14 distribution of funds appropriated under this section:

15 (a) Not more than fifty percent for water pollution control
16 facilities that discharge directly into marine waters;

17 (b) Not more than twenty percent for water pollution control
18 activities that prevent or mitigate pollution of underground waters and
19 facilities that protect federally designated sole source aquifers with
20 at least two-thirds for the Spokane-Rathdrum Prairie aquifer;

27 categories specified in (a) through (d) of this subsection for water
28 pollution control activities or facilities as determined by the
29 department.

30 (3) In determining compliance schedules for the greatest reasonable
31 reduction of combined sewer overflows, the department shall consider

36 The higher education coordinating board shall evaluate a variety of
37 organizational models for meeting the higher education and work force
38 training needs of the people in the North King/South Snohomish county
39 area. The goal of the new higher education structure is to design the

41 and the region's population. By November 30, 1993, the board shall
42 determine the preferred organizational model, and report its decision
43 to the governor, appropriate legislative committees, and affected
44 institutions of higher education.

1 (1) In developing the model, the board shall consider, but need not
2 be limited to, the following:

3 (a) Recommend short and long-range higher education needs,
4 including upper and lower division, graduate programs, work force
5 training, and basic skills;

6 (b) Stress teaching as the primary mission;

7 (c) Ensure the student a smooth and convenient transfer, as
8 appropriate, between lower and upper division programs and courses;

9 (d) Utilize the capacity of nearby existing public institutions;

10 (e) Consider transportation and growth management principles; and

11 (f) Facilitate access and consolidate capital investment through a
12 single campus, at least in the short range. Consider potential future
13 need for an additional site.

14 (2) In developing the model, the board shall consider but need not
15 be limited to the following alternative organizational arrangements:

16 (a) The present university branch and the proposed new community
17 college;

18 (b) A new four-year institution;

20 (d) A new community college;

21 (e) Additional program and enrollments at nearby institutions; and

22 (f) Alternative delivery methods, e.g., telecommunications.

5 construction, and other related activities to any appropriate agency.

6 NEW SECTION. **Sec. 1009.** As part of the annual update to the state
7 facilities and capital plan, agencies shall provide information on
8 lease-development and lease-purchase projects to the office of
9 financial management.

10 NEW SECTION. **Sec. 1010.** If any federal moneys appropriated by
11 this act for capital projects are not received by the state, the
12 department or agency to which the moneys were appropriated may replace
13 the federal moneys with moneys available from private or local sources.
14 No replacement may occur under this section without the prior approval
15 of the director of financial management in consultation with the senate
16 committee on ways and means and the house of representatives committee
17 on capital budget.

18 NEW SECTION. **Sec. 1011.** Unless otherwise stated, for all
19 appropriations under this act that require a match of nonstate money or
20 in-kind contributions, the following requirement, consistent with RCW
21 43.88.150, shall apply: Expenditures of state money shall be timed so
22 that the state share of project expenditures never exceeds the intended
23 state share of total project costs.

24 NEW SECTION. **Sec. 1012.** Notwithstanding any other provisions of
25 law, for the 1993-95 biennium, transfers of reimbursement by the state
26 treasurer to the general fund from the community college capital
27 projects account for debt service payments made under Title 28B RCW
28 shall occur only after such debt service payment has been made and only
29 to the extent that funds are actually available to the account. Any
30 unpaid reimbursements shall be a continuing obligation against the
31 community college capital projects account until paid. The state board
32 for community and technical colleges need not accumulate any specific
33 balance in the community college capital projects account in
34 anticipation of transfers to reimburse the general fund.

1 NEW SECTION. **Sec. 1013.** Any capital improvements or capital
2 project involving construction or major expansion of a state office
3 facility, including district headquarters, detachment offices, and off-
4 campus faculty offices, shall be reviewed by the office of financial
5 management and the department of general administration for possible
6 consolidation, collocation, and compliance with state office standards
7 before allotment of funds. The intent of the requirement imposed by
8 this section is to eliminate duplication and reduce total office space
9 requirements where feasible, while ensuring proper service to the
10 public.

11 NEW SECTION. **Sec. 1014.** The governor, through the director of
12 financial management, may authorize a transfer of appropriation
13 authority provided for a capital project that is in excess of the
14 amount required for the completion of such project to another capital
15 project for which the appropriation is insufficient. No such transfer
16 may be used to expand the capacity of any facility beyond that intended
17 by the legislature in making the appropriation. Such transfers may be
18 effected only between capital appropriations to a specific department,
19 commission, agency, or institution of higher education and only between
20 capital projects that are funded from the same fund or account.

21 For purposes of this section, the governor may find that an amount
22 is in excess of the amount required for the completion of a project
23 only if (1) the project as defined in the notes to the budget document
24 is substantially complete and there are funds remaining or (2) bids
25 have been let on a project and it appears to a substantial certainty
26 that the project as defined in the notes to the budget document can be
27 completed within the biennium for less than the amount appropriated in
28 this act.

29 For the purposes of this section, the legislature intends that each
30 project be defined as proposed to the legislature in the governor's
31 budget document, unless it clearly appears from the legislative history
32 that the legislature intended to define the scope of a project in a
33 different way.

34 A report of any transfer effected under this section except
35 emergency projects or any transfer under \$250,000 shall be filed with
36 the legislative fiscal committees of the senate and house of
37 representatives by the director of financial management at least thirty

1 days before the date the transfer is effected, and shall report all
2 transfers within thirty days from the date of transfer.

3 NEW SECTION. **Sec. 1015.** To ensure that major construction
4 projects are carried out in accordance with legislative and executive
5 intent, appropriations in this act referencing this section shall not
6 be expended until the office of financial management has reviewed the
7 agency's predesign and other documents and approved the project. The
8 predesign document shall include but not be limited to program, site,
9 and cost analysis in accordance with the predesign manual adopted by
10 the office of financial management.

11 The office of financial management shall provide to the house of
12 representatives capital budget committee and the senate ways and means
13 committee a list of the program documents the office has reviewed and
14 approved, changes made to the documents resulting from the review, and
15 the estimated cost changes resulting from the review.

16 Allotments for appropriations shall be provided in accordance with
17 the capital project review requirements adopted by the office of
18 financial management.

19 NEW SECTION. **Sec. 1016.** (1) Agencies shall expedite the
20 expenditure of reappropriations and appropriations in order to: (a)
21 Rehabilitate infrastructure in a timely manner and prevent further
22 deterioration of public facilities and resources; (b) accelerate
23 environmental rehabilitation and restoration projects for the
24 improvement of the state's natural environment; (c) reduce additional
25 costs associated with acquisition and construction inflationary
26 pressures; and (d) provide additional employment opportunities
27 associated with capital expenditures.

28 (2) In order to meet the goals of this section, the following
29 conditions apply to appropriations which reference this section:

30 (a) To the extent feasible, agencies are directed to manage
31 accelerated expenditure rates at the current level of permanent
32 employees and shall use contracted design and construction services
33 wherever necessary to meet the goals of this section.

34 (b) Reappropriations which reference this subsection (2)(b) shall
35 lapse on June 30, 1994. In developing the 1995-97 capital budget, the
36 office of financial management shall consider all project requests

1 which have been an element of an appropriation which references this
2 section as a request for a new appropriation.

3 (3) The office of financial management shall report the following
4 to the appropriate fiscal committees of the legislature by January 30,
5 1995:

6 (a) A listing of reappropriations in the governor's 1995-97 capital
7 budget recommendation that have been reappropriated one or more times
8 and have ten percent or more of the original appropriation unexpended;
9 and

10 (b) An explanation of why the appropriation remains unexpended.

11 NEW SECTION. **Sec. 1017.** The higher education coordinating board
12 shall develop and maintain an inventory system to account for all space
13 in the state's higher education system. The institutions of higher
14 education shall provide to the higher education coordinating board a
15 complete inventory of space in the form determined by the higher
16 education coordinating board.

17 NEW SECTION. **Sec. 1018.** DEPARTMENT OF FISH AND WILDLIFE. On July
18 1, 1994, all appropriations and all conditions and limitations in this
19 act for the department of fisheries and the department of wildlife
20 shall be provided for the department of fish and wildlife. If
21 Substitute Senate Bill No. 5940 or substantially similar legislation
22 creating a department of fish and wildlife is not enacted by July 1,
23 1994, this section shall have no effect.

24 NEW SECTION. **Sec. 1019.** \$1,200,000 of the state and local
25 improvement revolving account--waste disposal facilities and \$6,300,000
26 of the state and local improvement revolving account--waste disposal
27 facilities 1980 are transferred to the water quality account, and shall
28 be used for extended grant payments for public waste disposal
29 facilities that discharge directly into marine waters. The funds shall
30 be subject to the conditions and limitations set forth in section 408
31 of this act.

32 NEW SECTION. **Sec. 1020.** The department of information services
33 shall act as lead agency in coordinating video telecommunications
34 services for state agencies. As lead agency, the department shall
35 develop standards and common specifications for leased and purchased

1 telecommunications equipment and assist state agencies in developing a
2 video telecommunications expenditure plan. No agency may spend any
3 portion of any appropriation in this act for new video
4 telecommunications equipment, new video telecommunications
5 transmission, or new video telecommunications systems without first
6 complying with chapter 43.105 RCW, including but not limited to RCW
7 43.105.041(2), and without first submitting a video telecommunications
8 equipment expenditure plan, in accordance with the policies of the
9 department of information services, for review and assessment by the
10 department of information services under RCW 43.105.052. Before any
11 such expenditure by a public school, a video telecommunications
12 expenditure plan shall be approved by the superintendent of public
13 instruction. The office of the superintendent of public instruction
14 shall submit the plans to the department of information services in a
15 form prescribed by the department. The office of the superintendent of
16 public instruction shall coordinate the use of the video
17 telecommunications in public schools by providing educational
18 information to local school districts and shall assist local school
19 districts and educational service districts in telecommunications
20 planning and curriculum development. Before any such expenditure by a
21 public institution of postsecondary education, a telecommunications
22 expenditure plan shall be approved by the higher education coordinating
23 board. The higher education coordinating board shall coordinate the
24 use of video telecommunications for instruction and instructional
25 support in postsecondary education, including the review and approval
26 of instructional telecommunications course offerings.

27 NEW SECTION. **Sec. 1021.** As of the effective date of this act,
28 each state agency is prohibited from using any state funds, regardless
29 of the source, for the construction, remodel, repair, maintenance, or
30 equipping of any recreational facilities such as gymnasiums, weight
31 rooms, exercise rooms, swimming pools, spas, saunas, basketball courts,
32 running tracks, or any similar type facilities, unless a specific
33 detailed request is made in a funding request to the legislature and is
34 specifically and expressly granted in a legislative appropriation that
35 clearly describes and limits the authorized use.

36 NEW SECTION. **Sec. 1022.** If any provision of this act or its
37 application to any person or circumstance is held invalid, the

1 remainder of the act or the application of the provision to other
2 persons or circumstances is not affected.

3 NEW SECTION. **Sec. 1023.** This act is necessary for the immediate
4 preservation of the public peace, health, or safety, or support of the
5 state government and its existing public institutions, and shall take
6 effect immediately."
