

WSR 21-14-054
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 21-108—Filed July 1, 2021, 2:27 p.m., effective July 5, 2021]

Effective Date of Rule: July 5, 2021.

Purpose: This emergency rule will allow nontreaty commercial fishing opportunities in specific Columbia River select areas while protecting fish listed as threatened or endangered under the Endangered Species Act (ESA). This rule implements federal court orders governing Washington's relationship with treaty Indian tribes, federal law governing Washington's relationship with Oregon, and Washington fish and wildlife commission policy guidance for Columbia River fisheries.

Citation of Rules Affected by this Order: Repealing WAC 220-358-03000A; and amending WAC 220-358-030.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: Modifies 2021 commercial select area summer seasons. Impacts to nonlocal stocks are expected to be minimal and local Chinook stocks reared for the select area sites are available for harvest. The fishery is consistent with the *U.S. v. Oregon* Management Agreement and the associated biological opinion. Conforms Washington state rules with Oregon state rules. Regulation is consistent with compact actions of February 16, March 23, March 30, April 7, and July 1, 2021. There is insufficient time to promulgate permanent rules.

Washington and Oregon jointly regulate Columbia River fisheries under the congressionally ratified Columbia River Compact. Four Indian tribes have treaty fishing rights in the Columbia River. The treaties preempt state regulations that fail to allow the tribes an opportunity to take a fair share of the available fish, and the states must manage other fisheries accordingly. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the federal ESA. On February 23, 2018, the National Marine Fisheries Service issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2018-2027 *U.S. v. Oregon* Management Agreement.

Some Columbia River Basin salmon and steelhead stocks are listed as threatened or endangered under the federal ESA. The Washington and Oregon fish and wildlife commissions have developed policies to guide the implementation of such biological opinions in the states' regulation of nontreaty fisheries.

Columbia River nontreaty fisheries are monitored very closely to ensure compliance with federal court orders, the ESA, and commission guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. Representatives from the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and take public testimony when considering proposals for new emergency rules. WDFW and ODFW then adopt regulations reflecting agreements reached.

Number of Sections Adopted in Order to Comply with Federal Statute: New 1, Amended 0, Repealed 1; Federal Rules or Standards: New 1, Amended 0, Repealed 1; or Recently Enacted State Statutes: New 1, Amended 0, Repealed 1.

Number of Sections Adopted at the Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: July 1, 2021.

Director

NEW SECTION

WAC 220-358-03000B Columbia River seasons below Bonneville.

Notwithstanding the provisions of WAC 220-358-030, WAC 220-358-040, and WAC 220-335-050, effective July 5 through July 16, 2021, it is unlawful for a person to take or possess salmon, sturgeon, and shad for commercial purposes from Columbia River Salmon Management and Catch Reporting Areas 1A, 1B, 1C, 1D, 1E and Select Areas, except during the times and conditions listed below:

(1) Tongue Point and South Channel:

| Open_Dates | Open_Days | Open_Time | Open_Duration |
|----------------|-------------------|-------------------|---------------|
| Jul 5 - Jul 16 | Mon, Thu (nights) | 7:00 pm - 7:00 am | 4 nights |

(a) Area:

The lower (downstream) boundary of the Tongue Point fishing area is defined as a line from a regulatory marker (46°12'31.1"N latitude 123°45'34.0"W longitude) on the eastern shore of Tongue Point midway between the red USCG navigation light #2 at the tip of Tongue Point and the downstream (northern-most) pier (#8) at the Tongue Point Job Corps facility, to the flashing green USCG navigation light #3 on the rock jetty at the west end of Mott Island.

For summer fisheries, the open waters include the entire Tongue Point Select Area as described in OAR 635-042-0170 (1)(a) and WAC

220-301-010 (11) (c). If the marker on the eastern shore of Tongue Point is not in place, the downstream boundary is defined by a line projecting from a point (46°12'31.1"N latitude 123°45'34.0"W longitude) on the eastern shore of Tongue Point to the flashing green USCG light "3" on the rock jetty at the northwest tip of Mott Island.

The South Channel Select Area is defined as waters of the Columbia River bounded by a line from a regulatory marker on the Oregon shore at John Day Point projecting northeasterly to a regulatory marker on the southwest shore of Lois Island, and a line from a regulatory marker on Settler Point projecting northwesterly to the flashing red USCG light "10" then projecting westerly to the eastern tip of Burnside Island.

(b) Gear: Gillnets:

Summer seasons (Jul 5 - Jul 16): 9 3/4-inch maximum mesh size restriction.

The maximum net length is 1,500 feet (250 fathoms).

In the Tongue Point Select Area, the lead line weight may not exceed two pounds per any one fathom;

In the South Channel Select Area, there is no lead line weight limit and attachment of additional weight and anchors directly to the lead line is permitted.

(2) Blind Slough and Knappa Slough:

| Open_Dates | Open_Days | Open_Time | Open_Duration |
|----------------|-------------------|-------------------|---------------|
| Jul 5 - Jul 16 | Mon, Thu (nights) | 7:00 pm - 7:00 am | 4 nights |

(a) Area:

The Blind Slough Select Area is defined as waters of Blind Slough and Gnat Creek from a north-south line represented by regulatory markers at the mouth of Blind Slough upstream to a regulatory marker in Gnat Creek located approximately 0.5 miles southeasterly (upstream) of the Barendse Road Bridge.

The Knappa Slough Select Area is defined as waters of Knappa Slough, Calendar Slough, and Big Creek Slough bounded to the north (upstream) by a line projecting from a regulatory marker on the eastern shore of Karlson Island to the northernmost regulatory marker at the mouth of Blind Slough and bounded to the west (downstream) by a line projecting southerly from a regulatory marker on the southwestern tip of Karlson Island through regulatory markers on the western tips of Minaker Island to a marker on the Oregon shore.

The waters of Knappa Slough within a 100-foot radius of the railroad bridge crossing Big Creek are closed. Prior to May 3, the western (downstream) boundary in Knappa Slough is a north-south line projecting through the easternmost tip of Minaker Island and regulatory markers on Karlson Island and the Oregon shore.

(b) Gear: Gillnets:

Summer seasons (Jul 5 - Jul 16): 9 3/4-inch maximum mesh size restriction.

The maximum net length is 600 feet (100 fathoms).

There is no lead line weight limit and attachment of additional weight or anchors directly to the lead line is permitted.

(c) Miscellaneous:

Permanent transportation rules in effect. In accordance with OAR 635-006-0210 (2) (h) and WACs 220-352-040 (1) (m) and 220-301-010 (11) (a-b), commercial fishers are expected, and fish dealers are required, to report landings for winter-summer fisheries in Knappa Slough and Blind Slough separately using appropriate zone codes. Fish dealers are

requested to keep landings from these two sites separate to aid in sampling.

(3) Allowable Sales: Salmon, white sturgeon and shad. A maximum of **three** white sturgeon with a fork length of 44-50 inches may be possessed or sold by each participating vessel during each calendar week (Sunday through Saturday). The **three** white sturgeon possession and sales limit includes all on-going Select Area fisheries.

(4) 24-hour quick reporting is in effect for Washington buyers (WAC 220-352-315). Permanent transportation rules in effect. Oregon buyers are required to submit fish receiving tickets electronically pursuant to OAR 635-006-0210. Unique catch reporting codes have been established for Blind Slough and Knappa Slough to facilitate separation of landings and sampling for winter/spring fisheries. Blind Slough and Knappa Slough have unique catch reporting codes to facilitate separation of landings and sampling for these fisheries.

(5) Multi-Net Rule: Nets not specifically authorized for use in these areas may be onboard a vessel if properly stored. A properly stored net is defined as a net on a drum that is fully covered by a tarp (canvas or plastic) and bound with a minimum of ten revolutions of rope with a diameter of 3/8 (0.375) inches or greater (WAC 220-358-030(2)).

(6) Lighted Buoys: Nets that are fished at any time between official sunset and official sunrise must have lighted buoys on both ends of the net unless the net is attached to the boat. If the net is attached to the boat, then one lighted buoy on the opposite end of the net from the boat is required.
