Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: This proposed rule will help WDFW better manage its wildlife areas and the public use that is occurring on them. It will give WDFW law enforcement remedies to discourage the construction, creation, and maintenance of roads, trails, and structures without WDFW approval, which can otherwise pose a threat to natural or cultural resources and create safety hazards for public users.

Reasons Supporting Proposal: The construction, creation, and maintenance of roads, trails, and structures that have been user-created without approval or authorization from WDFW staff are often in locations or conditions that are environmentally, culturally, or financially unsustainable. A proliferation of unauthorized roads and trails has appeared in recent years on lands managed by WDFW. These roads and trails often cut through sensitive habitat, interrupt habitat connectivity, and cause direct damage to vegetation, wildlife, and tribal resources. User-created roads and trails lack the deliberate planning, design and evaluation of impacts on the land that are neces-

sary to place or build them appropriately. Currently, without the legal remedies or statutory authority to prevent or cite individuals for the creation of roads, trails, and structures without approval, there is a risk that these activities will continue to proliferate and degrade sensitive resources.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.055, 77.12.047, 77.12.210, and 77.15.040.

Statute Being Implemented: RCW 77.04.012, 77.04.020, 77.04.055, 77.12.047, 77.12.210, and 77.15.040.

Rule is not necessitated by federal law, federal or state court decision.
