14 appropriation are provided for approved regional network plans through  
15 contracts negotiated with the secretary of social and health services.

16 (i) It is the intent of the legislature to implement mental health

23 general fund--state appropriation may be used for planning and  
24 technical assistance grants to counties or regions wishing to form

1 Such services shall be consistent with an individual's discharge plan  
2 and shall include residential services, if needed. Assumptions  
3 regarding the number of transfers from the nursing homes shall be  
4 incorporated into each contract and shall be consistent with the state-  
5 wide plan. The department shall coordinate OBRA transfers consistent  
6 with the provisions of each contract. The secretary shall negotiate  
7 contracts only with regional support networks that received recognition  
8 under chapter 205, Laws of 1989 as of January 1, 1990. Funding for the  
9 north sound and north central networks shall commence no sooner than  
10 January 1, 1991. Networks funded after January 1990 shall be subject to  
11 the same contracting process as networks funded in January 1990.

12 (ii) The department shall continue contracting directly for the  
13 Kitsap mental health services residential care alternative project  
14 until such time as Kitsap county becomes or joins a regional support  
15 network. The reimbursement rate per available bed-day shall not exceed  
16 \$206 in fiscal year 1990 and \$210 in fiscal year 1991. During the  
17 contract period, all eligible involuntary treatment referrals for  
18 Kitsap county residents shall be made to the project. No involuntary  
19 referrals shall be made to western state hospital unless the Kitsap  
20 residential treatment facility is filled to capacity and the mental  
21 health division and the Kitsap county mental health coordinator concur  
22 with the referral. Priority for referral to western state hospital  
23 shall be given to individuals under ninety-day or one hundred eighty-  
24 day commitments and individuals who have exhausted all community  
25 placement options.

5 1988 forecast adjusted to eliminate the bed contract assumption. Any  
6 amount remaining after March 1991 may be used for one-time grants. In  
7 making grants, the secretary shall give priority to proposals that  
8 facilitate network development, demonstrate integration with other  
9 mental health services, and are designed to reduce involuntary  
10 treatment.

11 (c) \$5,500,000 of the general fund--state appropriation is provided  
12 solely for increases for involuntary treatment act administration,  
13 including costs associated with involuntary medication hearings.

14 1990-91 school years shall be determined using formula-generated staff  
15 units calculated pursuant to this subsection. Small school enrollments  
16 in kindergarten through grade six shall generate funding under (a) of  
17 this subsection, and shall not generate allocations under (e) and (f)  
18 of this subsection, if the staffing allocations generated under (a) of  
19 this subsection exceed those generated under (e) and (f) of this  
20 subsection. The certificated staffing allocations shall be as follows:

21 (a) On the basis of average annual full time equivalent  
22 enrollments, excluding full time equivalent enrollment otherwise  
23 recognized for certificated staff unit allocations under (d) through  
24 (g) of this subsection:

25 (i) Four certificated administrative staff units for each one  
26 thousand full time equivalent kindergarten through twelfth grade

2 recognized for funding purposes under section 510 of this act;

3 (ii) Fifty-one certificated instructional staff units for each one  
4 thousand full time equivalent students in kindergarten through third  
5 grade, excluding full time equivalent handicapped students ages six  
6 through eight; and

7 (iii) Forty-six certificated instructional staff units for each one  
8 thousand full time equivalent students in grades four through twelve,  
9 excluding full time equivalent handicapped students ages nine and  
10 above;

11 (b) For the 1990-91 school year, an additional 1.3 certificated  
12 instructional staff units for each one thousand full time equivalent  
13 students in kindergarten through third grade, excluding full time  
14 equivalent handicapped students ages six through eight;

15 (c) For school districts with a minimum enrollment of 250 full time  
16 equivalent students, whose full time equivalent student enrollment  
17 count in a given month exceeds the first of the month full time  
18 equivalent enrollment count by 5 percent, an additional state  
19 allocation of 110 percent of the share that such increased enrollment  
20 would have generated had such additional full time equivalent students  
21 been included in the normal enrollment count for that particular month.

22 (d)(i) On the basis of full time equivalent enrollment in  
23 vocational education programs approved by the superintendent of public  
24 instruction, other than skills center programs, 0.92 certificated  
25 instructional staff units and 0.08 certificated administrative staff  
26 units for each 17.5 full time equivalent vocational students in the  
27 1989-90 school year and for each 17.075 full time equivalent students  
28 in the 1990-91 school year;

**SPI--For General Apportionment (Basic Education)--cont.**

1 (ii) For skills center programs the allocation ratios shall be 0.92  
2 certificated instructional staff units and 0.08 certificated  
3 administrative staff units for each 16.67 full time equivalent  
4 vocational students;

5 (e) For districts enrolling not more than twenty-five average  
6 annual full time equivalent students in kindergarten through grade  
7 eight, and for small school plants within any school district which  
8 have been judged to be remote and necessary by the state board of  
9 education and enroll not more than twenty-five average annual full time  
10 equivalent students in kindergarten through grade eight:

11 (i) For those enrolling no students in grades seven and eight, 1.76  
12 certificated instructional staff units and 0.24 certificated  
13 administrative staff units for enrollment of not more than five  
14 students, plus one-twentieth of a certificated instructional staff unit  
15 for each additional student enrolled; and

16 (ii) For those enrolling students in grades seven or eight, 1.68  
17 certificated instructional staff units and 0.32 certificated  
18 administrative staff units for enrollment of not more than five  
19 students, plus one-tenth of a certificated instructional staff unit for  
20 each additional student enrolled.

21 (f) For specified enrollments in districts enrolling more than  
22 twenty-five but not more than one hundred average annual full time  
23 equivalent students in kindergarten through grade eight, and for small  
24 school plants within any school district which enroll more than twenty-  
25 five average annual full time equivalent kindergarten through eighth  
26 grade students and have been judged to be remote and necessary by the  
27 state board of education:

28 (i) For enrollment of up to sixty annual average full time  
29 equivalent students in kindergarten through grade six, 2.76

**SPI--For General Apportionment (Basic Education)--cont.**

1 certificated instructional staff units and 0.24 certificated  
2 administrative staff units; and

3 (ii) For enrollment of up to twenty annual average full time  
4 equivalent students in grades seven and eight, 0.92 certificated  
5 instructional staff units and 0.08 certificated administrative staff  
6 units.

7 (g) For districts operating no more than two high schools with  
8 enrollments of less than three hundred average annual full time  
9 equivalent students, for enrollment in grades nine through twelve in  
10 each such school, other than alternative schools:

11 (i) For remote and necessary schools enrolling students in any  
12 grades nine through twelve but no more than twenty-five average annual  
13 full time equivalent kindergarten through twelfth grade students, four  
14 and one-half certificated instructional staff units and one-quarter of  
15 a certificated administrative staff unit;

16 (ii) For all other small high schools under this subsection, nine  
17 certificated instructional staff units and one-half of a certificated  
18 administrative staff unit for the first sixty average annual full time  
19 equivalent students, and additional staff units based on a ratio of  
20 0.8732 certificated instructional staff units and 0.1268 certificated  
21 administrative staff units per each additional forty-three and one-half  
22 average annual full time equivalent students.

23 Units calculated under (g)(ii) of this subsection shall be reduced  
24 by certificated staff units at the rate of forty-six certificated  
25 instructional staff units and four certificated administrative staff  
26 units per thousand vocational and handicapped full time equivalent  
27 students.

28 (h) For each nonhigh school district having an enrollment of more  
29 than seventy annual average full time equivalent students and less than

**SPI--For General Apportionment (Basic Education)--cont.**

1 one hundred eighty students, operating a grades K-8 program or a grades  
2 1-8 program, an additional one-half of a certificated instructional  
3 staff unit.

4 (i) For each nonhigh school district having an enrollment of more  
5 than fifty annual average full time equivalent students and less than  
6 one hundred eighty students, operating a grades K-6 program or a grades  
7 1-6 program, an additional one-half of a certificated instructional  
8 staff unit.

9 (3) Allocations for classified salaries for the 1989-90 and 1990-91  
10 school years shall be calculated using formula-generated classified  
11 staff units determined as follows:

12 (a) For enrollments generating certificated staff unit allocations  
13 under subsections (2) (e) through (i) of this section, one classified  
14 staff unit for each three certificated staff units allocated under such  
15 subsections.

16 (b) For all other enrollment in grades kindergarten through twelve,  
17 including vocational but excluding handicapped full time equivalent  
18 enrollments, one classified staff unit for each sixty average annual  
19 full time equivalent students.

20 (c) For each nonhigh school district with an enrollment of more  
21 than fifty annual average full time equivalent students and less than  
22 one hundred eighty students, an additional one-half of a classified  
23 staff unit.

24 (4) Fringe benefit allocations shall be calculated at a rate of  
25 19.80 percent in the 1989-90 school year and 19.85 percent in the 1990-  
26 91 school year of certificated salary allocations provided under  
27 subsection (2) of this section, and a rate of 17.32 percent in the  
28 1989-90 school year and 17.37 percent in the 1990-91 school year of

**SPI--For General Apportionment (Basic Education)--cont.**

1 classified salary allocations provided under subsection (3) of this  
2 section.

3 (5) Insurance benefit allocations shall be calculated at the rates  
4 specified in section 505 of this act, based on:

5 (a) The number of certificated staff units determined in subsection  
6 (2) of this section; and

7 (b) The number of classified staff units determined in subsection  
8 (3) of this section multiplied by 1.152. This factor is intended to  
9 adjust allocations so that, for the purposes of distributing insurance  
10 benefits, full time equivalent classified employees may be calculated  
11 on the basis of 1440 hours of work per year, with no individual  
12 employee counted as more than one full time equivalent.

13 (6)(a) For nonemployee related costs associated with each  
14 certificated staff unit allocated under subsection (2) (a), (b), (c),  
15 and (e) through (i) of this section, there shall be provided a maximum  
16 of \$6,355 per certificated staff unit in the 1989-90 school year and a  
17 maximum of \$6,654 per certificated staff unit in the 1990-91 school  
18 year.

19 (b) For nonemployee related costs associated with each certificated  
20 staff unit allocated under subsection (2)(d) of this section, there  
21 shall be provided a maximum of \$12,110 per certificated staff unit in  
22 the 1989-90 school year and a maximum of \$12,679 per certificated staff  
23 unit in the 1990-91 school year.

24 (7) Allocations for substitute costs for classroom teachers shall  
25 be distributed at a maximum rate of \$290 per year for allocated  
26 classroom teachers. Solely for the purposes of this subsection,  
27 allocated classroom teachers shall be equal to the number of  
28 certificated instructional staff units allocated under subsection (2)  
29 of this section, multiplied by the ratio between the number of actual

**SPI--For General Apportionment (Basic Education)--cont.**

1 basic education certificated teachers and the number of actual basic  
2 education certificated instructional staff reported state-wide for the  
3 1987-88 school year.

4 (8) The superintendent may distribute a maximum of \$((9,925,000))  
5 9,829,000 outside the basic education formula during fiscal years 1990  
6 and 1991 as follows:

7 (a) For fire protection for school districts located in a fire  
8 protection district as now or hereafter established pursuant to chapter  
9 52.04 RCW, a maximum of \$((358,000)) 350,000 may be expended in fiscal  
10 year 1990 and a maximum of \$375,000 in fiscal year 1991.

11 (b) For summer vocational programs at skills centers, a maximum of  
12 \$1,321,000 may be expended in fiscal year 1990 and a maximum of  
13 \$1,599,000 may be expended in fiscal year 1991.

14 (c) A maximum of \$((272,000)) 184,000 may be expended for school  
15 district emergencies.

16 (d) A maximum of \$6,000,000 is provided solely for the purchase of  
17 new and replacement vocational education equipment for use primarily in  
18 approved vocational-secondary and skill center programs. These moneys  
19 shall be allocated to school districts during the 1989-90 school year  
20 on the basis of full time equivalent enrollment in vocational programs.

21 (9) For the purposes of RCW 84.52.0531, the increase per full time  
22 equivalent student in state basic education appropriations provided  
23 under this act, including appropriations for salary and benefits  
24 increases, is 6.07 percent from the 1988-89 school year to the 1989-90  
25 school year, and 7.0 percent from the 1989-90 school year to the 1990-  
26 91 school year.

27 (10)(a) The superintendent of public instruction shall revise  
28 personnel reporting systems to include information on grade level  
29 assignments of basic education certificated instructional staff, by

**SPI--For General Apportionment (Basic Education)--cont.**

1 grade level groupings of K-3, 4-6, and 7-12. The superintendent of  
2 public instruction shall collect such information from school districts  
3 beginning in the 1989-90 school year. School districts may submit  
4 supplemental information on changes in staffing levels after the  
5 initial personnel report for each school year. Staffing ratios  
6 calculated under this subsection may recognize additional staff  
7 reported, prorated by the number of months of employment during the  
8 academic year.

9 (b) For each school year, the funding provided under subsection  
10 (2)(a) of this section shall be based on a ratio of fifty-one  
11 certificated instructional staff per thousand students in kindergarten  
12 through grade three only if the district documents an actual ratio of  
13 at least fifty-one full time basic education certificated instructional  
14 staff per thousand full time equivalent students at those grade levels.  
15 For any school district documenting a lower ratio, the funding provided  
16 under this section shall be based on the district's actual K-3 ratio  
17 achieved in that school year, or the statutory minimum ratio  
18 established under RCW 28A.41.140(2)(c), if greater.

19 (c) School districts that had a ratio of fifty-one basic education  
20 certificated instructional staff per thousand students in kindergarten  
21 through grade three in the 1988-89 school year shall expend additional  
22 funding generated by the increase in staffing ratios provided in this  
23 section solely to improve staffing ratios in kindergarten through grade  
24 twelve.

25 (11) School districts shall use allocations for salaries and  
26 benefits generated under subsection (2)(b) of this section only to  
27 increase the district's ratio of basic education certificated  
28 instructional staff per thousand full time equivalent students in  
29 grades K-3 above fifty-one per thousand, or to employ classified

**SPI--For General Apportionment (Basic Education)--cont.**

1 instructional assistants assigned to K-3 basic education classrooms.  
2 However, a district that has achieved a ratio of fifty-three basic  
3 education certificated instructional staff per thousand full time  
4 equivalent students in grades K-3 may also use the allocation to employ  
5 additional basic education certificated instructional staff or  
6 classified instructional assistants in any grades K-12. School  
7 districts shall document to the superintendent of public instruction  
8 how the allocation was used and shall submit documentation on the  
9 number of classified instructional assistants employed in grades K-3 in  
10 the 1989-90 and 1990-91 school years. If a district uses moneys  
11 provided under subsection (2)(b) of this section for K-3 certificated  
12 instructional staff, these staff shall be excluded when determining the  
13 district's actual K-3 staffing ratio under subsection (10) of this  
14 section. A district shall be ineligible to receive allocations under  
15 subsection (2)(b) of this section unless the district documents to the  
16 superintendent of public instruction that its actual K-3 ratio under  
17 subsection (10) of this section for the 1990-91 school year is at least  
18 fifty-one full time basic education certificated instructional staff  
19 per thousand full time equivalent students. Districts may not use  
20 allocations provided under this subsection to supplant other moneys  
21 previously used to employ K-3 certificated instructional staff or K-3  
22 classified instructional assistants. The superintendent of public  
23 instruction shall recover funding allocated under subsection (2)(b) of  
24 this section if the district does not submit documentation showing that  
25 the funding was used for the purposes specified.

26 (12) Subsection (11) of this section does not apply in the 1990-91  
27 school year to any school district that experienced in the 1989-90  
28 school year an enrollment decline of greater than 1,000 full time  
29 equivalent students as compared to the 1988-89 school year. However,

**SPI--For General Apportionment (Basic Education)--cont.**

1 such a school district shall use allocations for salaries and benefits  
2 generated under subsections (2)(a)(ii) and (2)(b) of this section only  
3 to increase the district's ratio of basic education certificated  
4 instructional staff per thousand full time equivalent students in  
5 grades K-12 above the district's actual K-12 staffing ratio in the  
6 1988-89 school year. The superintendent of public instruction shall  
7 recover funding allocated under subsections (2)(a)(ii) and (2)(b) of  
8 this section if the district does not submit documentation showing that  
9 the funding was used for the purposes specified in this subsection.

10 (13) The additional moneys allocated due to the increase in the  
11 vocational-secondary staff ratio provided in subsection (2)(d) of this  
12 section shall be expended solely for expanded vocational-secondary  
13 programs approved by the superintendent of public instruction. Funds  
14 provided may be expended for extended day contracts. The percentage  
15 rate of indirect charges to vocational-secondary programs, in total,  
16 shall not exceed the state-wide average percentage rates of indirect  
17 charges in all other state-funded categorical programs.

18 **Sec. 502.** 1990 1st ex.s. c 16 s 504 (uncodified) is amended to
