Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: This rule amendment proposal, if finalized, would reclassify the American white pelican within WAC 220-200-100 Wildlife classified as protected shall not be hunted or fished, from threatened to sensitive. Anticipated effects include a lower level of conservation concern for the species and advancement towards their recovery. WAC 220-610-110(11.1) guides the Washington department of fish and wildlife (WDFW) to draft a management plan for sensitive species, rather than a recovery plan (as applicable to endangered and threatened species). If the status change is adopted, white pelican will be removed from the list of threatened species in WAC 220-200-100 Wildlife classified as protected shall not be hunted or fished, and added to the list of sensitive species under the same WAC.

This same species was presented and voted on in front of the fish and wildlife commission in the fall of 2022 alongside the Cascade red fox status report and listing decision. This proposal will reinitiate the same rule-making decision on American white pelican that was presented in 2022.

Reasons Supporting Proposal: On October 7, 2022, the fish and wildlife commission voted to downlist the American white pelican to a sensitive species as recommended by agency staff. Because of a procedural issue, we need to reinitiate rule making with a new vote on this species. The information presented is the same information presented in the fall of 2022 and agency staff are still recommending a downlisting from threatened to sensitive for the American white pelican.

The western population of white pelicans has recovered substantially and, given the size of the Badger Island colony and number of

nonbreeding white pelicans in Washington during the past several years, a change in listing could be considered.

The species remains somewhat vulnerable, however, as only the single colony regularly forms in Washington, and white pelican colonies are highly sensitive to disturbances; adults will desert and/or leave eggs leaving their young exposed to predation following disturbances. We recommend the species be downlisted to sensitive. A sensitive species is "vulnerable or declining and is likely to become endangered or threatened in a significant portion of its range within the state without cooperative management or removal of threats" (WAC 220-610-110).

Statutory Authority for Adoption: RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

Statute Being Implemented: RCW 77.04.012, 77.04.013, 77.04.055, 77.12.020, and 77.12.047.

Rule is not necessitated by federal law, federal or state court decision.

Agency comments or recommendations, if any, as to statutory language, implementation, enforcement, and fiscal matters: None.

Name of Proponent: WDFW, governmental.

Name of Agency Personnel Responsible for Drafting and Implementation: Eric Gardner, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2515; and Enforcement: Steve Bear, 1111 Washington Street S.E., Olympia, WA 98501, 360-902-2373.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is not required under RCW 34.05.328.

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(4).

Scope of exemption for rule proposal:

Is fully exempt.
