

WSR 21-22-020  
EMERGENCY RULES  
DEPARTMENT OF  
FISH AND WILDLIFE

[Order 21-238—Filed October 22, 2021, 2:18 p.m., effective October 22, 2021, 2:18 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Closes Marine Fish/Shellfish Catch Reporting Area 25A to commercial harvest of nonspot shrimp effective October 24, 2021, at 11:59 p.m.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000Q; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Closes commercial nonspot shrimp harvest in Marine Fish Shellfish Catch Reporting Area 25A effective October 24, 2021, at 11:59 p.m. and ends the commercial nonspot fishery for the 2021 season per preseason comanager agreement. Sections of this regulation define open areas to allow adequate flexibility for the state commercial shrimp fisheries to respond to dynamic changes in market conditions and to allow for full utilization of both the commercial spot and nonspot shares while also achieving the 50/50 harvest defined by the federal court order. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at the Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: October 22, 2021.

Kelly Susewind  
Director

NEW SECTION

**WAC 220-340-52000R Puget Sound shrimp pot and trawl fishery—**  
**Season.** Notwithstanding the provisions of WAC 220-340-520, effective immediately, until further notice, or until they expire pursuant to RCW 34.05.350, it is unlawful to fish for shrimp for commercial purposes in Puget Sound except as provided for in this section:

## (1) Shrimp Pot Harvests:

(a) Marine Fish Shellfish Catch Reporting Area 25A is open to the commercial harvest of non-spot shrimp by pots through October 24, 2021 at 11:59 p.m.

(b) There is no minimum size limit for spot shrimp or non-spot shrimp.

(c) Shrimp pot gear used for commercial harvest must meet the following requirements:

(i) A shrimp pot may not exceed a maximum 153 inch bottom perimeter and a maximum of 24 inch height.

(ii) The entire top, bottom, and sides of the shrimp pot must be constructed of mesh material. Use of liners is prohibited.

(iii) Entrance tunnels to shrimp pots may be constructed of any size mesh material. All entrance tunnels must open into the pot from the side. The sum of the maximum widths of all entrance tunnel openings must not exceed half of the perimeter of the bottom of the pot.

(iv) Spot shrimp may only be harvested using pots with a minimum mesh size of 1 inch. Mesh size of 1 inch is defined as a mesh opening that a 7/8-inch square peg will pass through, excluding the entrance tunnels, except for flexible (web) mesh pots, where the mesh must be a minimum of 1-3/4 inch stretch measure. Stretch measure is defined as the distance between the inside of one knot to the outside of the opposite vertical knot of one mesh, when the mesh is stretched vertically.

(v) Non-spot shrimp may only be harvested using pots with a minimum mesh size 1/2 inch. Mesh of 1/2 inch is defined as a mesh that a 3/8 inch square peg will pass through, excluding the entrance tunnels, except for flexible (web) mesh pots, where the mesh must be at a minimum 1 1/8 inch stretch measure. Stretch measure is defined as the distance between the inside of one knot to the outside of the opposite vertical knot of one mesh, when the mesh is stretched vertically.

(d) Buoys must have the number of pots deployed per groundline recorded on each end-buoy of a groundline.

(e) It is lawful to concurrently deploy spot shrimp pots and non-spot pots with the following restrictions:

(i) Spot pots and non-spot pots may not be deployed concurrently within the same Marine Fish/Shellfish Catch Reporting Area, with the following exceptions:

(A) Spot and non-spot pots may be concurrently deployed in Marine Fish/Shellfish Catch Reporting Area 23A but not within the same sub-area (23A-E, 23A-W, 23A-C, or 23A-S).

(B) Non-spot pots may be deployed within Sequim Bay, defined as that portion of Marine Fish/Shellfish Catch Reporting Area 25A south of a line true west from Travis Spit to the Miller Peninsula, concurrently with spot shrimp pots in the remaining portion of 25A outside of Sequim Bay.

(ii) All shrimp harvested must be landed and recorded on a shellfish receiving ticket before subsequent harvest may occur.

(f) Each fisher or alternate operator is required to report their intended catch area of harvest, target species (spot or non-spot), and the amount of pounds that are being targeted prior to the deployment of any shrimp gear to either [shrimp.report@dfw.wa.gov](mailto:shrimp.report@dfw.wa.gov), by text message to 360-302-6372, or by other electronic means designated by the Department.

(g) It is unlawful to harvest non-spot and spot shrimp in the same day.

It is unlawful to harvest shrimp in more than one Shrimp Management Area (1A, 1B, 1C, 2E, 2W, 3, 4, 5, or 6) per day.

(2) All shrimp taken under this section must be sold to licensed Washington State wholesale fish dealers.
