

**WSR 23-17-006  
EMERGENCY RULES  
DEPARTMENT OF  
FISH AND WILDLIFE**

[Order 23-149—Filed August 3, 2023, 4:29 p.m., effective August 4, 2023]

Effective Date of Rule: August 4, 2023.

Purpose: The purpose of this emergency rule is to close recreational Chinook retention and lower the coho portion of the salmon daily limit for Catch Record Card Area 10.

Citation of Rules Affected by this Order: Amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to close Chinook retention and lower the hatchery coho portion of the daily limit in Catch Record Card Area 10.

The current estimate of Chinook sublegal encounters for the summer fishery is 9,471 of 7,748 total sublegal encounters (122 percent) agreed to in this year's list of agreed fisheries. Therefore, the Washington department of fish and wildlife will close the fishery to Chinook retention.

Additionally, the current estimate of coho catch for the month of July is 11,665. The preseason expected catch of coho in the month of July was 4,810, almost 250 percent above the expected catch. The retention limit for coho is being reduced to minimize impacts on coho stocks of concern.

There is insufficient time to adopt permanent rules.
