

SUGGESTION:

1. Change the wording in WAC 1-12-130, line 3 from "sections being amended, to "which are amended.
2. The agencies would like to use bill form material so that they can make deletions and additions on the original rule. The rule adopted will be filed WAC style.
3. The Form CR-1 (4) was discussed. Should the (4) be shown on the Form CR-2.
4. Was the intent of informing the public as to agency meetings actually being done. It was thought the news agencies kept the notices of meeting until a few days before actual date set. Some out-of-town agencies were uncertain as to who they should notify.
5. The 20 day notice was discussed. Should second notice be given for actual adoption. Can there be an indefinite continuance.
6. In adopting new rules the agencies should not use numbers previously used by the Code Reviser without special permission. This is in reference to WAC 1-12-160.
7. We are to be furnished with a list of attorneys who would require notification of procedures adopted by the Code Reviser.
