WAC 132S-20-05 INTRODUCTION. Columbia Basin College provides the student opportunity to acquire specialized skills, systematized knowledge, values for responsible citizenship, intellectual insights, and broad cultural perspectives in an atmosphere sensitive to individual values and needs.

Realizing the diversity of student goals, Columbia Basin College provides a program in three categories: 1) lower-division college work leading toward a baccalaureate degree, 2) community service and general education courses for individual improvement, cultural development and personal satisfaction.

In light of the statement of goals adopted by Columbia Basin College the granting of certificates and degrees should include these guidelines.

Because the objectives of the goals vary, there may be a need for the College's approach for a challenge system to vary according to the type of degree to be awarded.

WAC 132S-20-10 DEFINITIONS AND PROCEDURES. Associate Degree in Arts and Sciences. There will be no challenge system authorized for credit, however, a student may challenge a course for advanced placement. The challenge for advanced placement needs the approval of the division involved.

Associate in Applied Science. It may be possible to receive credit and advanced placement for previous knowledge gained in a specialized skill, by the challenge system, if approved by the department and the division chairman. However, no more than one-half (1/2) the total program requirements can be challenged by any individual. In order to challenge any part of a program, the student must be actively enrolled in college course work with a minimum of 10 credit hours during the quarter in which he or she wishes to challenge. The individual must have satisfactorily completed one quarter in the program at Columbia Basin College before he or she can receive credit for challenge.

Certificate for General Studies. There will be no courses challenged for credit, however, advanced placement may be awarded. The challenge for advanced placement must have approval of the division involved.
