Background: A law passed by the 1988 Legislature allocates 0.3 percent of the liquor revolving account revenues to the Department of Community Development (DCD) for distribution to border areas. These areas have historically received compensation from the state to mitigate the impact of border crossing activity on local law enforcement agencies.

The 1988 statute requires the distribution be made by formula established in rule by the department. Border areas are defined as Blaine, Everson, Friday Harbor, Lynden, Nooksack, Northport, Oroville, Port Angeles, Sumas, and Point Roberts.

The Office of Financial Management and the state auditor have indicated to DCD that in order to comply with generally accepted accounting practices, liquor revenues

for distribution to border areas need to be deposited and distributed from a separate account.

Summary of Bill: The border areas account is established as a non-appropriated account within the state treasury. Expenditures may only be made to border areas.

Fiscal Note: Not requested.

Effective Date: Ninety days after adjournment of session in which bill is passed.
