

**WSR 22-13-185**  
**EMERGENCY RULES**  
**DEPARTMENT OF**  
**SOCIAL AND HEALTH SERVICES**

[Filed June 22, 2022, 11:27 a.m., effective June 23, 2022]

Effective Date of Rule: June 23, 2022.

Purpose: The department is extending the amendment of the rules listed below. Because of the ongoing COVID-19 public health emergency, on January 18, 2022, home and community services (HCS) temporarily suspended conducting ongoing assessments for HCS clients living in adult family homes, assisted living facilities, and enhanced services facilities. The intent of this suspension is to allow HCS staff to focus on conducting assessments for patients staying in hospitals to facilitate their discharge to long-term care facilities and improve the current surge capacity in hospitals. This is a subsequent emergency rule filing and suspends the regulatory requirement for these facilities to complete assessments for HCS clients while the HCS assessors are not available. The centers for medicare and medicaid services approved this flexibility for medicaid beneficiaries needing specific long-term care services and supports whose assessments meet the requirements under 42 C.F.R. 441.720.

Citation of Rules Affected by this Order: Amending WAC 388-76-10350, 388-78A-2100, and 388-107-0080.

Statutory Authority for Adoption: RCW 18.20.090, 70.97.230, and 70.128.040(1).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule was put in place at a time when many hospitals in this state were at or over capacity, leading them to redirect patients who are needing emergency care and delaying procedures that are necessary but nonemergent. This put the health of all residents of Washington at risk if they were not able to get the care they needed at their local hospital. By temporarily suspending assessment requirements for residents living in adult family homes, assisted living facilities, and enhanced services facilities, HCS was able to focus personnel resources on assessing patients in hospitals, which facilitated admissions to long-term care facilities and increased the bed availability in hospitals. HCS is continuing to use the extended timelines in this rule to address hospital capacity surges as they arise, to focus on significant change assessments, and to bring outdated assessments into compliance with the timelines in rule. The department is beginning the permanent rule-making process and filed a CR-101 Preproposal under WSR 22-13-121.
