DEPARTMENT OF HEALTH

(Board of Physical Therapy)

[Filed May 22, 2024, 11:43 a.m., effective June 22, 2024]

Effective Date of Rule: Thirty-one days after filing.

Purpose: Physical therapists intramuscular needling requirements. The board of physical therapy (board) and the department of health (department) are adopting amendments to chapter 246-915 WAC, Physical therapists and physical therapist assistants, to clarify statutory requirements included in 2SHB 1039 (chapter 198, Laws of 2023) for obtaining an intramuscular needling endorsement. 2SHB 1039 expands the scope of practice of physical therapists to perform intramuscular needling, also known as dry needling, pending the issuance of an intramuscular needling endorsement.

The board and the department are adopting new WAC 246-915-390 to provide an overview of the requirements and process for applying for an intramuscular needling endorsement. The new section expands upon and clarifies the education and training requirements included in 2SHB 1039, creates a process for physical therapists to apply for the endorsement, and updates definitions related to the endorsement. The board and the department are also adopting amendments to WAC 246-915-990 to establish a fee to cover the cost of the endorsement. The adopted rules clarify and set standards to ensure that physical therapists who are seeking the endorsement are prepared with the skills and education needed to provide safe intramuscular needling services to the public.
