & biological) does not exceed the limits set by WISHA standards. If your employer provides respirators for your voluntary use, or if you are allowed to provide your own respirator, you need to take certain precautions to be sure that the respirator itself does not present a hazard.

You should do the following:

1. Read and follow all instructions provided by the manufacturer on use, maintenance, cleaning and care, and warnings regarding the respirators limitations.
2. Choose respirators certified for use to protect against the contaminant of concern. NIOSH, the National Institute for Occupational Safety and Health of the U.S. Department of Health and Human Services, certifies respirators. A label or statement of certification should appear on the respirator or respirator packaging. It will tell you what the respirator is designed for and how much it will protect you.
3. Do not wear your respirator into atmospheres containing contaminants for which your respirator is not designed to protect against. For example, a respirator designed to filter dust particles will not protect you against solvent vapor or smoke (since smoke particles are much smaller than dust particles).
4. Keep track of your respirator so that you do not mistakenly use someone else's respirator.

(3) ~~((In addition))~~ No respiratory protection program is required when filtering-facepiece respirators are the only respirator used and they are used voluntarily. When any other type of respirator is used voluntarily, you must establish, implement, and pay for ((those elements of)) a written ((respiratory protection)) program ((necessary to make sure)) that covers:

- ~~((Any employee using a respirator voluntarily is medically able to use that respirator, and that))~~ Medical evaluations.
- ~~((The respirator is cleaned, stored,))~~ Cleaning, storage and ((maintained so that its use does not present a health hazard to the user)) maintenance related program elements.

~~((EXCEPTION: You are not required to include in a written respiratory protection program those employees whose only use of respirators involves the voluntary use of filtering-facepieces (for example, dust masks);))~~

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07131 What else must you consider when selecting a respirator for use in atmospheres that are not IDLH? (1) You must provide a respirator that is adequate to protect the health of the employee and ensure compliance with all other WISHA statutory and regulatory requirements for routine, nonroutine, and reasonably foreseeable emergency and rescue situations.

(2) You must use the assigned protection factors (APFs) in Table 1 when selecting respirators.

Note: The APF values listed in Table 1 do not apply when respirator selection is specified by other applicable standards (e.g., asbestos, lead standards in chapter 296-62 WAC).

Combination respirators. For combination respirators (such as, airline respirators with an air-purifying filter), the type and mode of operation having the lowest respirator protection factor must be applied to the combination respirator not listed.

^a An assigned protection factor (APF) is a numeric rating given to respirators, which tells how much protection the respirator can provide. Multiplying the WISHA permissible exposure limit (PEL) for a contaminant by the respirator APF gives the maximum concentration of the contaminant for which the respirator can be used. PEL values can be found in chapter 296-62 WAC, Part H.

^b If the air contaminant causes eye irritation, the wearer of a respirator equipped with a quarter-mask or half-mask facepiece or mouthpiece and nose clamp must be permitted to use a protective goggle or to use a respirator equipped with a full facepiece. Mouthpiece and nose clamp respirators are approved by NIOSH only for escape from IDLH atmospheres.

(3) The respirator selected must be appropriate for the chemical state and physical form of the contaminant.

(4) For protection against gases and vapors, you must provide an atmosphere-supplying respirator or an air-purifying respirator, provided that:

- The respirator is equipped with an end-of-service-life indicator (ESLI) certified by NIOSH for the contaminant; or
- If there is no ESLI appropriate for the conditions in your workplace, you must implement a change schedule for canisters and cartridges that is based on objective information or data that will make sure that canisters and cartridges are changed before the end of their service life. Your respirator program must describe:
 - ◆ The information and data relied upon; and
 - ◆ The basis for the canister and cartridge change schedule; and
 - ◆ The basis for reliance on the data.

(5) For protection against particulates, you must provide:

- An atmosphere-supplying respirator; or
- An air-purifying respirator equipped with a filter certified by NIOSH under 30 CFR Part 11 as a high efficiency particulate air (HEPA) filter, or an air-purifying respirator equipped with a filter certified for particulates by NIOSH under 42 CFR Part 84; or
- An air-purifying respirator equipped with any filter certified for particulates by NIOSH for contaminants consisting primarily of particles with mass median aerodynamic diameters (MMAD) of at least 2 micrometers; or
- For filters to be changed as required in WAC 296-62-07171(4).

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07150 What are the general requirements for medical evaluations? Before an employee is fit tested or required to use a respirator in the workplace, you must provide a medical evaluation to determine the employee's ability to use a respirator. Medical evaluations are not required:

• When the only respirators used are filtering facepiece respirators that are used voluntarily under WAC 296-62-07117; or

• When the only respirators used are loose fitting escape-only respirators.

You may rely upon a previous employer's medical evaluation, if you can show that:

- You have been provided with a copy of the written recommendation as required in WAC 296-62-07155 from the

PERMANENT

PLHCP approving the employee to use the respirator chosen; and

- The previous working conditions, which required respirator use as detailed in WAC 296-62-07154(1), are substantially similar to yours.

~~((Exception: If an employee uses no other respirator than an escape only respirator, medical evaluations are not required. This exception does not apply to respirators with tight-fitting facepieces (such as, gas masks).))~~

Steps necessary for completing a medical evaluation:

- You identify a PLHCP (WAC 296-62-07151);
- You provide information to the PLHCP (WAC 296-62-07152);
- PLHCP reviews information and determines what additional questions, if any, to add to Part A of the questionnaire (WAC 296-62-07153(1));
- You administer the questionnaire confidentially (WAC 296-62-07153(2));
- PLHCP reviews and evaluates the questionnaire (WAC 296-62-07154);
- PLHCP completes any follow-up medical evaluations with employees (WAC 296-62-07154);
- PLHCP completes the written recommendation and sends it to the employee and you (WAC 296-62-07155 (1) and (2));
- You respond appropriately to written recommendations (WAC 296-62-07155) and maintain records (WAC 296-62-07194);
- You provide additional medical evaluations when required by your PLHCP (WAC 296-62-07156).

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07155 What must be included in the PLHCP's written recommendation? (1) In determining the employee's ability to use a respirator, you must obtain a written recommendation regarding the employee's ability to use the respirator from the PLHCP. The recommendation must provide only the following information about the employee:

- Any limitations on respirator use related to the medical condition of the employee, or relating to the workplace conditions in which the respirator will be used, including whether or not the employee is medically able to use the respirator;

- The need, if any, for ~~((follow-up))~~ periodic future medical evaluations; and

- A statement that the PLHCP has provided the employee with a copy of the PLHCP's written recommendation.

(2) You must provide a PAPR, if:

- The respirator is a negative pressure respirator and the PLHCP finds a medical condition that may place the employee's health at increased risk if the respirator is used;

- The PLHCP's medical evaluation finds that the employee can use such a respirator. You no longer must provide a PAPR, if a subsequent medical evaluation finds that the employee is medically able to use a negative pressure.

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07156 When are ((additional)) future medical evaluations required? At a minimum, you must provide ~~((additional))~~ future medical evaluations that comply with the requirements in WAC 296-62-07151 through 296-62-07155 if:

- A PLHCP recommends that an employee be reevaluated at a set interval;

- An employee reports medical signs or symptoms related to his or her ability to use a respirator;

- A ~~((PLHCP))~~ supervisor, or the respirator program administrator informs you that an employee needs to be reevaluated;

- Information from the respiratory protection program, including observations made during fit testing and program evaluation, indicates a need for employee reevaluation; or

- A change occurs in workplace conditions (for example, physical work effort, protective clothing, temperature) that may result in a substantial increase in the physiological burden placed on an employee.

You may discontinue an employee's medical evaluations when the employee is no longer required to use a respirator.

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07162 How must fit testing be done? (1) The fit test must be administered using WISHA-accepted quantitative or qualitative protocol. These protocols are contained in WAC 296-62-07201 through 296-62-07248 (Appendices A-1, A-2 and A-3 of this part).

(2) Qualitative fit testing may be used to fit test negative pressure air-purifying respirators only when they will be used in atmospheres where the concentration is less than 10 times the PEL. For negative pressure respirator use in ~~((higher))~~ concentrations equal to or greater than 10 times the PEL, quantitative fit testing must be used.

(3) If the fit factor, as determined through WISHA-accepted quantitative fit testing protocol, is equal to or greater than 100 for tight-fitting half facepieces, or equal to or greater than 500 for tight-fitting full facepieces, the employee passed the quantitative fit test for that respirator.

(4) Fit testing of tight-fitting atmosphere-supplying respirators and tight-fitting powered air-purifying respirators must be accomplished by performing quantitative or qualitative fit testing in the negative pressure mode, regardless of the mode of operation (negative or positive pressure) that is used for respiratory protection.

(a) Qualitative fit testing of these respirators must be accomplished by temporarily converting the respirator user's actual facepiece into a negative pressure respirator with appropriate filters, or by using an identical negative pressure air-purifying respirator facepiece with the same sealing surfaces as a surrogate for the atmosphere-supplying or powered air-purifying respirator facepiece.

(b) Quantitative fit testing of these respirators must be accomplished by modifying the facepiece to allow sampling inside the facepiece in the breathing zone of the user, midway

between the nose and mouth. This requirement must be accomplished by installing a permanent sampling probe onto a surrogate facepiece, or by using a sampling adapter designed to temporarily provide a means of sampling air from inside the facepiece.

(c) Any modifications to the respirator facepiece for fit testing must be completely removed, and the facepiece restored to NIOSH-approved configuration, before that facepiece can be used in the workplace.

AMENDATORY SECTION (Amending WSR 99-10-071, filed 5/4/99, effective 9/1/99)

WAC 296-62-07190 When must your employees be trained? (1) You must train employees before they are required to use a respirator in the workplace.

(2) If you are able to demonstrate that a new employee has received training within the last 12 months that addresses the elements specified in WAC ((296-62-07132)) 296-62-07172 and 296-62-07186, then you are not required to repeat the training provided that the employee can demonstrate knowledge of the element(s) required in WAC 296-62-07188.

(3) If you do not repeat initial training for an employee, then you must provide retraining no later than 12 months from the date of the employee's previous training.

(4) Retraining must be completed annually, and when the following situations occur:

- Changes in the workplace or the type of respirator render previous training obsolete or incomplete;
- The employee's knowledge or use of the respirator indicates that the employee has not retained the understanding or skill as required in WAC 296-62-07188 above; or
- Any other situation arises when retraining appears to be necessary to make sure respirators are used safely.

clear rule-writing techniques to improve its clarity. At a June 1999 meeting of the Construction Advisory Council, a copy of the department's version of the proposal was distributed to each member for their review and comments. No comments or suggested changes were received from any member of the committee. In April 2000, the department further modified the operator requirements and these modifications have been reviewed and accepted by the CAC.

As this is a significant legislative rule amendment because these are new requirements, a survey was conducted to determine the compliance costs for the proposed amendments to the rules. Based on the results of the survey, it was concluded that the proposal would not have a disproportionate impact on small business. During discussions with the CAC, it was determined that even though they recommended these requirements for the industry and, in some instances, they have been implemented by a number of companies, there are still some that will need to comply.

A public hearing was held in Tumwater on August 29, 2000. Nine people attended and of the four that testified, all provided testimony in support of the rule without providing any suggested changes. No written comments were received.

PERMANENT RULES
DEPARTMENT OF
LABOR AND INDUSTRIES

[Filed October 18, 2000, 10:26 a.m., effective February 1, 2001]

Date of Adoption: October 18, 2000.

Title of Rule: Chapter 296-155 WAC, Safety standards for construction work.

Purpose: In an effort to improve safety within the concrete pump and placing boom industry, the Department of Labor and Industries (L&I) Construction Advisory Committee (CAC) initiated a review of the current requirements contained in WAC 296-155-682. The goal was to develop more comprehensive rules for those operations. In October 1998, the CAC submitted a proposal to the department's WISHA Services Division for rule-making consideration. The WISHA Services Division, without adding any additional requirements to the CAC proposal, reorganized and used

(a) Definitions.

"Concrete delivery hose" means a flexible concrete delivery hose which has two end couplings.

"Concrete pump" means a construction machine that pumps concrete.

"Controls" means the devices used to operate a machine.

"Delivery systems" means the pipe, hoses and components, through which the concrete is pumped.

"Grooved end" means a pipe clamp pipe connection where a groove is machined or rolled directly into the outside of the pipe wall (for example: Victualic).

"Material pressure" means the pressure exerted on the concrete inside the delivery system.

"Placing boom and placing unit" means a manual or power driven, slewable working device which:

• Consists of one or more extendable or folding parts for supporting the concrete delivery system, and directs the discharge into the desired location; and

• May be mounted on trucks, trailers, or special vehicles.

"Qualified person" means someone who:

• Possesses a recognized degree or certificate of professional standing; or

• Has extensive knowledge, training, and experience; or

• Successfully demonstrated the ability to resolve problems relating to the work.

"Restraining devices" means a sling, cable, or equivalent device used to minimize excess movement of a delivery system in case of separation.

"Whip hoses" means a suspended hose that has only one coupling and is used to direct the delivery of concrete.

(b) Equipment requirements.

(i) Equipment identification tag.

The employer must ensure the following identification is furnished if originally identified by the manufacturer and on all pumps manufactured after January 1, 1998:

- The manufacturer's name;
- The year of manufacture;
- The model and serial number;
- The maximum material pressure;
- The maximum allowable pressure in the hydraulic system; and

(h) Eye splices in wire ropes shall have at least three tucks with a whole strand of the rope and two tucks with one-half of the wire cut from each strand. Other forms of splices or connections which are demonstrated to be equally safe may be used.

(i) Except for eye splices in the ends of wires and for endless rope slings, each wire rope used in hoisting or lowering, or in bulling cargo, shall consist of one continuous piece without knot or splice.

(4) Natural fiber rope.

(a) The employer shall ascertain the manufacturer's ratings for the specific natural fiber rope used and have such ratings available at the terminal. The manufacturer's ratings shall be adhered to and a minimum design safety factor of five maintained.

(b) Eye splices shall consist of at least three full tucks. Short splices shall consist of at least six full tucks, three on each side of the center line.

(5) Synthetic rope.

(a) The employer shall adhere to the manufacturer's ratings and use recommendations for the specific synthetic fiber rope used and shall have such ratings available at the terminal.

(b) Unless otherwise recommended by the manufacturer, when synthetic fiber ropes are substituted for manila ropes of less than three inches (7.62 cm) circumference, the substitute shall be of equal size. Where substituted for manila rope of three inches or more in circumference, the size of the synthetic rope shall be determined from the formula:

$$C = \sqrt{.6(C_s^2) + .4(C_m^2)}$$

Where C= the required circumference of the synthetic rope in inches, C_s= the circumference to the nearest one-quarter inch of a synthetic rope having a breaking strength not less than that of the size manila rope that would be required by subsection (4) of this section, and C_m= the circumference of manila rope in inches which would be required by subsection (4) of this section.

(c) In making such substitution, it shall be ascertained that the inherent characteristics of the synthetic fiber are suitable for hoisting.

(6) Removal of natural and synthetic rope from service. Natural or synthetic rope having any of the following defects shall be removed from service:

- (a) Abnormal wear;
- (b) Powdered fiber between strands;
- (c) Sufficient cut or broken fibers to affect the capacity of the rope;
- (d) Variations in the size or roundness of strands;
- (e) Discolorations other than stains not associated with rope damage;
- (f) Rotting; or

PERMANENT

(g) Distortion or other damage to attached hardware.

(7) Thimbles. Properly fitting thimbles shall be used where any rope is secured permanently to a ring, shackle or attachment, where practical.

(8) Synthetic web slings.

(a) Slings and nets or other combinations of more than one piece of synthetic webbing assembled and used as a single unit (synthetic web slings) shall not be used to hoist loads in excess of the sling's rated capacity.

(b) Synthetic web slings shall be removed from service if they exhibit any of the following defects:

(i) Acid or caustic burns;

(ii) Melting or charring of any part of the sling surface;

(iii) Snags, punctures, tears or cuts;

(iv) Broken or worn stitches;

(v) Distortion or damage to fittings; or

(vi) Display of visible warning threads or markers designed to indicate excessive wear or damage.

(c) Defective synthetic web slings removed from service shall not be returned to service unless repaired by a sling manufacturer or similar entity. Each repaired sling shall be proof tested by the repairer to twice the slings' rated capacity prior to its return to service. The employer shall retain a certificate of the proof test and make it available for examination.

(d) Synthetic web slings provided by the employer shall only be used in accordance with the manufacturer's recommendations, which shall be made available upon request.

(e) Fittings shall have a breaking strength at least equal to that of the sling to which they are attached and shall be free of sharp edges.

(9) Chains and chain slings used for hoisting.

(a) The employer shall adhere to the manufacturer's recommended ratings for safe working loads for the sizes of the wrought iron and alloy steel chains and chain slings used and shall have such ratings available. When the manufacturer is unable to provide such ratings, the employer shall use the tables for chains and chain slings found in American National Safety Standard for Slings, ANSI B30.9-1971.

(b) Proof coil steel chain, also known as common or hardware chain, and other chain not recommended by the manufacturer for slinging or hoisting shall not be used for slinging or hoisting.

(c)(i) Sling chains, including end fastenings, shall be inspected for visible defects before each day's use and as often as necessary during use to ensure integrity of the sling.

(ii) Thorough inspections of chains in use shall be made quarterly to detect wear, defective welds, deformation, increase in length or stretch. The month of inspection shall be indicated on each chain by color of paint on a link or by other effective means.

(iii) Chains shall be removed from service when maximum allowable wear, as indicated in Table C-2, is reached at any point of link.

(iv) Chain slings shall be removed from service when stretch has increased the length of a measured section by more than five percent; when a link is bent, twisted or otherwise damaged; or when a link has a raised scarf or defective weld.

(v) Only designated persons shall inspect chains used for slinging and hoisting.

(d) Chains shall only be repaired under qualified supervision. Links or portions of chain defective under any of the criteria of WAC 296-56-60073 (9)(c) shall be replaced with properly dimensioned links or connections of material similar to that of the original chain. Before repaired chains are returned to service, they shall be tested to the proof test load recommended by the manufacturer for the original chain. Tests shall be performed by the manufacturer or shall be certified by an agency accredited for the purpose under WAC 296-56-60093. Test certificates shall be available at the terminal.

(e) Wrought iron chains in constant use shall be annealed or normalized at intervals not exceeding six months. Heat treatment certificates shall be available at the terminal. Alloy chains shall not be annealed.

(f) Kinked or knotted chains shall not be used for lifting. Chains shall not be shortened by bolting, wiring or knotting. Makeshift links or fasteners such as wire, bolts or rods shall not be used.

(g) Hooks, rings, links and attachments affixed to sling chains shall have rated capacities at least equal to that of the chains to which they are attached.

(h) Chain slings shall bear identification of size, grade and rated capacity.

(10) Shackles.

(a) If available, the manufacturer's recommended safe working loads for shackles shall not be exceeded. In the absence of manufacturer's recommendations, Table C-3 shall apply.

(b) Screw pin shackles used aloft in house fall or other gear, except in cargo hook assemblies, shall have their pins moused or otherwise effectively secured.

(11) Hooks other than hand hooks.

(a) The manufacturer's recommendations shall be followed in determining the safe working loads of the various sizes and types of specific and identifiable hooks. All hooks for which no applicable manufacturer's recommendations are available shall be tested to twice the intended safe working load before they are initially put into use. The employer shall maintain a record of the dates and results of such tests.

(b) Loads shall be applied to the throat of the hook since loading the point may overstress, bend, or spring the hook.

(c) Hooks shall be inspected once a month to see that they have not been bent by overloading. Bent or sprung hooks shall not be used.

(d) Crane hooks. Magnetic particle or other suitable crack detecting inspection shall be performed at least once each year. When testing by x-ray, the pertinent provisions of the Nuclear Regulatory Commission's standards for protection against radiation, relating to protection against occupational radiation exposure, shall apply.

(e) Any activity which involves the use of radioactive materials or x-rays, whether or not under license from the Nuclear Regulatory Commission, shall be performed by competent persons specially trained in the proper and safe

PERMANENT

operation of such equipment. In the case of materials used under commission license, only persons actually licensed, or competent persons under direction and supervision of the licensee, shall perform such work.

(f) Teeth of case hooks shall not be split, cracked, or deformed.

(g) Jaws of patent clamp type plate hooks shall be kept in safe condition so that they will grip plates securely.

(12) Pallets.

(a) Pallets shall be made and maintained to safely support and carry loads being handled. Fastenings of reusable pallets used for hoisting shall be bolts and nuts, drive screws (helically threaded nails), annular threaded nails or fastenings of equivalent holding strength.

(b) Damaged pallets shall be stored in designated areas and identified.

(c) Reusable wing or lip-type pallets shall be hoisted by bar bridles or other suitable gear and shall have an overhanging wing or lip of at least three inches (~~((76.2 mm))~~) (7.62 cm). They shall not be hoisted by wire slings alone.

(d) Loaded pallets that do not meet the requirements of this paragraph shall be hoisted only after being placed on pallets meeting such requirements or shall be handled by other means providing equivalent protection.

(e) Bridles for handling flush end or box-type pallets shall be designed to prevent disengagement from the pallet under load.

(f) Pallets shall be stacked or placed to prevent falling, collapsing or otherwise causing a hazard under standard operating conditions.

(g) Disposable pallets intended only for one use shall not be re-used for hoisting.

AMENDATORY SECTION (Amending WSR 00-01-176, filed 12/21/99, effective 3/1/00)

WAC 296-56-60077 Powered industrial trucks. (1) Applicability. This section applies to every type of powered industrial truck used for material or equipment handling within a marine terminal. Employers must comply with the provisions of WAC 296-24-230 and this section. It does not apply to over-the-road vehicles.

(2) General.

(a) Modifications, such as adding counterweights, that might affect the vehicle's capacity or safety shall not be performed without either the manufacturer's prior written approval or the written approval of a professional engineer experienced with the equipment who has consulted with the manufacturer, if available. Capacity, operation and maintenance instruction plates, tags or decals shall be changed to conform to the equipment as modified.

(b) Unauthorized personnel shall not ride on powered industrial trucks. A safe place to ride shall be provided when riding is authorized.

(c) When a powered industrial truck is left unattended, load-engaging means shall be fully lowered, controls neutralized and brakes set. Unless the truck is in view and within twenty-five feet (~~((7-6))~~) 7.62 m of the operator, power shall be shut off. Wheels shall be blocked or curbed if the truck is on an incline.

(d) Powered industrial trucks shall not be operated inside highway vehicles or railcars having damage which could affect operational safety.

(e) Powered industrial trucks shall be marked with their rated capacities, which shall be visible to the operator.

(f) Only stable and safely arranged loads within the rated capacity of the truck shall be handled.

(g) Drivers shall ascend and descend grades slowly.

(h) Drivers shall slow down and sound the horn at cross-aisles and other locations where visibility is obstructed.

(i) If the load obstructs the forward view drivers shall travel with the load trailing.

(j) Steering knobs shall not be used unless the truck is equipped with power steering.

(k) When powered industrial trucks use cargo lifting devices that have a means of engagement hidden from the operator, a means shall be provided to enable the operator to determine that the cargo has been engaged.

(l) When cargo is being towed on pipe trucks or similar equipment, a safe means shall be provided to protect the driver from sliding loads.

(3) Maintenance.

(a) Only designated persons shall perform maintenance and repair.

(b) Batteries on all powered trucks shall be disconnected during repairs to the primary electrical system unless power is necessary for testing and repair. On trucks equipped with systems capable of storing residual energy, that energy shall be safely discharged before work on the primary electrical system begins.

(c) Replacement parts whose function might affect operational safety shall be equivalent in strength and performance capability to the original parts which they replace.

(d) Braking systems or other mechanisms used for braking shall be operable and in safe condition.

(e) Powered industrial trucks shall be maintained in safe working order. Safety devices shall not be removed or made inoperative except as otherwise provided in this section. Trucks with a fuel system leak or any other safety defect shall not be operated.

(f) Those repairs to the fuel and ignition systems of industrial trucks which involve fire hazards shall be conducted only in locations designated as safe for such repairs.

(4) Approved trucks.

(a) "Approved power-operated industrial truck" means one listed or approved for the intended use by a nationally recognized testing laboratory.

(b) Approved trucks acquired and used after February 15, 1972, shall bear a label or other identification indicating testing laboratory approval.

(c) When the atmosphere in an area is hazardous and the provisions of United States Coast Guard regulations at 33 CFR 126.15(e) do not apply, only power-operated industrial trucks approved for such locations shall be used.

(5) Duties of operator.

(a) A power-driven vehicle operator's special duties are:

(i) To operate the vehicle in a safe manner.

(ii) To test brakes, steering gear, lights, horns, or other warning devices, clutches, etc., before starting work.

(iii) To have the vehicle at all times under control so that it can be brought to an emergency stop in the clear space in front of the vehicle.

(iv) To back down any incline of two percent or more when traveling with a load on the fork lift jitney.

(b) Unobstructed view. When traveling, power-propelled vehicles shall at all times be operated in a manner giving the operator a reasonably unobstructed view in the direction of travel. Where this is impractical, the operator shall be directed in travel, by a person designated to do so.

(c) Employee riding safety. Operators and authorized passengers shall not be permitted to ride with legs or arms extending outside any vehicle nor shall they be permitted to ride while standing unless the vehicle is designed to be operated from a standing position.

(d) Moving vehicles. Vehicles shall be controlled manually while being pushed or towed except when a tow bar is used. Special precautions shall be taken when pushing vehicles where view is obstructed. Vehicles shall not be pushed with blades of a forklift.

(e) Moving highway trailers. In all cargo operations involving the use of highway trailers, trailers shall be moved in such a manner that the moving trailer is completely under control at all times. Special caution shall be exercised when such trailers are moving on inclines. Trailers shall be loaded in a manner which will prevent the cargo from shifting, and the load in the trailer shall be evenly distributed so as not to cause the trailer to tip to one side.

(f) Prohibited forms of riding. Riding on tongue or handles of trailers or forks of power-propelled vehicles is prohibited.

(g) Regular seats for riders. No one except the operator shall ride on power-driven vehicles unless regular seats are provided to accommodate passengers.

Larger openings are permitted if no opening allows the smallest unit of cargo being handled to fall through the guard.

(iii) Overhead guards shall be built so that failure of the vehicle's mast tilting mechanism will not displace the guard.

(iv) An overhead guard, otherwise required by this paragraph, may be removed only when it would prevent a truck from entering a work space and if the operator is not exposed to low overhead obstructions in the work space.

(v) Overhead guards shall be large enough to extend over the operator during all truck operations, including forward tilt.

(b) Supplies to ship's rail. Cargo or supplies shall not be hoisted to or from ship's rail with a forklift. This does not apply to ramp or side port loading.

(h) Load backrest extensions. Where necessary to protect the operator, forklift trucks shall be fitted with a vertical load backrest extension to prevent the load from hitting the mast when the mast is positioned at maximum backward tilt. For this purpose, a "load backrest extension" means a device extending vertically from the fork carriage frame to prevent raised loads from falling backward.

(i) Forks. Forks, fork extensions and other attachments shall be secured so that they cannot be accidentally dislodged, and shall be used only in accordance with the manufacturer's recommendations.

(j) Counterweights. Counterweights shall be so affixed that they cannot be accidentally dislodged.

Records of inspection of wire rope shall be kept and shall be available to the department of labor and industries represen-

tative. Records shall be kept for one year. Refer to the general safety and health standards, WAC 296-24-24013.

(b) Wire rope shall not be used if in any length of eight diameters, the total number of visible broken wires exceeds ten percent of the total number of wires, or if the rope shows other signs of excessive wear, corrosion, or defect. Particular attention shall be given to the condition of those sections of wire rope adjacent to any terminal connections, those sections exposed to abnormal wear, and those sections not normally exposed for examination.

(c) Documentation available for inspection shall include wire rope test certificates relating to any replacements made since the last unit test or annual examination as required.

(d) Wire rope and replacement wire rope shall be of the same size, same or better grade, and same construction as originally furnished by the equipment manufacturer or contemplated in the design, unless otherwise recommended by the equipment or wire rope manufacturer due to actual working conditions. AMENDATORY SECTION (Amending WSR 99-02-024, filed 12/30/98, effective 3/30/99)

WAC 296-56-60103 Terminals handling intermodal containers or roll-on roll-off operations. (1) Every inter-

modal container shall be legibly and permanently marked with:

(a) The weight of the container when empty, in pounds;

(b) The maximum cargo weight the container is designed to carry, in pounds; and

(c) The sum of the maximum weight of the container with cargo, in pounds (gross container capacity).

(2) No container shall be hoisted by any crane or derrick unless the following conditions have been met:

(a) The employer shall ascertain from the carrier whether a container to be hoisted is loaded or empty. Empty containers shall be identified before loading or discharge in such a manner as will inform every supervisor and foreman on the site and in charge of loading or discharging, and every crane or other hoisting equipment operator and signalman, if any, that the container is empty. Methods of identification may include cargo plans, manifests or markings on the container.

(b) In the case of a loaded container:

(i) The actual gross weight shall be plainly marked so as to be visible to the crane operator, other hoisting equipment operator, signalman, and to every supervisor and foreman on the site and in charge of the operation; or

(ii) The cargo stowage plan or equivalent permanently recorded display serving the same purpose, containing the actual gross weight and the serial number or other positive identification of that specific container, shall be provided to the crane or other hoisting equipment operator and signalman, if any, and to every supervisor and foreman on the site and in charge of the operation.

(c) Every outbound loaded container which is received at a marine terminal ready to load aboard a vessel without further consolidation or loading shall be weighed to obtain the actual gross weight before being hoisted.

(d)(i) When container weighing scales are located at a marine terminal, any outbound container with a load consolidated at that terminal shall be weighed to obtain an actual weight before being hoisted.

(ii) If the terminal has no scales, the actual gross weight may be calculated on the basis of the container's contents and the container's empty weight. The weights used in the calculation shall be posted conspicuously on the container, with the name of the person making the calculation and the date.

(iii) Container weights shall be subject to random sample weight checks at the nearest weighing facility. In cases where such weight checks or experience otherwise indicate consistently inaccurate weights, the weight of containers so calculated at the source from which the inaccurate weights originated shall no longer be recognized as true gross weights. Such containers shall not be hoisted unless actual gross weights have been obtained by weighing.

(e) The following containers are exempted from the requirements of (c) and (d) of this subsection:

(i) Open type vehicle containers.

(ii) The container is marked on the outside in such a manner that an employee can readily discern that the container is carrying vehicles.

(iii) Containers built specifically for the carriage of compressed gases.

(iv) The container carries only completely assembled vehicles and no other cargo.

(v) The vehicles were loaded into the container at the marine terminal.

(f) The weight of loaded inbound containers from foreign ports shall be determined by weighing or by the method of calculation described in (d)(ii) of this subsection or by shipping documents.

(g) Any scale used within Washington state to weigh containers for the purpose of the requirements of this section shall meet the accuracy standards of the state or local public authority in which the scale is located.

(3) No container shall be hoisted if its actual gross weight exceeds the weight marked as required in subsection (1)(c) of this section, or if it exceeds the capacity of the crane or other hoisting device intended to be used.

(4)(a) Marked or designated areas shall be set aside within a container or roll-on roll-off terminal for passage of employees to and from active cargo transfer points, except where transportation to and from those points is provided by the employer.

(b) The employer shall direct employees to stay clear of the area beneath a suspended container. Employees shall stay clear of the area beneath a suspended container.

(5) Each employee working in the immediate area of container handling equipment or in the terminal's traffic lanes shall wear a high visibility vest (or equivalent protection).

Note to subsection (5): High visibility vests or equivalent protection means high visibility/retroreflective materials which are intended to provide conspicuity of the user by day through the use of high visibility (fluorescent) material and in the dark by vehicle headlights through the use of retroreflective material. The minimum area of material for a vest or equivalent protection is .5m(2)(760 in.(2)) for fluorescent (background) material and .13m(2)(197 in.(2)) for retroreflective material. Vests or equivalent protection, such as high visibility/retro-reflective coveralls, that are available for industrial use, may also be acceptable.

(6) Containers shall be handled using lifting fittings or other arrangements suitable and intended for the purposes as set forth in (a) and (c) of this subsection, ~~((except))~~ unless when damage to an intermodal container makes special means of handling necessary.

(a) Loaded intermodal containers of twenty feet (6.1 m) or more in length shall be hoisted as follows:

(i) When hoisting by the top fittings, the lifting forces shall be applied vertically from at least four top fittings or by means which will safely lift the container without damage. The lifting fittings provided shall be used.

(F) The length of the spreader beam is at least 16.3 feet (5 m) for a twenty-foot container, and at least 36.4 feet ~~((11))~~ 11.1 m) for a forty-foot container.

(ii) If hoisted from bottom fittings, the hoisting connections shall bear on the fittings only, making no other contact

with the container. The angles of the four bridle legs shall not be less than thirty degrees to the horizontal in the case of forty foot (12.2 m) containers, thirty-seven degrees in the case of thirty foot (9.1 m) containers, or forty-five degrees in the case of twenty foot (6.1 m) containers.

(iii) Lifting containers by fork lift trucks or by grappling arms from above or from one side may be done only if the container is designed for this type of handling.

(b) Other means of hoisting may be used only if the containers and hoisting means are designed for such use.

(c)(i) When using intermodal container spreaders that employ lanyards for activation of load-disengagement, all possible precautions shall be taken to prevent accidental release of the load.

AMENDATORY SECTION (Amending Order 86-02, filed 1/17/86)

WAC 296-56-60233 Related terminal operations and equipment—Machine guarding. (1) Definition. "Guarded" means shielded, fenced, or enclosed by covers, casings, shields, troughs, spillways or railings, or guarded by position

or location. Examples of guarding methods are guarding by location (positioning hazards so they are inaccessible to employees) and point of operation guarding (using barrier guards, two-hand tripping devices, electronic safety devices, or other such devices).

(2) General.

(a) Danger zones on machines and equipment used by employees shall be guarded.

(b) Where chips and dust produced by machine operation may result in a hazard to the operator, the machinery shall be equipped with an effective exhaust system at the point of origin, or other equally effective means shall be provided to protect the operator.

(c) Fixed machinery shall be secured to prevent shifting.

(d) A power cut-off device for machinery and equipment shall be provided at the operator's working position.

(e) Machines driven by belts and shafting shall be fitted with a belt-locking or equivalent protective device if the belt can be shifted.

(f) In operations where injury to the operator might result if motors were to restart after power failures, provisions shall be made to prevent machines from automatically restarting upon restoration of power.

(g) The power supply to machines shall be turned off, locked out, and tagged out during repair, adjustment, or servicing.

(h) Machines shall be maintained in a safe working condition.

(i) Only designated employees shall maintain or repair machinery and equipment.

(j) Machines with defects that affect the safety of operation shall not be used.

(3) Hand-fed circular rip saws and hand-fed circular crosscut table saws. Unless fixed or manually adjustable enclosures or guarding provides equivalent protection, hand-fed circular rip saws and hand-fed circular crosscut table saws shall be guarded as follows:

(a) They shall be equipped with hoods completely enclosing those portions of the saw above the table and the material being cut;

(b) They shall have spreaders to prevent material from squeezing the saw. Spreaders shall be in true alignment with the saw. Spreaders may be removed only during grooving, dadoing, or rabbeting operations, and shall be replaced at the completion of such operations; and

(c) They shall have nonkickback fingers or dogs to oppose the tendency of the saw to pick up material or throw material toward the operator.

(4) Swing cutoff saws.

(a) Swing cutoff saws shall have hoods completely enclosing the upper half of the saw, the arbor end and the point of operation at all saw positions to protect the operator from material thrown up by the saw. The hood shall automatically cover the lower portion of the blade so that when the saw returns to the back of the table the hood rises on top of the fence, and when the saw is moved forward the hood drops on top, remaining in contact with the table or the material.

(b) Swing cutoff saws shall have a device to return the saw automatically to the back of the table without rebound. The device shall not be dependent upon rope, cord or springs.

(c) Devices shall be provided to prevent saws from swinging beyond the front or back edges of the table.

(5) Radial saws. Unless fixed or manually adjustable enclosures or guards provide equivalent protection, radial saws shall be guarded as follows:

(a) The upper hood of radial saws shall enclose the upper portion of the blade up to and including the end of the saw arbor and shall protect the operator from being struck by debris. The sides of the lower exposed portion of the blade shall be guarded to the blade diameter by a device automatically adjusting to the thickness of the stock and remaining in contact with the stock. The lower guard may be removed only when the saw is used for bevel cuts;

(b) Radial saws used for ripping shall have nonkickback fingers or dogs on both sides to oppose the thrust or tendency of the saw to pick up material or throw material toward the operator;

(c) An adjustable stop shall be provided to prevent travel of radial saw blades beyond the table's edge;

(d) Radial saws shall be installed so that the cutting head returns to the starting position without rebound when released; and

(e) The employer shall direct that employees perform ripping and ploughing against the saw turning direction. Rotation direction and an indication of the end of the saw to be used shall be conspicuously marked on the hood.

(6) Band saws and band resaws.

(c) Band saws shall be equipped with a tension control device to keep the blade taut.

(7) Abrasive wheels and machinery.

(a) Abrasive wheels shall be used only on machines having enclosure guards to restrain pieces of grinding wheels and to protect employees if the wheel breaks, except as provided in (b) and (c) of this subsection. Where the operator stands in front of the safety guard opening, the safety guard shall be adjustable or have an adjustable tongue or piece at the top of the opening. The safety guard or the tongue shall be adjusted so that it is always within one-fourth inch of the periphery of the wheel. Guards shall be aligned with the wheel and the strength of fastenings shall be greater than the strength of the guard.

(b) When the work provides equivalent protection, or when the machine is designed as a portable saw, guards may be constructed with the spindle end, nut and outer flange exposed. When the work entirely covers the side of the wheel, the side covers of the guard may be removed.

(c) Guarding is not required:

(i) For wheels used for internal work while the wheel is contained within the work being ground; or

(ii) For mounted wheels two inches (5 cm) and smaller in diameter used in portable operations.

(d) Work rests shall be used on fixed grinding machines. Work rests shall be rigidly constructed and adjustable for wheel wear. They shall be adjusted closely to the wheel with a maximum opening of one-eighth inch (~~((3-2))~~ 3.18 mm) and shall be securely clamped. Adjustment shall not be made while the wheel is in motion.

(e) Grinding wheels shall fit freely on the spindle. The spindle nut shall be tightened only enough to hold the wheel in place.

(f) Grinding machine wheels shall turn at a speed that is compatible with the rated speed of the wheel.

(g) Flanges and blotters shall be used only with wheels designed for their use. Flanges shall be of a type ensuring retention of pieces of the wheel in case of breakage.

(h) Abrasive wheels with operational defects shall not be used.

(8) Rotating parts, drives and connections.

(a) Rotating parts, such as gears and pulleys, that are located seven feet (~~((2-1))~~ 2.13 m) or less above working surfaces shall be guarded to prevent employee contact with moving parts.

(a) To the extent possible, hot work shall be performed in designated locations that are free of fire hazards.

(b) When hot work must be performed in a location that is not free of fire hazards, all necessary precautions shall be taken to confine heat, sparks, and slag so that they cannot contact flammable or combustible material.

(c) Fire extinguishing equipment suitable for the location shall be immediately available and shall be maintained in readiness for use at all times.

(d) When the hot work operation is such that normal fire prevention precautions are not sufficient, additional personnel shall be assigned to guard against fire during hot work and for a sufficient time after completion of the work to ensure that no fire hazard remains. The employer shall instruct all employees involved in hot work operations as to potential fire hazards and the use of fire fighting equipment.

(e) Drums and containers which contain or have contained flammable or combustible liquids shall be kept closed. Empty containers shall be removed from the hot work area.

(f) When openings or cracks in flooring cannot be closed, precautions shall be taken to ensure that no employees or flammable or combustible materials are exposed to sparks dropping through the floor. Similar precautions shall be taken regarding cracks or holes in walls, open doorways and open or broken windows.

(g) Hot work shall not be performed:

(i) In flammable or potentially flammable atmospheres;

(ii) On or in equipment or tanks that have contained flammable gas or liquid or combustible liquid or dust-producing material, until a designated person has tested the atmosphere inside the equipment or tanks and determined that it is not hazardous; or

(iii) Near any area in which exposed readily ignitable materials such as bulk sulphur, baled paper or cotton are stored. Bulk sulphur is excluded from this prohibition if suitable precautions are followed, the person in charge is knowledgeable and the person performing the work has been instructed in preventing and extinguishing sulphur fires.

(h)(i) Drums, containers or hollow structures that have contained flammable or combustible substances shall either be filled with water or cleaned, and shall then be ventilated. A designated person shall test the atmosphere and determine that it is not hazardous before hot work is performed on or in such structures.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 00-206—Filed October 5, 2000, 8:17 a.m.]

Date of Adoption: October 5, 2000.

Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order:

Amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: In-season updates of the coho run size for Lake Washington indicate the run is returning at higher than predicted harvestable numbers, and may be [as] large as 50,000 or more. Two-thirds or more of the coho are of hatchery origin, and Issaquah Hatchery only needs about 2,500 spawners to meet production levels. Exploitation rate on the wild stock, outside of the terminal area is approximately 25%. Using a liberal projected catch for the sport fishery of 3,000 (twice the highest value observed in the last two decades), the total exploitation rate will still be below 30%, a value typically used to rebuild weak coho salmon stocks.

Sonic tag studies have determined that most chinook salmon have cleared the north end of the lake, but a small number continue to be holding within a few hundred yards of the mouth of Sammamish River. The total fishing closure off the mouth of the river through the middle of October will protect the chinook until they move upstream to reach their spawning grounds, but those waters will pen after the chinook clear the zone and the coho move into that area. There is insufficient time to use the permanent regulation process to effect these changes.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Hatchery coho from Forks Creek Hatchery (Willapa Bay) will be planted in South Bend Mill Pond (Pacific County) to provide additional angling opportunity. These hatchery coho are "surplus" or in excess of hatchery broodstock needs.

Reasons for this Finding: The state's share of shrimp available to beam trawl gear in Marine Fish-Shellfish Management and Catch Reporting Area 20B has been taken. Additional housekeeping revisions regarding Crustacean Management Region 1A, and Marine Fish-Shellfish Management and Catch Reporting Areas 21B and 22B that were inadvertently omitted from the previous emergency rule have been included as closed as no harvest for beam trawl is available.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Sets four days of commercial coho fishing and one day of target sturgeon fishing. Impacts to ESA listed fish are projected to be within the guidelines of the 2000 Management Agreement and NMFS standards. Harvestable numbers of hatchery coho, chinook, and sturgeon are available. Rule is consistent with action of the Columbia River Compact of October 6, 2000.

The select areas are part of an on-going BPA funded study to design fisheries in areas outside of the mainstem Columbia River. Several stocks of salmon have been released from net pens in these select areas to provide for fisheries. All salmon returning to these net pens are harvestable. This rule is consistent with actions of the Columbia River compact hearing of July 27, 2000, and September 22, 2000, and is consistent with requirements of the Endangered Species Act. Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order:
Amending WAC 232-28-248.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Game Management Unit 564 is a firearm restricted area. Although the majority of the GMU is in Clark County, a portion extends into Skamania County. This rule clarifies that all of GMU 564 is restricted. There is insufficient time to adopt permanent rules.

EMERGENCY RULES
DEPARTMENT OF AGRICULTURE**

[Filed October 12, 2000, 8:20 a.m.]

Date of Adoption: October 12, 2000.

Purpose: To delay the effective date of the rules adopted in chapter 16-143 WAC on May 22, 2000, that:

- (1) Establish a grade and standards for fresh red raspberries that are destined for freezing, puree, juice stock and other processing uses;
- (2) Establish standards for red raspberry puree stock and juice stock red raspberries;
- (3) Establish container marking requirements for red raspberries; and
- (4) Specify how red raspberries may be used, processed and sold.

Red raspberries destined for fresh market are exempt.

Citation of Existing Rules Affected by this Order: WAC 16-143-010 through 16-143-110.

Statutory Authority for Adoption: Chapters 15.17 and 69.04 RCW and RCW 34.05.350.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: In May 2000 the Department of Agriculture completed a rule-making process that resulted in the adoption of WAC 16-143-010 through 16-143-110, Red raspberry grades and standards. The rules, adopted on May 22, 2000, would have gone into effect on June 22, 2000. On June 14, 2000, the department adopted an emergency rule based on the factors set forth below that delayed the effective date of the permanent rules until October 12, 2000. The emergency rule exempted the 2000 red raspberry harvest from the permanent rules.

Subsequent to the adoption of the permanent rules, on May 30, 2000, the department received a petition for reconsideration and a petition for stay of implementation of the newly enacted rules relating to the red raspberry grades and standards. The department has also received other questions regarding rule implementation and compliance by persons and entities covered by the rules, and questions concerning rule implementation by the department.

The petitions and inquiries identified impacts to existing contracts for the purchase of red raspberries for harvest year 2000, and raised implementation and logistical questions, the extent of which were previously unidentified during the original rule-making process. The department determined that additional time and work was required to address these issues.

On September 20, 2000, the department filed a CR-101 to solicit comment on potential permanent rules regarding implementation of and compliance with the permanent grades and standards rules in WAC 16-143-010 through 16-143-110. The CR-101 also solicits comment on whether and how the permanent rules should apply to red raspberries harvested prior to June 2001. The emergency rule accompanying this filing will continue the status quo (exempting red raspberries harvested in the 2000 harvest season from the provisions of the permanent red raspberry grades and standards rules) during the permanent rule-making process.

The department will also use this time to assist those persons and entities that are required to comply with the rules with training and implementation guidance.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order:
 Amending WAC 220-52-073 and 220-69-240.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Harvestable amounts of green sea urchins exist in the areas described. Prohibition of all diving within two days of scheduled sea urchin openings discourages the practice of fishing on closed days and hiding the unlawful catch underwater until the legal opening. Daily reports of sea urchin landings are required to schedule closures and avoid overharvest. A record of the Sea Urchin District from which sea urchins were taken and the location where received is required to avoid overharvest of a district and ensure accurate reporting for purposes of meeting conservation and allocation objectives. There is insufficient time to promulgate permanent rules.

NEW SECTION

WAC 192-150-005 Effective date. Sections 12, 13, and 14 of Chapter 2, Laws of 2000 apply to separations from employment or work refusals that occur on or after February 13, 2000.

NEW SECTION

WAC 192-150-050 Leaving work to accept bona fide job offer—RCW 50.20.050 (2)(a). If you leave work to accept a bona fide offer of employment, you will have good cause within the meaning of RCW 50.20.050(1) if you satisfactorily demonstrate that:

- (1) Prior to leaving work, you received a definite offer of employment; and
- (2) You had a reasonable basis for believing that the person making the offer had the authority to do so; and
- (3) A specific starting date and the terms and conditions of the employment were mutually agreed upon; and
- (4) You continued in your previous employment for as long as was reasonably consistent with whatever arrangements were necessary to start working at the new job; and
- (5) The new job is in employment covered by Title 50 RCW or the comparable laws of another state.

NEW SECTION

WAC 192-150-065 What constitutes an employer-initiated mandatory transfer under RCW 50.20.050 (2)(c)? If your spouse's employer requires your spouse to relocate to another labor market area to retain a current job or to accept another job with that employer, the relocation will be considered an employer-initiated mandatory transfer. Examples of employer-initiated mandatory transfers include, but are not limited to:

- (a) A plant closure where employees must move to another labor market area to continue employment with that employer;
- (b) A change in job responsibilities, such as a promotion, with that same employer that will require a move to another labor market area; and
- (c) A restructuring of business operations requiring employees to move to another labor market area if they want to continue doing the same job.

NEW SECTION

WAC 192-150-085 How to qualify after benefits have been denied. Benefits may be denied under RCW 50.20.050(1) for voluntarily leaving work, RCW 50.20.060 for being discharged for misconduct, and RCW 50.20.080 for refusing an offer of suitable work or job referral. The denial of benefits will continue indefinitely until you show that:

- (1) At least seven calendar weeks have elapsed following the week the act occurred that resulted in the denial of benefits;

- (2) You have obtained bona fide work and earned wages of at least seven times your suspended weekly benefit amount. The wages earned must be in employment that is covered by Title 50 RCW or the comparable laws of another state.

Chapter 192-270Training Benefits for Dislocated WorkersNEW SECTION

WAC 192-270-005 Definitions. The definitions below apply to this chapter and RCW 50.22.150:

(1) "Labor market" means the geographic area in which workers in your particular occupation or with your particular set of skills have customarily found work. For the purpose of determining eligibility for training benefits, "labor market" is based on your place of residence at the time you separated from employment and your occupation.

(2) "NAICS" means the North American industry classification system code.

(3) "Plurality of wages" means the largest proportion of wages earned within a particular occupation or skill set. These wages must be earned in:

- (a) Your base year, and
- (b) At least two of the four twelve-month periods preceding your base year.

(4) "SIC" means the standard industrial classification code.

(5) "Skill set" means the work-related knowledge and abilities needed to produce a particular product or provide a particular service.

(6) "Training benefits" means the additional benefits paid under RCW 50.22.150 to eligible dislocated workers enrolled in and making satisfactory progress in a training program approved by the commissioner.

(7) "Wages" means remuneration earned in employment as defined in Title 50 RCW or the comparable laws of another state. This means that only wages in covered employment can be considered in determining whether you have sufficient tenure in an occupation or in work with a particular skill set.

NEW SECTION

WAC 192-270-010 Employment separations. You must have been terminated or received a notice of termination from your employer to be eligible for training benefits. Training benefits are not available if you left work voluntarily regardless of whether you had good cause for leaving, or if you are disqualified from benefits for work-related misconduct under RCW 50.20.060, and have not requalified for benefits.

When determining whether your separation from employment makes you eligible for training benefits, the department will look at the last job you held for a period of at least seven weeks that was in employment covered by Title 50 RCW or the comparable laws of another state.

NEW SECTION

WAC 192-270-015 Unlikely to return to employment. Except as provided in RCW 50.22.150(3), you are unlikely to return to employment if:

(1) You have:

- (a) Become unemployed due to a permanent plant closure;
- (b) Received a federal WARN act notice; or
- (c) Received a notice of indefinite layoff as a result of a permanent reduction of operations at your place of employment; and

(2) Suitable work for individuals with your skills is in diminishing demand within your labor market in your principal occupation or previous industry.

WAC 192-270-050 Criteria for approving training plans. (1) The department will consider the following factors when reviewing your application for training benefits:

(a) Whether suitable employment is available in your labor market;

(b) Your plan for completion of the training including, but not limited to, what financial resources you intend to use to fund the complete training plan;

(c) Whether you have the qualifications and aptitudes to successfully complete the training;

(d) Whether the training relates to a high demand occupation, meaning that the number of job openings in the labor market for the occupation or with that skill set exceeds the supply of qualified workers;

(e) Whether the training is likely to enhance your marketable skills and earning power, based on an assessment of what your employment prospects would be if training were not approved; and

(f) Effective July 1, 2001, whether the educational institution meets the performance criteria established by the workforce training and education coordinating board. Until June 30, 2001, a vocational training program at an educational institution is presumed to meet the performance criteria if it is a:

- (i) Public community or technical college;
- (ii) Public university;
- (iii) Registered apprenticeship program;

sion of the commissioner may waive any of the requirements of this section on an individual basis.

Reviser's note: The typographical error in the above section occurred in the copy filed by the agency and appears in the Register pursuant to the requirements of RCW 34.08.040.

NEW SECTION

WAC 192-270-055 Funding—Waiting lists. Payment of training benefits is contingent upon the availability of funding. Training will not be approved under RCW 50.22.150 unless the department has determined that funds are available to support your training plan.

(1) The amount of funds obligated will be the amount necessary to complete your training plan or the maximum amount authorized by RCW 50.22.150 (5)(a), whichever is less.

(2) If you have been denied training benefits due to lack of funds, the department will consider whether you are eligible for commissioner approved training under WAC 192-200-020.

(3) Funds will be obligated in the following order:

(a) First, otherwise eligible dislocated workers who are enrolled in training approved by the department as of February 13, 2000;

(b) Second, other eligible dislocated workers on a first-come, first-served basis, determined by the date the completed training application is received by the department.

(4) Once all available funds have been obligated, individuals who have been denied training benefits due solely to the lack of funds will be placed on a waiting list. Priority on the waiting list will be determined by the date the claimant's completed training application was received by the department. As additional funds become available, this date will be used when obligating funds to claimants on the waiting list. In the event two or more claimants on the waiting list have the same date, priority will be given to that person who is closest to exhausting regular unemployment benefits.

(5) An individual's name may be removed from the waiting list when the department determines it is appropriate. Examples include, but are not limited to:

(a) Written correspondence to the claimant from the department is returned by the U.S. postal service for lack of a current address, and the claimant has not filed a change of address with the department;

(b) The claimant fails to respond to written correspondence from the department by the date indicated in the correspondence;

(c) The claimant is not enrolled in or making satisfactory progress in full-time training; or

(d) Two or more years have elapsed since the end of the claimant's regular benefit year.

NEW SECTION

WAC 192-270-060 Occupation in high demand outside labor market. A training plan may be approved in an occupation not in demand in your local labor market if:

(1) The occupation is in high demand in another labor market; and

(2) You are willing and able to relocate to that labor market when the training is completed; and

(3) There is not a current demand for workers with your present skills in that labor market. The demand for workers in that labor market must be at wages comparable to those paid in your current labor market, based on any differences in the cost of living between the two areas.

NEW SECTION

WAC 192-270-065 Certification of satisfactory progress. In order to continue your eligibility for training benefits, the certification that you are making satisfactory progress in full-time training must be signed by the registrar or an equivalent person designated by your educational institution.

NEW SECTION

WAC 192-270-070 Modifying a training plan. (1) You must notify the department immediately upon making a significant modification to your approved training plan. A significant modification is one that impacts any of the approval criteria listed in WAC 192-270-050 and includes, but is not limited to, changes in:

- (a) Your course of study or major;
- (b) The educational institution;
- (c) The projected start or end dates for the training; or
- (d) Your enrolled credit hours.

(2) The department must determine your continued eligibility for training benefits any time you make a significant modification to your training plan, using the criteria listed in WAC 192-270-050. Approval of a modification that increases the projected cost of the training is subject to the availability of funding.

(3) In general, you may make a significant modification to your plan one time. Subsequent modifications will not be approved except in unusual individual circumstances. However, this restriction does not apply while you are enrolled in educational courses that are a prerequisite to vocational training.

(4) Any benefits paid after a modification to your training plan that has not been approved by the department constitute an overpayment and are subject to recovery under RCW 50.20.190.

[Order 00-216—Filed October 13, 2000, 4:39 p.m.]

Date of Adoption: October 13, 2000.

Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order:
 Repealing WAC 232-28-61900E; and amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: At least 5,000 coho to date have been accounted for in the Dungeness River, far more than escapement needs. Harvest opportunity exists to take the surplus, with no impact on spawning escapement or chinook protection needs. There is insufficient time to promulgate permanent rules.

Reasons for this Finding: Allows fall chinook to be harvested in treaty Indian subsistence fisheries. Reasons for this Finding: Because of conservation concerns, the Little Spokane River above the West Branch (above Fridegar Road) and Chain Lake are both currently closed to the harvest of kokanee. However, during the winter season, there is considerable incidental catch and illegal harvest of these fish. Closing the lake during the winter months will offer another measure of protection to these fish. Fishing pressure within this reach of stream is contributing to impacts upon this sensitive stock of kokanee, particularly during fall spawning activities. Closing a small section of the Little Spokane River will offer another measure of protection to these fish, which appear to be a unique stock of kokanee within the Little Spokane River system. There is insufficient time to promulgate permanent rules.

Reasons for this Finding: The above Puget Sound purse seine, gill net, and reef net openings are part of the final agreements reached at the April 7, 2000, meeting of the Pacific Fishery Management Council (PFMC) in Portland, Oregon. Those agreements were drafted into regulatory format and filed with the Code Reviser's Office under the expedited rule-making process. Those permanent rules do not include a chum salmon gill net and purse seine fishery in Area 10 and 11 in Management Week 43. This additional opening is in response to the increased run abundance of coho which lessened the conservation considerations that delayed the chum fishery in Area 10 and 11 during the preseason agreement. NMFS consultation resulted in an opinion that this fishery opening is consistent with the year 2000 fishery opinion of "no jeopardy." All other rules are consistent with agreements reached at the PFMC meeting. There is insufficient time to promulgate permanent rules.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES**

(Economic Services Administration)

[Filed October 18, 2000, 10:43 a.m.]

Date of Adoption: October 18, 2000.

Purpose: WAC 388-444-0075 What are the disqualification periods for quitting a job without good cause? This

EMERGENCY

amendment will allow clients to serve the disqualification period, and if they do not find employment, be allowed to reapply for food assistance after they served the disqualification period.

Citation of Existing Rules Affected by this Order: Amending WAC 388-444-0075.

Statutory Authority for Adoption: RCW 74.04.510.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: WAC 388-444-0075 What are the disqualification periods for quitting a job without good cause?, does not allow a client living in an exempt area to reestablish eligibility after the disqualification except by getting a job. If a client in an exempt area cannot find a job, then the client cannot receive food assistance. This can cause a hardship on a family if the amount of food assistance is cut, and the client is unable to find work.

NAME _____
ADDRESS _____

THE WASHINGTON STATE REGISTER, published under RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards that have been filed in the code reviser's office before the closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper issue of the Register.

The code reviser's office has established an annual subscription price of \$195 for a Register subscription, and single copies cost \$8.00. Sales tax of 8.0% applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$210.60 (\$195 for state agencies) payable to the code reviser's office.
