5 On page 3, line 5 of the amendment, after "act." insert "These  
6 standards shall be utilized to the extent possible in development of  
7 coordinated resource management plans to provide a level of management  
8 that sustains and perpetuates renewable resources, including fish and  
9 wildlife, riparian areas, soil, water, timber, and forage for livestock  
10 and wildlife. Furthermore, the standards are recommended for  
11 application to model watersheds designated by the Northwest power  
12 planning council in conjunction with the conservation commission. The  
13 maintenance and restoration of sufficient habitat to preserve, protect,  
14 and perpetuate wildlife and fish shall be a major component included in  
15 the standards and coordinated resource management plans. Application  
16 of standards to privately owned lands is voluntary and may be dependent  
17 on funds to provide technical assistance through conservation  
18 districts."
