

HOUSE BILL REPORT

SHB 1237

*As Passed House
February 20, 1991*

Title: An act relating to veterinary medicine.

Brief Description: Allowing a veterinarian to dispense legend drugs prescribed by another veterinarian.

Sponsor(s): By House Committee on Agriculture & Rural Development (originally sponsored by Representatives Day, Ballard, Prentice, Ferguson, Cantwell, Paris, Rayburn, Nealey, Padden, Orr and Rasmussen).

Brief History:

Reported by House Committee on:

Agriculture & Rural Development, February 7, 1991, DPS;
Passed House, February 20, 1991, 98-0.

**HOUSE COMMITTEE ON
AGRICULTURE & RURAL DEVELOPMENT**

Majority Report: *That Substitute House Bill No. 1237 be substituted therefore, and the substitute bill do pass.*
Signed by 11 members: Representatives Rayburn, Chair; Kremen, Vice Chair; Nealey, Ranking Minority Member; P. Johnson, Assistant Ranking Minority Member; Chandler; Grant; R. Johnson; Lisk; McLean; Rasmussen; and Roland.

Staff: Kenneth Hirst (786-7105).

Background: Under state law, a "legend drug" is one which may not be sold, delivered, or possessed except upon the order or prescription of certain licensed practitioners. These licensed practitioners include veterinarians.

Summary of Bill: A licensed veterinarian may dispense veterinary legend drugs that have been prescribed by another licensed veterinarian. However, this activity may not constitute more than 5 percent of the dosage units of legend drugs dispensed annually by the veterinarian. The dispensing veterinarian must keep records of these dispensing activities.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Testimony For: (1) Pharmacies do not carry an inventory of veterinary legend drugs, but these drugs cannot be dispensed by one veterinarian to fill the prescription of another veterinarian. The bill assists travelers with pets and other persons whose animals have been moved away from their local vet in securing refills of prescriptions for their animals. (2) The bill reduces costs to consumers by permitting them to get their pets' prescriptions filled when out of town without having to pay for a new exam just to get the refill. (3) The 5 percent limit in the bill prevents vets from being veterinary pharmacists.

Testimony Against: None.

Witnesses: Greg Hanon and Brian Albers, Washington State Veterinary Medical Association (in favor); Don Williams, Board of Pharmacy (in favor); and Lars Hennem, Pharmacists of Washington (in favor).
