EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 22-279—Filed December 5, 2022, 4:05 p.m., effective December 5, 2022, 4:05 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to reopen commercial crab fishing in crab management subregion 3-2.

WAC 220-340-45500R: (1) Opens Puget Sound commercial crab harvest in crab management subregion 3-2 on December 6, 2022, at 8:00 a.m.; (2) maintains the closure of Region 2E to commercial harvest; and (3) implements hard closure dates that may close with 120 days.

WAC 220-340-42000L: Permits barging of pots from December 6, 2022, at 8:00 a.m. through 7:59 a.m. on December 8, 2022, in subregion 3-2 only.

WAC 220-340-47000N: Sets pot limits for all areas with commercial harvest opportunity in Puget Sound. Reduces the pot limit for all areas that are closed to "0".

Citation of Rules Affected by this Order: Repealing WAC 220-340-45500Q, 220-340-42000K and 220-340-47000M; and amending WAC 220-340-455, 220-340-420, and 220-340-470.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: There is sufficient allocation available in Regions 1 and 2-West and subregions 3-1, 3-3, and 3-4 to accommodate continued commercial harvest. This rule opens subregion 3-2 following comanager agreement on a quota increase, providing additional harvest opportunity. These provisions are in conformity with agreed management plans with applicable tribes. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable treaty tribes and outlined in the management plans. There is insufficient time to adopt permanent rules. Further adjustment of season structure may be made pending updated harvest data.
