(2) ALTERNATIVE B. Use only for Adoption of Emergency Rules.

I, C. Alan Pettibone, find that an emergency exists and that this order is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to public interest. A statement of the facts constituting the emergency is: A severe outbreak of insects in Kittitas County threatens to cause the timothy and alfalfa clover hay growers with severe economic losses. A review of the department's bee damage cases for 1986 indicates that methidathion (Supracide) which will alleviate the insect damage to the hay can be used in this area in accordance with label directions without significant hazard to bees. These rules are therefore adopted as emergency rules to take effect upon filing with the code reviser.

(3) Pursuant to the requirements of RCW 34.04.026 that "every agency shall incorporate the most specific, but in no case omit all, of the following language alternatives when adopting or amending rules" fill in statement (a), (b), or (c) as appropriate:

[x] (a) This rule is promulgated pursuant to RCW 15.58 and 17.21 and is intended to administratively implement that statute.

[] (b) This rule is promulgated pursuant to RCW which directs that the

(agency) has authority to implement the provisions of

(name of act or RCW citation)

[] (c) This rule is promulgated under the general rule-making authority of the

(5) This order, after being first recorded in the order register of this agency, is herewith transmitted to the Code Reviser for filing pursuant to chapter 34.04 RCW and chapter 1-12 WAC.
