

WSR 25-03-104
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 25-09—Filed January 17, 2025, 3:12 p.m., effective January 20, 2025]

Effective Date of Rule: January 20, 2025.

Purpose: This emergency rule opens commercial smelt fisheries in the Columbia River.

Citation of Rules Affected by this Order: Repealing WAC 220-358-06000H; and amending WAC 220-358-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule sets a limited Columbia River commercial fishery for eulachon smelt. The regulation is consistent with fisheries allowed while in harvest phase 2 described in the "Washington and Oregon Eulachon Management Plan 2nd Edition" for the Columbia River. The return of eulachon to the Columbia River in 2025 is expected to be slightly lower in magnitude than the 2024 return, but similar to the 10-year average. The fishery serves as an important index to monitor run strength and timing and to collect biological data. The general public welfare is protected with the immediate and limited duration opening of the commercial smelt fishing in the mainstem Columbia River. This limited research-level harvest opportunity allows for maintenance and monitoring of a sustainable fish population. There is insufficient time to adopt permanent regulations.
