WAC 260-28-295 Trainer responsibility. The purpose of this section is to identify the minimum responsibilities of the trainer that pertain specifically to the health and well-being of horses in his/her care.

(1) The trainer is responsible for and is the absolute insurer of the condition of the horses entered regardless of the acts of third parties.

(2) The trainer is responsible for the condition of horses in his/her care.

(3) The trainer will immediately notify the owner(s) of any horses in the trainer's care of any pending rule violations involving their horse(s) including, but not limited to, alleged medication violations. Notice to the trainer will be deemed notice to the owner.

(5) A trainer will prevent the administration of any drug or medication or other prohibited substance that may cause a violation of these rules.

(6) A trainer whose horse has been claimed remains responsible for violation of any rules regarding that horse's participation in the race in which the horse is claimed.

(7) The trainer is responsible for:

(a) Maintaining the assigned stable area in a clean, neat and sanitary condition at all times;

(d) Immediately reporting the alteration of the sex of a horse to the horse identifier and the racing secretary;

(e) Promptly reporting to the racing secretary and an official veterinarian when a posterior digital neurectomy (heel nerving) is performed on a horse in his/her care and ensuring that such fact is designated on its certificate of registration;

(f) Promptly report to the racing secretary, when mares who have been entered to race, have been bred;

(g) If a colt or horse has been gelded, promptly submit a completed gelding report to The Jockey Club Office, or report the fact to the racing secretary;

(h) Promptly reporting the serious injury and/or death of any horse at locations under the jurisdiction of the commission to the stewards and the official veterinarian and compliance with the rules in this chapter governing postmortem examinations;

(i) Maintaining knowledge of the medication record and medication status of horses in his/her care;

(j) Providing a fourteen day record of any procedure or medication administered to any horse entered to race that is not present on the grounds upon request of the official veterinarian;

(k) Immediately reporting to the stewards and the official veterinarian knowledge or reason to believe, that there has been any administration of a prohibited medication, drug or substance;

~~((k))~~ (l) Ensuring the fitness to perform creditably at the distance entered;

~~((l))~~ (m) Ensuring that every horse he/she has entered to race is present at its assigned stall for a prerace soundness inspection as prescribed in WAC 260-70-570;

~~((m))~~ (n) Ensuring proper bandages, equipment and shoes;

~~((n))~~ (o) Attending the collection of a hair, urine, or blood sample or delegating a licensed employee or the owner to do so; and

~~((o))~~ (p) Ensuring that all the trainer's employees wear a safety helmet and safety vest while on horseback, in compliance with WAC 260-12-180.

AMENDATORY SECTION (Amending WSR 21-05-020, filed 2/8/21, effective 3/11/21)

WAC 51-52-0403 Section 403—Mechanical ventilation.

403.1 Ventilation system. Mechanical ventilation shall be provided by a method of supply air and return or *exhaust air*. The amount of supply air shall be approximately equal to the amount of return and *exhaust air*. The system shall not be prohibited from producing negative or positive pressure. The system to convey ventilation air shall be designed and installed in accordance with Chapter 6.

403.2 Outdoor air required. The minimum *outdoor airflow rate* shall be determined in accordance with Section 403.3.

EXCEPTIONS:

1. Where the registered design professional demonstrates that an engineered ventilation system design will prevent the maximum concentration of contaminants from exceeding that obtainable by the rate of *outdoor air* ventilation determined in accordance with Section 403.3, the minimum required rate of *outdoor air* shall be reduced in accordance with such engineered system design.
2. Alternate systems designed in accordance with ASHRAE Standard 62.1 Section 6.2, Ventilation Rate Procedure, shall be permitted.

403.2.1 Recirculation of air. The air required by Section 403.3 shall not be recirculated. Air in excess of that required by Section 403.3

shall not be prohibited from being recirculated as a component of supply air to building spaces, except that:

1. Ventilation air shall not be recirculated from one dwelling to another or to dissimilar occupancies.

2. Supply air to a swimming pool and associated deck areas shall not be recirculated unless such air is dehumidified to maintain the relative humidity of the area at 60 percent or less. Air from this area shall not be recirculated to other spaces where 10 percent or more of the resulting supply airstream consists of air recirculated from these spaces.

3. Where mechanical exhaust is required by Note b in Table 403.3.1.1, recirculation of air from such spaces shall be prohibited. All air supplied to such spaces shall be exhausted, including any air in excess of that required by Table 403.3.1.1.

4. Where mechanical exhaust is required by Note g in Table 403.3.1.1, mechanical exhaust is required and recirculation from such spaces is prohibited where more than 10 percent of the resulting supply airstream consists of air recirculated from these spaces. Return air from such spaces shall only be permitted to be recirculated when returned to an energy recovery ventilation system complying with Section 514. Recirculation of air that is contained completely within such spaces shall not be prohibited.

403.3 Outdoor air and local exhaust airflow rates. Group R occupancies shall be provided with outdoor air and local exhaust in accordance with Section 403.4. All other buildings intended to be occupied shall be provided with outdoor air and local exhaust in accordance with Section 403.3.1.

403.3.1.1 Outdoor airflow rate. Ventilation systems shall be designed to have the capacity to supply the minimum outdoor airflow rate determined in accordance with this section. In each occupiable space, the ventilation system shall be designed to deliver the required rate of outdoor airflow to the breathing zone. Outdoor air shall be supplied directly to each occupiable space from an air handling unit through a fully ducted path or ducted to within 12 inches of the return air opening of a fan-powered terminal unit used to transfer the outdoor air to the occupiable space. The occupant load utilized for design of the ventilation system shall not be less than the number determined from the estimated maximum occupant load rate indicated in Table 403.3.1.1. Ventilation rates for occupancies not represented in Table 403.3.1.1 shall be those for a listed occupancy classification that is most similar in terms of occupant density, activities and building construction; or shall be determined by an approved engineering analysis. The ventilation system, including transfer fan-powered terminal units shall be designed to supply the required rate of ventilation air continuously during the period the building is occupied, except as otherwise stated in other provisions of the code.

With the exception of smoking lounges, the ventilation rates in Table 403.3.1.1 are based on the absence of smoking in occupiable spaces. Where smoking is anticipated in a space other than a smoking lounge, the ventilation system serving the space shall be designed to provide ventilation over and above that required by Table 403.3.1.1 in accordance with accepted engineering practice.

EXCEPTION: Where occupancy density is known and documented in the plans, the outside air rate may be based on the design occupant density. Under no circumstance shall the occupancies used result in outside air less than one-half that resulting from application of Table 403.3.1.1 estimated maximum occupancy rates.

Outdoor air intake openings must meet the provisions of Sections 401.4 and 401.5 and must include a motorized damper that is activated by the whole house ventilation system controller. Intake air openings shall be designed to limit the pressure difference to the outside to limiting the inlet free area maximum velocity to 500 ft per min. The motorized damper must be controlled to maintain the outdoor airflow intake airflow within 10 percent of the whole house mechanical exhaust airflow rate. The supply air handler shall provide supply air to each habitable space in the residential unit. The whole house ventilation system shall include exhaust fans in accordance with Section 403.4.6.1 to meet the pressure equalization requirements of Section 501.4. The flow rate for the outdoor air intake must be tested and verified at the minimum ventilation fan speed and the maximum heating or cooling fan speed. The results of the test shall be submitted and posted in accordance with Section 403.4.6.7.

403.4.6.5 Intermittent off operation. Whole house mechanical ventilation systems shall be provided with advanced controls that are configured to operate the system with intermittent off operation and shall operate for a least two hours in each four-hour segment. The whole house ventilation airflow rate determined in accordance with Section 403.4.2 as corrected by Section 403.4.3 shall be multiplied by the factor determined in accordance with Table 403.4.6.5.

WAC 284-170-280 Network reports—Format. (1) An issuer must submit its provider network materials to the commissioner for approval prior to or at the time it files a newly offered health plan.

(a) For individual and small groups, the submission must occur when the issuer submits its plan under WAC 284-43-0200. For groups other than individual and small, the submission must occur when the issuer submits a new health plan and as required in this section.

(b) The commissioner may extend the time for filing for good cause shown.

(c) For plan year 2015 only, the commissioner will permit a safe harbor standard. An issuer who can not meet the submission requirements in ~~((e) and (f) of this)~~ subsection (3)(f) and (g) of this subsection will be determined to meet the requirements of those subsections even if the submissions are incomplete, provided that the issuer:

(i) Identifies specifically each map required under subsection ~~(3)((e))~~ (f) (i) of this section, or Access Plan component required under subsection ~~(3)((f))~~ (g) of this section, which has not been included in whole or part;

(ii) Explains the specific reason each map or component has not been included; and

(iii) Sets forth the issuer's plan to complete the submission, including the date(s) by which each incomplete map and component will be completed and submitted.

(2) Unless indicated otherwise, the issuer's reports must be submitted electronically and completed consistent with the posted submission instructions on the commissioner's website, using the required formats.

(3) For plan years beginning January 1, 2015, an issuer must submit the following specific documents and data to the commissioner to document network access:

(a) **Provider Network Form A.** An issuer must submit a report of all participating providers by network.

(i) The Provider Network Form A must be submitted for each network being reviewed for network access. A network may be used by more than one plan.

(ii) An issuer must indicate whether a provider is an essential community provider as instructed in the commissioner's Provider Network Form A instructions.

(iii) An issuer must submit an updated, accurate Provider Network Form A on a monthly basis by the 5th of each month for each network and when a material change in the network occurs as described in subchapter B.

(iv) Filing of this data satisfies the reporting requirements of RCW 48.44.080 and the requirements of RCW 48.46.030 relating to filing of notices that describe changes in the provider network.

(b) **Provider directory certification.** An issuer must submit at the time of each Provider Network Form A submission a certification that the provider directory posted on the issuer's website is specific to each plan, accurate as of the last date of the prior month. A certification signed by an officer of the issuer must confirm that the provider directory contains only providers and facilities with which the issuer has a signed contract that is in effect on the date of the certification.

(c) **988 Crisis Hotline Appointment Form D report.** For health plans issued or renewed on or after January 1, 2023, issuers must make next day appointments available to enrollees experiencing urgent, symptomatic behavioral health conditions to receive covered behavioral health services. Beginning on January 7, 2023, issuers must submit a report that will document their health plans' compliance with next day appointment access, including a count of enrollee appointments available for urgent, symptomatic behavioral health care services.

(i) The report is due on the dates published on the office of the insurance commissioner's website and will be set each calendar year.

The office of the insurance commissioner will publish the first reporting date by December 1, 2022, and by each December 1st thereafter. The reporting time frame will be no more frequent than weekly and no less often than twice yearly.

(ii) The report must contain all data items shown in and conform to the format of the 988 Crisis Hotline Appointment Form D report prescribed by and available from the commissioner.

(B) The issuer's claims data; and

(C) The behavioral health crisis call center system platform and the behavioral health integrated client referral system, once those are established and providing real-time information relevant to the coordination of behavioral health crisis response and suicide prevention services, as provided in chapter 71.24 RCW, and that information is accessible to the issuer.

(iv) For purposes of this report, urgent symptomatic behavioral health condition has the same meaning as described in RCW 48.43.790 or as established by the National Suicide Hotline Designation Act of 2020 and federal communications rules adopted July 16, 2020.

(d) **Network Enrollment Form B.** The Network Enrollment Form B report provides the commissioner with an issuer's count of total covered lives for the prior year, during each month of the year, for each health plan by county.

(i) The report must be submitted for each network as a separate report. The report must contain all data items shown in and conform to the format of Network Enrollment Form B prescribed by and available from the commissioner.

(ii) An issuer must submit this report by March 31st of each year.

((+d)) **(e) Alternate Access Delivery Request Form C.** For plan years that begin on or after January 1, 2015, alternate access delivery requests must be submitted when an issuer's network meets one or more of the criteria in WAC 284-170-200 (15)(a) through (d). Alternate access delivery requests must be submitted to the commissioner using the Alternate Access Delivery Request Form C.

(i) The Alternate Access Delivery Request Form C submission must address the following areas, and may include other additional information as requested by the commissioner:

(A) A description of the specific issues the alternate access delivery system is intended to address, accompanied by supporting data describing how the alternate access delivery system ensures that enrollees have reasonable access to sufficient providers and facilities, by number and type, for covered services;

(B) A description and schedule of cost-sharing requirements for providers that fall under the alternate access delivery system;

(C) The issuer's proposed method of noting on its provider directory how an enrollee can access provider types under the alternate access delivery system;

(D) The issuer's marketing plan to accommodate the time period that the alternate access delivery system is in effect, and specifically describe how it impacts current and future enrollment and for what period of time;

(ii) Provider Network Form A and Network Enrollment Form B submissions are required in relation to an alternate access delivery system on the basis described in subsections (1) and (2) of this section.

(iii) If a network becomes unable to meet the network access standards after approval but prior to the health product's effective date, an alternate access delivery request must include a timeline to bring the network into full compliance with this subchapter.

~~((e))~~ (f) **Geographic Network Reports.**

(i) The geographic mapping criteria outlined below are minimum requirements and will be considered in conjunction with the standards set forth in WAC 284-170-200 and 284-170-310. One map for each of the following provider types must be submitted:

(A) Hospital and emergency services. Map must identify provider locations, and demonstrate that each enrollee in the service area has access within thirty minutes in an urban area and sixty minutes in a rural area from either their residence or workplace to general hospital facilities including emergency services.

(B) Primary care providers. Map must demonstrate that eighty percent of the enrollees in the service area have access within thirty miles in an urban area and sixty miles in a rural area from either their residence or workplace to a primary care provider with an open practice. The provider type selected must have a license under Title 18 RCW that includes primary care services in the scope of license.

(C) Mental health and substance use disorder providers. For general mental health providers, such as licensed psychiatrists, psychologists, social workers, and mental health nurse practitioners, the map must demonstrate that eighty percent of the enrollees in the service area have access to a mental health provider within thirty miles in an urban area and sixty miles in a rural area from either their residence or workplace. For specialty mental health providers and substance use disorder providers, the map must demonstrate that eighty percent of the enrollees have access to the following types of service provider or facility: Evaluation and treatment, voluntary and involuntary inpatient mental health and substance use disorder treatment, outpatient mental health and substance use disorder treatment, and behavioral therapy. If one of the types of specialty providers is not available as required above, the issuer must propose an alternate access delivery system to meet this requirement.

(D) Pediatric services. For general pediatric services, the map must demonstrate that eighty percent of the covered children in the service area have access to a pediatrician or other provider whose license under Title 18 RCW includes pediatric services in the scope of license. This access must be within thirty miles in an urban area and sixty miles in a rural area of their family or placement residence. For specialty pediatric services, the map must demonstrate that eighty percent of covered children in the service area have access to pediatric specialty care within sixty miles in an urban area and ninety miles in a rural area of their family or placement residence. The pediatric specialty types include, but are not limited to, nephrology, pulmonology, rheumatology, hematology-oncology, perinatal medicine, neurodevelopmental disabilities, cardiology, endocrinology, and gastroenterology.

(E) Specialty services. An issuer must provide one map for the service area for specialties found on the American Board of Medical Specialties list of approved medical specialty boards. The map must demonstrate that eighty percent of the enrollees in the service area

have access to an adequate number of providers and facilities in each specialty. Subspecialties are subsumed on the map.

(F) Therapy services. (G) Home health, hospice, vision, and dental providers. An issuer must provide one map that identifies each provider or facility to which an enrollee has access in the service area for home health care, hospice, vision, and pediatric oral coverage, including allied dental professionals, dental therapists, dentists, and orthodontists.

(H) Covered pharmacy dispensing services. An issuer must provide one map that demonstrates the geographic distribution of the pharmacy dispensing services within the service area. If a pharmacy benefit manager is used by the issuer, the issuer must establish that the specifically contracted pharmacy locations within the service area are available to enrollees through the pharmacy benefit manager.

(I) Essential community providers. An issuer must provide one map that demonstrates the geographic distribution of essential community providers, by type of provider or facility, within the service area. This requirement applies only to qualified health plans as certified in RCW 43.71.065.

(ii) Each report must include the provider data points on each map, title the map as to the provider type or facility type it represents, include the network identification number the map applies to, and the name of each county included on the report.

(iii) For plan years beginning January 1, 2015, and every year thereafter, an issuer must submit reports as required in subsection (1) of this section to the commissioner for review and approval, or when an alternate access delivery request is submitted.

~~((f))~~ **(g) Access Plan.** An issuer must establish an access plan specific to each product that describes the issuer's strategy, policies, and procedures necessary to establishing, maintaining, and administering an adequate network.

(i) At a minimum, the issuer's policies and procedures referenced in the access plan must address:

(A) Referral of enrollees out-of-network, including criteria for determining when an out-of-network referral is required or appropriate;

(B) Copayment and coinsurance determination standards for enrollees accessing care out-of-network;

(E) Standard hours of operation, and after-hours, for prior authorization, consumer and provider assistance, and claims adjudication;

(F) Triage and screening arrangements for prior authorization requests;

(J) For gender affirming treatment:

(I) Standards of accessibility expressed in terms of objectives and minimum levels below which corrective action will be taken, including the proximity of gender affirming treatment services to primary care sources, and a method and process for documentation confirming that access will not result in delay detrimental to health of enrollees; and

(II) Monitoring policies and procedures for compliance, including tracking and documenting network capacity and availability;

(K) Notification to enrollees regarding personal health information privacy rights and restrictions, termination of a provider from the network, and maintaining continuity of care for enrollees when there is a material change in the provider network, insolvency of the issuer, or other cessation of operations;

~~((K))~~ (L) Issuer's process for corrective action for providers related to the provider's licensure, prior authorization, referral and access compliance. The process must include remedies to address insufficient access to appointments or services; and

(M) The process for ensuring access to next day appointments for urgent, symptomatic behavioral health conditions.

(ii) An access plan applicable to each product must be submitted with every Geographic Network Report when the issuer seeks initial certification of the network, submits its annual rate filing to the commissioner for review and approval, or when an alternative access delivery request is required due to a material change in the network.

(iii) The current access plan, with all associated data sets, policies and procedures, must be made available to the commissioner upon request, and a summary of the access plan's associated procedures must be made available to the public upon request.

AMENDATORY SECTION (Amending WSR 20-04-021, filed 1/27/20, effective 2/27/20)

WAC 388-412-0015 General information about your food assistance allotments. (1) Your monthly allotment under the Washington basic food program, food assistance program for legal immigrants (FAP), Washington combined application project (WASHCAP), or the transitional

food assistance (TFA) program is the total dollar value of benefits your assistance unit (AU) receives for a calendar month.

(2) **How we determine monthly allotments:**

(a) We calculate your monthly allotment for federally funded basic food as described under WAC 388-450-0162.

(b) We calculate your monthly allotment for state-funded food assistance as described under WAC 388-400-0050.

(3) **Maximum allotment:**

(a) The maximum allotment for the number of people in your AU eligible for federally funded basic food benefits is described under WAC 388-478-0060.

(b) The maximum allotment for the number of people in your AU eligible for state-funded FAP benefits is set by the legislature in the biennial operating budget as described in WAC 388-400-0050.

(4) **Prorated benefits in the first month.** If we determine you are eligible for food assistance, your first month's benefits are calculated from the date you applied through the end of the month of your application. This is called proration and is based on a thirty-day month:

(a) If your prorated benefits for the first month are under ten dollars, you will not receive an allotment for the first month.

(b) If there was a delay in processing your application, we determine when your benefits start under WAC 388-406-0055.

(5) **Combined allotment for first and second month's benefits.** If you apply for benefits on or after the sixteenth of the month and we determine you are eligible for food assistance for both the first and second month, we will issue both months' benefits in one allotment.

(6) **Minimum allotment.** Unless it is the first month of your certification period and your benefits are prorated as described in subsection (4) of this section, your monthly allotment will be at least:

(a) (~~Sixteen~~) Twenty dollars if your AU has one or two members and at least one person is eligible for federally funded basic food; or

(b) (~~Sixteen~~) Twenty dollars if your AU has one or two members and all members of your AU are eligible for state-funded FAP.

(7) **Use of food assistance benefits.** Your food assistance benefits may only be used to buy eligible food items as described under WAC 388-412-0046. If you use your benefits in any other way, it is an intentional program violation under WAC 388-446-0015 and could result in fines, imprisonment, disqualification from receiving food assistance benefits, or any combination of these penalties.

AMENDATORY SECTION (Amending WSR 21-13-122, filed 6/21/21, effective 7/22/21)

WAC 388-450-0190 How does the department figure my shelter cost income deduction for basic food? The department calculates your shelter cost income deduction for basic food as follows:

(1) First, we add up the amounts your assistance unit (AU) must pay each month for shelter. We do not count any overdue amounts, late fees, penalties, or mortgage payments you make ahead of time as allowable shelter costs. We count the following expenses as an allowable shelter cost in the month the expense is due:

- (a) Monthly rent, lease, and mortgage payments;
- (b) Property taxes;
- (c) Homeowner's association or condo fees;
- (d) Homeowner's insurance for the building only;
- (e) Utility allowance your AU is eligible for under WAC

388-450-0195;

(f) Out-of-pocket repairs for the home if it was substantially damaged or destroyed due to a natural disaster such as a fire or flood;

(g) Expense of a temporarily unoccupied home because of employment, training away from the home, illness, or abandonment caused by a natural disaster or casualty loss if your:

- (i) AU intends to return to the home;

(ii) AU has current occupants who are not claiming the shelter costs for basic food purposes; and

(iii) AU's home is not being leased or rented during your AU's absence.

(h) A homeless AU with shelter costs is eligible for a homeless shelter expense deduction of one hundred (~~(fifty-seven)~~) fifty-nine dollars. If the homeless AU has shelter costs in excess of (~~one hundred fifty-seven dollars~~) this amount, the AU has the option to claim either:

(i) The homeless shelter deduction; or

(ii) Actual shelter costs.

(2) Second, we subtract all deductions your AU is eligible for under WAC 388-450-0185 (2) (a) through (2) (d) from your AU's gross income. The result is your AU's countable income.

(3) Finally, we subtract one-half of your AU's countable income from your AU's total shelter costs. The result is your excess shelter costs. Your AU's shelter cost deduction is the excess shelter costs:

(a) Up to a maximum of five hundred (~~(eighty-six)~~) ninety-seven dollars if no one in your AU is elderly or disabled; or

(b) The entire amount if an eligible person in your AU is elderly or disabled, even if the amount is over five hundred (~~(eighty-six)~~) ninety-seven dollars.

AMENDATORY SECTION (Amending WSR 21-13-122, filed 6/21/21, effective 7/22/21)

WAC 388-450-0195 Does the department use my utility costs when calculating my basic food or WASHCAP benefits? (1) The department uses utility allowances instead of the actual utility costs your assistance unit (AU) pays when we determine your:

(a) Monthly benefits under WAC 388-492-0070 if you receive Washington state combined application project (WASHCAP); or

(b) Shelter cost income deduction under WAC 388-450-0190 for basic food.

(2) We use the following amounts if you have utility costs separate from your rent or mortgage payment:

(a) If your AU has heating or cooling costs or receives more than twenty dollars in low income home energy assistance program (LIHEAP) benefits each year, you get a standard utility allowance (SUA) of four hundred (~~(forty-nine)~~) fifty-nine dollars.

(b) If your household does not receive a LIHEAP payment and the reason is solely because of your immigration status, you get a SUA of four hundred (~~(forty-nine)~~) fifty-nine dollars.

(c) If your AU does not qualify for the SUA and you have any two utility costs listed in subsection (3) of this section, you get a limited utility allowance (LUA) of three hundred (~~(fifty-two)~~) sixty-one dollars.

(d) If your AU has only telephone costs and no other utility costs, you get a telephone utility allowance (TUA) of fifty-nine dollars.

(3) "Utility costs" include the following:

- (a) Heating or cooling fuel;
- (b) Electricity or gas;
- (c) Water;
- (d) Sewer;
- (e) Well installation/maintenance;
- (f) Septic tank installation/maintenance;
- (g) Garbage/trash collection; and
- (h) Telephone service.

(4) If you do not have a utility cost separate from your rent or mortgage payment and do not receive low income energy assistance program (LIHEAP), you do not receive a utility allowance.

AMENDATORY SECTION (Amending WSR 19-01-105, filed 12/18/18, effective 2/1/19)

WAC 388-470-0005 How do resources affect my eligibility for cash assistance and basic food? (1) The following definitions apply to this chapter:

- (a) **"We"** means the department of social and health services.
 - (b) **"You"** means a person applying for or getting benefits from the department.
 - (c) **"Fair market value"** or **"FMV"** means the price at which you could reasonably sell the resource.
 - (d) **"Equity value"** means the FMV minus any amount you owe on the resource.
 - (e) **"Community property"** means a resource in the name of the husband, wife, or both.
 - (f) **"Separate property"** means a resource of a married person that one of the spouses:
 - (i) Had possession of and paid for before they were married;
 - (ii) Acquired and paid for entirely out of income from separate property; or
 - (iii) Received as a gift or inheritance.
- (2) We count a resource to decide if your assistance unit (AU) is eligible for cash assistance or basic food when:
- (a) It is a resource we must count under WAC 388-470-0045 for cash assistance or WAC 388-470-0055 for basic food;
 - (b) You own the resource and we consider you to own a resource if:
 - (i) Your name is on the title to the property; or
 - (ii) You have property that does not have a title;
 - (c) You have control over the resource, which means the resource is actually available to you; and
 - (d) You could legally sell the resource or convert it into cash within twenty days.
- (3) For cash assistance, you must try to make your resources available even if it will take you more than twenty days to do so, unless:
- (a) There is a legal barrier; or
 - (b) You must petition the court to release part or all of a resource.
- (4) When you apply for assistance, we count your resources as of:
- (a) The date of your interview, if you are required to have an interview; or
 - (b) The date of your application, if you are not required to have an interview.
- (5) If your total countable resources are over the resource limit in subsection (6) through (13) of this section, you are not eligible for benefits.
- (6) For cash assistance, there is an equity value resource limit of six thousand dollars.

(7) If your AU is categorically eligible (CE) as described in WAC 388-414-0001, you do not have a resource limit for basic food.

(8) If your AU is not CE under WAC 388-414-0001, your AU may have countable resources up to the following amount and be eligible for basic food:

(a) Three thousand (~~(five)~~) seven hundred fifty dollars if your AU has either an elderly or disabled individual; or

(b) Two thousand (~~(two)~~) five hundred (~~(fifty)~~) dollars for all other AUs.

(9) If you own a countable resource with someone who is not in your AU, we count the portion of the resource that you own. If we cannot determine how much of the resource is yours:

(a) For cash assistance, we count an equal portion of the resource that belongs to each person who owns it.

(b) For basic food, we count the entire amount unless you can prove that the entire amount is not available to you.

(10) We assume that you have control of community property and you can legally sell the property or convert it to cash unless you can show that you do not.

(11) We may not consider an item to be separate property if you used both separate and community funds to buy or improve it.

(12) We do not count the resources of victims of family violence when:

(a) The resource is owned jointly with members of the former household;

(b) Availability of the resource depends on an agreement of the joint owner; or

(c) Making the resource available would place the client at risk of harm.

(13) You may give us proof about a resource anytime, including when we ask for it or if you disagree with a decision we made, about:

(a) Who owns a resource;

(b) Who has legal control of a resource;

(c) The value of a resource;

(d) The availability of a resource; or

(e) The portion of a property you or another person owns.

AMENDATORY SECTION (Amending WSR 15-11-009, filed 5/7/15, effective 6/7/15)

WAC 182-550-4650 "Full cost" public hospital certified public expenditure (CPE) payment program. (1) The medicaid agency's "full cost" public hospital certified public expenditure (CPE) inpatient payment program provides payments to participating government-operated hospitals based on the "full cost" of covered medically necessary services and requires the expenditure of local funds in lieu of state funds to qualify for federal matching funds. The agency's inpatient payments to participating hospitals equal the federal matching amount for allowable costs. The agency uses the ratio of costs-to-charges (RCC) method described in WAC 182-550-4500 to determine "full cost."

(2) To be eligible for the "full cost" public hospital CPE payment program, the hospital must be:

(a) Operated by a public hospital district in the state of Washington, not certified by the department of health (DOH) as a critical access hospital, and has not chosen to opt-out of the CPE payment program as allowed in subsection (6) of this section;

(b) Harborview Medical Center; or

(c) University of Washington Medical Center.

(3) Payments made under the inpatient CPE payment program are limited to medically necessary services provided to medical assistance clients eligible for inpatient hospital services.

(4) Each hospital described in subsection (2) of this section is responsible to provide certified public expenditures as the required state match for claiming federal medicaid funds.

(5) The agency determines the initial payment for inpatient hospital services under the CPE payment program by:

(a) Multiplying the hospital's medicaid RCC by the covered charges (to determine allowable costs), then;

(b) Subtracting the client's responsibility and any third party liability (TPL) from the amount derived in (a) of this subsection, then;

(c) Multiplying the state's federal medical assistance percentage (FMAP) by the amount derived in (b) of this subsection.

(6) A hospital may opt-out of the inpatient CPE payment program if the hospital:

(a) Meets the criteria for the inpatient rate enhancement under (~~WAC 182-550-3830(6)~~) RCW 74.09.5225; or

(b) Is not eligible for public hospital disproportionate share hospital (PHDSH) payments under WAC 182-550-5400.

(7) To opt-out of the inpatient CPE payment program, the hospital must submit a written request to opt-out to the agency's chief financial officer by July 1st in order to be effective for January 1st of the following year.

(8) Hospitals participating in the inpatient CPE payment program must complete the applicable CPE medicaid cost reports as described in WAC 182-550-5410 for the inpatient fee-for-service cost settlements.
