20 established by the commission;

21 (2) The city or town shall exercise full responsibility for and
22 control over any such street beyond the curbs and if no curb is
23 installed, beyond that portion of the highway used for highway
24 purposes. However, within incorporated cities and towns the title to
25 a state limited access highway vests in the state, and, notwithstanding
26 any other provision of this section, the department shall exercise full

1 jurisdiction, responsibility, and control to and over such facility as
2 provided in chapter 47.52 RCW;

3 (3) The department has authority to prohibit the suspension of
4 signs, banners, or decorations above the portion of such street between
5 the curbs or portion used for highway purposes up to a vertical height
6 of twenty feet above the surface of the roadway;

7 (4) The city or town shall at its own expense maintain all
8 underground facilities in such streets, and has the right to construct
9 such additional underground facilities as may be necessary in such
10 streets;

11 (5) The city or town has the right to grant the privilege to open
12 the surface of any such street, but all damage occasioned thereby shall
13 promptly be repaired either by the city or town itself or at its
14 direction;

15 (6) The city or town at its own expense shall provide street
16 illumination and shall clean all such streets, including storm sewer
17 inlets and catch basins, and remove all snow, except that the state
18 shall when necessary plow the snow on the roadway. In cities and towns
19 having a population of fifteen thousand or less according to the latest
20 determination of population by the office of financial management, the
21 state, when necessary for public safety, shall assume, at its expense,
22 responsibility for the stability of the slopes of cuts and fills and
23 the embankments within the right of way to protect the roadway itself.
24 When the population of a city or town reaches fifteen thousand after
25 January 1, 1990, the state shall retain the responsibility for the
26 stability of slopes of cuts and fills and the embankments within the
27 right of way to protect the road itself until the legislature acts upon
28 the findings of the task force created in section 53 of this act or
29 until June 30, 1993, whichever occurs first. The state shall install,
30 maintain, and operate all illuminating facilities on any limited access

1 facility, together with its interchanges, located within the corporate
2 limits of any city or town, and shall assume and pay the costs of all
3 such installation, maintenance, and operation incurred after November
4 1, 1954;

5 (7) The department has the right to use all storm sewers on such
6 highways without cost; and if new storm sewer facilities are necessary
7 in construction of new streets by the department, the cost of the
8 facilities shall be borne by the state and/or city as may be mutually
9 agreed upon between the department and the governing body of the city
10 or town;

11 (8) Cities and towns have exclusive right to grant franchises not
12 in conflict with state laws, over, beneath, and upon such streets, but
13 the department is authorized to enforce in an action brought in the
14 name of the state any condition of any franchise which a city or town
15 has granted on such street. No franchise for transportation of
16 passengers in motor vehicles may be granted on such streets without the
17 approval of the department, but the department shall not refuse to
18 approve such franchise unless another street conveniently located and
19 of strength of construction to sustain travel of such vehicles is
20 accessible;

21 (9) Every franchise or permit granted any person by a city or town
22 for use of any portion of such street by a public utility shall require
23 the grantee or permittee to restore, repair, and replace to its
24 original condition any portion of the street damaged or injured by it;

25 (10) The city or town has the right to issue overload or overwidth
26 permits for vehicles to operate on such streets or roads subject to
27 regulations printed and distributed to the cities and towns by the
28 department;

29 (11) Cities and towns shall regulate and enforce all traffic and
30 parking restrictions on such streets, but all regulations adopted by a

1 city or town relating to speed, parking, and traffic control devices on
2 such streets not identical to state law relating thereto are subject to
3 the approval of the department before becoming effective. All
4 regulations pertaining to speed, parking, and traffic control devices
5 relating to such streets heretofore adopted by a city or town not
6 identical with state laws shall become null and void unless approved by
7 the department heretofore or within one year after March 21, 1963;

8 (12) The department shall erect, control, and maintain at state
9 expense all route markers and directional signs, except street signs,
10 on such streets;

11 (13) The department shall install, operate, maintain, and control
12 at state expense all traffic control signals, signs, and traffic
13 control devices for the purpose of regulating both pedestrian and motor
14 vehicular traffic on, entering upon, or leaving state highways in
15 cities and towns having a population of fifteen thousand or less
16 according to the latest determination of population by the office of
17 financial management. Such cities and towns may submit to the
18 department a plan for traffic control signals, signs, and traffic
19 control devices desired by them, indicating the location, nature of
20 installation, or type thereof, or a proposed amendment to such an
21 existing plan or installation, and the department shall consult with
22 the cities or towns concerning the plan before installing such signals,
23 signs, or devices. Cities and towns having a population in excess of
24 fifteen thousand according to the latest determination of population by
25 the office of financial management shall install, maintain, operate,
26 and control such signals, signs, and devices at their own expense,
27 subject to approval of the department for the installation and type
28 only. When the population of a city or town reaches fifteen thousand
29 after January 1, 1990, the state shall retain the responsibility for
30 installing, operating, maintaining, and controlling such signals,

1 signs, and devices until the legislature acts upon the findings of the
2 task force created in section 53 of this act or until June 30, 1993,
3 whichever occurs first. For the purpose of this subsection, striping,
4 lane marking, and channelization are considered traffic control
5 devices;

6 (14) All revenue from parking meters placed on such streets belongs
7 to the city or town;

8 (15) Rights of way for such streets shall be acquired by either the
9 city or town or by the state as shall be mutually agreed upon. Costs of
10 acquiring rights of way may be at the sole expense of the state or at
11 the expense of the city or town or at the expense of the state and the
12 city or town as may be mutually agreed upon. Title to all such rights
13 of way so acquired shall vest in the city or town: PROVIDED, That no
14 vacation, sale, rental, or any other nontransportation use of any
15 unused portion of any such street may be made by the city or town
16 without the prior written approval of the department; and all revenue
17 derived from sale, vacation, rental, or any nontransportation use of
18 such rights of way shall be shared by the city or town and the state in
19 the same proportion as the purchase costs were shared;

20 (16) If any city or town fails to perform any of its obligations as
21 set forth in this section or in any cooperative agreement entered into
22 with the department for the maintenance of a city or town street
23 forming part of the route of a state highway, the department may notify
24 the mayor of the city or town to perform the necessary maintenance
25 within thirty days. If the city or town within the thirty days fails
26 to perform the maintenance or fails to authorize the department to
27 perform the maintenance as provided by RCW 47.24.050, the department
28 may perform the maintenance, the cost of which is to be deducted from
29 any sums in the motor vehicle fund credited or to be credited to the
30 city or town.
