

ington state law, the rules of other Washington state agencies, or national consensus codes that generally establish industry standards.

This rule proposal, or portions of the proposal, is exempt under RCW 19.85.061 because this rule making is being adopted solely to conform and/or comply with federal statute or regulations.

Citation and Description: EPA publishes a new version of 40 C.F.R. Part 61-National Emissions Standards for Hazardous Air Pollutants (NESHAP) each year regardless if changes were made to the regulations. This rule proposal is necessary to update the EPA referenced publication date of 40 C.F.R. Part 61 from 2021 to 2022 in WAC 246-247-035 to remain consistent between federal and state rules and as a primary condition for delegation of the NESHAP authority from EPA to the department. If Washington does not adopt the proposed changes, the department would not receive full delegation as required by EPA.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(3) as the rules are adopting or incorporating by reference without material change federal statutes or regulations, Washington state statutes, rules of other Washington state agencies, shoreline master programs other than those programs governing shorelines of statewide significance, or, as referenced by Washington state law, national consensus codes that generally establish industry standards, if the material adopted or incorporated regulates the same subject matter and conduct as the adopting or incorporating rule.

Explanation of exemptions: The agency did not complete a small business economic impact statement because the proposed rule only incorporates by reference the most recent version of the federal standards necessary for the department to maintain full delegation as required by EPA.

Scope of exemption for rule proposal:

Is fully exempt.
